IMPORTANT: Please read this operation manual before starting operating the equipment.

IMPORTANTE: Lea este manual de operación antes de comenzar a operar el equipo.
OPERATION MANUAL

- The illustrations and on-screen displays in this operation manual are for explanation purposes and may vary slightly from the actual operations.
- Menu items that are not selectable are grayed out.
- The examples used throughout this manual are based on the LC-42D64U model.

IMPORTANT:
To aid reporting in case of loss or theft, please record the TV’s model and serial numbers in the space provided. The numbers are located at the rear of the TV.

Model No.:  
Serial No.:  

IMPORTANT INFORMATION

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

The lightning flash with arrow-head symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within a triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.
**IMPORTANT INFORMATION**

**CAUTION:**
DO NOT PLACE THIS PRODUCT ON AN UNSTABLE CART, STAND, TRIPOD, BRACKET, OR TABLE. THE PRODUCT MAY FALL, CAUSING SERIOUS PERSONAL INJURY AND SERIOUS DAMAGE TO THE PRODUCT. USE ONLY WITH A CART, STAND, TRIPOD, BRACKET, OR TABLE RECOMMENDED BY THE MANUFACTURER OR SOLD WITH THE PRODUCT. FOLLOW THE MANUFACTURER’S INSTRUCTIONS WHEN INSTALLING THE PRODUCT AND USE MOUNTING ACCESSORIES RECOMMENDED BY THE MANUFACTURER. A PRODUCT AND CART COMBINATION SHOULD BE MOVED WITH CARE, QUICK STOPPES, EXCESSIVE FORCE, AND UNEVEN SURFACES MAY CAUSE THE PRODUCT AND CART COMBINATION TO OVERTURN.

**WARNING:** FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user’s authority to operate this equipment.

**CAUTION:**
This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

**DECLARATION OF CONFORMITY:**
SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-42D64U/LC-46D64U/LC-52D64U
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
RESPONSIBLE PARTY:
SHARP ELECTRONICS CORPORATION
Sharp Plaza, Mahwah, New Jersey 07430-2135
TEL: 1-800-BE-SHARP
For Business Customers: URL http://www.sharpusa.com

**INFORMATION:**
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

“Note to CATV system installer: This reminder is provided to call the CATV system installer’s attention to Article 820-40 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.”

This product utilizes tin-lead solder, and fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated due to environmental considerations. For disposal or recycling information, please contact your local authorities, the Electronic Industries Alliance: www.eiae.org, the lamp recycling organization: www.lamprecycle.org or Sharp at 1-800-BE-SHARP (For U.S.A. only)

**Trademarks**

- Products that have earned the ENERGY STAR® are designed to protect the environment through superior energy efficiency.
DEAR SHARP CUSTOMER

Thank you for your purchase of the Sharp Liquid Crystal Television. To ensure safety and many years of trouble-free operation of your product, please read the Important Safety Instructions carefully before using this product.

IMPORTANT SAFETY INSTRUCTIONS

Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your Liquid Crystal Television, please read the following precautions carefully before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Additional Safety Information

15) Power Sources—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
16) Overloading—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
17) Object and Liquid Entry—Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
18) Damage Requiring Service—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
   a) When the AC cord or plug is damaged,
   b) If liquid has been spilled, or objects have fallen into the product,
   c) If the product has been exposed to rain or water,
   d) If the product does not operate normally by following the operating instructions.
   Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation,
   e) If the product has been dropped or damaged in any way, and
   f) When the product exhibits a distinct change in performance - this indicates a need for service.

19) Replacement Parts—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.

20) Safety Check—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.

21) Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.
IMPORTANT SAFETY INSTRUCTIONS

- Water and Moisture — Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.

- Stand — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer’s instructions. Use only the mounting hardware recommended by the manufacturer.

- Selecting the location — Select a place with no direct sunlight and good ventilation.

- Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer’s instructions are followed.

- Heat — The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

- The Liquid Crystal panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the panel breaks.

- Heat — The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

- The Liquid Crystal panel is a very high technology product with 6,220,800 thin film transistors, giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green or red. Please note that this does not affect the performance of your product.

Precautions when transporting the TV

- Be sure to always carry the TV by two people holding it with two hands — one hand on each side of the TV.

- Lightning — For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.

- Power Lines — An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
**IMPORTANT SAFETY INSTRUCTIONS**

- Outdoor Antenna Grounding — If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

![Diagram of Antenna Grounding](image)

- To prevent fire, never place any type of candle or flames on the top or near the TV set.

- To prevent fire or shock hazard, do not expose this product to dripping or splashing. No objects filled with liquids, such as vases, should be placed on the product.

- To prevent fire or shock hazard, do not place the AC cord under the TV set or other heavy items.

- Turn off the main power and unplug the AC cord from the wall outlet before handling.
  - Use a soft cloth and gently wipe the surface of the display panel. Using a hard cloth may scratch the panel surface.
  - Use a soft damp cloth to gently wipe the panel when it is really dirty. (It may scratch the panel surface when wiped strongly.)
  - If the panel is dusty, use an anti-static brush, which is commercially available, to clean it.
  - To protect the panel, do not use a dirty cloth, liquid cleaners or chemical cloth to clean it, such materials may damage the panel surface.
  - To clean the outer cabinet, use the same method. Do not use liquid or aerosol cleaners.

