FOR CUSTOMER ASSISTANCE

To aid in reporting this microwave oven in case of loss or theft, please record below the model number and serial number located on the unit. We also suggest you record all the information listed and retain for future reference.

Please provide the following information when you write or call: model number, serial number, date of purchase, your complete mailing address (including zip code), your daytime telephone number (including area code) and description of the problem.

PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY

(a) Do not attempt to operate this oven with the door open since open-door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.

(b) Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.

(c) Do not operate the oven if it is damaged. It is particularly important that the oven door close properly and that there is no damage to the: (1) door (bent), (2) hinges and latches (broken or loosened), (3) door seals and sealing surfaces.

(d) The oven should not be adjusted or repaired by anyone except properly qualified service personnel.
CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand product (the “Product”), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product nor to the additional excluded item(s) set forth below nor to any Product the exterior of which has been damaged or defaced, which has been subjected to improper voltage or other misuse, abnormal service or handling, or which has been altered or modified in design or construction.

In order to enforce the rights under this limited warranty, the purchaser should follow the steps set forth below and provide proof of purchase to the servicer.

The limited warranty described herein is in addition to whatever implied warranties may be granted to purchasers by law. ALL IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR USE ARE LIMITED TO THE PERIOD(S) FROM THE DATE OF PURCHASE SET FORTH BELOW. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

Neither the sales personnel of the seller nor any other person is authorized to make any warranties other than those described herein, or to extend the duration of any warranties beyond the time period described herein on behalf of Sharp.

The warranties described herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. In no event shall Sharp be liable, or in any way responsible, for any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than an authorized servicer. Nor shall Sharp be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

Your Product Model Number & Description: R-220K, R-230K, R-209K Home Use Carousel Microwave Oven. (Be sure to have this information available when you need service for your Product.)

Warranty Period for this Product: One (1) year parts and labor. The warranty period continues for an additional four (4) years, for a total of five (5) years, with respect to the magnetron tube in the Product for parts only; labor and service are not provided free of charge for this additional period.

Additional Item(s) Excluded from Warranty Coverage (if any): Non-functional accessories, turntable and light bulb.

Where to Obtain Service: From a Sharp Authorized Servicer located In the United States. To find the location of the nearest Sharp Authorized Servicer, call Sharp toll free at 1-800-BE-SHARP (1-800-237-4277).

What to do to Obtain Service: Ship prepaid or carry in your Product to a Sharp Authorized Servicer. Be sure to have Proof of Purchase available. If you ship the Product, be sure it is insured and packaged securely.

TO OBTAIN SUPPLY, ACCESSORY OR PRODUCT INFORMATION, CALL 1-800-BE-SHARP OR VISIT www.sharpusa.com.

Save the proof of purchase as it is needed should your oven ever require warranty service.
**IMPORTANT SAFETY INSTRUCTIONS**

When using electrical appliances basic safety precautions should be followed, including the following:

**WARNING** - To reduce the risk of burns, electric shock, fire, injury to persons or exposure to excessive microwave energy:

1. Read all instructions before using the appliance.

2. Read and follow the specific “PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY” on inside front cover.

3. This appliance must be grounded. Connect only to properly grounded outlet. See “GROUNDING INSTRUCTIONS” on page 4.

4. Install or locate this appliance only in accordance with the provided installation instructions.

5. Some products such as whole eggs and sealed containers — for example, closed glass jars — are able to explode and should not be heated in this oven.

6. Use this appliance only for its intended use as described in this manual. Do not use corrosive chemicals or vapors in this appliance. This type of oven is specifically designed to heat, cook or dry food. It is not designed for industrial or laboratory use.

7. As with any appliance, close supervision is necessary when used by children.

8. Do not operate this appliance if it has a damaged cord or plug, if it is not working properly or if it has been damaged or dropped.

9. This appliance should be serviced only by qualified service personnel. Contact nearest Sharp Authorized Servicer for examination, repair or adjustment.

10. Do not cover or block any openings on the appliance.

11. Do not store or use this appliance outdoors. Do not use this product near water — for example, near a kitchen sink, in a wet basement, near a swimming pool or similar locations.

12. Do not immerse cord or plug in water.

13. Keep cord away from heated surfaces.

14. Do not let cord hang over edge of table or counter.

15. See door surface cleaning instructions on page 17.

16. To reduce the risk of fire in the oven cavity:
   a. Do not overcook food. Carefully attend appliance when paper, plastic or other combustible materials are placed inside the oven to facilitate cooking.
   b. Remove wire twist-ties from paper or plastic bags before placing bag in oven.
   c. If materials inside the oven ignite, keep oven door closed, turn oven off and disconnect the power cord or shut off power at the fuse or circuit breaker panel.
   d. Do not use the cavity for storage purposes. Do not leave paper products, cooking utensils or food in the cavity when not in use.

17. Liquids, such as water, coffee or tea are able to be overheated beyond the boiling point without appearing to be boiling. Visible bubbling or boiling when the container is removed from the microwave oven is not always present. THIS COULD RESULT IN VERY HOT LIQUIDS SUDDENLY BOILING OVER WHEN A SPOON OR OTHER UTENSIL IS INSERTED INTO THE LIQUID. To reduce the risk of injury to persons:
   a. Do not overheat the liquid.
   b. Stir the liquid both before and halfway through heating it.
   c. Do not use straight-sided containers with narrow necks. Use a wide-mouthed container.
   d. After heating, allow the container to stand in the microwave oven at least for 20 seconds before removing the container.
   e. Use extreme care when inserting a spoon or other utensil into the container.

