**IMPORTANT INFORMATION**

**WARNING:** TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

**CAUTION:** DO NOT REMOVE COVER (OR BACK), NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

**CAUTION:** TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

**WARNING:** FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user’s authority to operate this equipment.

**CAUTION:** This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

---

**DECLARATION OF CONFORMITY:**

SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-70UD27U/LC-60UD27U

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

**RESPONSIBLE PARTY:**

SHARP ELECTRONICS CORPORATION
1 Sharp Plaza, Suite 1, Mahwah, New Jersey 07495-1120
TEL: 1-800-BE-SHARP

For Business Customers: URL http://www.sharpusa.com

---

**INFORMATION:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
**FCC Compliance Statement**
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Wireless Radio**
For products available in the USA/Canada market, only channel 1-11 can be operated. Selection of other channels is not possible. This device is going to be operated in 5.15-5.25GHz frequency range, it is restricted in indoor environment only.

**Important:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

**FCC Radiation Exposure Statement:** This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

**Industry Canada Statement**
This Class B digital apparatus complies with Canadian ICES-003 (B)/NMB-3 (B).

**Wireless Radio**
For products available in the USA/Canada market, only channel 1-11 can be operated. Selection of other channels is not possible. The device could automatically discontinuous transmission in case of absence of information to transmit, or operational failure. Note that this is not intended to prohibit transmission of control or signaling information or the use of repetitive codes where required by the technology.

**Important:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

**IC Radiation Exposure Statement**
This device complies with IC RSS-210 rules; Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept interference received, including interference that may cause undesired operation.

"Note to CATV system installer: This reminder is provided to call the CATV system installer’s attention to Article 820 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical."
DEAR SHARP CUSTOMER

Thank you for your purchase of the Sharp Liquid Crystal Television. To ensure safety and many years of trouble-free operation of your product, please read the Important Safety Instructions carefully before using this product.

IMPORTANT SAFETY INSTRUCTIONS

Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your Liquid Crystal Television, please read the following precautions carefully before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Additional Safety Information

15) Power Sources—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power source to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
16) Overloading—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
17) Object and Liquid Entry—Never push objects through openings in this product as they can result in a risk of fire or electric shock. Never spill liquid of any kind on the product.
18) Damage Requiring Service—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions: a) When the AC cord or plug is damaged, b) If liquid has been spilled, or objects have fallen into the product, c) If the product has been exposed to rain or water, d) If the product does not operate normally by following the operating instructions, adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.

IMPORTANT SAFETY INSTRUCTIONS

1) If the product has been dropped or damaged in any way, and
2) When the product exhibits any unusual change in performance — this indicates a need for service.
3) Replacement Parts—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
4) Safety Check—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
5) Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.

EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE AND NFPA 70

- Grounding conductors should be connected to a grounded system and grounded through a current limitingadder or circuit breaker.
- The antenna system should be grounded as specified in NEC 810.
- The antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding, and requirements for the grounding electrode.

- Water and Moisture—Do not use this product near water - for example, near a bathtub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.
- Stand—Do not place the product on an unstable cart, stand, tripod, bracket, or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket, or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer’s instructions. Use only the mounting hardware recommended by the manufacturer.
- Selecting the location—Select a place with no direct sunlight and good ventilation.
- Ventilation—The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place this product near or over a radiator or heat register. Do not place this product in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer’s instructions have been followed.
- Heat—The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
- The Liquid Crystal panel is a very high technology product with 8,294,400 pixels, giving you fire picture detail and resolution. Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green, or red. Please note that this does not affect the performance of your product.
- Lighting—For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.
- Power Lines—An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, as contact with such power lines or circuits can be fatal.
- To prevent fire or shock hazard, do not place the AC cord under the TV set or other heavy items.

ENG Important3
IMPORTANT SAFETY INSTRUCTIONS

• Do not display a still picture for a long time, as this could cause an afterimage to remain.
• To prevent fire or shock hazard, do not expose this product to dripping or splashing.
• No objects filled with liquids, such as vases, should be placed on the product.
• Do not insert foreign objects into the product. Inserting objects in the air vents or other openings may result in fire or electrocution. Exercise special caution when using the product around children.

Precautions when transporting the TV
• When transporting the TV, never carry it by holding or otherwise putting pressure onto the display. Be sure to always carry the TV by two people holding it with two hands.

Caring for the cabinet
• Use a soft cloth (cotton, flannel, etc.) and gently wipe the surface of the cabinet.
• Using a chemical cloth (wet/dry sheet type cloth, etc.) may deform the components of the main unit cabinet or cause cracking.
• Wiping with a soft cloth or using strong force may scratch the surface of the cabinet.
• If the cabinet is very dirty, wipe with a soft cloth (cotton, flannel, etc.) soaked in neutral detergent diluted with water and thoroughly wrung out, and then wipe with a soft dry cloth.
• Avoid using benzene, thinner, and other solvents, as these may deform the cabinet and cause the paint to peel off.
• Do not apply insecticides or other volatile liquids. Also, do not allow the cabinet to remain in contact with rubber or vinyl products for a long period of time. Plastics inside the plastic may cause the cabinet to deform and cause the paint to peel off.

Caring for the front panel
• Turn off the main power and unplug the AC cord from the wall outlet before handling.
• Gently wipe the surface of the front panel with a soft cloth (cotton, flannel, etc.). To protect the front panel, do not use a dirty cloth, liquid cleaners, or a chemical cloth (wet/dry sheet type cloth, etc.). This may damage the surface of the front panel.
• Wiping with a hard cloth or using strong force may scratch the surface of the front panel.
• Use a soft damp cloth to gently wipe the front panel when it is really dirty. (It may scratch the surface of the front panel when wiped strongly.)
• If the front panel is dusty, use an anti-static brush, which is commercially available, to clean it.
• To avoid scratching the frame or screen, please use a soft, lint-free cloth for cleaning. Approved cleaning cloths are available directly from Sharp in single (902-LCD-CLOTH) or triple (902-LCD-CLOTH-3) packs. Call 1-800-BE-SHARP for ordering, or visit http://www.sharpusa.com/SharpCare.

CHILD SAFETY:
PROPER TELEVISION PLACEMENT MATTERS

THE CONSUMER ELECTRONICS INDUSTRY CARES
• Manufacturers, retailers and the rest of the consumer electronics industry are committed to making home entertainment safe and enjoyable.
• As you enjoy your television, please note that all televisions – new and old – must be supported on proper stands or installed according to the manufacturer’s recommendations. TVs that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests, carts, etc., may fall over, resulting in injury.

TUNE IN TO SAFETY
• ALWAYS follow the manufacturer’s recommendations for the safe installation of your television.
• ALWAYS read and follow all instructions for proper use of your television.
• NEVER allow children to climb on or play on the television or the furniture on which the television is placed.
• NEVER place the television on furniture that can easily be used as steps, such as a chest of drawers.
• ALWAYS install the television where it cannot be pushed, pulled over or knocked down.
• ALWAYS route cords and cables connected to the television so that they cannot be tripped over, pulled or grabbed.

WALL OR CEILING MOUNT YOUR TELEVISION
• ALWAYS contact your retailer about professional installation if you have any doubts about your ability to safely mount your television.
• ALWAYS use a mount that has been recommended by the television manufacturer and has a safety certification by an independent laboratory (such as UL, CSA, ETL).
• ALWAYS follow all instructions supplied by the television and mount manufacturers.
• ALWAYS make sure that the wall or ceiling where you are mounting the television is appropriate. Some mounts are not designed to be mounted to walls and ceilings with steel studs or Cinder block construction. If you are unsure, contact a professional installer.
• Televisions can be heavy. A minimum of two people is required for a wall or ceiling mount installation.

MOVING AN OLDER TELEVISION TO A NEW PLACE IN YOUR HOME
• Many new television buyers move their older CRT televisions into a secondary room after the purchase of a flat-panel television. Special care should be made in the placement of older CRT televisions.
• ALWAYS place your older CRT television on furniture that is sturdy and appropriate for its size and weight.
• NEVER place your older CRT television on a dresser where children may be tempted to use the drawers to climb.
• ALWAYS make sure your older CRT television does not hang over the edge of your furniture.

CE.org/safety
IMPORTANT SAFETY INSTRUCTIONS

Wireless LAN
This TV has received the following certifications:
- Wi-Fi CERTIFIED™ (certification program from the Wi-Fi Alliance®)
- Wi-Fi Protected Setup™ (certification program from the Wi-Fi Alliance®)

FCC
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. To comply with the FCC RF exposure compliance requirements, this device and its antenna must not be co-located or operated in conjunction with any other antenna or transmitter.

The device for the band 5150-5250 MHz is only for indoor usage to reduce potential for harmful interference to co-channel mobile satellite systems.
The maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz to comply with the e.i.r.p. limit; and High-power radars are allocated as primary users (meaning they have priority) of the bands 5250-5350 MHz and 5650-5850 MHz and these radars could cause interference and/or damage to LE-LAN devices.

IFETEL
This equipment operates on a secondary basis and, consequently, must accept harmful interference, including from station of the same kind, and may not cause harmful interference to systems operating on a primary basis.

CONTAINS TRANSMITTER MODULE IFETEL ID: ROPSHDH13-2234

Notes on Radio Wave Certification in the U.S.A. and Canada

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

"This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter."

FCC/INDUSTRY CANADA NOTICE

This device complies with Part 15 of FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET66 and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that are deemed to comply without testing of specific absorption rate (SAR).

FCC CAUTION

Changes or modifications not expressly approved by the manufacturer for compliance could void the user’s authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003.

Le présent appareil est conforme aux la prile 15 des règles de la FCC et CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes : (1) l’appareil ne doit pas produire de brouillage, et (2) l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.

Cet équipement est conforme aux limites d’exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles radioélectriques (RF) de la FCC lignes directrices d’exposition dans le Supplément C à OET66 et d’exposition aux fréquences radioélectriques (RF) CNR-102 de l’IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation du débit d’absorption spécifique (DAS).

Cet appareil numérique de la classe B est conforme à la norme NMB-3 du Canada.

Part Names

Remote Control Unit

1 **POWER**: Switch the TV power on or enter standby.

2 **TV, STB, DVD+VCR, AUDIO**: Switches the remote control for TV, STB, BD, DVD, VCR and AUDIO operation. (See pages 5-14 to 5-17 for details.)

   * To enter the code registration mode, you need to press an appropriate button (STB, DVD+VCR or AUDIO) and **DISPLAY** at the same time.

3 **External equipment operational buttons**: Operate the external equipment.

4 **DISPLAY**: Display the channel information.

5 **OPTION**: Display the Link Operation Menu screen. This button will function only when AQUOS LINK is used. (See pages 6-1 to 6-5 for details.)

6 **SLEEP**: Set the sleep timer. (See page 3-9.)

7 0–9: Set the channel. (See pages 3-1 and 5-17.)

8 • (DOT): Set the channel. (See pages 3-1 and 5-17.)

9 **CC**: Display captions from a closed-caption source. (See page 3-12 to 3-13)

10 **AV MODE**: Select an audio or video setting. (See page 3-10.)

11 **MUTE**: Mute the sound. (See page 3-3.)

12 **VOL+/-**: Set the volume. (See page 3-2.)

13 **MENU**: Display the menu screen. (See page 4-1.)

14 **2D/3D**: Set the 3D Surround. (See page 3-3.)

15 ▲▼◄►, **ENTER**: Select a desired item on the screen.

16 **EXIT**: Turn off the menu screen.

17 **FAVORITE CH**: Set the favorite channels. (See page 4-15.)

18 **A, B, C, D**: Select 4 preset favorite channels in 4 different categories. (See page 4-15.)

   While watching, you can toggle the selected channels by pressing A, B, C and D.

19 **MANUAL**: Display the operation manual.

20 **POWER (SOURCE)**: Turns the power of the external equipment on and off.

---

**NOTE**

* When using the remote control unit, point it at the TV.

Watching TV

Displaying an External Equipment Image

To view external source images, select the input source by pressing INPUT on the remote control unit or on the TV.

Example

1 Press INPUT.
   - The INPUT list screen displays.
2 Press ▲▼ to select the input source.
   - An image from the selected source automatically displays.
   - If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.

- You can also select the input source by pressing INPUT.
- Each time INPUT is pressed, the input source toggles:
  TV → HDMI1→ - - - → Home Network → SD/SDHC/USB → Screen Sharing → Bluetooth
**Watching TV**

**Initial Installation**
Perform the following steps before you press POWER on the remote control unit.
1. Insert the batteries into the remote control unit.
2. Connect the antenna cable to the TV.
3. Plug in the AC cord to the AC outlet.

**Language (Language setting)**
Select from among 3 languages: English, French and Spanish.
1. Press ▲▼ to select the desired language listed on the screen, and then press ENTER.

**Location & Time**
Make settings for the country, area and time zone where you use the TV.
2. Press ▲▼ to select "United States", "Canada" or "Mexico", and then press ENTER.
3. Press ▲▼ to select the time zone where you are using the TV, and then press ENTER.

**Example**
- The time zone differs depending on the selected country.
- The factory preset value is the time zone for the capital of the selected country.
4. Press ▲▼ to select the Daylight Savings Time, and then press ENTER.

- "Auto" is the default selection.

TV Location
Select "Home" or "Store" for the location where you plan to install the TV.

5. Press ◄► to select "Home" or "Store". Press ENTER to enter the setting.

Home: "Power Saving" is set to "Advanced", and AV MODE is set to "STANDARD".
Store: "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)". Picture Reset and Feature Demo can be set.

