IMPORTANT INFORMATION

Model No.: 
Serial No.: 

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrow-head symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within a triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

WARNING: FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment.

CAUTION: This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

DECLARATION OF CONFORMITY:
SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-70LE660U/LC-60LE660U/LC-80LE661U/LC-70LE661U/ LC-60LE661U/LC-70CE6000U/LC-80CE6000U/LC-70CE300U/LC-80CE30U
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
RESPONSIBLE PARTY:
SHARP ELECTRONICS CORPORATION
1 Sharp Plaza, Mahwah, NJ 07495-1206
TEL: 1-800-BE-SHARP
For Business Customers: URL http://www.sharpusa.com

INFORMATION:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Relocate or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
FCC Compliance Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Wireless Radio
For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible. This device is going to be operated in 2.412–2.462GHz frequency range.
Important: Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Industry Canada Statement
This Class B digital apparatus complies with CAN ICES-003(B)/NMB-3(B)

Wireless Radio
For product available in the USA/Canada market, only channel 1–11 can be operated. Selection of other channels is not possible.
The device could automatically discontinue transmission in case of absence of information to transmit or operational failure.
Note that this is not intended to prohibit transmission of control or signaling information or the use of repetitive codes where required by the technology.
Important: Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

IC Radiation Exposure Statement: This device complies with IC RSS-210 rules; Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept interference received, including interference that may cause undesired operation.

*Note to CATV system installer: This reminder is provided to call the CATV system installer’s attention to Article 820 of the National Electrical Code that provides guidelines for proper grounding and in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.*
DEAR SHARP CUSTOMER

Thank you for your purchase of the Sharp Liquid Crystal Television. To ensure safety and many years trouble-free operation of your product, please read the Important Safety Instructions carefully before using this product.

IMPORTANT SAFETY INSTRUCTIONS

Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire, in order to prevent potential danger, please observe the following instructions when installing, operating and servicing the product. To ensure your safety and prolong the service life of your Liquid Crystal Television, please read the following precautions carefully before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

Additional Safety Information

15) Power Sources—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
16) Overloading—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock. Never spill liquid of any kind on the product.

17) Object and Liquid Entry—Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.

18) Damage Requiring Service—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
a) When the AC cord or plug is damaged,
b) If liquid has been spilled, or objects have fallen into the product,
c) If the product has been exposed to rain or water,
d) If the product does not operate normally by following the operating instructions, adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.
e) If the product has been dropped or damaged in any way, and

IMPORTANT SAFETY INSTRUCTIONS

1) When the product exhibits a distinct change in performance – this indicates a need for service.
2) Replacement Parts—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
3) Safety Check—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
4) Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.

ENG Important3
**CHILD SAFETY:**

Proper Television Placement Matters

- **The Consumer Electronics Industry Cares**
  - Manufacturers, retailers and the rest of the consumer electronics industry are committed to making home entertainment safe and enjoyable.
  - As you enjoy your television, please note that all televisions -- new and old -- must be supported on proper stands or installed according to the manufacturer's recommendations. Televisions that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or carts, etc., may fall over, resulting in injury.

- **Tune in to Safety**
  - **Always** follow the manufacturer's recommendations for the safe installation of your television.
  - **Always** read and follow all instructions for proper use of your television.
  - **Never** allow children to climb on or play on the television or the furniture on which the television is placed.
  - **Never** place the television on furniture that can easily be used as steps, such as a chest of drawers.
  - **Always** install the television where it cannot be pushed, pulled over or knocked down.
  - **Always** route cords and cables connected to the television so that they cannot be tripped over, pulled or grabbed.

- **Wall or Ceiling Mount Your Television**
  - **Always** contact your retailer about professional installation if you have any doubts about your ability to safely mount your television.
  - **Always** use a mount that has been recommended by the television manufacturer and has a safety certification by an independent laboratory (such as UL, CSA, ETL).
  - **Always** follow all instructions supplied by your television and mount manufacturers.
  - **Always** make sure that the wall or ceiling where you are mounting the television is appropriate. Some mounts are not designed to be mounted to walls and ceilings with steed studs or corner block construction. If you are unsure, contact a professional installer.
  - **Televisions can be heavy.** A minimum of two people is required for a wall or ceiling mount installation.

- **Moving an Older Television to a New Place in Your Home**
  - **Many new television buyers move their older CRT televisions into a secondary room after the purchase of a flat-pane television.** Special care should be made in the placement of older CRT televisions.
  - **Always** place your older CRT television on furniture that is sturdy and appropriate for its size and weight.
  - **Never** place your older CRT television on a dresser where children may be tempted to use the drawers to climb.
  - **Always** make sure your older CRT television does not hang over the edge of your furniture.

---

**Caring for the Cabinet**

- Use a soft cloth (cotton, flannel, etc.) and gently wipe the surface of the cabinet.
- Using a chemical cloth (wet/dry sheet type cloth, etc.) may deform the components of the main unit cabinet or cause crazing.
- Wiping with a hard cloth or using strong force may scratch the surface of the cabinet.
- If the cabinet is very dirty, wipe it with a soft cloth (cotton, flannel, etc.) soaked in neutral detergent diluted with water and thoroughly wrung out, and then wipe with a soft dry cloth.
- Avoid using benzene, thinner, and other solvents, as these may deform the cabinet and cause the paint to peel off.
- Do not apply insecticides or other volatile liquids. Also, do not allow the cabinet to remain in contact with rubber or vinyl products for a long period of time. Plasticizers inside the plastic may cause the cabinet to deform and cause the paint to peel off.

**Caring for the Front Panel**

- Turn off the main power and unplug the AC cord from the wall outlet before handling.
- Gently wipe the surface of the front panel with a soft cloth (cotton, flannel, etc.). To protect the front panel, do not use a dirty cloth, liquid cleaners, or a chemical cloth (wet/dry sheet type cloth, etc.). This may damage the surface of the front panel.
- Wiping with a hard cloth or using strong force may scratch the surface of the front panel.
- Use a soft damp cloth to gently wipe the front panel when it is really dirty. It may scratch the surface of the front panel when wiped strongly.
- If the front panel is dusty, use an anti-static brush, which is commercially available, to clean it.
- To avoid scratching the frame or screen, please use a soft lint free cloth for cleaning. Approved cleaning cloths are available directly from Sharp in single (002-LCD-CLOTH) or triple (002-LCD-CLOTH-3) packs. Call 1-877-P4O-ADV1 (1-877-778-2361) for ordering, or VISIT http://www.sharpusa.com.
IMPORTANT SAFETY INSTRUCTIONS

Wireless LAN

This TV has received the following certifications:
- Wi-Fi CERTIFIED™ (certification program from the Wi-Fi Alliance®)
- Wi-Fi Protected Setup™ (certification program from the Wi-Fi Alliance®)

FCC
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. To comply with the FCC RF exposure compliance requirements, this device and its antenna must not be co-located or operated in conjunction with any other antenna or transmitter.

IFETEL
This equipment operates on a secondary basis and, consequently, must accept harmful interference, including from station of the same kind, and may not cause harmful interference to systems operating on a primary basis.

Contains Transmitter Module IFETEL ID: RCRSHWN®-1218
Brand: SHARP

* To enter the code registration mode, you need to press an appropriate button (STB, DVD+VCR or AUDIO) and MANUAL at the same time.
3 External equipment operational buttons: Operate the external equipment.
4 DISPLAY: Display the channel information.
5 OPTION: Display the Link Operation Menu screen. This button will function only when LINK Operation is used.
   (See pages 6-1 to 6-4 for details.)
6 SLEEP: Set the sleep timer.
   (See pages 3-1 and 5-12.)
7 0–9: Set the channel.
   (See pages 3-1 and 5-12.)
8 • (DOT): Set the channel.
   (See pages 3-1 and 5-12.)
9 CC: Display captions from a closed-caption source.
   (See page 3-12 to 3-13)
10 AV MODE: Select an audio or video setting.
   (See page 3-10.)
11 MUTE: Mute the sound.
   (See page 3-3.)
12 VOL+/-: Set the volume.
   (See page 3-2.)
13 MENU: Display the menu screen.
   (See page 4-1.)
14 2D/3D: This button is not available.
15 ▲▼◄►, ENTER: Select a desired item on the screen.
16 EXIT: Turn off the menu screen.
17 FAV CH: Set the favorite channels.
   (See page 4-7.)
18 A, B, C, D: Select 4 preset favorite channels in 4 different categories.
   (See page 4-7.)
   While watching, you can toggle the selected channels by pressing A, B, C and D.
19 MANUAL: Display the operation manual.
20 POWER (SOURCE): Turns the power of the external equipment on and off.

NOTE
- When using the remote control unit, point it at the TV.
- The appearance of the remote control unit varies by the time when you purchased the product.
21 FREEZE: Set the still image. Press again to return to normal screen.  
   (See page 3-4.)

22 AUDIO: Selects the MTS/SAP or the audio mode during multichannel audio broadcasts.  
   (See page 3-8.)

23 ENT: Jumps to a channel after selecting with the 0-9 buttons.  

24 FLASHBACK: Return to the previous channel or external input mode.  
   (See page 3-5.)

25 VIEW MODE: Select the screen size.  
   (See pages 3-14 to 3-16.)

26 INPUT: Select a TV input source.  
   (See page 2-1.)

27 CH△▽: Select the channel.  
   (See page 3-1.)

28 SmartCentral: Display the application window.  
   (See page 3-6.)

29 RETURN: Return to the previous menu screen.  

30 NETFLIX: Display the Netflix screen.  
   If you press the NETFLIX button when the TV is turned off, the TV turns on and the NETFLIX screen  
   is displayed.  
   (See page 3-7.)

31 FAV APP 1, 2, 3: You can assign your favorite applications to these buttons.  
   (See page 8-12.)

**NOTE**

- When using the remote control unit, point it at the TV.
- The appearance of the remote control unit varies by the time when you purchased the product.
Watching TV

Displaying an External Equipment Image

To view external source images, select the input source by pressing **INPUT** on the remote control unit or on the TV.

1. Press **INPUT**.  
   - The **INPUT** list screen displays.

2. Press **▲▼** to select the input source.  
   - An image from the selected source automatically displays.

- You can also select the input source by pressing **INPUT**.
- Each time **INPUT** is pressed, the input source toggles.

TV ➔ HDMI1 ➔ USB ➔ Home Network ➔ Miracast
Watching TV

Initial Installation
Perform the following steps before you press POWER on the remote control unit.
1. Insert the batteries into the remote control unit.
2. Connect the antenna cable to the TV.
3. Plug in the AC cord to the AC outlet.

Language (Language setting)
Select from among 3 languages: English, French and Spanish.
1 Press ▲▼ to select the desired language listed on the screen, and then press ENTER.

Location & Time
Make settings for the country, area and time zone where you use the TV.
2 Press ▲▼ to select "United States", "Canada" or "Mexico", and then press ENTER.

3 Press ▲▼ to select the time zone where you are using the TV, and then press ENTER.

Example

- The time zone differs depending on the selected country.
- The factory preset value is the time zone for the capital of the selected country.
Watching TV

Initial Installation (Continue)

4 Press ▼ to select the Daylight Savings Time, and then press ENTER.

- "Auto" is the default selection.

TV Location
Select "Home" or "Store" for the location where you plan to install the TV.

5 Press ◀ to select "Home" or "Store". Press ENTER to enter the setting.

Home: AV MODE is set to "STANDARD".
Store: AV MODE is set to "DYNAMIC (Fixed)". Picture Reset and Feature Demo can be set.

Picture Reset: AV MODE will be set to "DYNAMIC (Fixed)" regardless of whether Picture Reset is "On" or "Off".
- If you select "On" and there is no operation for 30 minutes:
  - AV MODE will be reset to "DYNAMIC (Fixed)".
- When "Off" is selected:
  - Even after 30 minutes elapses, AV MODE is not reset to "DYNAMIC (Fixed)".

Feature Demo: When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.
Watching TV

Initial Installation (Continue)

Antenna & Cable/STB
Select the type of connection you will use to watch TV.

6 Press ➫ to select "Antenna & Cable" or "Set-top box", and then press ENTER.

To watch TV via an antenna or cable connection (without using a set-top box):
Select "Antenna & Cable", and then go to step 7.

To watch TV via a set-top box:
①Select "Set-top box", and then press ENTER.
②Check that the set-top box connected to the TV is on.

Selecting Antenna & Cable/Set-top box

Connect your set-top box to the TV with an audio video cable (ex: HDMI), and power it on.
Please OK to proceed.

Press ➫ to select "Air" or "Cable".

Air/Cable (Antenna setting)
Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

7 Press ➫ to select "Air" or "Cable".
Press ENTER to enter the setting.

ENG 2-4
Initial Installation (Continue)

CH Search (Channel search)
Channel auto search makes the TV look for all channels viewable in the set area.

8 When “Air” is selected in Antenna setting:
   Press ◀▶ to select “Start”, and then press ENTER.

   ![Start and Cancel buttons]

   When “Cable” is selected in Antenna setting:
   Press ◀▶ to select “Analog & Digital Search Start” to search both analog and digital broadcasts, or to select “Analog Search Start” to search only analog broadcasts, and then press ENTER.

