INCLUDES DUCTS, FINISH TRIM STRIPS AND
EASY-TO-FOLLOW INSTRUCTIONS

SMC1585BS Convection Microwave Oven with the RK-94S30 Trim Kit

When building in a Sharp counter top microwave oven, be sure to use the proper Sharp built-in kit. All Sharp kits are UL approved and provide ductwork to assure proper air circulation around the product. Never enclose a microwave oven so tightly that air cannot circulate around it. It will not function properly in a tight enclosure. Prepare the cabinet or wall opening to provide access to a separate 3-pronged, 120V AC outlet of 15 amps or larger. Not all microwave ovens can be built-in. Check the nameplate and or carton of the microwave oven for the correct built-in kit. Please refer to operation manual for installation recommendations. This information is also available at www.SharpUSA.com/trimkits.