Picture Reset: AV MODE will be set to "DYNAMIC (Fixed)" regardless of whether Picture Reset is "On" or "Off".
- If you select "On" and there is no operation for 30 minutes:
  - AV MODE will be reset to "DYNAMIC (Fixed)".
- When "Off" is selected:
  - Even after 30 minutes elapses, AV MODE is not reset to "DYNAMIC (Fixed)".

Feature Demo: When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.
Watching TV

Initial Installation (Continue)

Antenna & Cable/STB
Select the type of connection you will use to watch TV.

6 Press \downarrow/\uparrow to select "Antenna & Cable" or "Set-top box", and then press ENTER.

- Press \downarrow/\uparrow to select "Antenna & Cable" or "Set-top box", and then press ENTER.

To watch TV via an antenna or cable connection (without using a set-top box):
Select "Antenna & Cable", and then go to step 7.

To watch TV via a set-top box:
1 Select "Set-top box", and then press ENTER.
2 Check that the set-top box connected to the TV is on.
3 Press \downarrow/\uparrow to select the input to which the set-top box has been connected.
   - If your Set-top box is turned off, "Disconnected" might be shown.

Air/Cable (Antenna setting)
Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

7 Press \downarrow/\uparrow to select "Air" or "Cable".
Press ENTER to enter the setting.

- When this is set to "On", the channel on the TV cannot be changed using the remote control unit or menu. (e.g. CH \downarrow/\uparrow, Favorite CH, etc.)
- See page 4-20 for details on the Input Skip function.
- Press INPUT to select the input source corresponding to the terminal connected to the set-top box. Make the necessary settings on the connected external equipment.
- See the operation manual of the connected equipment for setting up the equipment.

ENG 2-4
Watching TV

Initial Installation (Continue)

CH Search (Channel search)
Channel auto search makes the TV look for all channels viewable in the set area.

8 When "Air" is selected in Antenna setting:
Press ➩ to select "Start" and then press ENTER.

When "Cable" is selected in Antenna setting:
1. Press ▲▼ to select "Analog & Digital Search Start" to search both analog and digital broadcasts, or to select "Analog Search Start" to search only analog broadcasts, and then press ENTER.

The Channel search may include scrambled channels or channels that are not viewable in the set area. Press ➩ to select "Yes", and then press ENTER to remove scrambled channels.

Smart TV
When you connect to the Internet on the TV, select the desired connection method and follow the instructions shown on the display.

• Wireless LAN connection is possible only when the WPS (push button) method is used. If any other method is used, make settings by Smart TV > Internet Setup > Internet Connection. (See pages 8-2 to 8-4.)

9 Press ➩ to select "Yes", and then press ENTER.

10 Press ▲▼ to select "Wired" or "Wireless", and then press ENTER.
Initial Installation (Continue)

Connection using an ETHERNET cable:
1. Select "Wired" and press ENTER.
2. Confirm that the TV is properly connected with the router, and then press "Next". Follow the instructions on the display to perform the connection test.

Wireless LAN connection by the WPS method:
1. Select "Wireless" and press ENTER.
2. Follow the instructions on the display, and finalize the connection after testing its viability.

NOTE
- After you finish configuring the network settings, configure the "TV Name Setting", "Remote Control App" settings.
  (See page 4-26, 7-2.)
- When you change the network settings, refer to Smart TV > Internet Setup > Internet Connection.
  (See pages 8-2 to 8-4.)

Completed
11. The settings confirmation screen is displayed. Confirm the information displayed on the screen, and then press ENTER.

Examples of the settings confirmation screen
When one or more channel is received after "Antenna & Cable" was selected in step 6 and a search was carried out.

When no channel is received after "Antenna & Cable" was selected in step 6 and a search was carried out.
Initial Installation (Continue)

NOTE

- If no channel is found, confirm the type of connection made with your TV and try "Easy Setup" again. (See page 4-13.)
- To see the list of channels found during Channel search, press INPUT, and then press ►.

When "Set-top box" was selected in step 6.

- When "Set-top box" was selected in step 6.

- Click "OK" to display the confirmation screen for input source switching.

Show the input list: You can check the current connection status of external equipment. Confirm which input terminal is connected to the set-top box.

OK: Clicking "OK" will complete the Easy Setup procedure.

NOTE

- This may not display correctly depending on the connected equipment.
- This is not displayed correctly when the connected equipment is off.
- To watch TV using a set-top box, press INPUT after completing the initial settings, and select the input to which the set-top box is connected.

- To watch TV using a set-top box, press INPUT after completing the initial settings, and select the input to which the set-top box is connected.
Direct Button Operation

Changing Channels
You can change channels in several ways.

Method 1
Using CH \( \uparrow \) on the remote control unit or on the TV.

Method 2
Using remote control buttons 0-9, • (DOT).

Examples:
To select a 1 or 2-digit channel number (e.g., Channel 5):
Press 5 → ENTER
To select a 3-digit channel number (e.g., Channel 115):
Press 1 → 1 → 5 → ENTER
To select a 4-digit channel number (e.g., Channel 22.1):
Press 2 → 2 → • (DOT) → 1 → ENTER

Method 3
Selecting the program from the Channel list.
1. Press INPUT on the remote control unit.
   • The INPUT list displays.
2. Press \( \leftarrow \) to select "AIR" or "CABLE".
   • The Channel list displays.
3. Press \( \uparrow \) or \( \downarrow \) to select the desired channel, and then press ENTER.

NOTE
• When selecting a 1-digit channel number, it is not necessary to press 0 before the number.
• When you enter 0-9 only, channel selection will be made if there is no operation within a few seconds.
• If you push "0" by itself, nothing will happen.
• Complete the above steps within a few seconds.
• When you enter 0-9 and • (DOT), channel selection will be made if there is no operation within a few seconds.
Direct Button Operation

Changing Volume

You can change the volume by pressing VOL+/- on the TV or on the remote control unit.
- To increase the volume, press VOL +.
- To decrease the volume, press VOL -.

Audio status

<table>
<thead>
<tr>
<th>Output device</th>
<th>Output Select</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Fixed</td>
</tr>
<tr>
<td>Speaker</td>
<td>Variable sound</td>
</tr>
<tr>
<td></td>
<td>Mute</td>
</tr>
</tbody>
</table>

When “Output Select” is set to “Variable”, the indicator on the screen changes as shown below.

NOTE
- See page 4-20 for details on the Output Select function.
Direct Button Operation

**MUTE**

Mutes the current sound output.
- Press MUTE.
  - “**M**” will be displayed on the screen for 30 minutes, and the sound is silenced.

**NOTE**
- Within 30 minutes of pressing MUTE, mute can be canceled by pressing VOL+/- or MUTE.
- Mute will be canceled after 30 minutes have passed. However, the TV will not suddenly output a loud sound as the volume level is set to 0 automatically.

**3D Surround**

The surround function produces Surround effect from the speakers.
- **3D Stadium**: Reproduces lifelike experience of excitements such that live sports or concert performances in a stadium create.
- **3D Hall**: Reproduces concert hall experience with realistic live surround sound using measured reverberant sound in the concert hall.
- **3D Movie**: Reproduces movie theater experience with realistic live surround sound using measured reverberant sound in the movie theater.
- **3D Standard**: Creates 3 dimensional surround sound with detailed control of the signal phase.
- **Normal**: Provides mild surround sound.
- **Off**: Outputs the normal sound.

**NOTE**
- The Audio Settings menu is grayed out when "Output Select" is set to "Variable". (See page 4-20.)
- For some discs, setup may be required on your BD/DVD player. In this case, please refer to the operation manual of your BD/DVD player.
- This button doesn’t operate when you are watching Home Network or SD/USB mode.
Direct Button Operation

**FREEZE**

Allows you to capture and freeze a moving image that you are watching.

Press **FREEZE**.
- A moving image is captured.
- Press **FREEZE** again to cancel the function.

**NOTE**
- When this function is not available, "No displaying still image available." will display.
- The still image automatically goes out after 30 minutes.
- If you are using the freeze function and a broadcast activates the V-CHIP BLOCK, the freeze function will be canceled and a V-CHIP BLOCK message will appear.
- You can have the same settings by choosing "Freeze" on the menu items. (See page 4-28.)
- You cannot operate the "FREEZE" function during 4K signal input.
  Operate this function during the input of other types of signals (as Full HD).
Direct Button Operation

**FLASHBACK**
Press **FLASHBACK** to switch to the previously tuned channel or previous input mode.
- Press **FLASHBACK** again to switch back to the currently tuned channel.

**NOTE**
- **FLASHBACK** will not work if no channel has been changed after the TV is turned on.
Direct Button Operation

SmartCentral

Allows you to directly activate various types of applications.

1. Press SmartCentral to display the application window.
   - Press SmartCentral again to display a list of applications by category.

2. Press (or ) to select the desired application, and then press ENTER.
   - If you changed the display to the list of applications in step 1, select a category and then an application.
   - See pages 8-11 to 8-12 for details.
   - If "" is displayed, check the USB connection.
   - If "" or "" is displayed, check your TV's network settings and connection.

**NOTE**

- See page 5-2, 8-6 to 8-8 for details of viewable applications.
- You can display the application window by choosing "App Dock" on the menu items.
  (See page 4-28.)
- When this function is not available, "Can not operate this function now" will display.
Direct Button Operation

NETFLIX

Displays the Netflix screen.
Press NETFLIX.

NOTE
If you press the NETFLIX button when the TV is turned off, the TV turns on and the NETFLIX screen is displayed.
- To enjoy Netflix, you need to make:
  —a broadband Internet connection
    (See page 8-1.)
  —settings of Internet Setup
    (See pages 8-2 to 8-4.)
  —adjustments for Netflix
    (See page 8-12.)
Direct Button Operation

**AUDIO**

**MTS/SAP stereo mode**

The TV has a feature that allows reception of sound other than the main audio for the program. This feature is called Multi-channel Television Sound (MTS). The TV with MTS can receive mono sound, stereo sound and Secondary Audio Programs (SAP). The SAP feature allows a TV station to broadcast other information, which could be audio in another language or something completely different like weather information.

You can enjoy Hi-Fi stereo sound or SAP broadcasts where available.

- **Stereo broadcasts**: View programs like live sporting events, shows and concerts in dynamic stereo sound.
- **SAP broadcasts**: Receive TV broadcasts in either MAIN or SAP sound.
  
  MAIN sound: The normal program soundtrack (either in mono or stereo).
  
  SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound.)

If stereo sound is difficult to hear.

- Obtain a clearer sound by manually switching to fixed mono-sound mode.

You can change MTS as shown below to match the television broadcast signal.

Press **AUDIO** to toggle between audio modes.

**Examples: when receiving MTS and SAP**

- **STEREO + SAP mode**: ST(SAP) → SAP(ST) → MONO
- **MAIN + SAP mode**: MAIN → SAP
- **MONO mode**: MONO

**Digital broadcasting audio mode**

The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.

Press **AUDIO** to toggle between audio modes.

**Example: when receiving Digital broadcasting**

- **STEREO (Audio1)** → **STEREO (Audio2)**
  
  → **SURROUND (Audio3)**

**NOTE**

- MTS only operates while in TV mode.
- You can have the same settings by choosing "Change Audio" on the menu items.

(See page 4-29.)
Direct Button Operation

**Sleep Timer**

Allows you to set a time when the TV automatically switches to standby.

Press SLEEP.

- The remaining time displays when the sleep timer has been set.
- Each time you press SLEEP, the remaining time switches as shown below:

  Off \(\rightarrow\) 30 \(\rightarrow\) 60 \(\rightarrow\) 90 \(\rightarrow\) 120

- When set, the time automatically starts counting down.
- If you want to adjust the sleep timer, you can press SLEEP twice then change the time setting.
- When it is 5 minutes before the time expires, the remaining time will start to keep appearing every minute.

**NOTE**

- Select “Off” by pressing SLEEP to cancel the sleep timer.
- The TV will enter standby when the remaining time reaches 0.
Direct Button Operation

AV MODE

AV MODE gives you several viewing options to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of program watched or the type of device connected.

You can use USER Mode to create customized settings for each TV input. These settings will be automatically saved on each input for convenience.

Press AV MODE. Current AV MODE displays.

- Press AV MODE again before the mode displayed on the screen disappears.

- The mode changes as shown below:

  Example: When using the COMPONENT IN/VIDEO IN terminal

  DYNAMIC (Fixed) → STANDARD → MOVIE

  DYNAMIC → USER → GAME → MOVIE THX

- Example: When using the HDMI IN 1 to 4 terminals

  DYNAMIC → STANDARD → MOVIE

  DYNAMIC → USER → PC → GAME → MOVIE THX
Direct Button Operation

AV MODE (Continue)

STANDARD: For a highly defined image in a normal lighting.
MOVIE: For a movie.
MOVIE THX: Changes the image quality so that it conforms to the THX display standard.
GAME: Lowers image brightness for easier viewing.
PC: For PC.
USER: Allows the user to customize settings as desired. You can set the mode for each input source.
DYNAMIC: For a clear-cut image emphasizing high contrast, useful for sports viewing.
DYNAMIC (Fixed): Changes the image and sound settings to the factory preset values. No adjustments are allowed.

NOTE
- You can select a different AV MODE item for each input mode. (For example, select STANDARD for TV input and DYNAMIC for COMPONENT.)
- When you play games, "GAME" is recommended for AV MODE.
- You cannot set "PC" when the TV is connected to the Internet.
- You cannot set "GAME" or "PC" when the input "Home Network" or "SD/SDHC/USB".
- You can have the same settings by choosing "AV MODE" on the menu items. (See page 4-5.)
Closed Captions and Digital Closed Captions

Your TV is equipped with an internal Closed Caption decoder. It allows you to view conversations, narration and sound effects as subtitles on your TV. Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider.