   ![Analog & Digital Search Start and Analog Search Start buttons]

   - The Channel search will start automatically.
   - To exit the Channel search screen, select “Cancel”, and then press ENTER.

Smart TV
When you connect to the Internet on the TV, select the desired connection method and follow the instructions shown on the display.

- Wireless LAN connection is possible only when the WPS (push button) method is used. If any other method is used, make settings by Smart TV > Internet Setup. (See pages 8-2 to 8-4.)

9 Press ◀▶ to select “Yes”, and then press ENTER.

10 Press ◀▶ to select “Wired” or “Wireless”, and then press ENTER.
Initial Installation (Continue)

Connection using an ETHERNET cable:
1. Select "Wired" and press ENTER.
2. Confirm that the TV is properly connected with the router, and then press "Next". Follow the instructions on the display to perform the connection test.

Wireless LAN connection by the WPS method:
1. Select "Wireless" and press ENTER.
2. Follow the instructions on the display, and finalize the connection after testing its viability.

NOTE
- After you finish configuring the network settings, configure the "TV Name Setting". (See pages 4-24, 7-3.)
- When you change the network settings, refer to Smart TV > Internet Setup. (See pages 8-2 to 8-4.)

Completed
11. The settings confirmation screen is displayed. Confirm the information displayed on the screen, and then press ENTER.
Watching TV

Initial Installation (Continue)

NOTE

• If no channel is found, confirm the type of connection made with your TV and try "Easy Setup" again.
  (See page 4-5.)

When "Set-top box" was selected in step 6.

![Confirmation screen for input source switching]

• Click "OK" to display the confirmation screen for input source switching.

Show the input list: You can check the current connection status of external equipment. Confirm which input terminal is connected to the set-top box.

OK: Clicking "OK" will complete the Easy Setup procedure.

NOTE

• For changing the settings of the Initial Installation, perform "Easy Setup" on the Initial Setup menu on page 4-5.
Direct Button Operation

Changing Channels

You can change channels in several ways.

Method 1
Using CH\+/\- on the remote control unit or on the TV.

Method 2
Using remote control buttons 0-9, • (DOT).

Examples:
To select a 1 or 2-digit channel number (e.g., Channel 5):
Press 5 → ENTER

To select a 3-digit channel number (e.g., Channel 115):
Press 1 → 1 → 5 → ENTER

To select a 4-digit channel number (e.g., Channel 22.1):
Press 2 → 2 → • (DOT) → 1 → ENTER

NOTE
• When selecting a 1-digit channel number, it is not necessary to press 0 before the number.
• When you enter 0-9 only, channel selection will be made if there is no operation within a few seconds.
• If you push "0" by itself, nothing will happen.
• Complete the above steps within a few seconds.
• When you enter 0-9 and • (DOT), channel selection will be made if there is no operation within a few seconds.
Direct Button Operation

Changing Volume
You can change the volume by pressing VOL+/ on the TV or on the remote control unit.
- To increase the volume, press VOL +.
- To decrease the volume, press VOL -.

Audio status

<table>
<thead>
<tr>
<th>Output device</th>
<th>Output Select</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speaker</td>
<td>Fixed Variable sound</td>
</tr>
</tbody>
</table>

When "Output Select" is set to "Variable", the indicator on the screen changes as shown below.

NOTE
- See page 4-12 for details on the Output Select function.
Direct Button Operation

MUTE
Mutes the current sound output.
Press MUTE.
- " will be displayed on the screen for 30 minutes, and the sound is silenced.

NOTE
- Within 30 minutes of pressing MUTE, mute can be canceled by pressing VOL+/- or MUTE.
- Mute will be canceled after 30 minutes have passed. However, the TV will not suddenly output a loud sound as the volume level is set to 0 automatically.

ENG 3-3
Direct Button Operation

FREEZE

Allows you to capture and freeze a moving image that you are watching.
Press **FREEZE**
- A moving image is captured.
- Press **FREEZE** again to cancel the function.

**NOTE**
- When this function is not available, "No displaying still image available." will display.
- If you are using the freeze function and a broadcast activates the V-CHIP BLOCK, the freeze function will be canceled and a V-CHIP BLOCK message will appear.

ENG 3-4
Direct Button Operation

**FLASHBACK**

Press **FLASHBACK** to switch to the previously tuned channel or previous input mode.
- Press **FLASHBACK** again to switch back to the currently tuned channel.

**NOTE**
- **FLASHBACK** will not work if no channel has been changed after the TV is turned on.
Direct Button Operation

**SmartCentral**

Allows you to directly activate various types of applications.

1. Press **SmartCentral** to display the application window.
   - Press **SmartCentral** again to switch back to the currently tuned channel.

2. Press → to select the desired application, and then press **ENTER**.
   - If "ëê" is displayed, check the USB connection.
   - If "ëê" or "ëê" is displayed, check your TV’s network settings and connection.

**NOTE**

- See page 5-2, 8-7 to 8-12 for details of viewable applications.
- When this function is not available, "Can not operate this function now" will display.
Direct Button Operation

NETFLIX
Displays the Netflix screen.
Press NETFLIX.

NOTE
If you press the NETFLIX button when the TV is turned off, the TV turns on and the NETFLIX screen is displayed.
- To enjoy Netflix, you need to make:
  - a broadband Internet connection
    (See page 8-1.)
  - settings of Internet Setup
    (See pages 8-2 to 8-4.)
  - adjustments for Netflix
    (See page 8-13.)
MTS/SAP stereo mode
The TV has a feature that allows reception of sound other than the main audio for the program. This feature is called Multi-channel Television Sound (MTS). The TV with MTS can receive mono sound, stereo sound and Secondary Audio Programs (SAP). The SAP feature allows a TV station to broadcast other information, which could be audio in another language or something completely different like weather information.
You can enjoy Hi-Fi stereo sound or SAP broadcasts where available.
- Stereo broadcasts: View programs like live sporting events, shows and concerts in dynamic stereo sound.
- SAP broadcasts: Receive TV broadcasts in either MAIN or SAP sound.
  MAIN sound: The normal program soundtrack (either in mono or stereo).
  SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound.)

If stereo sound is difficult to hear.
- Obtain a clearer sound by manually switching to fixed mono-sound mode.
You can change MTS as shown below to match the television broadcast signal.
Press AUDIO to toggle between audio modes.

Examples: when receiving MTS and SAP
- STEREO mode: ST(SAP) → SAP(ST) → MONO
- STEREO + SAP mode: STEREO ↔ MONO
- MAIN + SAP mode: MAIN ↔ SAP
- MONO mode: MONO

Digital broadcasting audio mode
The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.
Press AUDIO to toggle between audio modes.
Example: when receiving Digital broadcasting
- STEREO (Audio1) → STEREO (Audio2) → SURROUND (Audio3)

NOTE
- MTS only operates while in TV mode.
- You can have the same settings by choosing "Change Audio" on the menu items. (See page 4-25.)
**Direct Button Operation**

**Sleep Timer**

Allows you to set a time when the TV automatically switches to standby.

Press **SLEEP**.

- The remaining time displays when the sleep timer has been set.
- Each time you press **SLEEP**, the remaining time switches as shown below.

```
Off → 0hr30min → 1hr00min
2hr30min → 2hr00min → 1hr30min
```

- When set, the time automatically starts counting down.
- If you want to adjust the sleep timer, you can press **SLEEP** twice then change the time setting.
- When it is 5 minutes before the time expires, the remaining time will start to keep appearing every minute.

**NOTE**

- Select "Off" by pressing **SLEEP** to cancel the sleep timer.
- The TV will enter standby when the remaining time reaches 0.
Direct Button Operation

AV MODE
AV MODE gives you several viewing options to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of program watched or the type of device connected.

You can use USER Mode to create customized settings for each TV input. These settings will be automatically saved on each input for convenience.

Press AV MODE. Current AV MODE displays.
- Press AV MODE again before the mode displayed on the screen disappears.
- The mode changes as shown below:

  DYNAMIC (Fixed) → STANDARD → MOVIE

  DYNAMIC ← USER ← PC
Direct Button Operation

AV MODE (Continue)

STANDARD: For a highly defined image in a normal lighting.
MOVIE: For a movie.
PC: For PC.
USER: Allows the user to customize settings as desired.
You can set the mode for each input source.
DYNAMIC: For a clear-cut image emphasizing high contrast, useful for sports viewing.
DYNAMIC (Fixed): Changes the image and sound settings to the factory preset values. No adjustments are allowed.

NOTE
- You can select a different AV MODE item for each input mode. (For example, select STANDARD for TV input and DYNAMIC for COMPONENT.)
- You can have the same settings by choosing "AV MODE" on the menu items.
  (See page 4-17.)

ENG 3-11
**Closed Captions and Digital Closed Captions**

Your TV is equipped with an internal Closed Caption decoder. It allows you to view conversations, narration and sound effects as subtitles on your TV. Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider.

Digital Closed Caption service is a new caption service available only on digital TV programs (also at the discretion of the service provider). It is a more flexible system than the original Closed Caption system, because it allows for a variety of caption sizes and font styles. When the Digital Closed Caption service is in use, it will be indicated by the appearance of a 3-letter abbreviation that also indicates the language of the Digital Closed Captions: ENG (English), SPA (Spanish), FRA (French) or other language codes.

Not all programs and VHS videotapes offer closed captions. Please look for the "CC" symbol to ensure that captions will be shown.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The "CC1" and "CC2" services display subtitles of TV programs superimposed over the program’s picture. In the Closed Caption system, the "Text1" or "Text2" services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

1. Press **CC**.
2. Press **CC** while the Closed Caption information is still on the screen.
   - Press repeatedly until you select the desired closed caption service.

Depending on the number of caption services in the signal being received, you will see information such as 1/2 or 1/4 displayed.

1/2 means "the first of two services".

**Example:**
If a program has three services (Digital CC(ENG), CC1 and Text1), the closed caption display will toggle in this sequence:

1/3 ENG  2/3 CC1  3/3 Text1  Off

- The **CC** button keeps a record of the last service selected in its memory. If the last closed caption mode (e.g. 1/3 ENG) you selected is not available for the next program, or on another channel, the closed caption service that is available is automatically selected, and this service appears in parentheses, e.g. "1/3(CC1)".

Closed Caption services that appear in parentheses will not be stored in the **CC** button’s memory as your last selected service. Only services that you have selected with the **CC** button are stored.
Closed Captions and Digital Closed Captions (Continue)

Examples:
In a case where there are two closed caption services provided (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses. A closed caption service appears in parentheses because the service you selected is not available and a different service is displayed on your screen. "1/1(CC1)" is displayed instead of "1/2/ENG".

NOTE
- See page 4-26 for detailed closed caption settings.
- When the program contains no closed caption, "--" displays in the closed caption information.
- If the language code, e.g. "ENG", is not found on Digital TV programs, "--" will be shown.
- Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.
- When a web page is displayed, Closed Captions are not available.
- You can have the same settings by choosing "Change CC" on the menu items. (See page 4-25.)
Direct Button Operation

VIEW MODE
You can select the screen size.

1. Press VIEW MODE.
   - The View Mode menu displays.
   - The menu lists the View Mode options selectable for the type of video signal currently being received.
2. Press VIEW MODE or ▲▼ while the View Mode menu is displayed to select a desired item on the menu.
   - You can sequentially select a View Mode that has its own aspect ratio.

NOTE
- You can have the same settings by choosing "View Mode" on the menu items.
  (See page 4-25.)

For HD programs

<table>
<thead>
<tr>
<th>Stretch</th>
<th>Dot by Dot (Full Screen)</th>
<th>S.Stretch (Smart stretch)</th>
<th>Zoom</th>
</tr>
</thead>
<tbody>
<tr>
<td>Suitable for viewing wide-screen 1.78:1 aspect ratio program, stretch mode will still show very thin black bands at the top and bottom of the screen.</td>
<td>&quot;Dot by Dot&quot; when the number of pixels on the screen and the resolution of the signal are the same. &quot;Full Screen&quot; when the number of pixels on the screen and the resolution of the signal are different. In either case, the image fully fills the screen.</td>
<td>Suitable for stretching 4:3 programs to fill the screen.</td>
<td>Suitable for viewing wide-screen 2.35:1 aspect-ratio programs in full screen.</td>
</tr>
</tbody>
</table>

NOTE
- When using Dot by Dot or Full Screen, it is possible to see noise or bars around different outer portions of the screen. Please change view mode to correct this.
**VIEW MODE (Continue)**

<td></td>
</tr>
</tbody>
</table>

- Keeps the original aspect ratio in a full screen display.
- An image fully fills the screen.
- Detects the resolution of the signal and displays an image with the same number of pixels on the screen.

**NOTE**
- Connect the PC before making adjustments. See the Setup Guide.
- Selectable screen size may vary with input signal type.
On-Screen Display Menu

Introduction

① Guide display
- This indicates the buttons that can be operated on the displayed screen. The guide display varies depending on the menu setting screen.
- The operations for some selected items may be displayed in the operational guide bar at the bottom of the screen.