18. If the oven light fails, consult a SHARP AUTHORIZED SERVICER.
INSTRUCCIONES DE SEGURIDAD IMPORTANTES

Cuando utilice aparatos eléctricos, deben respetarse las precauciones de seguridad básicas incluyendo las siguientes

ADVERTENCIA - Para reducir el riesgo de quemaduras, descargas eléctrica, incendio, heridas a las personas o exposición a una energía de microondas excesiva:

1. Lea todas las instrucciones antes de utilizar el aparato.
2. Lea y siga las "PRECAUCIONES PARA EVITAR EXPOSICIÓN POSIBLE PARA EXCESIVA ENERGÍA DE MICROONDAS" específicas en el interior de la cubierta frontal.
4. Instale o ubique este aparato sólo de acuerdo con las instrucciones de instalación ofrecidas.
5. Algunos productos tales como huevos enteros y recipientes sellados - por ejemplo, botellas de vidrio cerradas - pueden explotar y no deben calentarse en el horno.
6. Utilice este aparato sólo para el uso para el que fue diseñado como se describió en este manual. No utilice químicos corrosivos o vapores en este aparato. Este tipo de horno se diseñó específicamente para calentarse, cocinar o secar comida. No fue diseñado para usos industriales o de laboratorio.
7. Como con cualquier aparato es necesario vigilar atentamente cuando lo utilicen los niños.
8. No haga funcionar este aparato si tiene un cable o enchufe dañado, si no funciona correctamente o si está dañado o se ha caído.
9. Debe hacer el servicio de este aparato sólo por el personal de servicio calificado. Llame al Centro de Servicio Autorizado por Sharp más cercano para su examen, reparación o ajuste.
10. No cubra o tape las aberturas en el aparato.
11. No guarde o utilice este aparato en exteriores. No utilice este producto cerca del agua - por ejemplo cerca de la pila de la cocina, en un sótano húmedo, cerca de una piscina de natación o lugares similares.
12. No sumerja el cable o enchufe en agua.
13. Mantenga el cable lejos de superficies calientes.
14. No permita que el cable cuelgue sobre el borde de la mesa o mostrador.
15. Vea las instrucciones de limpieza de la superficie de la puerta en la página 17.
16. Para reducir el riesgo de incendio en el interior del horno:
   a. No cocine la comida en exceso. Vigile cuidadosamente el aparato cuando se coloca papel, plástico u otros materiales combustibles dentro del horno para facilitar el cocinado.
   b. Abra los alambres de cierre de las bolsas de papel o de plástico antes de colocar la bolsa en el horno.
   c. Si los materiales dentro del horno se incendian, mantenga la puerta del horno cerrada, desconecte el horno y desenchufe el cable eléctrico o corte el fusible o el panel de disyuntores de circuito.
   d. No utilice el interior del horno como estante para guardar objetos. No deje productos de papel, utensilios de cocina o comida en el interior cuando no lo utilice.
17. Los líquidos tales como agua, café o té pueden calentarse excesivamente más allá del punto de ebullición sin que parezcan estar en ebullición. Las burbujas visibles o ebullición cuando se saca el recipiente del horno de microondas no están siempre presentes. ESTO PUEDE TERMINAR EN LÍQUIDOS QUE ENTRÉN EN EMBOLICIÓN REPENTINAMENTE CUANDO SE COLOCA UNA CUCHARA U OTRO UTENSILIO EN EL LÍQUIDO. Para reducir el peligro de heridas en las personas:
   a. No caliente excesivamente el líquido.
   b. Agite el líquido tanto antes como en el medio durante su calentamiento.
   c. No utilice recipientes de lados rectos con cuellos estrechos. Utilice un recipiente con boca ancha.
   d. Después del calentamiento, permita que el recipiente permanezca en el horno de microondas durante por lo menos 20 segundos antes de retirar el recipiente.
   e. Debe tener mucho cuidado cuando coloque una cuchara u otro utensilio en el recipiente.
18. Si no se enciende la luz del horno, consulte con un CENTRO DE SERVICIO AUTORIZADO POR SHARP.

GUARDE ESTAS INSTRUCCIONES
UNPACKING AND INSTALLATION INSTRUCTIONS

Unpacking and Examining Your Oven

Remove:
1. all packing materials from inside the oven cavity; however, DO NOT REMOVE THE WAVEGUIDE COVER, which is located on the right cavity wall. Read enclosures and SAVE the Operation Manual.
2. the feature sticker, if there is one, from the outside of the door.
Check the oven for any damage, such as misaligned or bent door, damaged door seals and sealing surfaces, broken or loose door hinges and latches and dents inside the cavity or on the door. If there is any damage, do not operate the oven and contact your dealer or SHARP AUTHORIZED SERVICER.

Choosing a Location for Your Oven

You will use the oven frequently so plan its location for ease of use. It’s wise, if possible, to have counter space on at least one side of the oven. Allow at least 2 inches (50mm) on the sides, top and at the rear of the oven for air circulation. Do not place or install the oven in any area where heat and steam are generated; for example, next to or above a conventional gas or electric range or above a conventional wall oven. Heat and steam may damage the electronics or the mechanical parts of the oven.

GROUNDING INSTRUCTIONS

This appliance must be grounded. This oven is equipped with a cord having a grounding wire with a grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded in accordance with the National Electrical Code and local codes and ordinances. In the event of an electrical short circuit, grounding reduces risk of electric shock by providing an escape wire for the electric current.

WARNING - Improper use of the grounding plug can result in a risk of electric shock.

Electrical Requirements

The electrical requirements are a 120 volt 60 Hz, AC only, 15 amp. or more protected electrical supply. It is recommended that a separate circuit serving only this appliance be provided. The oven is equipped with a 3-prong grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded. Should you only have a 2-prong outlet, have a qualified electrician install a correct wall receptacle.

A 3-prong adapter may be purchased and used temporarily if local codes allow. Follow package directions.

A short power-supply cord is provided to reduce risk of becoming entangled in or tripping over a longer cord.

Extension Cord

If it is necessary to use an extension cord, use only a 3-wire extension cord that has a 3-blade grounding plug and a 3-slot receptacle that will accept the plug on the microwave oven. The marked rating of the extension cord should be AC 115-120 volt, 15 amp. or more.