Digital Closed Caption service is a new caption service available only on digital TV programs (also at the discretion of the service provider). It is a more flexible system than the original Closed Caption system, because it allows for a variety of caption sizes and font styles. When the Digital Closed Caption service is in use, it will be indicated by the appearance of a 3-letter abbreviation that also indicates the language of the Digital Closed Captions: ENG (English), SPA (Spanish), FRA (French) or other language codes.

Not all programs and VHS videotapes offer closed captions. Please look for the "CC" symbol to ensure that captions will be shown.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The "CC1" and "CC2" services display subtitles of TV programs superimposed over the program’s picture.

In the Closed Caption system, the "Text1" or "Text2" services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

1 Press CC.
   • This will present the Closed Caption information display.

2 Press CC while the Closed Caption information is still on the screen.
   • Press repeatedly until you select the desired closed caption service.

Depending on the number of caption services in the signal being received, you will see information such as 1/2 or 1/4 displayed. 1/2 means "the first of two services".

Example:
If a program has three services (Digital CC(ENG), CC1 and Text1), the closed caption display will toggle in this sequence:
1/3 ENG → 2/3 CC1 → 3/3 Text1 → Off

The CC button keeps a record of the last service selected in its memory. If the last closed caption mode (e.g. 1/3 ENG) you selected is not available for the next program, or on another channel, the closed caption service that is available is automatically selected, and this service appears in parentheses, e.g. "1/3(CC1)". Closed Caption services that appear in parentheses will not be stored in the CC button’s memory as your last selected service. Only services that you have selected with the CC button are stored.
Direct Button Operation

Closed Captions and Digital Closed Captions (Continue)

Examples:
In a case where there are two closed caption services provided (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses.

A closed caption service appears in parentheses because the service you selected is not available and a different service is displayed on your screen. "1/1(CC1)" is displayed instead of "1/2/ENG".

NOTE
- When "Power Saving" is set to "Standard" or "Advanced", the Power Saving leaf icon appears on the channel information window. See page 4-27 for details of Power Saving settings.
- See page 4-30 for detailed closed caption settings.
- When the program contains no closed caption, "--" displays in the closed caption information.
- If the language code, e.g. "ENG", is not found on Digital TV programs, "--" will be shown.
- Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.
- When a web page is displayed, Closed Captions are not available.
- You can have the same settings by choosing "Change CC" on the menu items. (See page 4-29.)
Direct Button Operation

**VIEW MODE**
You can select the screen size.

1. Press **VIEW MODE**.
   - The View Mode menu displays.
   - The menu lists the View Mode options selectable for the type of video signal currently being received.
2. Press **VIEW MODE** or ▲▼ while the View Mode menu is displayed to select a desired item on the menu.
   - You can sequentially select a View Mode that has its own aspect ratio.

**NOTE**
- You can have the same settings by choosing "View Mode" on the menu items.
  (See page 4-28.)

**For HD programs**

<table>
<thead>
<tr>
<th>Stretch</th>
<th>Dot by Dot (Full Screen)</th>
<th>S.Stretch (Smart stretch)</th>
<th>Zoom</th>
</tr>
</thead>
<tbody>
<tr>

- Selectable screen size may vary with input signal type.
**Introduction**

[Image of remote control and on-screen display]

1. **Guide display**
   - This indicates the buttons that can be operated on the displayed screen. The guide display varies depending on the menu setting screen.
   - The operations for some selected items may be displayed in the operational guide bar at the bottom of the screen.

2. **Item displayed in blue**
   - This indicates the item currently selected.
   - Press ENTER to go to the adjustment screen for this item.

3. **Item in brackets**
   - This indicates the current setting for the item.

4. **Item displayed in white**
   - This indicates that the item can be selected.
Introduction (Continue)

About Menu Items
- Some menu items may not be displayed depending on the selected input source.

**NOTE**
- The screens in the operation manual are for explanation purposes (some are enlarged, others cropped) and may vary slightly from the actual screens.
- The order of explanations for each menu item in the following pages is not necessarily in accordance with the alignment of the items on the screen.

**LCFONT:**
- This product is embedded with LC Font technology, which was developed by SHARP Corporation for clearly displaying easy-to-read characters on LCD screens.
On-Screen Display Menu

Menu Operation Buttons

Using the remote control
Use the following buttons on the remote control to operate the menu.
- **MENU:** Press to open or close the menu screen.
- **△/▽/←/→:** Press to select a desired item on the screen or adjust a selected item.
- **ENTER:** Press to go to the next step or complete the setting.
- **RETURN:** Press to return to the previous step.

Using the control panel of the TV
You can also operate the menu with the control panel of the TV.
Button operations on the control panel correspond to the ones on the remote control as shown below.

- **MENU:** Press **MENU** on the remote control.
- **INPUT:** Press **ENTER** on the remote control.
- **CH▽/▽:** Press **Cursor △/▽** on the remote control.
- **VOL+/−:** Press **Cursor ←/→** on the remote control.
On-Screen Display Menu

AV MODE (Changing Pic.Quality)
The audio and video settings can be changed to suit the program or input content being watched.

NOTE
• The selectable items vary depending on the input source and on the model of your TV.
• You can select AV MODE by pressing AV MODE on the remote control unit. See page 3-10 for details of AV MODE settings.

For resetting all Picture adjustment items to the factory preset values, press ▲▼ to select "Reset", press ENTER, press ▲▼ to select "Yes", and then press ENTER.
On-Screen Display Menu

On-Screen Display Menu Operation

Example

1. Press MENU to display the MENU screen.
2. Press \( \downarrow \) to select the desired menu.
   a. Press \( \uparrow \) to select a specific adjustment item, and then press ENTER.
   b. Additional related adjustment items may be displayed. Press \( \uparrow \downarrow \) to select the desired item.
3. Adjust the item while referring to the guide display.
   a. Operations vary depending on the function or item. Refer to the guide display corresponding to the menu setting screen for button operations.

NOTE
- Menu options differ in the selected input modes, but the operating procedures are the same.
**Picture Settings (Continue)**

**THX Setup**

Adjust the picture to room illumination or ambient brightness. This function is available only when AV MODE is set to "MOVIE THX".

- **Bright room**: Select this item for a bright room.
- **Dark room**: Select this item for a dark room.

**Automatic Light Sensor (Light Sensor)**

Automatically adjusts the brightness of the screen.

- **Off**: The brightness is fixed at the value set in "Backlight".
- **On**: Automatically adjusts.
- **On:Display**: Displays the Light Sensor effect on the screen while adjusting the brightness of the screen.

**NOTE**

- When set to "On", the Light Sensor senses the surrounding light and automatically adjusts the backlight brightness. Make sure nothing obstructs the Light Sensor, which could affect its ability to sense surrounding light.
- When set to "On:Display", Light Sensor effect displays on the screen while the Light Sensor adjusts the screen brightness.

---

*Example*

- **AV MODE (Changing Pic. Quality)**: [STANDARD]
- **THX Setup**
- **Automatic Light Sensor**: [on]
- **Backlight**: [-16 -16 -16]
- **Contrast**: [32 32 32]
- **Brightness**: [0 0 0]
- **Color**: [-30 -30 -30]
- **Tint**: [-30 -30 -30]
- **Sharpness**: [0 0 0]

<td>120Hz Low</td>
<td></td>
</tr>
<tr>
<td>Off</td>
<td>Original image.</td>
</tr>
</tbody>
</table>

**NOTE**

- "Motion Enhancement" may cause image noise. If this occurs, turn the function "Off".
- When AV MODE is set to "GAME" or "PC", or PC format is being input, "Motion Enhancement" is not available.

**Multi Pixel Drive**

Set this function when two or more people are going to watch a TV program or when you are viewing the screen obliquely.

**On:** For wider viewing angle.

**Off:** Normally choose this.

**AquoDimming**

Fine brightness control can be used to adjust the contrast between the light and shadow of the image.

<table>
<thead>
<tr>
<th>High/Middle/Low/Off</th>
</tr>
</thead>
</table>

**NOTE**

- This function cannot be used during 4K signal input.
### Picture Settings (Continue)

**Advanced**

**C.M.S. (Color Management System)**

Color tone is managed using the six-color adjustment setting.

- **C.M.S.-Hue**: This is a standard to adjust the color either more reddish or more bluish in tone.
- **C.M.S.-Saturation**: Increases or decreases the saturation of a selected color.
- **C.M.S.-Value**: A higher value makes the image brighter. A lower value makes the image darker.

**NOTE**

- For resetting all adjustment items to the factory preset values, press ▲▼ to select "Reset", and then press ENTER.

**Color Temp. (Color Temperature)**

For a better white balance, use color temperature correction.

- **High**: White with bluish tone
- **Mid-High**: White with bluish tone
- **Middle**: White balance can be adjusted between a maximum of +30 and a minimum of –30 for each color temperature.
- **Mid-Low**: White with reddish tone
- **Low**: White with reddish tone

White balance can be adjusted between a maximum of +30 and a minimum of –30 for each color temperature.

**R Gain (LO/Hi)/G Gain (LO/Hi)/B Gain (LO/Hi)**

Fine tuning the color temperature

To fine tune the color temperature, set "10 Point Setting" to "On".

You can adjust the "Position" setting. Adjust the set color temperature from +1 to +10.

White balance can be adjusted between a maximum of +30 and a minimum of –30 for each color temperature.

**NOTE**

- When "Position" is set to "10", you can adjust the white balance between –30 and 0.
- For resetting all adjustment items to the factory preset values, press ▲▼ to select "Reset", and then press ENTER.

3D Surround
The surround function produces Surround effect from the speakers.
- **3D Stadium**: Reproduces lifelike experience of excitement such as live sports or concert performances in a stadium.
- **3D Hall**: Reproduces concert hall experience with realistic live sound using measured reverberant sound in the concert hall.
- **3D Movie**: Reproduces movie theater experience with realistic live surround sound using measured reverberant sound in the movie theater.
- **3D Standard**: Creates 3 dimensional surround sound with detailed control of the signal phase.
- **Normal**: Provides mild surround sound.
- **Off**: Outputs the normal sound.

Harmonics Enhancer Extended
This function improves the sound quality by extending the selected range.
- **All Range**: The low range will be extended and the sounds in the medium and high ranges, which have been lost due to the data being compressed, will be restored. This setting is effective when playing back audio through a wireless interface such as when using Bluetooth playback.
- **Low Range**: The low range will be extended.
- **Off**: No adjustment.

Clear Voice
This function emphasizes speech against background noise for greater clarity.

NOTE
- The Audio Settings menu is grayed out when "Output Select" is set to "Variable". (See page 4-20.)

Wall Mount Setup
This selects the optimal audio for the program you are currently watching even when the TV is mounted to a wall.

Reset
Returns Audio Settings to their factory preset values. To reset, select "YES" and then press ENTER.
On-Screen Display Menu

**Setup**

**NOTE**
- For operating the on-screen display menu, see page 4-3.
- When you select "Easy Setup", "CH Setup", "Parental Control" or "Reset", you can enter the 4-digit secret number here.
  See page 4-21 for setting a secret number.

**Language**
You can also select a language from the Setup menu. Select from among 3 languages: English, French and Spanish.

**NOTE**
- To change the language of the manual, select "MENU" > "Setup" > "Language" to change the language. Then, press MANUAL again.

---

**Easy Setup**
You can run Easy Setup again, even after setting up the preset channels.

**Language**: Select from among 3 languages (English, French and Spanish).

**Location & Time**: Make settings for the country, area and time zone where you use the TV.
- Select your country: Select either "United States", "Canada" or "Mexico".
- Select your time zone: Select your time zone. The available settings differ depending on the selected country.
- Select DST (Daylight Savings Time): Select "Auto", "Manual" or "Off".

**TV Location**: Select "Home" or "Store" for the location where you plan to install the TV.
- Home: "Power Saving" is set to "Advanced", and AV MODE is set to "STANDARD".
- Store: "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)". Picture Reset and Feature Demo can be set.

**Picture Reset**: AV MODE will be set to "DYNAMIC (Fixed)" regardless of whether Picture Reset is "On" or "Off". If you select "On", AV MODE will be reset to "DYNAMIC (Fixed)" if there is no operation for 30 minutes. When "Off" is selected, even after 30 minutes elapses, AV MODE is not reset to "DYNAMIC (Fixed)".

---

ENG 4-13
**On-Screen Display Menu**

**Setup (Continue)**

**Easy Setup**

**Feature Demo:** When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.

**Antenna & Cable/STB:** Select the type of connection you will use to watch TV.

- **Air/Cable:** Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

**CH Search:** Channel auto search makes the TV look for all channels viewable in the set area.
- If "Cable" is selected for Antenna setting, scrambled channels are removed after the Channel search has been completed.

**Smart TV:** When you connect to the Internet on the TV, confirm the connection method and make adjustments.
- Wireless LAN connection is possible only when the WPS (push button) method is used. If any other method is used, make settings by Smart TV > Internet Setup > Internet Connection. (See pages 8-2 to 8-4.)

**Completed:** The settings confirmation screen is displayed. Confirm the information displayed on the screen.

**NOTE**
- See Initial Installation on pages 2-2 to 2-7 for setting each item.
- If no channel is found, confirm the type of connection made with your TV and try "Easy Setup" again.
- If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.