② Item displayed in blue
- This indicates the item currently selected.
- Press ENTER to go to the adjustment screen for this item.

③ Item in brackets
- This indicates the current setting for the item.

④ Item displayed in white
- This indicates that the item can be selected.

⑤ Item displayed in gray
- This indicates that the item cannot be selected.
- There are various reasons why the items cannot be selected, but the main reasons are as follows:
  - Nothing is connected to the selected input terminal.
  - The function is not compatible with the current input signal.
  - When this conflicts with other functions, you must change the settings for the other functions.
On-Screen Display Menu

Introduction (Continue)

About Menu Items
- Some menu items may not be displayed depending on the selected input source.

**NOTE**
- The screens in the operation manual are for explanation purposes (some are enlarged, others cropped) and may vary slightly from the actual screens.
- The order of explanations for each menu item in the following pages is not necessarily in accordance with the alignment of the items on the screen.

**LCFONT:**
- This product is embedded with LC Font technology, which was developed by SHARP Corporation for clearly displaying easy-to-read characters on LCD screens.
On-Screen Display Menu Operation

Example

1. Press **MENU** to display the MENU screen.
2. Press **➡️** to select the desired menu.
3. Press **⬆️/⬇️** to select a specific adjustment item, and then press **ENTER**.
   - Additional related adjustment items may be displayed. Press **⬆️/⬇️** to select the desired item.
4. Adjust the item while referring to the guide display.
   - Operations vary depending on the function or item. Refer to the guide display corresponding to the menu setting screen for button operations.
5. Press **MENU** to exit.

**NOTE**
- Menu options differ in the selected input modes, but the operating procedures are the same.
Menu Operation Buttons

Using the remote control
Use the following buttons on the remote control to operate the menu.
- **MENU**: Press to open or close the menu screen.
- **\(\uparrow/\downarrow/\leftarrow/\rightarrow\)**: Press to select a desired item on the screen or adjust a selected item.
- **ENTER**: Press to go to the next step or complete the setting.
- **RETURN**: Press to return to the previous step.

Using the control panel of the TV
You can also operate the menu with the control panel of the TV.
Button operations on the control panel correspond to the ones on the remote control as shown below.

- **MENU**: MENU on the remote control.
- **INPUT**: ENTER on the remote control.
- **\(\uparrow/\downarrow/\leftarrow/\rightarrow\)**: Cursor \(\uparrow/\downarrow/\leftarrow/\rightarrow\) on the remote control.
- **VOL+/-**: Cursor \(\leftarrow\rightarrow\) on the remote control.
Initial Setup

NOTE

- For operating the on-screen display menu, see page 4-3.

Easy Setup

You can run Easy Setup again, even after setting up the preset channels.

**Language:** Select from among 3 languages (English, French and Spanish).

**Location & Time:** Make settings for the country, area and time zone where you use the TV.

**Select your country:** Select either "United States", "Canada" or "Mexico".

**Select your time zone:** Select your time zone. The available settings differ depending on the selected country.

**Select DST (Daylight Savings Time):** Select "Auto", "Manual" or "Off".

**TV Location:** Select "Home" or "Store" for the location where you plan to install the TV.

- **Home:** AV MODE is set to "STANDARD".
- **Store:** AV MODE is set to "DYNAMIC (Fixed)". Picture Reset and Feature Demo can be set.

**Picture Reset:** AV MODE will be set to "DYNAMIC (Fixed)" regardless of whether Picture Reset is "On" or "Off". If you select "On", AV MODE will be reset to "DYNAMIC (Fixed)" if there is no operation for 30 minutes. When "Off" is selected, even after 30 minutes elapses, AV MODE is not reset to "DYNAMIC (Fixed)".

**Feature Demo:** When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.

**Antenna & Cable/STB:** Select the type of connection you will use to watch TV.

- **Air/Cable:** Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

**CH Search:** Channel auto search makes the TV look for all channels viewable in the set area.

**Smart TV:** When you connect to the Internet on the TV, confirm the connection method and make adjustments.

- Wireless LAN connection is possible only when the WPS (push button) method is used. If any other method is used, make settings by Smart TV > Internet Setup. (See pages 8-2 to 8-4.)

**Completed:** The settings confirmation screen is displayed. Confirm the information displayed on the screen.

**NOTE**

- See Initial Installation on pages 2-2 to 2-7 for setting each item.
- If no channel is found, confirm the type of connection made with your TV and try "Easy Setup" again.
- If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.
On-Screen Display Menu

Example

Initial Setup (Continue)

Language
You can also select a language from the Initial Setup menu. Select from among 3 languages: English, French and Spanish.

NOTE
• To change the language of the manual, select "MENU" > "Initial Setup" > "Language" to change the language. Then, press MANUAL again.

TV Channel Setup

Channel Setup
If Initial Installation does not memorize all the channels in your region, follow the instructions below to manually memorize the channels.

Air/Cable: Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".

CH Search: Channel auto search makes the TV look for all channels viewable in the set area.

CH Memory: You can select the channels to skip in each ANALOG (Air), ANALOG (Cable), DIGITAL (Air) and DIGITAL (Cable).

On: Skips channels. (Channel selection disabled using CH/.)

Off: Does not skip channels. (Channel selection enabled using CH/.)

NOTE
• See Initial Installation on pages 2-2 to 2-7 for setting each item.
• If no channel is found, confirm the type of connection made with your TV and try channel search again.
• If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.
On-Screen Display Menu

Initial Setup (Continue)

TV Channel Setup

Favorite CH (Favorite Channel Setting)

This function allows you to program 4 favorite channels, in 4 different categories. By setting the favorite channels in advance, you can select your favorite channels easily.

To register your favorite channel:
Select “Register” and then press ENTER. Press ▲▼▲~ to select the position in the category, and then press ENTER to register.

To delete your favorite channel:
Select “1 Data Clear” and then press ENTER. Press ▲▼▲~ to select the channel you want to delete, and then press ENTER. Select “Yes” and then press ENTER.

To delete all the favorite channels, select “All Data Clear”.

NOTE
- Before setting the channel, select the channel you want to register as a favorite channel.
- You can display the "Favorite CH" screen by pressing FAV CH on the remote control.

Antenna Setup-DIGITAL

In order to receive digital air broadcasts, you need a digital broadcast antenna. You can confirm the antenna configuration through the "Antenna Setup-DIGITAL" screen. If necessary, adjust the direction of the antenna to obtain the maximum signal strength.

Signal Strength: The signal strength of DIGITAL channel is displayed. The signal information is based on the current channel.

Channel Strength: Input the 2-digit channel number to check the signal strength of the selected channel. Make sure the signal is strong enough for each channel.
- This function is available for DIGITAL (Air) only.
On-Screen Display Menu

**Initial Setup (Continue)**

### Individual Setup

**Secret No.**

Allows you to use a secret number to protect certain settings from being accidentally changed.

**IMPORTANT:**

Three conditions must be met to enable the V-Chip

1. Secret No. is registered.
2. V-Chip/V-Chip (DTV Only) settings have been made.
   - The "V-Chip (DTV Only)" will only be selectable when a new rating system can be downloaded via digital broadcasting in the U.S.
3. "Status" is set to "Enable".

**Setting Secret No.**

You can set and change the secret number by using 0-9.

- New Secret No.: Changes or sets the Secret No.
- Confirm Secret No: Enter Secret No. to confirm.

**NOTE**

- As a precautionary measure, make a note of your secret number and keep it in a familiar place.

### Parental Control

**V-Chip**

V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. "V-Chip" and "Status" will not be selectable from the menu if you do not first configure your secret number.

- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.

**NOTE**

- The setting automatically enters "Block" for any ratings below your selection.
- If Status is not set to "Enable", the configuration settings will not work.

**MPAA (Voluntary movie rating system)**

Press ▲▼ to adjust the item to your desired position.

* "a" indicates the item is blocked. Press MENU to exit.

- **G:** General audiences. All ages admitted.
- **PG:** Parental guidance suggested. Some material may not be suitable for children.
- **PG-13:** Parents strongly cautioned. Some material may be inappropriate for children under 13.
- **R:** Restricted. Under 17 requires accompanying parent or adult guardian (age varies in some jurisdictions).
- **NC-17:** No one 17 and under admitted.
- **X:** X is an older rating that is unified with NC-17 but may be encoded in the data of older movies.

**NOTE**

- Voluntary movie rating system only uses an age-based rating.

Suggested age

TV-Y: All children.
TV-Y7: Directed to older children.
TV-G: General audience.
TV-PG: Parental Guidance suggested.
TV-14: Parents strongly cautioned.
TV-MA: Mature audience only.

When setting an individual content-based rating item:
1. Press ▲ or ENTER to access blocked content items from the currently selected age-based rating item.
2. Press ▲▼ to select an individual item, and then press ENTER to unblock it ("X" is removed). Repeat the same steps for the other items.
3. Press ◄ or RETURN to register after all individual content rating items are set.

Content
FV: Fantasy violence.
V: Violence.
S: Sexual situation.
L: Adult language.
D: Sexually suggestive dialog.

Canadian Rating Systems (Canadian English ratings and Canadian French ratings)
- The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
- While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
- When setting the V-CHIP on the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.
Canadian English Ratings

**E:** Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.

**C:** Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.

**C8+:** Children over 8 years old: Contains no portrayal of violence as the preferred, acceptable, or only way to resolve conflict; nor encourage children to imitate dangerous acts which they may see on the screen.

**G:** General: Considered acceptable for all age groups. Appropriate viewing for the entire family, contains very little violence, physical, verbal or emotional.

**PG:** Parental Guidance: Intended for a general audience, but may not be suitable for younger children (under the age of 8) because it could contain controversial themes or issues.

**14+:** Over 14 years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.

**18+:** Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.

**Canadian French Ratings**

**E:** Exempt programming.

**G:** General: All ages and children, contains minimal direct violence, but may be integrated into the plot in a humorous or unrealistic manner.

**8ans+:** General but inadvisable for young children: May be viewed by a wide public audience, but could contain scenes disturbing to children under 8 who cannot distinguish between imaginary and real situations. Recommended for viewing with parent.

**13ans+:** Over 13 years: Could contain scenes of frequent violent scenes and therefore recommended for viewing with parent.

**16ans+:** Over 16 years: Could contain frequent violent scenes and intense violence.

**18ans+:** Over 18 years: Only for adult viewing. Could contain frequent violent scenes and extreme violence.

**How to temporarily release the V-CHIP BLOCK**

When the V-CHIP BLOCK is working and censors a broadcast, "V-CHIP HAS BEEN ACTIVATED." displays.

1 Press ENTER while the V-CHIP is working, and then the secret number setting menu displays.

2 Input the 4-digit secret number by using 0–9. At this time V-CHIP BLOCK temporarily releases.
Reactivating the temporarily released V-CHIP BLOCK
You can reactivate the temporarily released V-CHIP BLOCK as shown below.
- Select "Status" setting from the Parental Control menu to reactivate BLOCK.
- Select "V-Chip" setting ("MPAA", "TV Guidelines", "Can. English Ratings" or "Can. French Ratings") from the Parental Control to reactivate BLOCK.
(See pages 4-8 to 4-10.)
- Switch off the TV power. (When "Quick Start Mode" is "OFF").

**NOTE**
- Performing any of the three above will activate the V-CHIP BLOCK.

**Status**
Used to enable or disable the parental control function. This function will not be selectable from the menu if you do not first configure your secret number.

**Quick Start Mode**
When this function is activated, you can reduce the TV's start-up time or even let the TV in standby mode start displaying images and so on via the connected equipment on the network.

**NOTE**
- Setting "Quick Start Mode" to "On" consumes more power.
**Initial Setup (Continue)**

### Input Settings

**HDMI auto view**

When you view images sent from external equipment in an HDMI connection, this function allows the image size on the TV to automatically switch to an appropriate one.

**NOTE**

- Refer to your external equipment operation manual for the signal type.

**Digital Audio Output**

You can output digital audio to an AV amplifier or similar device whose DIGITAL AUDIO INPUT terminal is connected to the DIGITAL AUDIO OUT terminal on the TV. Please select an audio output format compatible with the audio format of the program you are watching and the equipment connected.

**PCM:**

For connecting to equipment that does not support Dolby Digital and DTS. The same audio (main, sub, or main/sub) as the audio of the program being viewed is output.

- 2-channel audio with a sampling rate of 48 kHz or less is output as linear PCM audio.

**Bitstream:**

For connecting to an audio system that supports Dolby Digital and DTS. Audio is output through both the main and sub channels.

**NOTE**

- Analog channel audio and video input audio are output in PCM mode even when "Bitstream" is selected.
- PCM digital input signals are output in PCM mode even when "Bitstream" is selected.

**Audio Select**

This function sets the terminal to output the computer audio. The adjustment items vary depending on the input source. Select the input source corresponding to the terminal connected to the PC and then adjust the desired item.

To perform the operation, refer to "Initial Setup" > "Input Settings" > "Audio Select". (See page 7-2.)

### Output Select

**Fixed:**

Sound via speaker is adjusted with VOL+/→ on the remote control unit or on the TV.

Sound via the AUDIO OUT terminal is not adjustable and outputs at a consistent level.