Be careful not to drape the cord over the countertop or table where it can be pulled on by children or tripped over accidentally.

Notes:
1. If you have any questions about the grounding or electrical instructions, consult a qualified electrician or service person.
2. Neither Sharp nor the dealer can accept any liability for damage to the oven or personal injury resulting from failure to observe the correct electrical connection procedures.

Radio or TV Interference

Should there be any interference caused by the microwave oven to your radio or TV, check that the microwave oven is on a different electrical circuit, relocate the radio or TV as far away from the oven as feasible or check position and signal of receiving antenna.
INFORMATION YOU NEED TO KNOW

ABOUT YOUR OVEN

This Operation Manual is valuable: read it carefully and always save it for reference.

A good microwave cookbook is a valuable asset. Check it for microwave cooking principles, techniques, hints and recipes. See pages 19 and 20 for ordering the Sharp Carousel Microwave Cookbook.

NEVER use the oven without the turntable and support nor turn the turntable over so that a large dish could be placed in the oven. The turntable will turn both clockwise and counterclockwise.

ALWAYS have food in the oven when it is on to absorb the microwave energy.

When using the oven at power levels below 100%, you may hear the magnetron cycling on and off. It is normal for the exterior of the oven to be warm to the touch when cooking or reheating.

Condensation is a normal part of microwave cooking. Room humidity and the moisture in food will influence the amount of moisture that condenses in the oven. Generally, covered foods will not cause as much condensation as uncovered ones. Vents on the oven back must not be blocked.

The oven is for food preparation only. It should not be used to dry clothes or newspapers.

Your oven is rated 800 watts by using the IEC Test Procedure.

ABOUT FOOD

<table>
<thead>
<tr>
<th>FOOD</th>
<th>DO</th>
<th>DON'T</th>
</tr>
</thead>
</table>
| Eggs, sausages, nuts, seeds, fruits & vegetables | • Puncture egg yolks before cooking to prevent "explosion".  
• Pierce skins of potatoes, apples, squash, hot dogs and sausages so that steam escapes. | • Cook eggs in shells.  
• Reheat whole eggs.  
• Dry nuts or seeds in shells. |
| Popcorn                   | • Use specially bagged popcorn for the microwave oven.  
• Listen while popping corn for the popping to slow to 1 or 2 seconds or use special POPCORN pad.  
• Place carefully so bag does not touch oven walls. The corners of the bag may be folded down. | • Pop popcorn in regular brown bags or glass bowls.  
• Exceed maximum time on popcorn package. |
| Baby food                 | • Transfer baby food to small dish and heat carefully, stirring often. Check temperature before serving.  
• Put nipples on bottles after heating and shake thoroughly. "Wrist" test before feeding. | • Heat baby food in original jars.  
• Heat disposable bottles.  
• Heat bottles with nipples on. |
| General                   | • Cut baked goods with filling after heating to release steam and avoid burns.  
• Stir liquids briskly before heating and allow to stand at least for 20 seconds after heating before stirring or drinking to avoid eruption.  
• Use deep bowl, when cooking liquids or cereals, to prevent boilovers. | • Heat or cook in closed glass jars or airtight containers.  
• Can in the microwave as harmful bacteria may not be destroyed.  
• Deep fat fry.  
• Dry wood, gourds, herbs or wet papers. |
ABOUT UTENSILS AND COVERINGS

It is not necessary to buy all new cookware. Many pieces already in your kitchen can be used successfully in your new microwave oven. Make sure the utensil does not touch the interior walls during cooking.

Use these utensils for safe microwave cooking and reheating:
- glass ceramic (Pyroceram®), such as Corningware®
- heat-resistant glass (Pyrex®)
- microwave-safe plastics
- paper plates
- microwave-safe pottery, stoneware and porcelain
- browning dish (Do not exceed recommended preheating time. Follow manufacturer’s directions.)

These items can be used for short time reheating of foods that have little fat or sugar in them:
- wood, straw, wicker

DO NOT USE
- metal pans and bakeware
- dishes with metallic trim
- non-heat-resistant glass
- non-microwave-safe plastics (margarine tubs)
- recycled paper products
- brown paper bags
- food storage bags
- metal twist-ties

Should you wish to check if a dish is safe for microwaving, place the empty dish in the oven and microwave on HIGH for 30 seconds. A dish which becomes very hot should not be used.

HOW TO USE ALUMINUM FOIL IN YOUR MICROWAVE OVEN:
- Small flat pieces of aluminum foil placed smoothly on the food can be used to shield areas that are either defrosting or cooking too quickly.
- Foil should not come closer than one inch to any surface of the oven.

Should you have questions about utensils or coverings, check a good microwave cookbook or follow recipe suggestions.

ACCESSORIES There are many microwave accessories available for purchase. Evaluate carefully before you purchase so that they meet your needs. A microwave-safe thermometer will assist you in determining correct doneness and assure you that foods have been cooked to safe temperatures. Sharp is not responsible for any damage to the oven when accessories are used.

The following coverings are ideal:
- Paper towels are good for covering foods for reheating and absorbing fat while cooking bacon.
- Wax paper can be used for cooking and reheating.
- Plastic wrap that is specially marked for microwave use can be used for cooking and reheating. DO NOT allow plastic wrap to touch food. Vent so steam can escape.
- Lids that are microwave-safe are a good choice because heat is kept near the food to hasten cooking.
- Oven cooking bags are good for large meats or foods that need tenderizing. DO NOT use metal twist ties. Remember to slit bag so steam can escape.

How to use aluminum foil in your microwave oven:
- Small flat pieces of aluminum foil placed smoothly on the food can be used to shield areas that are either defrosting or cooking too quickly.
- Foil should not come closer than one inch to any surface of the oven.

Should you have questions about utensils or coverings, check a good microwave cookbook or follow recipe suggestions.

ACCESSORIES There are many microwave accessories available for purchase. Evaluate carefully before you purchase so that they meet your needs. A microwave-safe thermometer will assist you in determining correct doneness and assure you that foods have been cooked to safe temperatures. Sharp is not responsible for any damage to the oven when accessories are used.