**TV Channel Setup**

**CH Setup**

If Initial Installation does not memorize all the channels in your region, follow the instructions below to manually memorize the channels.

- **Air/Cable:** Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

- **CH Search:** Channel auto search makes the TV look for all channels viewable in the set area.

- **CH Memory:** You can select the channels to skip in each ANALOG (Air), ANALOG (Cable), DIGITAL (Air) and DIGITAL (Cable).
- **On:** Skips channels. (Channel selection disabled using CH
  \[\] )
- **Off:** Does not skip channels. (Channel selection enabled using CH
  \[\] )

**Remove Scrambled CH:** This function makes the TV look for and then delete digital cable channels that are scrambled and so unavailable in the set area. The process may take more than 20 minutes.

- **Yes:** Starts to remove scrambled channels.
- **No:** This function does not work.

**NOTE**
- See Initial Installation on pages 2-2 to 2-7 for setting each item.
- If no channel is found, confirm the type of connection made with your TV and try channel search again.
- If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.
On-Screen Display Menu

**Setup (Continue)**

**TV Channel Setup**

**Favorite CH (Favorite Channel Setting)**

This function allows you to program 4 favorite channels, in 4 different categories. By setting the favorite channels in advance, you can select your favorite channels easily.

**To register your favorite channel:**
Select "Register" and then press ENTER. Press ▲▼◄► to select the position in the category, and then press ENTER to register.

**To delete your favorite channel:**
Select "1 Data Clear" and then press ENTER. Press ▲▼◄► ▼ to select the channel you want to delete, and then press ENTER. Select "Yes" and then press ENTER.

To delete all the favorite channels, select "All Data Clear".

**NOTE**
- Before setting the channel, select the channel you want to register as a favorite channel.
- You can display the "Favorite CH" screen by pressing FAVORITE CH on the remote control.

**Antenna Setup-DIGITAL**

In order to receive digital air broadcasts, you need a digital broadcast antenna. You can confirm the antenna configuration through the "Antenna Setup-DIGITAL" screen. If necessary, adjust the direction of the antenna to obtain the maximum signal strength.

**Signal Strength:** The signal strength of DIGITAL channel is displayed. The signal information is based on the current channel.

**Channel Strength:** Input the 2-digit channel number to check the signal strength of the selected channel. Make sure the signal is strong enough for each channel.
- This function is available for DIGITAL (Air) only.

**ENG 4-15**
V-Chip

V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. "V-Chip" and "Status" will not be selectable from the menu if you do not first configure your secret number.

- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.

**NOTE**

- The setting automatically enters "Block" for any ratings below your selection.
- If Status is not set to "On", the configuration settings will not work.

### MPAA (Voluntary movie rating system)

<table>
<thead>
<tr>
<th>Rating</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>G</td>
<td>General audiences. All ages admitted.</td>
</tr>
<tr>
<td>PG</td>
<td>Parental guidance suggested. Some material may not be suitable for children.</td>
</tr>
<tr>
<td>PG-13</td>
<td>Parents strongly cautioned. Some material may be inappropriate for children under 13.</td>
</tr>
<tr>
<td>R</td>
<td>Restricted. Under 17 requires accompanying parent or adult guardian (age varies in some jurisdictions).</td>
</tr>
<tr>
<td>NC-17</td>
<td>No one 17 and under admitted.</td>
</tr>
<tr>
<td>X</td>
<td>X is an older rating that is unified with NC-17 but may be encoded in the data of older movies.</td>
</tr>
</tbody>
</table>

**NOTE**

- Voluntary movie rating system only uses an age-based rating.
Suggested age
TV-Y: All children.
TV-Y7: Directed to older children.
TV-G: General audience.
TV-PG: Parental Guidance suggested.
TV-14: Parents strongly cautioned.
TV-MA: Mature audience only.

When setting an individual content-based rating item:
1 Press ▲ or ENTER to access blocked content items from the currently selected age-based rating item.
2 Press ▲▼ to select an individual item, and then press ENTER to unblock it (“X” is removed). Repeat the same steps for the other items.
3 Press ◄ or RETURN to register after all individual content rating items are set.

Content
FV: Fantasy violence.
V: Violence.
S: Sexual situation.
L: Adult language.
D: Sexually suggestive dialog.

X: The content rating can be set, but this rating is not normally broadcast by TV stations.
X: Content rating can be set.

Canadian Rating Systems (Canadian English ratings and Canadian French ratings)
- The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
- While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
- When setting the V-CHIP on the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.
Canadian English Ratings

E: Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.

C: Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.

C8+: Children over 8 years old: Contains no portrayal of violence as the preferred, acceptable, or only way to resolve conflict; nor encourage children to imitate dangerous acts which they may see on the screen.

G: General: Considered acceptable for all age groups. Appropriate viewing for the entire family, contains very little violence, physical, verbal or emotional.

PG: Parental Guidance: Intended for a general audience, but may not be suitable for younger children (under the age of 8) because it could contain controversial themes or issues.

14+: Over 14 years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.

18+: Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.

Canadian French Ratings

E: Exempt programming.

G: General: All ages and children, contains minimal direct violence, but may be integrated into the plot in a humorous or unrealistic manner.

8ans+: General but inadvisable for young children: May be viewed by a wide public audience, but could contain scenes disturbing to children under 8 who cannot distinguish between imaginary and real situations. Recommended for viewing with parent.

13ans+: Over 13 years: Could contain scenes of frequent violent scenes and therefore recommended for viewing with parent.

16ans+: Over 16 years: Could contain frequent violent scenes and intense violence.

18ans+: Over 18 years: Only for adult viewing. Could contain frequent violent scenes and extreme violence.

How to temporarily release the V-CHIP BLOCK

When the V-CHIP BLOCK is working and censors a broadcast, "V-CHIP HAS BEEN ACTIVATED." displays.

1 Press ENTER while the V-CHIP is working, and then the secret number setting menu displays.

2 Input the 4-digit secret number by using 0–9. At this time V-CHIP BLOCK temporarily releases.

ENG 4-18
On-Screen Display Menu

Setup (Continue)

Parental Control
(Parental Control Setting)

IMPORTANT:
Three conditions must be met to enable the V-Chip
(see pages 4-16 to 4-19):
1. Secret No. is registered.
2. V-Chip/V-Chip (DTV Only) settings have been made.
   - The "V-Chip (DTV Only)" will only be selectable when
     a new rating system can be downloaded via digital
     broadcasting in the U.S.
3. "Status" is set to "On".

Reactivating the temporarily released V-CHIP BLOCK
You can reactivate the temporarily released V-CHIP BLOCK
as shown below.
- Select "Status" setting from the Parental Control menu to
  reactivate BLOCK.
- Select "V-Chip" setting ("MPAA", "TV Guidelines", "Can. English Ratings" or "Can. French Ratings") from the
  Parental Control to reactivate BLOCK.
  (See pages 4-16 to 4-18.)
- Switch off the TV power.

NOTE
- Performing any of the three above will activate the V-CHIP BLOCK.

Status
Used to enable or disable the parental control function. This function will not be selectable from the menu if you do not first configure your secret number.

Quick Start Mode
When this function is activated, you can reduce the TV's start-up time or even let the TV in standby mode start displaying images and so on via the connected equipment on the network.

NOTE
- Setting "Quick Start Mode" to "On" consumes more power.

Input Settings

HDMI Setup - Auto View
When you view images sent from external equipment in an HDMI connection, this function allows the image size on the TV to automatically switch to an appropriate one.

NOTE
- Refer to your external equipment operation manual for the signal type.

COMPONENT/VIDEO Select
For image input applied to the COMPONENT IN or VIDEO IN terminal, switch to "Component" or "Video", respectively.
AUTO: Auto select signal based on fixed priority.
Component: Select component video.
Video: Select composite video.

NOTE
- If no (color) image displays, try changing to another signal type.
- Check the operation manual of the external equipment for the signal type.
- When the signal type is set to "Auto", the input terminal where a cable is connected is automatically selected.
- When the signal type is set to "Auto" and multiple video signal cables are connected, "Video" will be selected.

Custom Input Label
Lets you set the input terminal displayed when using the INPUT list or channel display. Press ▲▼◄► to select the new name for the input mode.

Using the software keyboard, you can enter up to 10 characters for text.
(See page 4-26.)

NOTE
- You cannot change labels if the input source is TV, Home Network, Screen Sharing, Bluetooth or SD/SDHC/USB.
On-Screen Display Menu

Setup (Continue)

Input Settings

Input Skip
This setting allows you to skip the TV, HDMI Input ("TV", "HDMI 1", "HDMI 2", "HDMI 3" and "HDMI 4") on the Input Selection operation.

NOTE
- If you connect external equipment to an HDMI IN terminal which you have set to be skipped, a notification message appears on the display when a signal is received from the connected external equipment. Press "Yes" to reset the related skipping setting so that the input terminal becomes available.

Advanced

Audio Setup
You can output digital audio to an AV amplifier or similar device whose DIGITAL AUDIO INPUT terminal is connected to the DIGITAL AUDIO OUT terminal on the TV. Please select an audio output format compatible with the audio format of the program you are watching and the equipment connected.

PCM: For connecting to equipment that does not support Dolby Digital. The same audio (main, sub, or main/sub) as the audio of the program being viewed is output. 2-channel audio with a sampling rate of 48 kHz or less is output as linear PCM audio.

Bitstream: For connecting to an audio system that supports Dolby Digital. Audio is output through both the main and sub channels.

NOTE
- Analog channel audio and video input audio are output in PCM mode even when "Bitstream" is selected.
- PCM digital input signals are output in PCM mode even when "Bitstream" is selected.

Audio Select
This function sets the terminal to output the computer audio. The adjustment items vary depending on the input source. Select the input source corresponding to the terminal connected to the PC and then adjust the desired item. To perform the operation, refer to "Setup" > "Advanced" > "Audio Select". (See page 7-1.)

NOTE
- "Audio Select" can only be set for the HDMI IN 3.

Output Select
Allows you to select what controls the audio output.

Fixed: Sound via speaker is adjusted with VOL+/- on the remote control unit or on the TV. Sound via the AUDIO OUT terminal is not adjustable and outputs at a consistent level.

Variable: Sound via the AUDIO OUT terminal is adjusted with VOL+/- on the remote control unit or on the TV. Sound via speaker is muted.
On-Screen Display Menu

**Setup (Continue)**

**Advanced**

**AQUOS LINK Setup**

Make the settings to use AQUOS LINK. Set the settings with "Setup" > "Advanced" > "AQUOS LINK Setup".
(See page 6-2.)

**Secret No.**

Allows you to use a secret number to protect certain settings from being accidentally changed.

---

**Setting Secret No.**

You can set and change the secret number by using 0-9.
- **Yes:** Changes or sets the Secret No.
- **No:** The confirmation screen to clear the Secret No. appears when the Secret No. has been set. When the Secret No. has not been set, the previous screen will be displayed.

**Delete Secret No.**

You can clear your secret number.
- **Yes:** Your secret number is cleared.
- **No:** Your secret number is not cleared.

**NOTE**

- As a precautionary measure, make a note of your secret number and keep it in a familiar place.
- If the secret number is cleared, the Status setting automatically sets to "Off", "V-Chip" and "Status" will not be selectable from the menu.

---

**Reset**

If complex adjustments are made and the settings cannot be restored to normal, you can reset the settings to the factory preset values.
- If you have already set the Secret No., input the 4-digit secret number here.

**NOTE**

- The Channel Setup settings will not be changed.
- The Language settings will not be changed.
- The Secret number settings will not be changed.
- The TV Location settings will not be changed.
On-Screen Display Menu

Example

Smart TV

Dashboard
You can display a list of the main Smart TV settings.

Internet Setup
Configures LAN and Internet settings.

Internet Connection
You can connect your TV to the Internet using the setting item "Internet Connection". (See page 8-2 to 8-4.)

Interactive Service
If you do not want other people to connect to the Internet in your absence, you can make settings to keep the TV away from the Internet. (See page 8-4.)

SmartCentral Settings
Switch to the SmartCentral Settings screen.

AQUOS Remote Control
Set this function when operating the TV from equipment connected by LAN or wireless LAN. (See page 7-2.)
Wallpaper

Activating the function will display still images when the TV is in standby mode.

Wallpaper Mode

Configures Wallpaper Mode settings.

Off: Nothing will be displayed.

Picture: Still images will be displayed when the TV is in standby mode.

Clock: The clock will be displayed when the TV is in standby mode.

NOTE

- The clock mode can only be used when a network connection has been established. Finish configuring the network settings.
- After you set the time once, the clock will continue to operate even if you disconnect from the network. However, you cannot switch the daylight saving time setting when disconnected from the network.

Data Source

For the wallpaper, you can select either the still images pre-installed in the TV or your favorite still images stored in the USB memory device or SD memory card.

Pre-Installed: The images pre-installed in the TV will be displayed in a slideshow.

SD/SDHC/USB: Your favorite images stored for the wallpaper will appear. If only a single still image is stored in the USB memory device or SD memory card, that image will be displayed as the wallpaper. When there are multiple still images in the memory, all the images will be displayed in a slideshow.

NOTE

- Images are displayed in 3-minute intervals as a slideshow.
- When the TV is in Wallpaper mode, you can turn off the TV by pressing and holding POWER on the TV for 5 seconds.
  - Just before the TV turns off, the last image shown when the TV was turned off appears briefly.
  - Your settings may not be saved in some cases.