**Variable:**

Sound via the AUDIO OUT terminal is adjusted with VOL+/→ on the remote control unit or on the TV.

Sound via speaker is muted.

**Input Select**

For image input applied to the COMPONENT IN or VIDEO IN terminal, switch to "COMPONENT" or "VIDEO", respectively.

**COMPONENT:**

Select component video

**VIDEO:**

Select composite video.

**NOTE**

- If no (color) image display, try changing to another signal type.
- Check the operation manual of the external equipment for the signal type.

**Input Skip**

This setting allows you to skip the TV, HDMI or PC IN Input ("TV, PC IN, COMPONENT, HDMI 1, HDMI 2, HDMI 3 and VIDEO") on the Input Selection operation.
### Input Settings

#### Color System
Select the video signal system compatible with your equipment from the list below:
- Auto/NTSC/PAL-M/PAL-N

**NOTE**
- "Color System" can only be set for the TV or VIDEO IN.

#### LINK Setup
Make the settings to use LINK Operation.
Set the settings with "Initial Setup" > "Input Settings" > "LINK Setup".
(See page 6-2.)

#### Fine Sync.
You can adjust the position on the image input from a PC the settings with "Initial Setup" > "Input Settings" > "Fine Sync.".
(See page 7-1.)

### Reset
If complex adjustments are made and the settings cannot be restored to normal, you can reset the settings to the factory preset values.
- If you have already set the Secret No., input the 4-digit secret number here.

**NOTE**
- The Channel Setup settings will not be changed.
- The Language settings will not be changed.
- The TV Location settings will not be changed.
Information

NOTE
- For operating the on-screen display menu, see page 4-3.

Identification
The current version of the TV software is displayed.

Digital Caption Info.
(Digital Caption Information)
This function allows viewing of digital closed caption information for the digital broadcast program being viewed.

NOTE
- This list is not displayed for analog broadcasts or external input audio/video.
- This information is not included in CC1, CC2, Text1, or Text2, and is not displayed in a list.

Software Update
This is used to upgrade the system software to enhance the TV functions.

1 Press MENU to display the MENU screen, and then press ‹ › to select "Information".
2 Press ‹ › to select "Software Update", and then press ENTER.
3 Press ‹ › to select "Manual Update" or "Auto Update Setting", and then press ENTER.
- The operations thereafter vary depending on the setting.

Auto Update Setting
When the TV is on, or when an Internet application is being accessed, this function enables the TV to connect to the network and check for updates automatically.
When an update is available, a message is displayed.
Press ‹ › to select "Yes", and then press ENTER to display the download screen.
(See page 4-16.)

NOTE
- This function does not work when a broadband connection or Internet Setup is not available.
- A message may also be displayed when an application is running. The message varies depending on the application.

Manual Update
Select the method for manually updating the software.

USB Update: Updates the software using a USB memory device containing the update file. (See "Updating the Software with a USB Memory Device").

Network Update: Downloads the update file via the network and then updates the software.
(See page 4-16.)

NOTE
- A broadband connection and Internet Setup are required to update the software using the network.
(See pages 8-2 to 8-4.)
- It may take time to access and download the update depending on the Internet connection and other factors.

Updating the Software with a USB Memory Device
To check for the availability of a software update, visit http://www.sharpusa.com/products/support/. If you have any questions, please call 1-800-BE-SHARP (800-237-4277).

Software Update

Manual Update

CAUTION
- Do not remove the USB memory device or unplug the AC cord while the software is being updated.
- Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.

1 Insert the USB memory device with the update file into the USB terminal on the TV.

2 Press ▲▼ on the Manual Update screen to select "USB Update", and then press ENTER.

3 Press ENTER to start checking the data in the USB memory device.

4 During the data checking, "Checking" blinks.
   - The current version of the TV software and the version of the update file on the USB memory device are displayed.
   - If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed. Check the file on the USB memory device, and then reinsert the USB memory device correctly.

On-Screen Display Menu

Information (Continue)

Software Update

Manual Update

CAUTION
• Do not remove the USB memory device or unplug the AC cord while the software is being updated.

5 When the software is successfully updated, a screen is displayed indicating that the update process is completed. After this screen is displayed, the TV automatically turns off and then turns on again.
• If the update has failed, check the file in the USB memory device and try Software Update again.

6 Remove the USB memory device.

Updating the Software via the Network
1 Press ▲▼ on the Manual Update screen to select "Network Update", and then press ENTER.
• The TV connects to the network and checks for updates.
• To cancel, press ENTER.
2 The current version of the TV and the latest version of software are displayed. To update the TV software, select "Yes", and then press ENTER.
• When a server connection cannot be established or an update is not available, a message is displayed.
If a server connection cannot be established, check the broadband connection and Internet Setup.
3 After the update file is downloaded, the software update process begins.

CAUTION
• Do not unplug the AC cord while the software is being updated.

4 When the software is successfully updated, a screen is displayed indicating that the update process is completed. A screen indicating that the update is completed is displayed. 4 seconds later, the TV restarts automatically.
• If the software was not updated successfully, check the broadband connection and Internet Setup, and then try updating the software again.

Manual
Displays the built-in operation manual on the screen. You can read information about how to use this device.

<tr>
<td>Sharpness</td>
<td>For less sharpness</td>
<td>For more sharpness</td>
</tr>
</tbody>
</table>

For resetting all Picture adjustment items to the factory preset values, press ◀ to select "Reset", press ENTER, press ◀ to select "Yes", and then press ENTER.

**AV MODE (Changing Pic.Quality)**
The audio and video settings can be changed to suit the program or input content being watched.

**NOTE**
- The selectable items vary depending on the input source and on the model of your TV.
- You can select AV MODE by pressing AV MODE on the remote control unit. See page 3-10 for details of AV MODE settings.
**Picture Settings (Continue)**

### Automatic Light Sensor (Light Sensor)

Automatically adjusts the brightness of the screen.

**Off:** The brightness is fixed at the value set in "Backlight".

**On:** Automatically adjusts.

**On:Display:** Displays the Light Sensor effect on the screen while adjusting the brightness of the screen.

**NOTE:**
- When set to "On", the Light Sensor senses the surrounding light and automatically adjusts the backlight brightness. Make sure nothing obstructs the Light Sensor, which could affect its ability to sense surrounding light.
- When set to "On:Display", Light Sensor effect displays on the screen while the Light Sensor adjusts the screen brightness.

### Advanced

**Motion Enhancement**

Use Motion Enhancement to view fast-action video more clearly.

<table>
<thead>
<tr>
<th>Selected item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>AquoMotion480 (EQ30U only)</td>
<td>Drivers precision clarity during fast motion scenes.</td>
</tr>
<tr>
<td>AquoMotion240</td>
<td>Turn the LED backlight on or off for 120Hz drive display.</td>
</tr>
<tr>
<td>120Hz</td>
<td>For obtaining a clearer image.</td>
</tr>
<tr>
<td>Off</td>
<td>Original image.</td>
</tr>
</tbody>
</table>

**NOTE:**
- "Motion Enhancement" may cause image noise. If this occurs, turn the function "Off".

**Digital Noise Reduction**

Produces a clearer video image.

**Auto:** Automatically adjusts the level of noise reduction.

**High/Middle/Low:** You can select a desired level for viewing a clearer video image.

**Off:** No adjustment.
Color tone is managed using the six-color adjustment setting.

**C.M.S.-Hue:** This is a standard to adjust the color either more reddish or more bluish in tone.

**C.M.S.-Saturation:** Increases or decreases the saturation of a selected color.

**C.M.S.-Value:** A higher value makes the image brighter. A lower value makes the image darker.

**NOTE**
- For resetting all adjustment items to the factory preset values, press ▲▼ to select "Reset", and then press ENTER.

**Color Temp. (Color Temperature)**

For a better white balance, use color temperature correction.

- **High:** White with bluish tone
- **Middle:**
- **Low:** White with reddish tone

**Fine tuning the color temperature**

White balance can be adjusted between a maximum of +30 and a minimum of −30 for each color temperature.

**NOTE**
- For resetting all adjustment items to the factory preset values, press ▲▼ to select "Reset", and then press ENTER.
**Active Contrast**
Automatically adjusts the image contrast according to the scene.
- **On**: Produces high contrast image.
- **Off**: No adjustment.

**Film Mode (3:2 pull-down)**
This function provides high-quality playback of images originally encoded at 24 frames/second, such as films.
- **Advanced**: Adjusts effects to reduce judder film contents.
  - You can select a desired level of judder reduction from 0 to +10.
- **Standard**: Plays back image with equal display time for each frame, reproducing movie theater experience.
- **Off**: Normal viewing mode.

**NOTE**
- "Film Mode" does not function depending on input signal type.
- "Standard" does not function depending on input signal type.
Audio Settings

You can adjust the sound quality to your preference with the following settings.

**NOTE**

- For operating the on-screen display menu, see page 4-3.

### Selected item

<table>
<thead>
<tr>
<th>Item</th>
<th>Left button</th>
<th>Right button</th>
</tr>
</thead>
<tbody>
<tr>
<td>Treble</td>
<td>For weaker treble</td>
<td>For stronger treble</td>
</tr>
<tr>
<td>Bass</td>
<td>For weaker bass</td>
<td>For stronger bass</td>
</tr>
<tr>
<td>Balance</td>
<td>Decrease audio from the right speaker</td>
<td>Decrease audio from the left speaker</td>
</tr>
</tbody>
</table>

**NOTE**

- The Audio menu is grayed out when "Output Select" is set to "Variable". (See page 4-12.)
- For resetting Audio adjustment items to the factory preset values, press ▲▼ to select "Reset", press ENTER, press ▲▼ to select "Yes", and then press ENTER.

### Surround

The surround function produces Surround effect from the speakers.

**NOTE**

- The Audio Settings menu is grayed out when "Output Select" is set to "Variable". (See page 4-12.)
- For some discs, setup may be required on your BD/DVD player. In this case, please refer to the operation manual of your BD/DVD player.

### Auto Volume

Different sound sources sometimes do not have the same loudness level, such as a program and its commercial brakes. The Automatic Volume Control (Auto Volume) reduces this problem by equalizing.

- **ON**: Reduces the loudness gaps among different sound source. The result is automatically adjusted according to the sound sources.
- **OFF**: No adjustment.

### Reset

Returns Audio Settings to their factory preset values. To reset, select "YES" and then press ENTER.
On-Screen Display Menu

Smart TV

Dashboard
You can display a list of the main Smart TV settings.

Internet Setup
Configures LAN and Internet settings.
(See page 8-2 to 8-4.)

AQUOS Remote Control
Set this function when operating the TV from equipment connected by LAN or wireless LAN.
(See page 7-3.)
On-Screen Display Menu

Smart TV (Continue)

Wallpaper
Activating the function will display still images when the TV is in standby mode.

Wallpaper Mode
Configures Wallpaper Mode settings.
Off: Nothing will be displayed.
On: Still images will be displayed when the TV is in standby mode.

Data Source
For the wallpaper, you can select either the still images pre-installed in the TV or your favorite still images stored in the USB memory device.
Pre-Installed: The images pre-installed in the TV will be displayed in a slideshow.
USB: Your favorite images stored for the wallpaper will appear.
If only a single still image is stored in the USB memory device, that image will be displayed as the wallpaper.
When there are multiple still images in the memory, all the images will be displayed in a slideshow.

NOTE
- Images are displayed in 3-minute intervals as a slideshow.

When you display images by using the USB memory device:
- Create a folder named "WP" in the root directory of the USB memory device (the first directory when the USB memory device is opened), and store into the folder the still images you want to display for the wallpaper.
- You must insert the USB memory device to the TV before turning off the TV.
- If there are images on the USB memory device but they do not appear on the screen, switch to USB mode and check whether the image files on the USB memory device are shown correctly.

Timer Setting
You can set the length of time the TV will remain in the Wallpaper Mode.
3 hours/6 hours/12 hours/24 hours

NOTE
- No buttons except for POWER work even while the still images are being displayed.
- If the ready-for-use USB memory device is not inserted, the still images pre-installed in the TV will be displayed in a slideshow even when "Data Source" is set to "USB".
- Because the USB memory device cannot be detected immediately after the TV is turned on from standby mode, the wallpaper pre-installed in the TV may be displayed even when "Data Source" is set to "USB".
- The still images will be displayed until the set time has elapsed.
Miracast
You can connect a device such as a Miracast-compatible smartphone or tablet to the TV.
(See page 9-1.)

Advanced

TV Name Setting
Set this function when operating the TV from equipment connected by LAN or wireless LAN.
(See page 7-3.)
Use the software keyboard when you need to input text at TV Name Setting.

Software Keyboard

ABC
Switches character to uppercase. If "abc" is pressed again, switches character to lowercase.
"&12"
Changes character set into the alphabet, numbers, symbols, etc.
OK
Applies the entered information and closes the software keyboard.
space
Enters a space.
DEL
Erases the character string.

Netflix Help
You can deactivate the Netflix function. Refer to "Smart TV" > "Advanced" > "Netflix Help" and select "Deactivate".
(See page 8-13.)