ABOUT CHILDREN AND THE MICROWAVE

Children below the age of 7 should use the microwave oven with a supervising person very near to them. Between the ages of 7 and 12, the supervising person should be in the same room.

The child must be able to reach the oven comfortably; if not, he/she should stand on a sturdy stool.

At no time should anyone be allowed to lean or swing on the oven door.

Children should be taught all safety precautions: use potholders, remove coverings carefully, pay special attention to packages that crisp food because they may be extra hot.

Don’t assume that because a child has mastered one cooking skill he/she can cook everything.

Children need to learn that the microwave oven is not a toy. See page 16 for Child Lock feature.
ABOUT MICROWAVE COOKING

- Arrange food carefully. Place thickest areas towards outside of dish.
- Watch cooking time. Cook for the shortest amount of time indicated and add more as needed. Food severely overcooked can smoke or ignite.
- Cover foods while cooking. Check recipe or cookbook for suggestions: paper towels, wax paper, microwave plastic wrap or a lid. Covers prevent spattering and help foods to cook evenly.
- Shield with small flat pieces of aluminum foil any thin areas of meat or poultry to prevent overcooking before dense, thick areas are cooked thoroughly.
- Stir foods from outside to center of dish once or twice during cooking, if possible.
- Turn foods over once during microwaving to speed cooking of such foods as chicken and hamburgers. Large items like roasts must be turned over at least once.
- Rearrange foods such as meatballs halfway through cooking both from top to bottom and from the center of the dish to the outside.
- Add standing time. Remove food from oven and stir, if possible. Cover for standing time which allows the food to finish cooking without overcooking.
- Check for doneness. Look for signs indicating that cooking temperatures have been reached.
  
  Doneness signs include:
  - Food steams throughout, not just at edge.
  - Center bottom of dish is very hot to the touch.
  - Poultry thigh joints move easily.
  - Meat and poultry show no pinkness.
  - Fish is opaque and flakes easily with a fork.

ABOUT SAFETY

- Check foods to see that they are cooked to the United States Department of Agriculture’s recommended temperatures.

<table>
<thead>
<tr>
<th>TEMP</th>
<th>FOOD</th>
</tr>
</thead>
<tbody>
<tr>
<td>160°F (71°C)</td>
<td>for fresh pork, ground meat, boneless white poultry, fish, seafood, egg dishes and frozen prepared food.</td>

<td>dark meat of poultry.</td>
</tr>
</tbody>
</table>

To test for doneness, insert a meat thermometer in a thick or dense area away from fat or bone. NEVER leave the thermometer in the food during cooking, unless it is approved for microwave oven use.

- ALWAYS use potholders to prevent burns when handling utensils that are in contact with hot food. Enough heat from the food can transfer through utensils to cause skin burns.
- Avoid steam burns by directing steam away from the face and hands. Slowly lift the farthest edge of a dish’s covering and carefully open popcorn and oven cooking bags away from the face.
- Stay near the oven while it’s in use and check cooking progress frequently so that there is no chance of overcooking food.
- NEVER use the cavity for storing cookbooks or other items.
- Select, store and handle food carefully to preserve its high quality and minimize the spread of foodborne bacteria.
- Keep waveguide cover clean. Food residue can cause arcing and/or fires.
- Use care when removing items from the oven so that the utensil, your clothes or accessories do not touch the safety door latches.
PART NAMES

MICROWAVE OVEN PARTS

1 Door opening button
Push to open door.

2 Oven door with see-through window

3 Safety door latches
The oven will not operate unless the door is securely closed.

4 Door hinges

5 Door seals and sealing surfaces

6 Turntable motor shaft

7 Removable turntable support
Carefully place the turntable support in the center of the oven floor.

8 Removable turntable
Place the turntable on the turntable support securely. The turntable will rotate clockwise or counterclockwise. Only remove for cleaning.

9 Ventilation openings (Rear)

10 Oven light
It will light when oven is operating.

11 Waveguide cover: DO NOT REMOVE.

12 Auto-Touch control panel

13 Time display: 99 minutes, 99 seconds

DISPLAY

Time display
Indicators
Number next to the control panel illustration indicates page on which there are a feature description and usage information.
BEFORE OPERATING

• Before operating your new microwave oven make sure you read and understand this operation manual completely.
• Before the oven can be used, follow these procedures:
  1. Plug in the oven. Close the door. The oven display will then begin flashing 00:00.
  2. Touch STOP/CLEAR pad. will appear.
  3. Touch CLOCK pad to set clock.

TO SET THE CLOCK

• Suppose you want to enter the correct time of day 12:30 (A.M. or P.M.).

PROCEDURE DISPLAY

1

Touch CLOCK pad. The colon (:) will flash.

2

Enter the correct time of day by touching the numbers in sequence.

3

Touch CLOCK pad again.

This is a 12 hour clock. If you attempt to enter an incorrect clock time, will appear in the display. Touch STOP/CLEAR pad and re-enter the time.

• If the electrical power supply to your microwave oven should be interrupted, the display will intermittently show 08:00 after the power is reinstated. If this occurs during cooking, the program will be erased. The time of day will also be erased. Simply touch STOP/CLEAR pad and reset the clock for the correct time of day.

STOP/CLEAR

Touch STOP/CLEAR pad to:
1. Erase if you make a mistake during programming.
2. Cancel timer.
3. Stop the oven temporarily during cooking.
4. Return the time of day to the display.
5. Cancel a program during cooking, touch twice.

MANUAL OPERATION

TIME COOKING

Your oven can be programmed for 99 minutes 99 seconds (99.99). Always enter the seconds after the minutes, even if they are both zeros.
• Suppose you want to cook for 5 minutes at 100%.

PROCEDURE DISPLAY

1

Enter cooking time.

2

Touch START pad.