When you display images by using the USB memory device or SD memory card:

- Create a folder named "WP" in the root directory of the USB memory device or SD memory card (the first directory when the USB memory device or SD memory card is opened), and store into the folder the still images you want to display for the wallpaper.
- You must insert the USB memory device or SD memory card to the TV before turning off the TV.
- If there are images on the USB memory device or SD memory card but they do not appear on the screen, switch to SD/USB mode and check whether the image files on the USB memory device or SD memory card are shown correctly.

Timer Setting

You can set the length of time the TV will remain in the Wallpaper Mode.

3 hours/6 hours/12 hours/24 hours

NOTE

- No buttons except for POWER work even while the still images are being displayed.
- If the ready-for-use USB memory device or SD memory card is not inserted, the still images pre-installed in the TV will be displayed in a slideshow even when "Data Source" is set to "SD/SDHC/USB".
- Because the USB memory device or SD memory card cannot be detected immediately after the TV is turned on from standby mode, the wallpaper pre-installed in the TV may be displayed even when "Data Source" is set to "SD/SDHC/USB".
- The still images will be displayed until the set time has elapsed.

Clock

Configures clock settings.

Set the type of clock to use in wallpaper mode.

Spring/Summer/Fall/Winter: A clock that represents the corresponding season will be displayed.

Random: A randomly selected clock from among the four types will be displayed.
Smart TV (Continue)

Bluetooth
Set this function when using the Bluetooth devices with your TV. See page 8-10,9-1 for how to use the devices.

NOTE
- When you use the Bluetooth device with your TV for the first time, you must make pairing between the device and the TV. Once the pairing is correctly carried out, the Bluetooth device will be registered on the TV.

Keyboard Setting/Mouse Setting/Other devices Setting
You can add, delete or select Bluetooth devices in the registration.

Addition of a Bluetooth Device
Before making the settings, press the Connect button on the Bluetooth device you want to connect.
1 Press ▲▼ to select "Search", and then press ENTER.
2 Model names of the detected devices will be displayed. Select the device with the message "New" attached, and then press ENTER.
   - When a keyboard is being paired with the TV, a PIN code will be displayed. Enter the PIN code using the keyboard, and then press "Enter" key on the keyboard.
   - When you perform pairing operation on a mouse, select "Yes", and then press ENTER.
3 After the message indicating the pairing is complete has been displayed, click "OK".

Deletion of a Bluetooth Device
1 Press ▲▼ to select the device to delete, and then press ENTER.
2 Press ▲▼ to select "Delete", and then press ENTER.

Selection of a Bluetooth Device
1 Press ▲▼ to select the device to use, and then press ENTER.
2 Press ▲▼ to select "Select", and then press ENTER.

NOTE
- See also the instruction manual supplied with the Bluetooth device.
- You can register up to 6 devices to the TV, but only one keyboard and mouse can be used at a time.
- If a device for which "Selected" is displayed does not operate properly, try searching and selecting the device again.
- The keyboard or mouse may not operate properly depending on the application being used.
- The Bluetooth device may not operate properly depending on the device being used.

Other Devices Setting
- Though up to six devices (smartphones) can be registered, only one can be used at a time.
- Repairing is required whenever you change the device being used.

To have TV power turn on automatically when a playback signal is received from a paired device while TV power is off, set "Quick Start Mode" to "ON".

On-Screen Display Menu

System Options

NOTE
- For operating the on-screen display menu, see page 4-3.

Power Control
Power control setting allows you to save energy.

Audio Only
When listening to music from a music program, you can turn the screen off and enjoy audio only.

NOTE
- The screen image will return to normal when a button (except those for audio adjustment, such as VOL, MUTE) is pressed.

Power Saving
This function allows you to set the Power Saving level in order to decrease the power consumption and increase the backlight lifespan.

Standard: Optimizes power reduction based upon video content. When set to "Standard", "小额贷款" appears on the screen.

Advanced: Optimizes power reduction based upon video content and engages Light Sensor. When set to "Advanced", "小额贷款" appears on the screen.

Off: This function does not work.

NOTE
- "Power Saving" does not function when you set AV MODE to "DYNAMIC (Fixed)".
- You cannot select a different Power Saving item for each AV MODE.
  When "Power Saving" is set, the "Automatic Light Sensor" settings for all AV Modes will automatically change.
  - If you set "Automatic Light Sensor" to "On" when "Power Saving" is set to "Standard", then the "Power Saving" setting will change to "Advanced".
  - When you change the "Power Saving" setting from "Advanced" to "Off" or to "Standard", "Automatic Light Sensor" will be set to "Off".
  - "DYNAMIC (Fixed)" will remain set to "Off".
  - When "Power Saving" is set to "Standard" or "Advanced", the Power Saving leaf icon appears to the left of "Automatic Light Sensor" in the Picture Settings menu screen.

No Signal Off
When this function is enabled, the TV automatically shuts down if no signal is received for more than 15 minutes.

NOTE
- When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.

No Operation Off
When you enable this function, the TV automatically shuts down if no operation is performed for more than 3 hours.

NOTE
- When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.
### System Options (Continue)

#### Shortcuts

These functions are useful for adjusting the audio and video settings. The Shortcuts functions can be operated with the remote control unit.

- **SmartCentral Home**
  Displays the SmartCentral home screen.

- **App Dock**
  The application window can be displayed by selecting "App Dock" on the MENU screen.

**NOTE**
- You can display the application window by pressing SmartCentral on the remote control unit. (See page 3-6.)

#### View Mode

This function changes the screen size. Select "Shortcuts" on the menu to display the View Mode menu screen. The View Mode menu varies depending on the input source.

**NOTE**
- You can select View Mode by pressing VIEW MODE on the remote control unit.
- See pages 3-14 and 3-15 for adjusting the video being input from a TV, other audiovisual equipment, USB-Video, SD-Video, Home Network Video or Internet applications.
- See page 3-16 for adjusting the video being input from a PC.

#### Freeze

Allows you to capture and freeze a moving image that you are watching.

**NOTE**
- You can select Freeze by pressing FREEZE on the remote control unit. See page 3-4 for details of Freeze function.

### Operation Lock Out

This function locks the operation buttons on the TV and the remote control.

- **Off**: No adjustment.
- **RC Control Lock**: All buttons on the remote control are locked.
- **Button Control Lock**: All buttons on the TV, except **POWER**, are locked.

When "RC Control Lock" or "Button Control Lock" is selected, a confirmation screen appears.

- **Yes**: Locks the operation buttons.
- **No**: No adjustment.

**NOTE**

To unlock the buttons on the remote control by using the control panel of the TV (see page 4-4):

1. Press **MENU** to display the MENU screen, press **VOL+/-** to select "System Options", and then press **INPUT**.
2. Press **CH/V** to select "Operation Lock Out", and then press **INPUT**.
3. Press **CH/V** to select "Off", and then press **INPUT**.
4. Press **MENU** to exit.

To unlock the buttons on the TV, press **MENU** on the remote control, and then select "Off" in "Operation Lock Out".

---

**ENG 4-31**
Information

NOTE
- For operating the on-screen display menu, see page 4-3.

Identification
The current version of the TV software is displayed.

Digital Caption Info. (Digital Caption Information)
This function allows viewing of digital closed caption information for the digital broadcast program being viewed.

NOTE
- This list is not displayed for analog broadcasts or external input audio/video.
- This information is not included in CC1, CC2, Text1, or Text2, and is not displayed in a list.

Software Update
This is used to upgrade the system software to enhance the TV functions.
1. Press MENU to display the MENU screen, and then press ▲▼ to select "Information".
2. Press ▲▼ to select "Software Update", and then press ENTER.
   - If you have already set the Secret No., go to step 3.
3. Input the 4-digit secret number by using 0-9.
4. Press ▲▼ to select "Manual Update" or "Auto Update Setting", and then press ENTER.
   - The operations thereafter vary depending on the setting.

Auto Update Setting
When the TV is on, or when an Internet application is being accessed, this function enables the TV to connect to the network and check for updates automatically.
When an update is available, a message is displayed.
Press ▲▼ to select "Yes", and then press ENTER to display the download screen.
(See page 4-34.)

NOTE
- This function does not work when a broadband connection or Internet Setup is not available.
- A message may also be displayed when an application is running. The message varies depending on the application.

Manual Update
Select the method for manually updating the software.
USB Update: Updates the software using a USB memory device containing the update file. (See "Updating the Software with a USB Memory Device").

Network Update: Downloads the update file via the network and then updates the software.
(See page 4-34.)

NOTE
- You cannot update the software using a SD memory card containing the update file.
- A broadband connection and Internet Setup are required to update the software using the network.
(See pages 8-2 to 8-4.)
- It may take time to access and download the update depending on the Internet connection and other factors.

Updating the Software with a USB Memory Device
To check for the availability of a software update, visit http://www.sharpusa.com/products/support/. If you have any questions, please call 1-800-BE-SHARP (800-237-4277).
On-Screen Display Menu

Information (Continue)

Software Update

Manual Update

CAUTION

- Do not remove the USB memory device or unplug the AC cord while the software is being updated.
- Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.

1 Insert the USB memory device with the update file into the USB 1, USB 2 or USB 3 terminal on the TV.
   - When you update the software, use only one USB terminal. Either USB 1, USB 2 or USB 3 is usable.

2 Press ▲▼ on the Manual Update screen to select "USB Update", and then press ENTER.

3 Press ENTER to start checking the data in the USB memory device.
   - The current version of the TV software and the version of the update file on the USB memory device are displayed.
   - If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed. Check the file on the USB memory device, and then reinsert the USB memory device correctly.

CAUTION

- Do not remove the USB memory device or unplug the AC cord while the software is being updated.
On-Screen Display Menu

Information (Continue)

Software Update

Manua Update

4 When the software is successfully updated, a screen is displayed indicating that the update process is completed.
After this screen is displayed, the TV automatically turns off and then turns on again.
- If the update has failed, check the file in the USB memory device and try Software Update again.
5 Remove the USB memory device.

Updating the Software via the Network
1 Press ▲▼ on the Manual Update screen to select "Network Update", and then press ENTER.
- The TV connects to the network and checks for updates.
- To cancel, press ENTER.
2 The current version of the TV and the latest version of software are displayed. To update the TV software, select "Yes", and then press ENTER.
- When a server connection cannot be established or an update is not available, a message is displayed.
If a server connection cannot be established, check the broadband connection and Internet Setup.
3 After the update file is downloaded, the software update process begins.

CAUTION
- Do not unplug the AC cord while the software is being updated.
4 When the software is successfully updated, a screen is displayed indicating that the update process is completed.
A screen indicating that the update is completed is displayed. 4 seconds later, the TV restarts automatically.
- If the software was not updated successfully, check the broadband connection and Internet Setup, and then try updating the software again.

Software License
Displays software version information.

Manual
Displays the built-in operation manual on the screen. You can read information about how to use this device.
Enjoying Photo/Music/Video Playback

Preparation
You can connect the TV to a USB memory device, USB hard drive, SD memory card or Home Network server to enjoy viewing pictures, listening to music, and watching videos.

NOTE
- Depending on the USB memory device/USB hard drive/SD memory card/Home Network server, the TV may not be able to recognize the recorded data.
- It may take time to read the recorded data if the USB memory device/USB hard drive/SD memory card/Home Network server contains many files or folders.
- Use only alphanumeric characters for naming files.
- File names over 80 characters (may vary depending on character set) may not be displayed.

Connecting a USB Memory Device/USB Hard Drive/SD Memory Card
Insert the USB memory device or SD memory card with recorded photos, music or videos into the USB 1, USB 2 or USB 3 terminal or SD memory card slot on the TV.
- If USB memory devices are inserted into multiple terminals, the USB 1 terminal has priority.

CAUTION
- Do not use a USB extension cable when connecting a USB memory device to the USB terminal on the TV.
- Using a USB extension cable with the USB memory device may prevent the TV from performing correctly.

Connecting a Home Network Server
Connect the TV to the Home Network server using an ETHERNET cable.
- You can also connect a Home Network server by using a wireless LAN.

NOTE
- Do not disconnect a Home Network server from the TV while transferring files, when a screen is switching to another or before you exit "Home Network" from the INPUT list.
- Do not connect and disconnect a Home Network server from the TV repeatedly.

• When connecting a USB hard drive, be sure to use a hard drive with an AC adapter.
• Do not remove a USB memory device or SD memory card from the TV while transferring files, using the slide show function, or switching screens, or before you exit "SD/SDHC/USB" from the INPUT list.
• Do not insert and remove a USB memory device/USB hard drive/SD memory card to and from the TV repeatedly.
• When using a card reader, be sure to insert a USB memory device first.
Enjoying Photo/Music/Video Playback

Selecting the Folders to Play Back

- To play back data on a USB memory device or SD memory card, insert the USB memory device or SD memory card on the TV. SD/USB mode is selected automatically. (Go to step 2)
- Use the following procedure to switch back to SD/USB mode after switching from SD/USB mode to another mode.

1. Select "SD/SDHC/USB" or "Home Network" from INPUT list screen.
2. Press D.
3. Press ▲▼ (or ◄►) to select the drive/server where you want to find your files, and then press ENTER.
   - For SD/USB mode, select the drive.
   - When in Home Network mode, select the server.
4. Press ◄► to select "Photo", "Music" or "Video", and then press ENTER.

Example

5. Press ◄► to select the desired folder, and then press ENTER.

NOTE
- The Media screen can be displayed even by using the application window. To display the application window, press SmartCentral. (See page 3-6.)
- You cannot switch the input mode if a USB memory device or SD memory card is not connected.
- You do not need to select the drive/server in step 3 when there is only one drive in the connected USB memory device or SD memory card or there is only one Home Network server connected to the TV.
- 16 is the maximum number of USB or SD drives and 10 is the maximum number of Home Network servers that can be displayed.
- If the TV is turned off and then on again, the number assigned to the USB or SD drive may change.