VUDU Help
To deactivate the VUDU function, refer to "Smart TV" > "Advanced" > "VUDU Help" and select "Yes".
(See page 8-13.)
On-Screen Display Menu

System Options

NOTE
- For operating the on-screen display menu, see page 4-3.

Power Control
Power control setting allows you to save energy.

No Signal Off
When this function is enabled, the TV automatically shuts down if no signal is received for more than 15 minutes.

NOTE
- When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.

No Operation Off
When you enable this function, the TV automatically shuts down if no operation is performed for more than 3 hours.

NOTE
- When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.

View option

View Mode
This function changes the screen size. Select "View Option" on the menu to display the View Mode menu screen.
The View Mode menu varies depending on the input source.

MPX
Allows you to change the audio when multiple audio is available for the program you are watching.

NOTE
- You can change Audio by pressing AUDIO on the remote control unit.
  See page 3-8 for details of Audio function.

Audio Only
When listening to music from a music program, you can turn the screen off and enjoy audio only.

NOTE
- The screen image will return to normal when a button (except those for audio adjustment, such as VOL, MUTE) is presses.

Change CC
Allows you to change the Closed Caption display. Select "Change CC" on the menu to display the Closed Caption information.
The information displayed varies depending on the program you are watching.

NOTE
- You can change Closed Caption by pressing CC on the remote control unit.
  See pages 3-12 to 3-13 for details of Closed Caption function.
System Options (Continue)

Caption Setup

This function allows you to adjust the closed caption screen appearance to suit your preference.

Size/Edge Effect/Edge Color/Text Color/Background Color/Text Opacity/Background Opacity

NOTE

• The default value depends on the broadcasting station.

Startup Screen

With this function activated, the SHARP logo will be displayed when you turn on the TV.

NOTE

• This function is not available when the TV is set to "Quick Start Mode".

Front Indicator Light

When this function is set to "On", the LED on the front of the TV turns on.

NOTE

• "On" is the factory preset value. If you want to turn off the LED, set the function to "Off".

Demo

You can select the image from several types of demo mode.

NOTE

• What kinds of setting item are available depends on the model of your TV.
• "Demo" may not be selected depending on input signal type or application status.
• "Demo" may be automatically canceled depending on input signal type.
Enjoying Photo/Music/Video Playback

Preparation
You can connect the TV to a USB memory device, USB hard drive or Home Network server to enjoy viewing pictures, listening to music, and watching videos.

**NOTE**
- Depending on the USB memory device/USB hard drive/Home Network server, the TV may not be able to recognize the recorded data.  
- It may take time to read the recorded data if the USB memory device/USB hard drive/Home Network server contains many files or folders.  
- Use only alphanumeric characters for naming files.  
- File names over 80 characters (may vary depending on character set) may not be displayed.

**Connecting a USB Memory Device/USB Hard Drive**
Insert the USB memory device with recorded photos, music or videos into the USB terminal on the TV.

- When connecting a USB hard drive, be sure to use a hard drive with an AC adapter.  
- Do not remove a USB memory device or memory card from the TV while transferring files, using the slide show function, or switching screens, or before you exit “USB” from the INPUT list.  
- Do not insert and remove a USB memory device/USB hard drive to and from the TV repeatedly.  
- When using a card reader, be sure to insert a USB memory device first.

**Connecting a Home Network Server**
Connect the TV to the Home Network server using an ETHERNET cable. You can also connect a Home Network server by using a wireless LAN.

**NOTE**
- Do not disconnect a Home Network server from the TV while transferring files, when a screen is switching to another or before you exit “Home Network” from the INPUT list.  
- Do not connect and disconnect a Home Network server from the TV repeatedly.
Enjoying Photo/Music/Video Playback

Selecting the Folders to Play Back

- To play back data on a USB memory device, insert the USB memory device on the TV.
- Use the following procedure to switch back to USB mode after switching from USB mode to another mode.

1. Select "USB" or "Home Network" from INPUT list screen.
2. Press ➪ to select "Photo", "Music" or "Video", and then press ENTER.

Example

3. Press ➪ to select the desired folder, and then press ENTER.
   - "VIEW MODE" is fixed during the Music mode. During "Video mode", you can select "Auto", "Original" or "Stretch".
   - During "Video mode", videos that are smaller than the number of pixels on the screen are displayed at their original size.
   - In these cases, switch "VIEW MODE" to "Auto" to have the video fill the screen.

NOTE

- The Media screen can be displayed even by using the application window. To display the application window, press SmartCentral. (See page 3-6.)
- 16 is the maximum number of USB drives and 10 is the maximum number of Home Network servers that can be displayed.

Presetting Remote Control Function

You can operate the connected AV products (AV receiver, cable box, SAT tuner, DTV, VCR, BD, DVD, LD) using the presetting manufacturer function of your remote control unit.

Presetting manufacturer codes

1. Press an appropriate button (STB, DVD•VCR or AUDIO) to operate the connected equipment.
2. Press an appropriate button (STB, DVD•VCR or AUDIO) and MANUAL at the same time to enter the code registration mode.
3. Press 0–9 to enter the manufacturer code.
   - Preset mode is finished once the LED no longer lights up.
4. After registering the code, the LED will stop blinking then turn off after one second. (If you perform an incorrect operation, the LED will blink quickly then turn off.)

Operating the Connected Equipment

To operate the connected equipment, press STB, DVD•VCR or AUDIO to select your device. (STB (cable/satellite set-top box), BD, DVD, VCR or AUDIO.) The remote control unit button will function as follows:

- When you operate VCR, DVD or BD, press INPUT to select the terminal connected to your device.
- CABLE and SAT cannot be selected at the same time.

1 POWER (SOURCE)
   - Turns the connected equipment power on and off.

2
   - Starts playback. (VCR, BD, DVD)

3
   - Rewinds the tape and allows picture search. (VCR)
   - Hold down to go in reverse. (BD, DVD)

4
   - Stops the tape transport. (VCR)
   - Playback stops when pressed. With some Blu-ray disc/DVD players, pressing the button twice may open the disc tray. (BD, DVD)

5
   - Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter. (BD, DVD)

6 0–9
   - Press a button (or buttons) that corresponds to the channel that you wish to watch. (STB)

7
   - Rapidly advances the tape and allows picture search. (VCR)
   - Hold down to fast forward. (BD, DVD)

8
   - Sets pauses and still pictures. (VCR, BD, DVD)

9
   - Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter. (BD, DVD)

10 FLASHBACK
   - Press to switch between the current channel and the channel you were watching immediately before. Some manufacturers do not preset FLASHBACK. (STB)

11 CH
   - Press CH or CH to tune in to a higher or lower channel. (STB)
   - Press to select the channel of the TV tuner on the VCR. (VCR)

12 MENU
   - When this button is pressed, the BD/DVD menu will display. (BD, DVD)

13 ENTER
   - Press the button to select items on the STB GUIDE screen or STB MENU screen. (STB)
   - Press the button to select items on the BD/DVD menu screen. (BD, DVD)
   - ENTER: Press to activate the selected function. (STB, BD, DVD)
Using LINK Operation

Controlling HDMI Equipment Using LINK Operation

What's LINK Operation?
- Using the HDMI CEC (Consumer Electronics Control) protocol, with LINK Operation you can interactively operate compatible system equipment (Blu-ray disc equipment, AV amplifier, DVD).
- LINK Operation allows you to operate the HDMI-connected equipment with one remote control.

NOTE
- For connecting the TV to LINK-compatible equipment, use commercially available cables.
- Point the remote control toward the TV, not to connected HDMI equipment.
- Video noise may occur depending on the type of HDMI cable used. Make sure to use an HDMI-certified cable.
- Up to 3 pieces of HDMI recording equipment and one AV amplifier can be connected using this system.
- These operations affect the HDMI equipment selected as the current input source. If the equipment does not operate, turn on the equipment and select the appropriate input source using INPUT.
- The LINK feature may not operate properly when an HDMI splitter or AV selector unit is used. These devices may cause interruptions to the image and/or sound.

Control the LINK-compatible audio system
- Set the volume of LINK-compatible audio system.

NOTE
- The steps in "LINK Setup" on page 6-2 need to be completed beforehand.
- Refer to this operation manual and the operation manual of the LINK device to be used with this TV.
Controlling HDMI Equipment Using LINK Operation (Continue)

**LINK Setup**
Make the settings to use LINK Operation. Set the settings with "Initial Setup" > "Input Settings" > "LINK Setup".

**Link Operation**
Select LINK Operation Control to disable the LINK function even when a LINK-compatible HDMI device is connected to the TV. This function prevents the device from starting to operate unexpectedly.

**Auto Power On**
If this is activated, the One Touch Play function is enabled. While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

**Audio Return Channel**
This function allows you to listen to the TV audio via audio equipment without using an optical fiber cable, which conventionally is required.

Requirements for using an ARC-compatible AV amplifier:
- ARC-compatible AV amplifier connected to the ARC-compatible HDMI IN terminal. (HDMI IN 1)
  (Refer to the operation manual of the ARC-compatible equipment for details.)
- Use of an ARC-compatible cable.

**Auto**
You can listen to the TV audio with ARC-compatible audio equipment.

**Off**
This function does not work.

**NOTE**
- If the TV audio cannot be output from the AV amplifier even after making the necessary settings, connect the TV to the AV amplifier with an optical fiber cable and select "Off".

ENG 6-2
Using LINK Operation

Link Operation Menu

The Link Operation Menu allows you to make adjustments during operation of LINK-compatible equipment.

1. Press OPTION to display the Link Operation Menu.
2. Press \(\downarrow\) to select the desired item, and then press ENTER.

- Specific operations differ depending on the item you select. Following are the basic operations for each item.

Recorder Power On/Off
You can manually turn on/off the power of the connected LINK-compatible equipment. Each time you press ENTER, the connected equipment switches on or off.
Using LINK Operation

Link Operation Menu (Continue)

Show Start Menu
You can call up a setup menu from the connected LINK-compatible equipment.

**NOTE**
- Depending on the status of the equipment (recording or in standby mode, etc.), the setup menu will not be displayed.

Change Audio Output Device
You can select to listen to the TV sound only from the LINK-compatible audio system.

**By AQUOS audio SP:** The sound from the TV speaker is muted and only the sound from the LINK-compatible audio system is audible.
  - You can use VOL+/− and MUTE.

**By AQUOS SP:** The sound is output from the TV speaker.

HDMI Device Selection
If multiple HDMI devices are connected in a daisy chain, you can specify which device to control here.
Press ▲▼ to select the desired device from a list of connected HDMI devices, and then press ENTER.

LINK Setup
You can also display the LINK Setup screen from the Link Operation Menu.
Using LINK Operation

Using a Smartphone with the TV
This function enables you to connect the TV to a smartphone that supports Mobile High-Definition Link (MHL™) using an MHL cable.
To connect the TV to your MHL-compatible smartphone, be sure to use an MHL cable (commercially available).
- You can view pictures and video on a large screen.
- You can play back music files.

NOTE
- An MHL-compatible portable device is required to use this function. Connect the device to the HDMI IN 3 terminal.
- This product incorporates MHL 1.

Auto Power On
When an MHL-compatible device is connected to the TV, the TV turns on automatically.
- This function operates when "LINK Operation" is set to "On".  
  (See page 6-2.)

Auto Input Selection
When an MHL-compatible device is connected while the TV is on, the input mode is selected automatically.
- This function operates when "LINK Operation" is set to "On".
  (See page 6-2.)

Operation Using the Remote Control
The remote control of the TV can be used to operate a portable device.
- ▲▼◄►, ENTER, EXIT, 0-9, • (DOT), ENT, etc.
- The operations vary depending on the connected equipment and content being viewed.
Adjusting the PC Image

You can adjust the position of the image input from a PC by selecting "Initial Setup" > "Input Settings" > "Fine Sync."

Ordinarily you can easily adjust the picture as necessary to change image position using "Auto Sync.". In some cases, however, manual adjustment is needed to optimize the image.

- **Input Signal**: Select the input signal.
  - 1024x768
  - 1360x768
- **Auto Sync.**: For automatically adjusting the PC image.
  - Yes: Auto Sync. starts and "Now adjusting the image." is displayed.
  - No: This function does not work.
- **H-Pos.**: Centers the image by moving it to the left or right.
- **V-Pos.**: Centers the image by moving it up or down.
- **Clock**: Adjust when the image flickers with vertical stripes.
- **Phase**: Adjust when characters have low contrast or when the image flickers.

**NOTE**

- "Auto Sync." may fail if the computer image has low resolution, has unclear (black) edges, or is moved while executing "Auto Sync."
- Be sure to connect the PC to the TV and switch it on before starting "Auto Sync."
- It is not necessary to adjust the "Clock" or "Phase" when a digital signal is being input, so it cannot be selected.
- The default cursor position may not be in the center, because the screen position variable ranges may be asymmetrical.
- The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.

ENG 7-1
Using a PC

Setting Audio Input

Audio Select
This function sets the terminal to output the computer audio. The adjustment items vary depending on the input source. Select the input source corresponding to the terminal connected to the PC and then adjust the desired item. To perform the operation, refer to "Initial Setup" > "Input Settings" > "Audio Select".