TO SET POWER LEVEL

There are eleven preset power levels.
Using lower power levels increases the cooking time which is recommended for foods such as cheese, milk and long slow cooking of meats. Consult cookbook or recipes for specific recommendations.
To lower the power, touch POWER LEVEL pad once. Note the display will indicate “P-HI” (HiGH, 100%). To lower to “90%” touch POWER LEVEL pad again. Repeat as necessary to select 80% - 0%.
• Suppose you want to defrost for 5 minutes at 30%.

PROCEDURE DISPLAY

1

Enter defrost time.

2

Touch POWER LEVEL pad 8 times or hold down until the desired power level appears.

3

Touch START pad.

4

When the defrost time is complete, a long tone will sound and will appear in the display.
SPECIAL FEATURES

DEFROST

Defrost automatically defrosts ground meat, steaks, chops and poultry. Round the weight to the nearest half pound. (Ex. if the steaks actual weight is 2.2 lb, round to 2.0 lb. If the steaks weight is 2.4 lb, round to 2.5 lb.)

- Suppose you want to defrost a 2.0 lb steak.

PROCEDURE

1. You do not need to select food. To enter weight, touch the DEFROST pad for a .5 lb increase per touch. Quickly touch DEFROST pad 4 times for 2.0 lb because the oven starts automatically.

   The oven will stop so that the food can be checked.

2. After the 1st stage, open the door. Turn steak over and shield any warm portions. Close the door. Touch START pad.

3. After the 2nd stage, open the door. Shield any warm portions. Close the door. Touch START pad.

4. After defrost cycle ends, cover and let stand as indicated in chart below.

NOTE:

1. Defrost can only be entered within 3 minutes after cooking, opening and closing the door or touching the STOP/CLEAR pad.

2. Defrost can be programmed with More or Less Time Adjustment. See page 16.

3. You may choose to enter the weight in tenths of pounds. This procedure may be easier with larger weights such as 3.0 lb because it requires fewer touches. To program, touch DEFROST and enter weight by touching the number pads. Example: touch DEFROST then 3 and 0 for a weight of three pounds. If you attempt to enter more or less than the allowed amount, ≈ ≈ will appear in the display.

4. To defrost other foods or foods above or below the weights allowed on DEFROST CHART below, use time and 30% power. See Manual Defrost on page 12.

You do not need to select food. To enter weight, touch the DEFROST pad for a .5 lb increase per touch.

Quickly touch DEFROST pad 4 times for 2.0 lb because the oven starts automatically.

<tr>
<td>Steaks/Chops</td>
<td>.5-3.0 lb (0.3-1.3 kg)</td>
<td>After each stage of defrost cycle, rearrange and if there are warm or thawed portions, shield with small flat pieces of aluminum foil. Remove any meat that is nearly defrosted. Let stand, covered, 10 to 20 minutes.</td>
</tr>
<tr>
<td>Boneless Poultry</td>
<td>.5-3.0 lb (0.3-1.3 kg)</td>
<td>Use boneless breast of chicken or turkey. After each stage, if there are warm or thawed portions, rearrange or remove. Let stand, covered, for 10 to 20 minutes.</td>
</tr>
<tr>
<td>Bone-in Poultry</td>
<td>.5-3.0 lb (0.3-1.3 kg)</td>
<td>Arrange pieces with meatiest portions toward outside of glass dish or microwave safe rack. After each stage, if there are warm or thawed portions, rearrange or remove. Let stand, covered, for 10 to 20 minutes.</td>
</tr>
</tbody>
</table>

NOTE: Check foods when oven signals. After final stage, small sections may still be icy. Let stand to continue thawing. Do not defrost until all ice crystals are thawed.

Shielding prevents cooking from occurring before the center of the food is defrosted. Use small smooth strips of aluminum foil to cover edges and thinner sections of the food.
**SPECIAL FEATURES**

**MANUAL DEFROST**
If the food that you wish to defrost is not listed on the DEFROST CHART or is above or below the limits in the AMOUNT column on the DEFROST CHART, you need to defrost manually.

You can defrost any frozen food, either raw or previously cooked, by using 30% power level. See page 10. Estimate defrosting time and press POWER LEVEL pad 8 times when you select the power level.

For either raw or previously cooked frozen food the rule of thumb is approximately 5 minutes per pound. For example, defrost 5 minutes for 2-3 cups of casserole or 1 pound of frozen spaghetti sauce.

Always stop the oven periodically to remove or separate the portions that are defrosted. If food is not defrosted at the end of the estimated defrosting time, program the oven in 1 minute increments at 30% until totally defrosted.

When using plastic containers from the freezer, defrost only long enough to remove from the plastic in order to place in a microwave-safe dish.

**POPCORN**
The popcorn setting automatically provides the correct cooking time for most brands of microwave popcorn. See the chart below.

- Suppose you want to pop a regular size (3.5 oz) bag.

**PROCEDURE**

1. Touch POPCORN pad once. The oven starts automatically.

**NOTE:**
1. Popcorn pad can only be entered within 3 minutes after cooking, opening and closing the door or touching the STOP/CLEAR pad.
2. Popcorn can be programmed with More or Less Time adjustment. See page 16.

**POPCORN CHART**

<table>
<thead>
<tr>
<th>FOOD</th>
<th>AMOUNT</th>
<th>PROCEDURE</th>
</tr>
</thead>
<tbody>
<tr>
<td>POPCORN</td>
<td>1 bag</td>
<td>Try several brands to decide which is most acceptable for your taste. Place bag with only one fold slightly off center and place bag with two folds in the center of the turntable. You should fold down the corners of the bag so it turns freely. Touch POPCORN pad once for regular.</td>
</tr>
<tr>
<td></td>
<td>3.5 oz bag (100 g)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>(Regular)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2.85 - 3.5 oz bag (80 - 100 g)</td>

<td></td>
</tr>
<tr>
<td></td>
<td>1.2 - 1.75 oz bag (35 - 50 g)</td>
<td>(Mini)</td>
</tr>
</tbody>
</table>

Touch POPCORN pad twice within 2 seconds for regular light.