- The selected BGM is played repeatedly.
- The slide show continues until you press RETURN.
- For setting the slide show speed, select "Select Slide Show Interval" on the SD/USB MENU/Home Network Menu screen.
- The key guide display disappears automatically after a particular time has elapsed. To display the key guide display again, press DISPLAY.
Enjoying Photo/Music/Video Playback

Playing Back Files on a USB Memory Device/SD Memory Card/Home Network Server (Continue)

SD/USB MENU
On the menu to be displayed in SD/USB mode, use ▲▼ to select an item and make settings to your preferences.

Example

Select Slide Show Interval
Specify the length of time before the next image appears. Press ▲▼ to select the desired length of the time, and then press ENTER.
5sec/10sec/30sec/60sec

NOTE
- For Home Network mode, follow the same procedure.
- Depending on the photo files, the length of the slide show interval may differ from the selected interval time.

Select Slide Show BGM
The music list screen appears when you select "Select Slide Show BGM". You can select the music to be played in the background while the slide show is being displayed.
1. Select the music you want to play from the music list.
   - For operations on the music list screen, see "Music Mode".
2. Press RETURN to display the thumbnail selection screen, and then press C to start the slide show and the background music.

NOTE
- All of the music files are selected by default.

Set/Reset All Slide Show Image
Selecting "Set All Slide Show Image" or "Reset All Slide Show Image" will display the thumbnail selection screen. On the screen, set or reset the images to be displayed in the slide show.

Set All Slide Show Image: Checkmarks are added to all the images.
Reset All Slide Show Image: Removes all the checkmarks from all the images.

Sort
You can change the way in which files are ordered. Press ▲▼ to select "new→old", "old→new", or "File name order", and then press ENTER.

Remove SD/USB Media Device
To remove the USB device or SD memory card properly, use ◀▲ to select "Yes" and then press ENTER.
Enjoying Photo/Music/Video Playback

* During playback of a file without chapters, playback points are set automatically. Playback points are set at intervals of a one-tenth of playback time.
Example for a file with a playback time of 100 minutes:
Playback points are set every 10 minutes. Pressing ‹‹‹‹‹‹ one time after viewing the file for 15 minutes jumps to the 20-minute playback point.
Enjoying Photo/Music/Video Playback

Playing Back Files on a USB Memory Device/SD Memory Card/Home Network Server (Continue)

**NOTE**
- Reverse/fast forward continues from one file to another during continuous playback.
- Use "CC" on the operation panel to change the Closed Caption display. You can also switch the Closed Caption display by using "System Options" > "Shortcuts" > "Change CC" or by pressing CC on the remote control unit.
- Use "Audio" on the operation panel to change the audio. You can also switch the audio by using "System Options" > "Shortcuts" > "Change Audio".

Playing Back Files from a Portable Device or PC

With the remote playback function, you can use your portable device to play back pictures, video, and music on the Home Network server.

- To use the remote playback function, your portable device must be a DLNA Certified Digital Media Controller.
- A wireless access point is required to use a portable device.

Set Up Home Network

Make the settings for remote playback.

1. Press \( \text{SELECT} \) to select "Smart TV", and then press \( \text{ENTER} \).
2. Press \( \text{SELECT} \) to select "Home Network", and then press \( \text{ENTER} \).
3. Press \( \text{SELECT} \) to select the specific adjustment item, and then press \( \text{ENTER} \) to set each item.

Remote Control Play Settings

This setting allows the TV to perform remote playback.

- Permitted/Not allowed

Timeout Setup

This sets the time until the TV returns automatically to TV mode after remote playback ends.

- 10 sec./60 sec./No

NOTE

- This function may not work while an Internet application is being used.
- For information on the compatible formats, see "Home Network Server Compatibility" on page 5-3.
Enjoying Photo/Music/Video Playback

Presetting Remote Control Function

You can operate the connected AV products (AV receiver, cable box, SAT tuner, DTV, VCR, BD, DVD, LD) using the presetting manufacturer function of your remote control unit.

Presetting manufacturer codes

1 Press an appropriate button (STB, DVD-VCR, or AUDIO) to operate the connected equipment.
2 Press an appropriate button (STB, DVD-VCR, or AUDIO) and DISPLAY at the same time to enter the code registration mode.
3 Press 0–9 to enter the manufacturer code.
   - Preset mode is finished once the LED no longer lights up.
4 After registering the code, the LED will stop blinking then turn off after one second. (If you perform an incorrect operation, the LED will blink quickly then turn off.)

Operating the Connected Equipment

To operate the connected equipment, press STB, DVD•VCR or AUDIO to select your device. (STB (cable/satellite set-top box), BD, DVD, VCR or AUDIO.) The remote control unit button will function as follows.

- When you operate VCR, DVD or BD, press INPUT to select the terminal connected to your device.
- CABLE and SAT cannot be selected at the same time.

1 POWER (SOURCE)
- Turns the connected equipment power on and off.
2  ❯
- Starts playback. (VCR, BD, DVD)
3  ◀
- Rewinds the tape and allows picture search. (VCR)
- Hold down to go in reverse. (BD, DVD)
4  ■
- Stops the tape transport. (VCR)
- Playback stops when pressed. With some Blu-ray disc/DVD players, pressing the button twice may open the disc tray. (BD, DVD)
5  ◀◀
- Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter. (BD, DVD)
6  0–9, • (DOT)
- Press a button (or buttons) that corresponds to the channel that you wish to watch. (STB)
7  ▶
- Rapidly advances the tape and allows picture search. (VCR)
- Hold down to fast forward. (BD, DVD)
8  ■ ■
- Sets pauses and still pictures. (VCR, BD, DVD)
9  ◀▶
- Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter. (BD, DVD)
10 FLASHBACK
- Press to switch between the current channel and the channel you were watching immediately before. Some manufacturers do not preset FLASHBACK. (STB)
11 CH/CH
- Press CH/CH or CH/CH to tune in to a higher or lower channel. (STB)
- Press to select the channel of the TV tuner on the VCR. (VCR)
12 MENU
- When this button is pressed, the BD/DVD menu will display. (BD, DVD)
13 ▲▼▲▼ ENTER
- Press the button to select items on the STB GUIDE screen or STB MENU screen. (STB)
- Press the button to select items on the BD/DVD menu screen. (BD, DVD)
- ENTER: Press to activate the selected function. (STB, BD, DVD)
Using AQUOS LINK

Controlling HDMI Equipment Using AQUOS LINK

What’s AQUOS LINK?
- Using the HDMI CEC (Consumer Electronics Control) protocol, with AQUOS LINK you can interactively operate compatible system equipment (Blu-ray disc equipment, AV amplifier, DVD).
- By connecting AQUOS LINK-compatible devices with HDMI-certified cables to the TV, you can control a recorder or AV amplifier using the remote control of the TV.
- AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

**NOTE**
- Connect 4K signals (HDCP2.2) to the HDMI IN 4 terminal. These signals will not be displayed if connected to the HDMI IN 1, 2, or 3 terminals.
- For connecting the TV to AQUOS LINK-compatible equipment, use commercially available cables.
- Point the remote control toward the TV, not to connected HDMI equipment.
- Video noise may occur depending on the type of HDMI cable used. Make sure to use an HDMI-certified cable.
- Up to 3 pieces of HDMI recording equipment and one AV amplifier can be connected using this system.
- These operations affect the HDMI equipment selected as the current input source. If the equipment does not operate, turn on the equipment and select the appropriate input source using INPUT.
- The AQUOS LINK feature may not operate properly when an HDMI splitter or AV selector unit is used. These devices may cause interruptions to the image and/or sound.

Connected AQUOS LINK-compatible devices can be operated without changing the settings of the remote control unit.
- The OPTION button will function only when AQUOS LINK is used.

**One Touch Play**
While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

**Single remote control**
The AQUOS LINK automatically recognizes the connected HDMI device and you can control the TV and the devices as if using a universal remote control.

**Control the AQUOS LINK-compatible audio system**
Set the volume of AQUOS LINK-compatible audio system.

**NOTE**
- The above description is an example of the AQUOS LINK function.
- The steps in “AQUOS LINK Setup” on page 6-2 need to be completed beforehand.
- Refer to this operation manual and the operation manual of the AQUOS LINK device to be used with this TV.
Using AQUOS LINK

Controlling HDMI Equipment Using AQUOS LINK (Continue)

AQUOS LINK Setup
Make the settings to use AQUOS LINK. Set the settings with "Setup" > "Advanced" > "AQUOS LINK Setup".

AQUOS LINK Control
Select AQUOS LINK Control to disable the AQUOS LINK function even when an AQUOS LINK-compatible HDMI device is connected to the TV. This function prevents the device from starting to operate unexpectedly.

Auto Power On
If this is activated, the One Touch Play function is enabled. While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

Selecting Recorder
When multiple AQUOS LINK-compatible devices are connected, this function allows you to set the recorder.

Channel Select Key
This function can be set for each input terminal. The remote control unit of the TV can be used to select the channel, display program information, and perform other operations of the connected AQUOS LINK-compatible equipment.

Audio Return Channel
This function allows you to listen to the TV audio via audio equipment without using an optical fiber cable, which conventionally is required.

Requirements for using an ARC-compatible AV amplifier:
- ARC-compatible AV amplifier connected to the ARC-compatible HDMI IN 1 terminal.
  (Refer to the operation manual of the ARC-compatible equipment for details.)
- Use of an ARC-compatible cable.

Auto: You can listen to the TV audio with ARC-compatible audio equipment.
Off: This function does not work.

NOTE
- If the TV audio cannot be output from the AV amplifier even after making the necessary settings, connect the TV to the AV amplifier with an optical fiber cable and select "Off".
Controlling HDMI Equipment Using AQUOS LINK (Continue)

### One Touch Playback

AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

Press  to start playing back a title.

- The last played program is played back. You can use the following buttons during broadcast viewing.

<table>
<thead>
<tr>
<th>Buttons</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>POWER (SOURCE)</td>
<td>Turns the power of the HDMI connected devices on and off.</td>

<td></td>
<td>Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter.</td>
</tr>
<tr>
<td></td>
<td>Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter.</td>
</tr>
</tbody>
</table>

**NOTE**

- The buttons do not function with the following Blu-ray disc players currently available.
  - BD-HP20U, BD-HP50U
Using AQUOS LINK

Link Operation Menu

The Link Operation Menu allows you to make adjustments during operation of AQUOS LINK-compatible equipment.

1 Press OPTION to display the Link Operation Menu.
2 Press ▲▼ to select the desired item, and then press ENTER.
   • Specific operations differ depending on the item you select. Following are the basic operations for each item.

**Recorder Power On/Off**
You can manually turn on/off the power of the connected AQUOS LINK-compatible equipment. Each time you press ENTER, the connected equipment switches on or off.

**Device Operation Panel**
You can use the device operation panel to control playback operations.
Press ▲▼◄► to select the desired operation.

**NOTE**
• This function works only when AQUOS LINK-compatible equipment with the Device Operation Panel function is connected.

**Play from Rec. List**
This function allows you to display the title list for the connected equipment and to play back the title you want to enjoy.

**Before using this function.**
Power on the AQUOS LINK-compatible equipment, and select the appropriate external input. Select the title with ▲▼◄►, and then press ► to start playback.

**NOTE**
• This function works only when AQUOS LINK-compatible equipment is connected.
Using AQUOS LINK

Link Operation Menu (Continue)

Show Start Menu
You can call up a setup menu from the connected AQUOS LINK-compatible equipment.

**NOTE**
- Depending on the status of the equipment (recording or in standby mode, etc), the setup menu will not be displayed.
- The setup menu will not be displayed with the player BD-HP20U currently available.

Change Media of Device
You can switch the media (HDD or DVD) for playback or recording on the AQUOS LINK-compatible recorder.

The Media type toggles each time you press **ENTER** in "Change Media of Device".

Link Booking (Rec. Book)
You can call up the AQUOS LINK-compatible recorder's EPG and preset timer recordings using the TV's remote control.

Select the program on the recorder's EPG.

**NOTE**
- This function works only when an AQUOS LINK-compatible recorder is connected.
- Refer to the operation manual of the recorder for details.

Change Audio Output Device
You can select to listen to the TV sound only from the AQUOS LINK-compatible audio system.

- **By AQUOS audio SP**: The sound from the TV speaker is muted and only the sound from the AQUOS LINK-compatible audio system is audible.
  - You can use **VOL+/-** and **MUTE**.
- **By AQUOS SP**: The sound is output from the TV speaker.

Change Surround Mode
You can manually change the AQUOS AUDIO speaker system's sound mode.

The sound mode changes each time you press **ENTER**.

Refer to the operation manual of the AQUOS LINK-compatible audio system for details.

HDMI Device Selection
If multiple HDMI devices are connected in a daisy chain, you can specify which device to control here.

Press **AV MODE** to select the desired device from a list of connected HDMI devices, and then press **ENTER**.

AQUOS Link Setup
You can also display the AQUOS LINK Setup screen from the Link Operation Menu.

Start/Stop Recording
You can also use the Link Operation Menu for recording on the connected AQUOS LINK-compatible equipment.
Using AQUOS LINK

Using a Smartphone with the TV

This function enables you to connect the TV to a smartphone that supports Mobile High-Definition Link (MHL™) using an MHL cable.

To connect the TV to your MHL-compatible smartphone, be sure to use an MHL cable (commercially available).

- You can view pictures and video on a large screen.
- You can play back music files.