HDMI 2
HDMI2(Digital): Select this when the TV and PC are connected using an HDMI-certified cable and audio is input via the same cable.
HDMI+Analog: Select this when the TV and PC are connected using an HDMI-certified cable and the audio is input via a Ø 3.5 mm stereo minijack.

NOTE
- When "Audio Select" is set to "HDMI+Analog", sound will not be produced if you use only an HDMI-certified cable to connect HDMI-compatible equipment. To produce sound, you should make an analog audio connection.
- If you want to connect HDMI-compatible equipment using only an HDMI-certified cable, set "Audio Select" to "HDMI2(Digital)".
**Using a PC**

**Control of the TV**
- The TV can be controlled from a PC, control panels and other devices using the RS-232C or IP.
- Use a cross-type RS-232C cable, ETHERNET cable (commercially available) or wireless LAN for the connections.

![Cross-type RS-232C cable](image)

**NOTE**
- This operation system should be used by a person who is accustomed to using computers.

**AQUOS Remote Control**
- Set this function when operating the TV from equipment connected by LAN or wireless LAN. To perform the operation, refer to "Smart TV".

**AQUOS Remote Control**
- When "AQUOS Remote Control" is selected, "Change" will be highlighted. Press ENTER.

**Detailed Settings**
- Make the detailed settings (Login ID, password, etc.).
- Follow the on-screen instructions to configure the settings.

**TV Name Setting**
- Set the name of the TV displayed on other network devices.
- Use the software keyboard to set the name.
  
  See page 4-24 for details on the software keyboard.

---

**Communication Conditions for IP**
- Connect to the TV with the following settings made for IP on the PC.

<table>
<thead>
<tr>
<th>IP protocol</th>
<th>TCP/IP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Host IP address</td>
<td>Set the IP address on the TV menu</td>
</tr>
<tr>
<td>Service</td>
<td>None (Do not select Telnet or SSH)</td>
</tr>
<tr>
<td>TCP port#</td>
<td>Set a port number on the TV menu (Control port)</td>
</tr>
</tbody>
</table>

When you set your ID and password on the TV menu, you need to enter them as soon as you connect to the TV.

**NOTE**
- When you use this function, make settings for "AQUOS Remote Control".
- The connection will be cut off when there has been no communication for 3 minutes.

**Communication Conditions for RS-232C (For LE661U and EQ30U models only)**
- Set the RS-232C communication settings on the PC to match the TV's communication conditions.
- The TV's communication settings are as follows:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Baud rate</td>
<td>9,600 bps</td>
</tr>
<tr>
<td>Data length</td>
<td>8 bits</td>
</tr>
<tr>
<td>Parity bit</td>
<td>None</td>
</tr>
<tr>
<td>Stop bit</td>
<td>1 bit</td>
</tr>
<tr>
<td>Flow control</td>
<td>None</td>
</tr>
</tbody>
</table>

**Communication procedure**
- Send the control commands from the PC via the RS-232C or IP.
- The TV operates according to the received command and sends a response message to the PC.
- Do not send multiple commands at the same time.
- Wait until the PC receives the OK response before sending the next command.
Using a PC

Control of the TV (Continue)

Command format
Eight ASCII codes + CR

Command 4-digits: Command. The text of four characters.
Parameter 4-digits: Parameter 0–9, x, blank, ?

Input the parameter values, aligning left, and fill with blank(s) for the remainder. (Be sure that 4 values are input for the parameter.)
When the input parameter is not within an adjustable range, "ERR" returns. (Refer to "Response code format".)

Any numerical value can replace the "x" on the table.

Response code format
Normal response
OK

Problem response
(comunication error or incorrect command)
ERROR

Using the Internet

By connecting your TV to a broadband system, you can access the Internet from the TV. You can enjoy a variety of streaming content and Internet applications. (See pages 8-12 to 8-13.)

Connecting to the Internet

- To connect your TV to the Internet, you must have a broadband Internet connection.
- If you do not have a broadband Internet connection, consult the store where you purchased your TV or ask your Internet service provider or telephone company.
- When an Internet connection is made, an Ethernet and wireless connection cannot be used at the same time. Use only one of the connection types.

Using an ETHERNET cable

Use an ETHERNET cable (commercially available) to connect the ETHERNET terminal on the TV to your broadband router (commercially available).

Using the wireless LAN

This TV is equipped with a wireless LAN function. For a wireless LAN connection, you must use "Wireless Setup" to connect the access point and TV.

NOTE

- This TV has a built-in wireless LAN function. Using a separate wireless USB LAN adapter may result in radio communications that do not comply with regulations on radio communications. Therefore, do not use a separate wireless LAN adapter.
- A wireless LAN connection and performance cannot be guaranteed for all residential environments. In the following cases, the wireless LAN signal may be poor or drop, or the connection speed may become slower.
  - When used in buildings made with concrete, reinforced steel, or metal
  - When placed near objects that obstruct the signal
  - When used with other wireless devices that emit the same frequency
  - When used in the vicinity of microwave ovens and other devices that emit a magnetic field, electrostatic charge, or electromagnetic interference
Using the Internet

Internet Setup
Perform the procedure below to make adjustments or to confirm the settings for accessing the Internet.

1 Press MENU to display the MENU screen, and then press ENTER.
2 Press ► to select "Smart TV", and then press ENTER.
3 Press ▲▼ to select "Internet Setup", and then press ENTER.
4 Press ▲▼ to select "Connection Type", "Wired Setup" or "Wireless Setup", and then press ENTER.
   • Select "Wired Setup" or "Wireless Setup" when you make general adjustments to connect to the Internet.
5 Press ▲▼ to select a specific item, and then press ENTER.
6 Press ▲▼ (or ◄►) to select the desired setting, and then press ENTER.
7 Press MENU to exit.

Connection Type
Select the connection type.

Wired: The signal is detected and setup is performed automatically. Use "Wired Setup" to check and change the settings as necessary.

Wireless: Configure the access point settings on "Wireless Setup".
Using the Internet

Internet Setup (Continue)

Wireless Setup
Make adjustments and confirm the settings necessary for wireless LAN connection (such as search for the access point and registration of it).

WPS
- **WPS push button**: Allows the TV to automatically establish the connection using a button on the access point.
- **WPS PIN code**: Sets up the connection by registering a PIN code for the access point.
- **Search**: Searches for and selects the access point to be connected.
- **Manual Setup**: Allows you to make the connection by entering an SSID for the access point.

If your access point supports Wi-Fi Protected Setup (WPS push button method), it is recommended that you use this function for the wireless connection. You can press the WPS button on the access point to configure the settings automatically.
- The name of the WPS button function may differ depending on the access point. See the operation manual of the access point for details.

1. Confirm the current settings in "Connection Type".
   - If "Wired" is selected, press ▲▼ to select "Wireless".
2. Select the desired connection method and follow the instructions shown on the display.
3. When a connection is established, the connection details are displayed. Press ENTER.

**NOTE**
- Operations cannot be guaranteed when used with access points that do not have Wi-Fi® certification.
- A wireless LAN router/access point is required to connect the TV to the Internet using a wireless LAN. See the operation manual of your access point for setup.
- If your access point is set to a stealth mode (that prevents detection by other devices), you may not be able to establish a connection. In this case, disable the stealth mode on the access point.
- A stable connection speed is required to play back streaming content. Use an Ethernet connection if the wireless LAN speed is unstable.
- Before transferring to a third party or disposal, be sure to initialize the wireless LAN settings.
- Please follow the legislation in your country when using the wireless LAN outdoors.
Internet Setup (Continue)

Wired Setup
You can make adjustments manually for the IP:
- You can switch the “Connect Type” to “AUTO” or “Manual”.
- Check that numbers are displayed for each setting.
- If there are any settings without numbers, specify the numbers by following the on-screen instructions.
- Input the IP address etc by using remote control buttons 0-9.
Using the Internet

Entering Text (Software Keyboard)

When you are editing an input screen or specifying the Network settings used for accessing the Internet, enter text from the software keyboard.

**NOTE**
- You can enter up to 128 characters for text.
- Some special characters or diacritics may not be available depending on where you enter the text.

The text you enter is displayed as you type it in.

To move the cursor (the current input position), use "" or "" on the software keyboard.

While you are entering text, likely input conversion candidates are displayed based on what you typed in.

**CapsLock**

If "alphabet" is selected, this switches characters between uppercase and lowercase. Each time you press ENTER, the character type switches.

**Symbol**

Press ENTER to select the type of characters entered: alphabet, or sign.

**BackSpace/Delete**

Erases text one character at a time.
Using the Internet

Entering Text (Software Keyboard) (Continue)

**Enter**
Applies the entered information and closes the software keyboard.

**Space**
Enters a space.

**Clear**
Erases the character string.
- When the cursor is somewhere in a line: the character string to the right of the cursor will be erased.
- When the cursor is at the right end of a line: the entire line will be erased.

**Close**
Closes the software keyboard without applying the entered information.

#### Using the Toolbar

You can use the toolbar to control the browser and to specify settings.
1. Press left to select a function, and then press ENTER.

#### Browsing Web Contents

You can display the web content you want to enjoy.
1. Press left to move to the address area in the toolbar, and then press ENTER.
   - The Enter Address menu is displayed.
2. Enter an address, and then press ENTER.
   - The web content you want to view is displayed.
Using the Internet

Using the Browser (Continue)

CAUTION
- If the power is cut due to a power failure or the TV being unplugged while you are using the Internet, information such as bookmarks or cookies may not be saved correctly.

To users who access the Internet from a PC
- When you access the Internet from this TV, the procedures may not be the same as regular browser-based access on a PC.
- On some pages, video and audio, text or images may not be displayed correctly.

About links
- Web pages on the Internet often include "links" that allow you to jump to other web pages (or sites).
- "Links" can take various forms, including words or images, but they always work in the same way letting you jump to the link destination when you select them.
- Selected items (such as links of text input fields) are enclosed in a frame.
- You can jump from a "link" to the corresponding link destination.

DISCLAIMERS
SHARP corporation bears no responsibility regarding the content and quality of the content provided by the content serve provider.
Using the Internet

Using the Browser (Continue)

Browser Settings
You can check or modify your browser settings from the Browser menu.

1. Press → to select " " in the toolbar, and then press ENTER.
2. Press ▲▼→ to specify the required setting, and then press ENTER.
Using the Internet

Using Keyboard and Mouse

You can use a keyboard or mouse for operating the TV while using the browser.

- When you use the USB devices, connect the device to the USB terminal on the TV.

**NOTE**

- The keyboard and mouse can only be used on a browser screen.
- The keyboard or mouse may not operate properly depending on the application being used.
Using the Internet

Using Applications via the Internet

By connecting the TV to the Internet, you can enjoy a variety of broadband content, including videos, music and photos.

Please check that the most current software is loaded on TV by selecting “Auto Update Setting” on “Software Update” (see page 4-14) or by visiting http://www.sharpusa.com/products/support/to check for a download of the newest software version.

Use the application window to access your favorite Internet applications. Press SmartCentral to display the application window.

Follow the on-screen instructions for each application.
- When using this TV to access an Internet application for the first time, the Disclaimer appears on the screen. Press ▲▼ to select "Agree", and then press ENTER. (You must select "Agree" to use the application.)
- Check the web site of the provider for details on setup and use of the functions.

NOTE
- If or is displayed, check your TV’s network settings and connection.
- Additional applications will be available in the future.
- These applications are provided by content providers. The available applications vary depending on your country or region.
- The delivery speed of applications varies depending on the network speed. Check the web site of the provider for details on application setup and other information.

Using the Application Window

During Dock Display

You can move the application icons.

Example

1 Select an application, and then press ▲.
2 Press ◄► to move the icon to the desired location.

Move the Icons

You can move the icons of the more commonly used applications closer to the left.

Press ◄► to move the icon to the desired location.

Saving Favorite Applications

You can set your favorite applications to the FAV APP 1, 2, and 3 buttons on the remote control for easier startup.

The applications whose icons are moved onto 1, 2 and 3 during Dock Display will be assigned to the FAV APP 1, 2 and 3 buttons respectively.

ENG 8-12
Using the Internet

Using Applications via the Internet (Continue)

Deactivating Netflix Function
You can deactivate the Netflix function. Refer to "Smart TV" > "Advanced" > "Netflix Help" and select "Deactivate".
- To confirm the Netflix status, check the information displayed on the screen and click "OK".

Deactivating the VUDU Function
To deactivate the VUDU function, refer to "Smart TV" > "Advanced" > "VUDU Help" and select "Yes". When you access the Internet application for the first time, the following appears.
- This message is available only in English.

AQUOS Advantage Live
When you select this app on the SmartCentral screen, you can use the remote support function from the support center and display the network status.

- In no event will SHARP and/or its affiliates be liable to you or any third party for any direct, indirect, special, incidental, punitive, consequential or other damages, whether the theory of liability is based on contract, tort, negligence, breach of warranty, strict liability or otherwise and whether or not SHARP and/or its affiliates have been advised of the possibility of such damages.
Using the Miracast devices

Miracast devices
When you connect a device such as a Miracast-compatible smartphone or tablet to this TV, you can enjoy video and audio from the device on the TV's large screen and speakers.