Touch POPCORN pad three times within 3 seconds for mini.
### SPECIAL FEATURES

#### REHEAT / COOK

Reheat and Cook automatically compute the correct warming or cooking time and microwave power level for foods shown in the charts.

- Suppose you want to reheat 2 cups of soup.

| PROCEDURE |  
|------------|-------------------------------------------------
| 1 | Touch REHEAT once. |
| 2 | Select desired food by touching number pad. (Ex: Touch 2 for soup.) |
| 3 | Repeat touching same number pad to select quantity. (Ex: Touch 2 two more times for 2 cups.) |
| 4 | Touch START pad. |

**NOTE:**

1. To reheat or cook other food or foods above or below the quantity allowed on the REHEAT CHART or COOK CHART, cook manually.
2. Reheat and Cook can be programmed with More or Less Time Adjustment. Touch POWER LEVEL once or twice before touching START. See page 16.

#### COOK CHART

<table>
<thead>
<tr>
<th>FOOD</th>
<th>AMOUNT</th>
<th>PROCEDURE</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Baked Potatoes</td>
<td>1 - 2 med.</td>
<td>Pierce with fork in several places. Place on paper towel on turntable. After cooking, remove from oven and let stand wrapped in foil for 5 to 10 minutes.</td>
</tr>
<tr>
<td>2. Fresh Vegetables</td>
<td>1 - 2 cups</td>
<td>For beans, carrots, corn and peas, add 1 tablespoon of water per cup. For broccoli, Brussel sprouts, cabbage and cauliflower, cook immediately after washing with no additional water. If you like tender crisp vegetables, double measured quantity per setting. For example, use 2 cups cauliflower and program for 1 cup. After cooking, remove from oven, stir, cover and let stand 3 to 5 minutes before serving.</td>
</tr>
<tr>
<td>3. Frozen Vegetables</td>
<td>1 - 2 cups</td>
<td>Add no water. Cover with lid or plastic wrap. After cooking, stir and let stand, covered, for 3 minutes.</td>
</tr>
<tr>
<td>4. Frozen Entrees</td>
<td>6 - 10 oz (170 - 280 g)</td>
<td>Use for frozen, convenience foods. It will give satisfactory results for most brands. You may wish to try several and choose your favorite. Remove package from outer wrapping and follow package directions for covering. After cooking, let stand, covered, for 1 to 3 minutes. Touch COOK pad and number pad 4 twice for packages weighing 6-8 oz. [6-8] will appear in the display. Touch COOK pad and number pad 4 three times for packages weighing 9-10 oz. [9-10] will appear in the display.</td>
</tr>
<tr>
<td></td>
<td>6 - 8 oz (170 - 230 g)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>9 - 10 oz (231 - 280 g)</td>

</tbody>
</table>
### SPECIAL FEATURES

#### REHEAT CHART

<table>
<thead>
<tr>
<th>FOOD</th>
<th>AMOUNT</th>
<th>PROCEDURE</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Casserole</td>
<td>1 - 2 cups</td>
<td>Use to reheat refrigerated canned or homemade pasta with sauce or other cooked casserole. For room temperature pasta or casserole, use Less option. For pasta without sauce double the quantity per setting. For example, measure 2 cups of cooked noodles and program for 1 cup. Cover with lid or plastic wrap. After cooking, stir and let stand, covered, 2 to 3 minutes.</td>
</tr>
<tr>
<td>2. Soup</td>
<td>1 - 2 cups</td>
<td>Place in bowl or casserole. Cover with lid or plastic wrap. At end, stir, re-cover and let stand 1 to 3 minutes.</td>
</tr>
<tr>
<td>3. Pizza</td>
<td>1 - 2 slices</td>
<td>Use to reheat refrigerated leftover pizza. 1 slice is approximately 1/8th of a 12 inch (30cm) pizza or 1/12th of a 16 inch (40cm) pizza. Place on paper towel.</td>
</tr>
<tr>
<td>4. Beverage</td>
<td>.5 - 1 cup</td>
<td>This setting is good for restoring cooled beverage to a better drinking temperature. Stir after heating. Use More Time Adjustment (See page 16) for heating COLD TAP WATER to a temperature somewhat below the boiling point to make instant coffee or tea. Stir liquid briskly before heating to avoid eruption.</td>
</tr>
<tr>
<td>5. Dinner Plate</td>
<td>1 plate</td>
<td>Use to reheat precooked foods from the refrigerator. Place meaty portions and bulky vegetables to outside of plate. Cut large items like baked potatoes in smaller pieces. Flatten foods such as mashed potatoes and other dense foods. Cover with wax paper or plastic wrap. ONE PLATE ONLY. After cooking, check that food is very hot throughout and that the bottom center of the plate is very hot. If not, continue heating using time and power level. Allow to stand, covered, 1 to 2 minutes.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>1 Regular Touch REHEAT pad and number pad 5 twice for a regular amount of food: approximately 4 oz (110 g) sliced meat or poultry, 1/2 cup potato or rice and 1/2 cup of vegetables or equivalent. [ ] will appear in the display.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>1 Large Touch REHEAT pad and number pad 5 three times for a larger amount of food on a dinner plate. [ ] will appear in the display.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>1 Small Touch REHEAT pad and number pad 5 four times for a smaller amount of food on a dinner plate. [ ] will appear in the display.</td>
</tr>
<tr>
<td>6. Fresh Rolls/Muffins</td>
<td>1 - 2 pcs.</td>
<td>Use to warm rolls, muffins, biscuits, bagels etc. Large item should be considered as 2 regular size. Cover each roll/ muffin with paper towel. For refrigerated rolls or muffins, it may be necessary to double the entered amount to ensure the proper serving temperature. For example, enter quantity of 2 for 1 refrigerated muffin. For Frozen Rolls or Muffins, use More Time Adjustment. (Touch POWER LEVEL pad once before touching START pad. See page 16.)</td>
</tr>
</tbody>
</table>
1. Short Cut pads can only be entered within 3 minutes after cooking, opening and closing the door or touching the STOP/CLEAR pad.
2. To melt, soften or warm other food or foods except the quantity listed in the SHORT CUTS CHART, cook manually.
3. Short Cuts can be programmed with More or Less Time Adjustment. See page 16.