**NOTE**

- An MHL-compatible portable device is required to use this function. Connect the device to the HDMI IN 4 terminal.
- This product incorporates MHL 1.

**Auto Power On**

When an MHL-compatible device is connected to the TV, the TV turns on automatically.

- This function operates when "AQUOS LINK Control" is set to "On". (See page 6-2.)

**Auto Input Selection**

When an MHL-compatible device is connected while the TV is on, the input mode is selected automatically.

- This function operates when "AQUOS LINK Control" is set to "On". (See page 6-2.)

**Operation Using the Remote Control**

The remote control of the TV can be used to operate a portable device.

- ▲▼▲▼ ENTER, EXIT, 8-9, • (DOT), ENT, etc.
- The operations vary depending on the connected equipment and content being viewed.
Using a PC

Setting Audio Input

Audio Select

This function sets the terminal to output the computer audio. The adjustment items vary depending on the input source. Select the input source corresponding to the terminal connected to the PC and then adjust the desired item. To perform the operation, refer to "Setup" > "Advanced" > "Audio Select".

HDMI 3

HDMI(Digital): Select this when the TV and PC are connected using an HDMI-certified cable and audio is input via the same cable.

HDMI+Analog: Select this when the TV and PC are connected using a HDMI-certified cable and the audio is input via a Ø 3.5 mm stereo minijack.

NOTE

- When "Audio Select" is set to "HDMI(Digital)", sound will not be produced if you use only an HDMI-certified cable to connect HDMI-compatible equipment. To produce sound, you should make an analog audio connection.
- If you want to connect HDMI-compatible equipment using only an HDMI-certified cable, set "Audio Select" to "HDMI(Digital)".
Using a PC

Control of the TV

- The TV can be controlled from a PC, control panels and other devices using the RS-232C or IP.
- Use a cross-type RS-232C cable, ETHERNET cable (commercially available) or wireless LAN for the connections.

**NOTE**
- This operation system should be used by a person who is accustomed to using computers.

AQUOS Remote Control

Set this function when operating the TV from equipment connected by LAN or wireless LAN. To perform the operation, refer to "Smart TV".

Remote Control App

When "Remote Control App" is selected, "Change" will be highlighted. Press ENTER.

Detailed Settings

Make the detailed settings (Login ID, password, etc.).
Follow the on-screen instructions to configure the settings.

TV Name Setting

Set the name of the TV displayed on other network devices.
- Use the software keyboard to set the name.
  See page 4-26 for details on the software keyboard.

---

### Communication Conditions for IP

<table>
<thead>
<tr>
<th>Connect to the TV with the following settings made for IP on the PC.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>IP protocol:</strong></td>
</tr>
<tr>
<td><strong>Host IP address:</strong></td>
</tr>
<tr>
<td><strong>Service:</strong></td>
</tr>
<tr>
<td><strong>TCP port#:</strong></td>
</tr>
</tbody>
</table>

When you set your ID and password on the TV menu, you need to enter them as soon as you connect to the TV.

**NOTE**
- When you use this function, make settings for "AQUOS Remote Control".
- The connection will be cut off when there has been no communication for 3 minutes.

### Communication Conditions for RS-232C

Set the RS-232C communication settings on the PC to match the TV's communication conditions. The TV's communication settings are as follows:

| **Baud rate:** | 9,600 bps |
| **Data length:** | 8 bits |
| **Parity bit:** | None |
| **Stop bit:** | 1 bit |
| **Flow control:** | None |

**Communication procedure**

Send the control commands from the PC via the RS-232C or IP.
The TV operates according to the received command and sends a response message to the PC.
Do not send multiple commands at the same time.
Wait until the PC receives the OK response before sending the next command.
Using a PC

*1: When connecting 4K equipment, use HDMI IN 1, 2, 3 or 4 terminal.
*2: When connecting 4K60P equipment, use HDMI IN 1, 2, 3 or 4 terminal.

NOTE

When connecting HDCP 2.2 equipment, use HDMI IN 4 terminal.
Using the Internet

Connecting to the Internet

By connecting your TV to a broadband system, you can access the Internet from the TV.

- You can enjoy a variety of streaming content and Internet applications.

(See pages 8-11 to 8-13.)

NOTE

- To connect your TV to the Internet, you must have a broadband Internet connection.
- If you do not have a broadband Internet connection, consult the store where you purchased your TV or ask your Internet service provider or telephone company.
- When an Internet connection is made, an Ethernet and wireless connection cannot be used at the same time. Use only one of the connection types.

Using an ETHERNET cable

Use an ETHERNET cable (commercially available) to connect the ETHERNET terminal on the TV to your broadband router (commercially available).

![Diagram of ETHERNET connection]

Using the wireless LAN

This TV is equipped with a wireless LAN function.

For a wireless LAN connection, you must use "Wireless Setup" to connect the access point and TV.

![Diagram of wireless LAN connection]

NOTE

- This TV has a built-in wireless LAN function. Using a separate wireless USB LAN adapter may result in radio communications that do not comply with regulations on radio communications. Therefore, do not use a separate wireless LAN adapter.
- A wireless LAN connection and performance cannot be guaranteed for all residential environments. In the following cases, the wireless LAN signal may be poor or drop, or the connection speed may become slower:
  - When used in buildings made with concrete, reinforced steel, or metal
  - When placed near objects that obstruct the signal
  - When used with other wireless devices that emit the same frequency
  - When used in the vicinity of microwave ovens and other devices that emit a magnetic field, electrostatic charge, or electromagnetic interference

- When there is significant interference in the 2.4-GHz frequency (such as from other wireless LAN devices, Bluetooth® devices, 2.4-GHz cordless telephones, and microwave ovens), it is recommended that you use a wireless LAN router/access point that supports IEEE802.11a/n (5 GHz) and set the access point to transmit at 5 GHz. For setup details, see the operation manual of your access point.
Internet Setup

Perform the procedure below to make adjustments or to confirm the settings for accessing the Internet.

1. Press MENU to display the MENU screen, and then press ENTER.
2. Press ▲▼ to select "Smart TV", and then press ENTER.
3. Press ▲▼ to select "Internet Setup", and then press ENTER.
4. Press ▲▼ to select "Internet Connection" or "Interactive Service", and then press ENTER.
   - Select "Internet Connection" when you make general adjustments to connect to the Internet.
   - If you want to make settings to restrict access to the Internet, then select "Interactive Service".
5. Press ▲▼ to select a specific item, and then press ENTER.
6. Press ▲▼ (or ▶▼) to select the desired setting, and then press ENTER.
7. Press MENU to exit.

Internet Connection

You can connect your TV to the Internet using the setting item "Internet Connection".

Auto Setup

Adjustments for network connection will be made automatically. Select "Wired" or "Wireless" and follow the instructions displayed on the screen.
- Automatic adjustments for wireless LAN connection can be made only for the WPS method.
- If your access point uses any other method, perform "Manual Setup".

Manual Setup

You can make adjustments manually for network connection.

Connection Type

Select the connection type.
- Wired: The signal is detected and setup is performed automatically. Use "IP Setup" to check and change the settings as necessary.
- Wireless: Configure the access point settings on "Wireless Setup".
Internet Setup (Continue)

Wireless Setup
Make adjustments and confirm the settings necessary for wireless LAN connection (such as search for the access point and registration of it).

WPS push button: Allows the TV to automatically establish the connection using a button on the access point.

WPS PIN code: Sets up the connection by registering a PIN code for the access point.

Selecting wireless network: Searches for and selects the access point to be connected.

Registering wireless network: Allows you to make the connection by entering an SSID for the access point.

If your access point supports Wi-Fi Protected Setup (WPS push button method), it is recommended that you use this function for the wireless connection. You can press the WPS button on the access point to configure the settings automatically.

The name of the WPS button function may differ depending on the access point. See the operation manual of the access point for details.

1 Confirm the current settings in "Connection Type".
   - If "Wired" is selected, press ▲▼ to select "Wireless".

2 Press ▲▼ to select "Wireless Setup", and then press ENTER.

3 Press ▲▼ to select "Change", and then press ENTER.

4 Select the desired connection method and follow the instructions shown on the display.

5 When a connection is established, the connection details are displayed. Press ENTER.

NOTE

- Operations cannot be guaranteed when used with access points that do not have Wi-Fi® certification.
- A wireless LAN router/access point is required to connect the TV to the Internet using a wireless LAN. See the operation manual of your access point for setup.
- If your access point is set to a stealth mode (that prevents detection by other devices), you may not be able to establish a connection. In this case, disable the stealth mode on the access point.
- A stable connection speed is required to play back streaming content. Use an Ethernet connection if the wireless LAN speed is unstable.
- Before transferring to a third party or disposal, be sure to initialize the wireless LAN settings.
- Please follow the legislation in your country when using the wireless LAN outdoors.

IP Setup

You can make adjustments manually for the IP.

- Check that numbers are displayed for each setting.
- If there are any settings without numbers, specify the numbers by following the on-screen instructions.
- Input the IP address by using remote control buttons 0-9.

Example
Using the Internet

Internet Setup (Continue)

Connection Test

After the connecting and setting procedures have been completed, you can check that the preparation is correct.

Press “Yes” to start the “Connection Test”.

- When the test results are displayed, follow the instructions shown on the screen.

Interactive Service

If you do not want other people to connect to the Internet in your absence, you can make settings to keep the TV away from the Internet.

- Input the 4-digit secret number by using 0-9.

NOTE

- If you have failed to connect to the Internet in the above operation, then an error message will appear. In this case, press EXIT to exit from the connected TV feature to make changes to the network settings.
- If you still cannot connect to the Internet, please consult your Internet service provider or telephone company.
- When an application is used, you cannot make settings for "Internet Setup".

If you need to make the settings of "Internet Setup", press EXIT to exit from the connected TV feature.

If you cannot connect to the Internet

If the TV fails to connect to the Internet, then select "Internet Connection" and;

- When the TV is in a wired LAN connection, make sure the values for "IP Setup" are all correctly set.
- In the case of a wireless LAN connection, check the settings of "Wireless Setup".
Using the Internet

Entering Text (Software Keyboard)

When you are editing an input screen or specifying the Network settings used for accessing the Internet, enter text from the software keyboard.

NOTE

- You can enter up to 128 characters for text.
- Some special characters or diacritics may not be available depending on where you enter the text.

The text you enter is displayed as you type it in.

While you are entering text, likely input conversion candidates are displayed based on what you typed in.

|(Caps Off/Caps Lock)| If "alphabet" is selected, this switches characters between uppercase and lowercase. Each time you press ENTER, the character type switches as shown below:
|Caps Off: all the characters are lowercased |
|Caps Lock: all the characters are uppercased |
|é(é)(é) (alphabet/Sign)| Press ENTER to select the type of characters entered: alphabet, or sign.

Using the Toolbar

You can use the toolbar to control the browser and to specify settings.
1 When the cursor is moved to the top of the display by pressing ▲, the toolbar will be displayed.
2 Press ▶ to select a function, and then press ENTER.

Browsing Web Contents

You can display the web content you want to enjoy.
1 When the cursor is moved to the top of the display by pressing ▲, the toolbar will be displayed.
2 Press ◄ to move to the address area in the toolbar, and then press ENTER.
   • The Enter Address menu is displayed.
3 Enter an address, and then press ENTER.
   • The web content you want to view is displayed.
Using the Internet

Using the Browser (Continue)

CAUTION
- If the power is cut due to a power failure or the TV being unplugged while you are using the Internet, information such as bookmarks or cookies may not be saved correctly.

NOTE
When a security notification window is displayed:
- Press ENTER to close the window.
- This window appears when you visit a web page that has security protection, or when you move from a protected page to an unprotected page.

About links
- Web pages on the Internet often include "links" that allow you to jump to other web pages (or sites).
- "Links" can take various forms, including words or images, but they always work in the same way letting you jump to the link destination when you select them.
- Selected items (such as links of text input fields) are enclosed in a frame.
- You can jump from a "link" to the corresponding link destination.

DISCLAIMERS
SHARP corporation bears no responsibility regarding the content and quality of the content provided by the content serve provider.

To users who access the Internet from a PC
- When you access the Internet from this TV, the procedures may not be the same as regular browser-based access on a PC.
- On some pages, video and audio, text or images may not be displayed correctly.
Using the Internet

Using the Browser (Continue)

Browser Settings

You can check or modify your browser settings from the Browser menu.

1. When the cursor is moved to the top of the display by pressing \( \uparrow \), the toolbar will be displayed.

2. Press \( \downarrow \) to select " " in the toolbar, and then press ENTER.

3. Press \( \uparrow \) to select and confirm the item you want to set.

4. Press \( \uparrow \) to specify the required setting, and then press ENTER.
Using the Internet

Using Keyboard and Mouse

You can use a keyboard or mouse for operating the TV while using the browser.

- When you use the USB devices, connect the device to the USB terminal on the TV.
- When you use the bluetooth device, make necessary settings with "Bluetooth". (See page 4-24.)

**NOTE**

- The keyboard and mouse can only be used on a browser screen.
- The keyboard or mouse may not operate properly depending on the application being used.
- The software keyboard cannot be used by the keyboard and mouse connected via Bluetooth even on the browser screen.
- The bluetooth device may not operate properly depending on the device being used.
Using the Internet

Using Applications via the Internet
By connecting the TV to the Internet, you can enjoy a variety of broadband content, including videos, music and photos.

Please check that the most current software is loaded on TV by selecting "Auto Update Setting" on "Software Update" (see page 4-32) or by visiting http://www.sharpusa.com/products/support/ to check for a download of the newest software version.