1. Select the "Smart TV" > "Miracast".
2. Enable the Miracast function on the Miracast device and connect to the TV.
   (The TV screen changes according to the behavior of the device)

**NOTE**
- When the TV is turned off or the connection is ended on the device, you must connect the device again.
- For details about the operation of the Miracast-compatible device, check the manual for that device.
- When the Miracast device is connected to the TV over a wireless LAN, Miracast video may be distorted and Miracast audio may be interrupted depending on the status of the TV's connection to the access point.
Appendix

Removing the Stand

- Before detaching (or attaching) the stand, make sure to turn off the TV and unplug the AC cord.

CAUTION

- Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.

1. Unfasten the four screws used to secure the stand in place.

Example

2. Detach the stand from the TV.

NOTE

- Be sure to always carry the TV by two people (80 inch models: three people) holding it with two hands.

- In the installation procedure, be careful not to catch your fingers between the TV set and the floor.
Setting the TV on the Wall

Using an optional bracket to mount the TV

- You can ask a qualified service professional about using an optional AN-52AG4 bracket to mount the TV on the wall.
- Carefully read the instructions that come with the bracket before beginning work.

**CAUTION**

- This TV should be mounted on the wall only with the wall mount bracket AN-52AG4 (SHARP). The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.
- Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.

Hanging on the wall

AN-52AG4 wall mount bracket.
(See the bracket instructions for details.)

LC-70LE660U/LC-70LE661U/
LC-70C6600U/LC-70EQ30U

- The center of the display:
  3/32 inch (2mm) above the "c" position.
LC-60LE660U/LC-60LE661U/
LC-60C6600U/LC-60EQ30U

- The center of the display:
  31/64 inch (12mm) above the "c" position.

- Refer to the operation manual of AN-52AG4 for details.

---

The wall mount kit (sold separately) allows you to mount the TV on the wall. For detailed information on installing the wall mount, see the instructions provided with the product. We recommend you to contact a technician for assistance when installing it. SHARP is not responsible for any damage to the product or injury to yourself or others if you elect to install the wall mount on your own.

**CAUTION**

- Install your wall mount on a solid wall perpendicular to the floor.
- When you want to attach the wall mount to surfaces other than plaster board, please contact your nearest retailer/adviser for additional information. If you install the TV on a ceiling or slanted wall, it may fall and result in severe personal injury. Always have two people mount the TV on a wall.

**NOTE**

- Due to the terminal configuration on this TV, when you wall-mount this model, make sure there is enough space between the wall and the TV for the cables.
- To use this TV mounted on a wall, remove the AC cord holder on the rear of the TV, and then use the screws supplied with the wall mount bracket to secure the bracket to the rear of the TV.
The location of the AC cord holder differs depending on whether it is in its shipment location (A) or has been used as a cable tie (B).

</table>

**NOTE**
- To use this TV mounted on a wall, remove the cable tie as needed.
- Do not use screws that do not comply with the VESA standard screw specifications.
- Do not use screws that are longer than the standard length. Screws that are too long may cause damage to the inside of the TV.
- Do not fasten the screws too firmly or loosely. This may damage the product or cause the product to fall, leading to personal injury. SHARP is not liable for these kinds of accidents.
- SHARP is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.

![Warning symbol]

Do not install the wall mount kit while your TV is turned on. It may result in personal injury due to electric shock.
## Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Solution</th>
</tr>
</thead>
</table>
| No power | • Check if you pressed **POWER** on the remote control unit.  
Is the AC cord disconnected?  
Has the power been turned on? |
| Unit cannot be operated. | • External influences such as lightning, static electricity, may cause improper operation. In this case, operate the unit after first turning off the power of the TV or unplugging the AC cord and replugging it in after 1 or 2 minutes. |
| Remote control unit does not operate. | • Is the equipment to be operated by the remote control unit set correctly? Press **TV** to set the remote control unit to the setting for operating the TV.  
Are batteries inserted with polarity (+, -) aligned?  
Are batteries worn out? (Replace with new batteries.)  
Are you using it under strong or fluorescent lighting?  
Is a fluorescent light illuminated near the remote control sensor? |
| Picture is cut off with sidebar screen. | • Is the image position correct?  
Are screen mode adjustments such as picture size made correctly?  
Adjust the picture tone.  
Is the room too bright? The picture may look dark in a room that is too bright. |
| Strange color, light color, or color misalignment | • Check the power control settings.  
The unit's internal temperature has increased. Remove any objects blocking vent or clean.  
Is connection to other components correct?  
Is the correct input selected?  
Is "On" selected in "Audio Only"?  
If the PC image is not displayed, check the following:  
- When connecting a laptop PC to the TV, check that display output mode of the PC is set to external monitor.  
- Check the resolution setting on the PC. Is a non-compatible signal being input?  
To enjoy HD images from external equipment, you are required to set up HDMI connection or component connection.  
If the program content is not of HD quality, HD images cannot be displayed. Check that the program you are viewing provides HD images.  
The HD cable/satellite set-top box may need to be configured to output HD images via cable/satellite.  
The cable/satellite broadcast may not support a signal resolution of 1080p.  
This is not a malfunction. This happens when the cabinet slightly expands and contracts according to change in temperature. This does not affect the TV's performance.  
The TV has only limited functions compared with regular PC browsers. |
| Power is suddenly turned off. | • Check if you pressed **POWER** on the remote control unit.  
Is the AC cord disconnected?

</tr>
<tr>
<td>- Is the audio output of the PC configured correctly? Check the audio output settings and output audio format in Sound Properties on the PC.</td>
<td></td>
</tr>
<tr>
<td>- Depending on the board, only video signals may be output. In this case, in addition to connecting an HDMI-certified cable to the HDMI IN 2 terminal, connect a Ø 3.5 mm stereo minijack cable to the AUDIO IN terminal and set “Audio Select” to “HDMI+Analog”.</td>
<td></td>
</tr>
</tbody>
</table>

### Cautions regarding use in high and low temperature environments
- When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
- Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the front panel to malfunction.

Storage temperature: -4°F to +140°F (-20°C to +60°C)

SmartCentral Terms of Use

The following SmartCentral Terms of Use, as well as the SmartCentral Privacy Policy available at https://www.sharpusa.com/SmartCentral/privacypolicy.aspx (collectively, the "Terms and Conditions") govern Your use of SmartCentral. By using SmartCentral, You agree to be bound by these SmartCentral Terms and Conditions and acknowledge that you have read and understand the SmartCentral Privacy Policy.

1. Definitions

"SmartCentral" is an Internet-based service provided by Sharp Electronics Corporation ("Sharp") which is accessible only via your AQUOS television. SmartCentral consists of information services and other content, including underlying operating systems or platforms (collectively, "Connected Services") which may be provided by Sharp, affiliates of Sharp, including but not limited to its parent corporation or subsidiaries ("Affiliates"), and other third parties ("Third Party Content Providers"). “You”, “Your”, and “Yourself” shall be synonymous for purposes of these Terms and Conditions and shall mean each person who uses SmartCentral.

2. Use of SmartCentral

By using SmartCentral, You hereby accept these Terms and Conditions as currently constituted and as may be updated from time to time. Sharp shall have the right at any time and in its sole discretion to change or modify the terms and conditions applicable to the use of SmartCentral, or any part thereof, or to impose new conditions, including, but not limited to, adding fees and charges for the use of SmartCentral or any Connected Services provided therein. Such alterations, edits, supplements or amendments shall be effective immediately upon notice thereof, which may be given by posting on SmartCentral. Any use of SmartCentral by You after such notice shall constitute acceptance of any such alterations, edits, supplements or amendments. Please therefore regularly visit these Terms and Conditions so that You are aware of any such additional or revised terms or conditions to which You are bound. If any changes made to these Terms and Conditions are unacceptable to You, You must immediately terminate use of SmartCentral by pressing the “Exit” button. Please note that You may also be required to accept other terms and conditions that govern use of particular services or Connected Services available on your AQUOS television and prior to Your access to or use of such services, including end user license agreements from Third Party Content Providers.

3. Entire Agreement

These Terms and Conditions constitute the entire agreement between You and Sharp concerning the use of SmartCentral and supersede any and all statements or other agreements, whether oral or written, between You and Sharp. These Terms and Conditions may not be altered, edited, supplemented or amended in any manner by You and any such attempted alteration, edit, supplement or amendment shall be null and void, unless first agreed to by an authorized representative of Sharp in writing.

4. Representations and Warranties

You represent and warrant that You (a) are at least 18 years old; (b) have the right, authority and capacity to bind yourself to these Terms and Conditions; (c) have read the SmartCentral Privacy Policy; and (d) have read and agree to these Terms and Conditions.

5. Personal/Non-Commercial Use

Unless otherwise specified, SmartCentral is for personal and non-commercial use. You may not modify, copy, distribute, transmit, display, perform, reproduce, publish, license, create derivative works from, transfer or sell any Connected Services made available through your AQUOS television.

6. Privacy and Protection of Personal Information

At Sharp, we make every effort to maximize and maintain the privacy and security of users. The SmartCentral Privacy Policy is incorporated by reference into these Terms of Use and applies to information submitted or collected via SmartCentral. To view the SmartCentral Privacy Policy, which may be revised by us from time to time, please visit https://www.sharpusa.com/SmartCentral/privacypolicy.aspx.

7. Modifications to SmartCentral and/or Resources

Sharp, in its sole discretion, shall control the appearance, development and operation of SmartCentral. Sharp reserves the right, for any reason and in its sole discretion and without notice, to modify, terminate, change, suspend or discontinue any and all aspects of SmartCentral, including, without limitation, available Connected Services, the method of delivery, features, and/or hours of availability. Sharp shall not be liable to You or any third party for such modification, termination, change, suspension or discontinuation, if any.

8. Fees and Equipment

The SmartCentral platform is provided to You at no additional charge. Sharp reserves the right to change prices or institute new charges at any time and in its sole discretion for the use of SmartCentral and/or any Connected Services provided therein. Further, You shall be responsible for obtaining or maintaining all television, Internet hardware, Internet connectivity and other equipment or services needed for access to and use of SmartCentral and all charges related thereto.

9. Availability of SmartCentral

You may not be able to access SmartCentral or the Connected Services for a variety of reasons, including, but not limited to, power failure, other Internet connection failure, or failure to configure Your television properly. Sharp, its directors, officers, employees, agents, contractors and Affiliates shall not be liable to You or any third party with respect to such failures or maintenance outages, regardless of cause or whether it could have been avoided.

10. Accounts, Passwords and Security

Certain features or services offered on or through SmartCentral may require opening an account, which may include, without limitation, setting up an ID, user name and/or password. You are solely and entirely responsible for maintaining the confidentiality of Your account information, including Your password, and for the activity of users utilizing Your account, ID, user name and/or password, whether or not You specifically authorized such transactions. You agree to notify Sharp immediately of any unauthorized use of Your account, ID, user name and/or password, or any other breach of security. You may not use anyone else’s account, user name, ID and/or password without the express permission and consent of the holder of that account, ID, user name and/or password. Sharp cannot and will not be liable for any loss or damage arising from the failure to comply with these obligations.
11. **No Unlawful or Prohibited Use**
You agree that You will not use SmartCentral for any purpose that is unlawful or prohibited by these Terms and Conditions.
You may not use SmartCentral in any manner that could disable, damage, overburden or impair any Sharp server or networks connected to any Sharp server or interfere with any other party’s use and enjoyment of SmartCentral. You may not attempt to gain unauthorized access to SmartCentral or to any Connected Services provided therein through hacking or any other means. You may not obtain or attempt to obtain any materials or information through any means not intentionally made available via SmartCentral and/or any Connected Services provided therein.

12. **Termination**
Sharp reserves the right to terminate Your authorization to use SmartCentral and/or any Connected Services provided therein at any time and for any reason, including, but not limited to, for Your violation of these Terms and Conditions. Upon termination, any provisions of the Terms and Conditions which, by their nature, are intended to survive termination, including, but not limited to, Sections 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, and 25 herein, shall continue to survive.

13. **Third Party Content**
Some Connected Services provided on or through SmartCentral is provided by Third Party Content Providers. Your use of Connected Services provided via Third Party Content Providers is at Your own risk and subject to any applicable agreement between You and the Third Party Content Provider. Although Sharp reserves the right to do so at any time and in its sole discretion, Sharp is not required to pre-screen or monitor any Connected Services available via SmartCentral from Third Party Content Providers. Unless otherwise specifically authorized by the applicable Third Party Content Providers, all third party content and services provided are for personal and non-commercial use; you may not modify, copy, distribute, transmit, display, perform, reproduce, upload, publish, license, create derivative works from, transfer or sell in any manner or medium any content or service. Sharp is not responsible for the acts or omissions of Third Party Content Providers. Such Connected Services provided by Third Party Content Providers are provided at Your own risk and subject to any applicable agreement between You and the Third Party Content Provider.

14. **Links to Other Sites**
SmartCentral may contain links to other independent third-party Web sites (“Linked Sites”). These Linked Sites are provided solely as a convenience to You. Such Linked Sites are not under Sharp’s control, and Sharp is not responsible for and does not endorse the content of such Linked Sites, including, but not limited to, any information or materials contained on such Linked Sites.