### SHORT CUTS CHART

<table>
<thead>

<td>1/2 gallon (1.9 l)</td>
<td>Touch SOFTEN pad twice within 2 seconds for 1/2 gallon.</td>
</tr>
<tr>
<td>WARM</td>
<td>1/4 cup</td>
<td>Touch WARM pad once for 1/4 cup.</td>
</tr>
<tr>
<td>Syrup</td>
<td>1/2 cup</td>
<td>Touch WARM pad twice within 2 seconds for 1/2 cup.</td>
</tr>
</tbody>
</table>

### OTHER CONVENIENT FEATURES

#### MULTIPLE SEQUENCE COOKING

The oven can be programmed for up to 3 automatic cooking sequences, switching from one power level setting to another automatically. Sometimes cooking directions tell you to start on one power level and then change to a different power level. Your oven can do this automatically.
- Suppose you want to cook roast beef for 5 minutes at 100% and then continue to cook for 30 minutes at 50%.

1. First, enter cooking time. Then, touch POWER LEVEL pad once for 100% power.

2. Then, enter second cooking time and touch POWER LEVEL pad 6 times for 50% power.

3. Touch START pad.

### NOTE:

1. If 100% is selected as the final sequence, it is not necessary to touch the POWER LEVEL pad.
2. If you wish to know power level, simply touch the POWER LEVEL pad. As long as your finger is touching the POWER LEVEL pad, the power level will be displayed.
OTHER CONVENIENT FEATURES

MINUTE PLUS

Minute Plus allows you to cook for a minute at 100% by simply touching the MINUTE PLUS pad. You can also extend cooking time in multiples of 1 minute by repeatedly touching the MINUTE PLUS pad during manual cooking.

• Suppose you want to heat a cup of soup for one minute.

PROCEDURE

1 Touch MINUTE PLUS pad.

NOTE:
1. To use Minute Plus, touch pad within 3 minutes after cooking, closing the door, touching STOP/CLEAR pad or during cooking.
2. Minute Plus cannot be used with SPECIAL FEATURES.

MORE OR LESS TIME ADJUSTMENT

More

Should you discover that you like any of the DEFROST, POPCORN, REHEAT, COOK or SHORT CUT settings slightly more done, touch the POWER LEVEL pad once after touching your choice of pads. The display will show PL US.

Less

Should you discover that you like any of the DEFROST, POPCORN, REHEAT, COOK or SHORT CUT settings slightly less done, touch the POWER LEVEL pad twice after touching your choice of pads. The display will show LE LS.

NOTE:
For DEFROST, POPCORN and SHORT CUTS, the POWER LEVEL pad must be touched within 2 seconds of touching your choice of pads.

TIMER

• Suppose you want to time a 3-minute long distance phone call.

PROCEDURE

1 Enter time. 3 0 0

2 Touch TIMER pad.

CHILD LOCK

The Child Lock prevents unwanted oven operation such as by small children.

The oven can be set so that the control panel is deactivated or locked. To set, touch CLOCK, the number 1 pad and then touch the START pad and hold for 3 seconds. Should a pad be touched, SH FE will appear in the display.

To cancel, touch CLOCK, the number 1 and STOP/CLEAR pads.

AUDIBLE SIGNAL ELIMINATION

If you wish to have the oven operate with no audible signals, touch CLOCK, the number 5 and then touch the START pad and hold for 3 seconds. Should a pad be touched, the display will show.

To cancel and restore the audible signal, touch CLOCK, the number 5 and STOP/CLEAR pads.

DEMONSTRATION MODE

To demonstrate, touch CLOCK, 0 pad and then touch START pad and hold for 3 seconds. The demonstration will appear in the display. Cooking operations and specific special features can now be demonstrated with no power in the oven. For example, touch MINUTE PLUS pad and the display will show TOP and count down quickly to 0 and the END.

To cancel, touch CLOCK, then the 0 and STOP/CLEAR pads. If easier, unplug the oven from the electrical outlet and replug.
CLEANING AND CARE

Disconnect the power cord before cleaning or leave the door open to inactivate the oven during cleaning.

Exterior
The outside surface is painted. Clean the outside with mild soap and water. Then wipe with a clean dampened cloth and polish dry with a soft cloth. Do not use any type of household or abrasive cleaner.

Door
Wipe the window on both sides with a soft damp cloth to remove any spills or spatters. Metal parts will be easier to maintain if wiped frequently with a soft damp cloth. Avoid the use of spray and other harsh cleaners as they may stain, streak or dull the door surface.

Touch Control Panel
Wipe the panel with a soft cloth dampened slightly with water only. Dry with a soft cloth. Do not scrub or use any sort of chemical cleaners. Close door and touch STOP/CLEAR pad.

Interior
Cleaning is easy because little heat is generated to the interior surfaces; therefore, there is no baking and setting of spills or spattering. To clean the interior surfaces, wipe with a soft damp cloth. DO NOT USE ABRASIVE OR HARSH CLEANERS OR SCOURING PADS. For heavier soil, use baking soda or a mild soap; wipe clean with a soft damp cloth. NEVER SPRAY OVEN CLEANERS DIRECTLY ONTO ANY PART OF THE OVEN.

Waveguide Cover
The waveguide cover, located on the right wall of the cavity, is made from mica so requires special care. Keep the waveguide cover clean to assure good oven performance. Carefully wipe with a soft damp cloth any food spatters from the surface of the cover immediately after they occur. Built-up splashes may overheat and cause smoke or possibly catch fire. Do not remove the waveguide cover.