Use the application window to access your favorite Internet applications. Press SmartCentral to display the application window.

Follow the on-screen instructions for each application.
- When using this TV to access an Internet application for the first time, the Disclaimer appears on the screen. Press ▲▼ to select "Agree", and then press ENTER. (You must select "Agree" to use the application.)
- Check the web site of the provider for details on setup and use of the functions.

NOTE
- If "F00E" or "F00D" is displayed, check your TV's network settings and connection.
- Additional applications will be available in the future.
- These applications are provided by content providers. The available applications vary depending on your country or region.
- The delivery speed of applications varies depending on the network speed. Check the web site of the provider for details on application setup and other information.

Using the Application Window

During Dock Display
You can move the application icons and delete any unused icons.

Example

1 Select an application, and then press ▲.
2 Press ▲▼ to select "Move App" or "Delete App", and then press ENTER.

Move the Icons
You can move the icons of the more commonly used applications closer to the left.
Press ▲▼ to move the icon to the desired location.

Delete an Application
Select "Delete App" to delete the icon.

Saving Favorite Applications
You can set your favorite applications to the FAV APP1, 2, and 3 buttons on the remote control for easier startup.
The applications whose icons are moved onto 1, 2 and 3 during Dock Display will be assigned to the FAV APP 1, 2 and 3 buttons respectively.

NOTE
- The SmartCentral icon cannot be moved or deleted.
Using the Internet

Using Applications via the Internet (Continue)

During Gallery Display

During Dock display, press SmartCentral again to display a list of applications by category.

1. **Press** \[\textgreater \textless \textgreater \textless \textgreater\] to select a category, and then press \(\text{ENTER}\) or \(\downarrow\).
2. **Press** \[\textgreater \textless \textgreater \textgreater \textgreater\] to select an application, and then press \(\text{ENTER}\).

1. Displays the categories.
   - TV: Displays broadcast programs.
   - Streaming: Displays VOD content.
   - Apps: Displays various apps offered by AQUOS.
   - Search: Allows you to search broadcast programs and VOD.
   - Settings: Allows you to configure various settings for this function.
2. Displays a list of contents and applications for the selected category.
3. Displays the image now playing.
4. Provides a description of the selected item.

Deactivating Netflix Function

You can deactivate the Netflix function. Refer to "Information" > "Netflix Help" and select "Deactivate".
- To confirm the Netflix status, check the information displayed on the screen and click "OK".

Deactivating the VUDU Function

To deactivate the VUDU function, refer to "Information" > "VUDU Help" and select "Yes". When you access the Internet application for the first time, the following appears.
- This message is available only in English.
Using Applications via the Internet (Continue)

SmartCentral TV/Streaming
When "TV" or "Streaming" is selected on the SmartCentral screen, a list of broadcast programs or VOD is displayed.

1. (TV)Guide: Displays a list of all broadcast programs.
2. (Streaming)New: Displays a list of new content.
3. Popular: Displays popular programs.
4. Favorites: Displays programs/content sorted by favorite genre as set in Settings.

NOTE
- To display broadcast programs, you must set your ZIP code and TV provider on the Settings screen.
- To display streaming content, you must select the apps on the Settings screen. However, the set apps may not be displayed on the list depending on the region.

SmartCentral Search
You can search across broadcast programs and VOD.

AQUOS Advantage Live
When you select this app on the SmartCentral screen, you can use the remote support function from the support center and display the network status.

NETFLIX  

VUDU Movies & TV  

YouTube
Using the Bluetooth/Miracast devices

Bluetooth devices
You can listen to music from your TV when you connect a smartphone or other Bluetooth music player to your TV.
And when "Quick Start Mode" is set to "ON", you can also turn on your TV with a Bluetooth signal. (The TV automatically goes to the Bluetooth Music playback screen)

1 Switch the TV input to "Bluetooth".

NOTE
- Before using a Bluetooth device, you must pair it to the TV with "Menu" > "Smart TV" > "Bluetooth" > "Pairing New Device" > "Other Devices Setting".
- When the Bluetooth device is connected to the TV over a wireless LAN, Bluetooth audio may be interrupted depending on the status of the TV's connection to the access point.

Miracast devices
When you connect a device such as a Miracast-compatible smartphone or tablet to this TV, you can enjoy video and audio from the device on the TV's large screen and speakers.

1 Switch the TV input to "Screen Sharing".
2 Enable the Miracast function on the Miracast device and connect to the TV.
   (The TV screen changes according to the behavior of the device)

NOTE
- When the TV is turned off or the connection is ended on the device, you must connect the device again.
- When connecting using a PIN code, first select the corresponding menu on the "Miracast Screen Sharing" menu, and then perform the operations from step 1.
- If you want to specify the preferred band to use with this function, select the corresponding menu on the "Miracast Screen Sharing" menu.
- For details about the operation of the Miracast-compatible device, check the manual for that device.
- When the Miracast device is connected to the TV over a wireless LAN, Miracast video may be distorted and Miracast audio may be interrupted depending on the status of the TV's connection to the access point.
Appendix

Removing the Stand

- Before detaching (or attaching) the stand, make sure to turn off the TV and unplug the AC cord.

**CAUTION**

- Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.

1 Unfasten the four screws used to secure the stand in place.

Example

2 Detach the stand from the TV.

**NOTE**

- Be sure to always carry the TV by two people holding it with two hands.

- In the installation procedure, be careful not to catch your fingers between the TV set and the floor.
## Setting the TV on the Wall

Using an optional bracket to mount the TV
- You can ask a qualified service professional about using an optional AN-52AG4 bracket to mount the TV on the wall.
- Carefully read the instructions that come with the bracket before beginning work.

**CAUTION**
- This TV should be mounted on the wall only with the wall mount bracket AN-52AG4 (SHARP). The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.
- Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.

- Refer to the operation manual of AN-52AG4 for details.

The wall mount kit (sold separately) allows you to mount the TV on the wall. For detailed information on installing the wall mount, see the instructions provided with the product. We recommend you to contact a technician for assistance when installing it. SHARP is not responsible for any damage to the product or injury to yourself or others if you elect to install the wall mount on your own.

**CAUTION**
- Install your wall mount on a solid wall perpendicular to the floor. When you want to attach the wall mount to surfaces other than plaster board, please contact your nearest retailer/adviser for additional information. If you install the TV on a ceiling or slanted wall, it may fall and result in severe personal injury. Always have two people mount the TV on a wall.

**NOTE**
- Due to the terminal configuration on this TV, when you wall-mount this model, make sure there is enough space between the wall and the TV for the cables.
- To use this TV mounted on a wall, remove the AC cord holder on the rear of the TV, and then use the screws supplied with the wall mount bracket to secure the bracket to the rear of the TV.
* The location of the AC cord holder differs depending on whether it is in its shipment location (A) or has been used as a cable tie (B).

**NOTE**
- Do not mount the TV at a tilt.
- Do not use screws that do not comply with the VESA standard screw specifications.
- Do not use screws that are longer than the standard length. Screws that are too long may cause damage to the inside of the TV.
- Do not fasten the screws too firmly or loosely. This may damage the product or cause the product to fail, leading to personal injury. SHARP is not liable for these kinds of accidents.
- SHARP is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.

Caution: Do not install the wall mount kit while your TV is turned on. It may result in personal injury due to electric shock.

## Troubleshooting

| No power | • Check if you pressed POWER on the remote control unit.  
  • Is the AC cord disconnected?  
  • Has the power been turned on? |
| Unit cannot be operated. | • External influences such as lightning, static electricity, may cause improper operation. In this case, operate the unit after first turning off the power of the TV or unplugging the AC cord and replugging it in after 1 or 2 minutes.  
  • Is the AC cord disconnected?  
  • Has the power been turned on? |
| Remote control unit does not operate. | • Is the equipment to be operated by the remote control unit set correctly?  
  • Press TV to set the remote control unit to the setting for operating the TV.  
  • Are batteries inserted with polarity (+, -) aligned?  
  • Are batteries worn out? (Replace with new batteries.)  
  • Are you using it under strong or fluorescent lighting?  
  • Is a fluorescent light illuminated near the remote control sensor?  
  • Is "RC Control Lock" selected in "Operation Lock Out"?  
  • Page 4-31 |
| Picture is cut off/with sidebar screen. | • Is the image position correct?  
  • Page 4-29  
  • Are screen mode adjustments such as picture size made correctly?  
  • Pages 3-14 to 3-16 |
| Strange color, light color, or color misalignment | • Adjust the picture tone.  
  • Pages 4-5 to 4-10  
  • Is the room too bright? The picture may look dark in a room that is too bright. |
| Power is suddenly turned off. | • Is the sleep timer set?  
  • Pages 3-9  
  • Check the power control settings.  
  • Page 4-27  
  • The unit’s internal temperature has increased. Remove any objects blocking vent or clean. |
| No picture | • Is connection to other components correct?  
  • Is the correct input selected?  
  • Pages 2-1  
  • Is "On" selected in "Audio Only"?  
  • Page 4-27  
  • If the PC image is not displayed, check the following:  
  - When connecting a laptop PC to the TV, check that display output mode of the PC is set to external monitor.  
  - Check the resolution setting on the PC. Is a non-compatible signal being input?  
  • Page 7-8  
  • The 4K signal (HDCP2.2) can be viewed via HDMI IN 4 only. Change the connection. |
| Picture quality of HD programs is poor. | • To enjoy HD images from external equipment, you are required to set up HDMI connection or component connection.  
  • If the program content is not of HD quality, HD images cannot be displayed. Check that the program you are viewing provides HD images.  
  • The HD cable/satellite set-top box may need to be configured to output HD images via cable/satellite.  
  • The cable/satellite broadcast may not support a signal resolution of 1080p. |
| The TV sometimes makes a cracking sound. | • This is not a malfunction. This happens when the cabinet slightly expands and contracts according to change in temperature. This does not affect the TV’s performance. |
| Some Internet functions used on a PC are not available from the TV. | • The TV has only limited functions compared with regular PC browsers.  
  • Pages 8-6 to 8-8 |
## Troubleshooting (Continue)

<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Solution</th>
</tr>
</thead>
</table>
| No sound | - Is connection to other components correct?  
- Is the volume too low?  
- Is "Variable" selected in "Output Select"?  
- Have you pressed MUTE on the remote control unit?  
- Check the audio output of the connected external equipment. Is the volume too low or muted?  
- When external equipment is connected via an HDMI cable, you may need to configure the audio to be output through the HDMI cable.  
- When audio is not output from external equipment connected to the HDMI IN 3 terminal, check the "Audio Select" setting.  
- Even when external equipment is connected using an HDMI-certified cable, an audio cable connection may be required depending on the type of equipment and the media being played back. In this case, in addition to connecting an HDMI-certified cable to the HDMI IN 3 terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog".  
- When connecting a PC via an HDMI-certified cable, check the following:  
  - Is the audio output of the PC configured correctly? Check the audio output settings and output audio format in Sound Properties on the PC.  
  - The audio formats compatible with this TV are PCM, Dolby Digital. With other formats, audio cannot be output.  
  - Depending on the board, only video signals may be output. In this case, in addition to connecting an HDMI-certified cable to the HDMI IN 3 terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set "Audio Select" to "HDMI+Analog". | - Check pairing.  
- If you register 6 or more smartphones, these smartphones will be automatically deleted starting with the ones that are not being used. Perform the pairing operation again.  
- Check pairing.
## Troubleshooting - Error Message

<table>
<thead>
<tr>

<th>Error code</th>
<th>Possible Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Failed to receive broadcast.</td>
<td>E202</td>
<td>• Check the antenna cable. Check that the antenna is correctly setup.</td>
</tr>
<tr>
<td>• No broadcast now.</td>
<td>E203</td>
<td>• Check the broadcast time in the program guide.</td>
</tr>
</tbody>
</table>
| • An incompatible audio signal has been received. Check the output device settings. | —          | • This message is displayed when an audio format other than PCM, Dolby Digital is input.  
- Set the audio output format of connected external HDMI equipment to PCM, Dolby Digital.  
- Refer to the operation manual of the external equipment for setting details. |
Appendix

Information on the Software License for This Product

Software License
You can read the software licenses in the on-screen display menu. Refer to "Information" > "Software License".

Software composition
The software included in this product is comprised of various software components whose individual copyrights are held by SHARP or by third parties.

Cautions regarding use in high and low temperature environments
- When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
- Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the front panel to malfunction.

Storage temperature: -4°F to +140°F (-20°C to +60°C)

IMPORTANT SAFETY INSTRUCTIONS

Bluetooth

Notes on Radio Wave Certification in the U.S.A. and Canada

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

"This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter."

FCC/INDUSTRY CANADA NOTICE

This device complies with Part 15 of FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65 and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that are deemed to comply without testing of specific absorption ratio (SAR).

FCC CAUTION

Changes or modifications not expressly approved by Hosiden responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003

Le présent appareil est conforme aux la prtie 15 des rgles de la FCC et CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autoris aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioelecitre subi, mme si le brouillage est susceptible d'en compromettre le fonctionnement.

Cetquipement est conforme aux limites d'exposition aux rayonnements enonc pour un environnement non contrl et respecte les rgles les radioeletriques (RF) de la FCC lignes directrices d'exposition dans le Supplment C OET65 et d'exposition aux frequences radioeletriques (RF) CNR-102 de l'IC. Cetquipement tue une gnergie RF trs faible qui est considrr comme sans evaluation du dt l'absorption spcifique (DAS).

Cet appareil numrique de la classe B est conforme la norme NMB-3 du Canada.