15. **Disclaimer of Warranties**
SMARTCENTRAL, INCLUDING ANY CONNECTED SERVICES PROVIDED THEREIN, IS PROVIDED TO YOU ON AN “AS-IS” AND “AS AVAILABLE” BASIS AND SHARP AND ITS AFFILIATES MAKE NO WARRANTY OR REPRESENTATION OF ANY KIND TO YOU, EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES OF SUITABILITY, AVAILABILITY, ACCURACY, COMPLETENESS, SECURITY, TITLE, USEFULNESS, LACK OF NEGLIGENCE OR ERROR-FREE OR UNINTERRUPTED OPERATION OR USE OF SMARTCENTRAL AND/OR CONNECTED SERVICES PROVIDED THEREIN, OR THAT SMARTCENTRAL, INCLUDING ANY CONNECTED SERVICES PROVIDED THEREIN, WILL MEET YOUR REQUIREMENTS OR EXPECTATIONS. FURTHER, SHARP AND ITS AFFILIATES MAKE NO WARRANTIES AS TO THE RESULTS THAT MAY BE OBTAINED FROM THE USE OF CONNECTED SERVICES MADE AVAILABLE ON YOUR AQUOS TELEVISION NOR SHALL THEY BE LIABLE TO YOU FOR ANY DECISIONS BASED ON ANY CONNECTED SERVICES PROVIDED. SHARP MAKES NO WARRANTIES OR REPRESENTATIONS AND ASSUMES NO RESPONSIBILITY AND SHALL NOT BE LIABLE FOR ANY DAMAGES RESULTING FROM ANY CONNECTED SERVICES PROVIDED BY THIRD PARTY CONTENT PROVIDERS. SUCH CONNECTED SERVICES PROVIDED BY THIRD PARTIES IS FOR USE AT YOUR OWN RISK. SHARP IS NOT AN AGENT OF AND ASSUMES NO RESPONSIBILITY FOR THE ACTS OR OMISSIONS OF THIRD PARTY CONTENT PROVIDERS NOR ANY ASPECT OF THE CONNECTED SERVICES RELATED TO THOSE THIRD PARTY CONTENT PROVIDERS. SOME JURISDICTIONS DO NOT APPLY THE EXCLUSION OF CERTAIN WARRANTIES SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.
16. Limitation of Liability
IN NO EVENT WILL SHARP AND/OR ITS AFFILIATES BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, DATA OR USE OR OTHER LOSS ARISING OUT OF OR RELATING TO THESE TERMS AND CONDITIONS, SMARTCENTRAL AND/OR ANY CONNECTED SERVICES PROVIDED THEREIN. THIS PARAGRAPH SHALL APPLY REGARDLESS OF WHETHER THE THEORY OF LIABILITY IS BASED ON CONTRACT, TORT, NEGLIGENCE, BREACH OF WARRANTY, STRICT LIABILITY OR OTHERWISE AND WHETHER OR NOT SHARP AND/OR ITS AFFILIATES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL SHARP AND/OR ITS AFFILIATES’ AGGREGATE CUMULATIVE LIABILITY TO YOU OR ANY THIRD PARTY ARISING OUT OF OR RELATED TO SMARTCENTRAL AND/OR ANY CONNECTED SERVICES PROVIDED THEREIN EXCEED FIFTY US DOLLARS ($50). YOU HEREBY RELEASE SHARP AND/OR ITS AFFILIATES FROM ANY AND ALL OBLIGATIONS, LIABILITIES AND CLAIMS IN EXCESS OF THIS LIMITATION.

17. Indemnification
You agree to defend, indemnify and hold harmless Sharp, its directors, officers, employees, agents, contractors and Affiliates from and against all claims, losses, damages, expenses, liabilities and costs, including reasonable attorneys’ fees, arising from or relating to Your use of SmartCentral, any Connected Services provided therein, and/or any breach of these Terms and Conditions.

18. Governing Law/Waiver of Jury Trial
These Terms and Conditions shall be governed by and construed under the laws of the State of New York, without regard to conflict of laws rules. You agree to the personal jurisdiction of and venue in the state and federal courts in New York County, New York, and waive any objection to such jurisdiction or venue Any claim by You under these Terms and Conditions must be brought within one (1) year after the cause of action arises or such claim or cause of action is barred. You and Sharp hereby waive trial by jury with respect to any dispute relating to these Terms and Conditions, SmartCentral and/or any Connected Services provided therein.

19. Trademarks
The trademarks "Sharp," "AQUOS," "SmartCentral," or any other related product names, service names or logos used, quoted and/or referenced on SmartCentral are trademarks, registered trademarks, or service marks of Sharp Corporation and/or its Affiliates. All other product names, service names, logos and/or company names appearing on SmartCentral and/or Connected Services provided therein are the property of their respective holders and may be protected as their trademarks, registered trademarks, service marks and/or trade names.

20. Copyright
All Connected Services on or available through SmartCentral are © Sharp Electronics Corporation, its Affiliates and/or Third Party Content Providers. All rights reserved.

21. Notices
Any notices from Sharp to You relating to these Terms and Conditions or SmartCentral shall be posted on SmartCentral. You should therefore regularly visit these Terms and Conditions so that you are aware of any such notices.
Any notices, questions or comments related to these Terms and Conditions should be directed to:
Legal Department
ATTN: SmartCentral Terms & Conditions
Sharp Electronics Corporation
One Sharp Plaza
Mahwah, NJ 07430

22. Assignment
Sharp may assign these Terms and Conditions, in whole or in part, to any third party at any time with or without notice to You. You may not assign or transfer these Terms and Conditions.

23. Force Majeure
Sharp shall in no way be liable for any delay or failure in its performance to the extent such delay or failure is caused or is a result of acts beyond Sharp's reasonable control, including, but not limited to, acts of God, fire, flood, earthquake, accident, riot, war, government intervention, terrorism, embargoes, strikes, labor difficulties, equipment failures, or any other causes beyond the control of Sharp.

24. Headings
All section headings used in these Terms and Conditions are for convenience or reference only and in no way shall form a part of these Terms and Conditions or expand, limit, define or interpret the scope of this agreement or any provision hereof.

25. Waiver/Severability
Sharp’s waiver of any breach or right under these Terms and Conditions shall not be deemed a waiver of any other or subsequent breach or right. If any provision of these Terms and Conditions is found to be invalid or unenforceable, such provision shall be changed and interpreted so as to best accomplish the original intent of the provision to the fullest extent permitted by law and the remaining provisions shall remain in full force and effect.
SmartCentral Terms of Use / Privacy Policy

Sharp Electronics Corporation (“Sharp”) is committed to protecting your privacy. Please read the following SmartCentral Privacy Policy (“Privacy Policy”) as it applies to data and information obtained through SmartCentral. This Privacy Policy applies only to information submitted or collected through SmartCentral and may differ from other Sharp privacy policies or privacy policies of third party applications or sites accessed on the SmartCentral platform. This Privacy Policy should be read in conjunction with the SmartCentral Terms of Use (“Terms of Use”), available at http://www.sharpusa.com/SmartCentral/termsofuse.aspx, as this Privacy Policy is incorporated therein by reference. All defined terms in the Terms of Use shall have the same meaning in this Privacy Policy.

1. Information We Collect
As part of Your use of SmartCentral and any Sharp services available through SmartCentral, Sharp may ask that you voluntarily provide some types of personally identifiable information to us, including, but not limited to, Your name and contact information. Sharp may also collect and store certain other information through Your use of SmartCentral, including, but not limited to, IP address, MAC address (a unique identifier of the device), other individual device identifiers, individual account information and passwords, application access information, user preferences, usage patterns, cache data, and other actions taken in connection with the use of SmartCentral.

2. Use of Your Information
Sharp collects and may use the information collected to operate and improve SmartCentral, deliver the services and/or Connected Services You have requested or may be interested in, and otherwise enhance Your overall experience with SmartCentral. For instance, Sharp may, without limitation, use the information to provide customer service and support, update You on new products or services, personalize SmartCentral, make new content available to You based on geographic location, interests or preferences, or share information collected with existing or potential Third Party Content Providers to deliver or improve existing or develop new content accessible via SmartCentral. Sharp may further share Your information, including personally identifiable information, with third parties: (1) who perform functions, as our agent or contractor, including, but not limited to, analyzing data, providing marketing assistance, hosting websites and providing customer support; (2) to comply with the law, applicable regulations, court orders or subpoenas, to enforce the Terms and Conditions or other agreements, or to protect our rights, property or safety or the rights, property or safety of our users or others; (3) if the disclosure is done as part of a purchase, transfer or sale of services or assets (e.g., in the event that substantially all of our assets are acquired by another party, customer information may be one of the transferred assets); or (4) as otherwise described in this Privacy Policy. Sharp’s agents or contractors who have access to Your personally identifiable information in connection with the above activities are required to keep the information confidential and not to use it for any purpose other than to carry out the services they are performing for Sharp.

3. How We Collect Information
Sharp may utilize standard internet tools such as cookies, tags, caches, and user events to temporarily store or retrieve non-personally identifiable information in connection with your use of SmartCentral. A Cookie is a text-only string of characters which may be temporarily stored in Your SmartCentral television or on Sharp’s servers. A Pixel Tag is a graphic on a web page or in an e-mail message designed to track pages viewed and messages opened. Third Party Content Providers may also use Cookies, Pixel Tags, user events, or other tools on their sites and applications available through SmartCentral. Please be aware that any information gathered by sites or applications available through the SmartCentral platform are collected by the Third Party Content Provider and not by Sharp. Sharp has no access to or control over the collection, storage, or use of information gathered by Third Party Content Provider(s). For more information about third party sites, please see Section 4 below.

4. Third Party Sites
This Privacy Policy applies only to information gathered directly by and through the SmartCentral interface and does not pertain to any other site or application, whether owned or operated by Sharp or a Third Party Content Provider, that is accessible or made available through SmartCentral. These other sites and applications may collect personal information about You. The information practices of those sites and applications are not covered by this Privacy Policy and such sites and applications may have their own privacy statements. You will have the opportunity to and should review the privacy policies of those sites and applications before providing any personal information.

5. Security
Sharp takes precautions, including administrative, technical and physical measures, to safeguard and help protect personally identifiable information collected from loss, theft and misuse, as well as unauthorized access, disclosure, alteration and destruction. Information collected will be stored on a secure data base. Although we take appropriate measures to safeguard against unauthorized disclosures of information, Sharp cannot assure that personally identifiable information collected will never be disclosed in a manner that is inconsistent with this Privacy Policy.

6. Personal Information of Children
At Sharp, we are committed to protecting the personal information of children. As such, SmartCentral is not meant for use by individuals under the age of 18 and Sharp will not knowingly collect personal information from individuals under such age. If we learn that a child under the age of eighteen has provided any personal information, we will use commercially reasonable efforts to delete such information promptly. Sharp encourages parents and legal guardians to participate in all online activities of their children and instruct them to not provide any personally identifiable information to Sharp via SmartCentral.
7. Opt-Out
You may terminate at any time the collection of personally identifiable and non-personally identifiable
information by disabling Your use of SmartCentral.

8. Notice to California Residents - Your California Privacy Rights
If you are a California resident, you have the right to receive: (a) information identifying any third
party company(ies) to whom Sharp may have disclosed, within the past year, Your personal
information and (b) a description of the categories of personal information disclosed. To obtain such
information, please email your request to: SmartCentralPrivacy@SharpUSA.com. You are entitled to
request such information once per calendar year.

9. Updating this Policy
Sharp may revise or update this Privacy Policy as we change or add new services or content or
develop better ways to serve users of SmartCentral. Please review our Privacy Policy regularly for
updates. When we make a change we will post a new effective date on the Privacy Policy. If Your
personal information will be used in a manner materially different from that stated at the time of
collection, Sharp will notify users via a posting on this page for thirty (30) days before the material
change is made.

10. Questions or Concerns
If You have any questions, comments or concerns regarding this Privacy Policy, You may contact
Sharp at 1 Sharp Plaza, Mahwah, NJ 07495, or SmartCentralPrivacy@SharpUSA.com . .

NOTE
The Terms of Use and Privacy Policy may be updated or amended from time to time.

Software License

Information on the open-source software license.

Software composition
The software included in this product is comprised of various software components whose individual copyrights are held by third parties.

This product also makes use of freely distributed software and software components whose copyrights are held by third parties. These include software components covered by a GNU General Public License (hereafter GPL), a GNU Lesser General Public License (hereafter LGPL) or other license agreement.

Obtaining source code
Some of the open source software licensors require the distributor to provide the source code with the executable software components. GPL and LGPL include similar requirements. For information on obtaining the source code for the open source software and for obtaining the GPL, LGPL, and other license agreement information.

ENG 15-3
GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software— to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.
Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.
3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

   a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
   b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
   c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.
8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

   Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED. INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the program's name and an idea of what it does.
Copyright (C) yyyy name of author

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.
You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.

signature of Ty Coon, 1 April 1989
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.