Odor Removal
Occasionally, a cooking odor may remain in the oven. To remove, combine 1 cup water, grated peel and juice of 1 lemon and several whole cloves in a 2-cup glass measuring cup. Boil for several minutes using 100% power. Allow to set in oven until cool. Wipe interior with a soft cloth.

Turntable/Turntable Support
The turntable and turntable support can be removed for easy cleaning. Wash them in mild, sudsy water; for stubborn stains use a mild cleanser and a non-abrasive scouring sponge. They are also dishwasher-proof. The turntable motor shaft is not sealed, so excess water or spills should be wiped up immediately.
SERVICE CALL CHECK

Please check the following before calling for service:

Place one cup of water in a glass measuring cup in the oven and close the door securely. Operate the oven for one minute at HIGH 100%.

A Does the oven light come on? YES ______ NO ______

B Does the cooling fan work? YES ______ NO ______
(Put your hand over the rear ventilating openings.)

C Does the turntable rotate? YES ______ NO ______
(It is normal for the turntable to turn in either direction.)

D Is the water in the oven warm? YES ______ NO ______

If “NO” is the answer to any of the above questions, please check electrical outlet, fuse and/or circuit breaker. If they are functioning properly, CONTACT YOUR NEAREST SHARP AUTHORIZED SERVICER. A microwave oven should never be serviced by a “do-it-yourself” repair person.

NOTE: 1. If time appearing in the display is counting down very rapidly, check Demonstration Mode on page 16 and cancel.
2. If the oven is set for more than 20 minutes at 80, 90 or 100 percent power level, after the first 20 minutes, the power level will automatically adjust to 70 percent power to avoid overcooking.

SPECIFICATIONS

AC Line Voltage: Single phase 120V, 60Hz, AC only
AC Power Required: 1170W 10A
Output Power: Microwave 800W* (IEC Test Procedure)
Frequency: 2450 MHz
Outside Dimensions: 18 1/8”(W) x 10 5/8”(H) x 14 1/2”(D)
Cavity Dimensions**: 12 1/2”(W) x 8”(H) x 13 3/8”(D)
Oven Capacity**: 0.8 Cu.Ft. / 22 L
Cooking Uniformity: Turntable system, 10 3/4” / 272mm diameter
Weight: Approx. 22.7 lb / 10.3 kg

★ The International Electrotechnical Commission’s standardized method for measuring output wattage. This test method is widely recognized.
★★ Internal capacity is calculated by measuring maximum width, depth and height. Actual capacity for holding food is less.

In compliance with standards set by:
FCC – Federal Communications Commission Authorized.
DHHS – Complies with Department of Health and Human Services (DHHS) rule, CFR, Title 21, Chapter I, Subchapter J.
UL – This symbol on the nameplate means the product is listed by Underwriters Laboratories, Inc.

**GUIA AUTO-TOUCH**

Para mayor información y precauciones de seguridad, consulte el Manual de Operaciones.

### FIJACION DEL RELOJ

Si en la pantalla aparece **00:**00, toque primero **STOP/CLEAR**.

1. Toque el botón **CLOCK**.
2. Ponga la hora correcta tomando los números en orden. (Ej: 12:30)
3. Toque nuevamente el botón **CLOCK**.

### POPCORN (Palomitas de maíz)

1. Toque el botón **POPCORN** una vez para palomitas de maíz regular.
2. 2 veces - tamaño regular ligero
3. 3 veces - tamaño mini

### OPERACION MANUAL

Cocinando con energía alta

1. Programe el tiempo para cocinar tomando los botones de números. (Ej: 1 min. 30 seg.)
2. Toque **START**.

Cocinando con energía variable

1. Después del paso 1 anterior, toque el botón **POWER LEVEL** 6 veces. (Ej: 50%)
2. Toque **START**.

### DEFROST (DESGONZAMIENTO)

1. Toque el botón **DEFROST** para un incremento de .5 lb (0.23 kg) por pulsación. (Ej. un bistec de 2.5 lb / 1.12 kg)

### CUADRO DE POPCORN

<table>
<thead>
<tr>
<th>ALIMENTOS</th>
<th>CANTIDAD</th>

</tr>
</tbody>
</table>

### PASOS RÁPIDOS

1. Toque los botones de los PASOS RÁPIDOS que desee.
   - **DERRETIR** (Mantequilla)
     - Una vez - 2 cucharadas
     - Dos veces - 1/2 cucharada
   - **ABLANDAR** (Helados)
     - Una vez - 1 pinta (470 ml)
     - Dos veces - 1/2 galón (1.9 l)
   - **CALENTAR** (Almíbar)
     - Una vez - 1/4 taza
     - Dos veces - 1/2 taza

### MUNUTE PLUS (MINUTO EXTRA)

Toque el botón **MINUTE PLUS** para un minuto al 100% de energía, o para añadir un minuto cuando cocine en el modo manual. Continúe tocándolo para añadir más minutos.
**AUTO-TOUCH GUIDE**

For more complete information and safety precautions, refer to your Operation Manual.

### SET CLOCK

1. Touch **STOP/CLEAR** pad.
2. Enter correct time of the day by touching numbers in sequence. (Ex. 12:30)
3. Touch **CLOCK** pad again.

### MANUAL OPERATION

#### High Power Cooking

1. Enter cooking time by touching number pads. (Ex: 1 min. 30 sec.)
2. Touch **START** pad.

#### Variable Power Cooking

1. After Step 1 above, touch **POWER LEVEL** pad 6 times. (Ex: 50%)
2. Touch **START** pad.

### DEFROST

1. Touch **DEFROST** pad for a .5 lb increase per touch. (Ex: 2.5 lb steak)

### POPCORN

1. Touch **POPCORN** pad:
   - once for a regular size
   - 2 times - regular size light
   - 3 times - mini size

### POPCORN CHART

<table>
<thead>
<tr>
<th>FOOD</th>