- Do not display a still picture for a long time, as this could cause an afterimage to remain.
Supplied accessories

Make sure the following accessories are provided with the product.

- Remote control unit (×1) Page 8
- "AAA" size battery (×2) Page 8
- AC cord (×1) Page 7
- Cable clamp (×1) Page 7
- Stand unit (×1) Page 6
- Operation manual (×1)

NOTE
- Always use the AC cord supplied with the TV.
- AC cord enclosed in this product is for 110-125V. In using it on the 125-240V AC, please consult to the following.

SHARP ELECTRONICS CORPORATION, LATIN AMERICA GROUP
6100 Blue Lagoon Drive, Suite 150, Miami, Florida 33126, U.S.A.

QUICK REFERENCE

Attaching the stand

- Before attaching (or detaching) the stand, unplug the AC cord from the AC INPUT terminal.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

CAUTION
- Attach the stand in the correct direction.
- Be sure to follow the instructions. Incorrect installation of the stand may result in the TV falling over.

NOTE
- To detach the stand, perform the steps in reverse order.
VENTILATION & CLEANING TIPS

Keep your AQUOS television in a well ventilated area and make sure not to place it by a heat source or use near water. The AQUOS television is designed for AC use only and should be used with supplied AC cord.

Clean the screen by spraying a soft lint free cloth with water to lightly moisten. Gently wipe and avoid pressing on the screen. To clean the outer cabinet, use the same method. Do not use liquid or aerosol cleaners.

The screen is glass and can be scratched or broken when dropped or impacted.

QUICK INSTALLATION TIPS

1. Attach your antenna to the back of the AQUOS television. (See page 12.)
2. Connect the AC plug for the AQUOS television into the AC outlet.

   • Place the TV close to the AC outlet, and keep the power plug within reach.

   • TO PREVENT RISK OF ELECTRIC SHOCK, DO NOT TOUCH UN-INSULATED PARTS OF ANY CABLES WITH THE AC CORD CONNECTED.

3. Place the Ferrite core in the space indicated in the below figure and bundle the cords properly with the cable clamp and the cable tie.

4. How to turn on the AQUOS television for the first time.
   A) Press POWER on the AQUOS television.
   B) The POWER indicator on the front of the AQUOS television lights GREEN.

   • Speakers cannot be detached from the TV.
   • TV angle cannot be adjusted.
QUICK REFERENCE

If the remote control fails to operate TV functions, replace the batteries in the remote control unit.

1 Open the battery cover.  
2 Insert two “AAA” size batteries (supplied with the product).  
3 Close the battery cover.

**CAUTION**
Improper use of batteries can result in chemical leakage or explosion. Be sure to follow the instructions below.
- Do not mix batteries of different types. Different types of batteries have different characteristics.
- Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries or cause chemical leakage in old batteries.
- Remove batteries as soon as they are worn out. Chemicals that leak from batteries that come in contact with skin can cause a rash. If you find any chemical leakage, wipe thoroughly with a cloth.
- The batteries supplied with this product may have a shorter life expectancy due to storage conditions.
- If you will not be using the remote control unit for an extended period of time, remove batteries from it.

**IMPORTANT:**
The POWER indicator on the AQUOS television should light GREEN indicating you have power to the AQUOS television.

If the POWER indicator on the AQUOS television still does not light up, press TV POWER on the remote control to turn the power on.

**IMPORTANT:**
IF THE UNIT DOES NOT POWER ON - UNPLUG THE AQUOS TELEVISION FROM THE OUTLET AND REPEAT THE INSTALLATION STEPS.

IF YOU STILL ENCOUNTER NO POWER, PLEASE CONTACT US AT 1-800-BE-SHARP.

Please refer to the BASIC ADJUSTMENT SETTINGS SECTION for EZ Setup and basic channel setup functions and USING EXTERNAL EQUIPMENT SECTION for other device connections (DVD, VCR, AUDIO, etc.) in your AQUOS operation manual.

Remote control unit

1 TV POWER: Switch the TV power on or enters standby. (See page 16.)
2 DISPLAY: Display the channel information.
3 SOURCE POWER: Turns the power of the external equipment on and off.
4 External equipment operational buttons: Operate the external equipment.
5 0 – 9: Set the channel. (See page 18.)
6 * (DOT): (See pages 18 and 52.)
7 INPUT: Select a TV input source. (TV, INPUT 1, INPUT 2, INPUT 3, INPUT 4, INPUT 5, INPUT 6, INPUT 7) (See pages 30 and 31.)
8 VOL +/ -: Set the volume. (See page 19.)
9 SURROUND: Select Surround settings. (See page 19.)
10 FREEZE: Set the still image. Press again to return to normal screen. (See page 50.)
11 EXIT: Turn off the menu screen.
12 OPTION: Display the AQUOS LINK MENU screen. This button will function only when AQUOS LINK is used. (See pages 54 to 57 for details.)
13 REC STOP: Stops one touch recording. This button will function only when AQUOS LINK is used. (See pages 54 to 57 for details.)
14 SLEEP: Set the sleep timer. (See page 34.)
15 AUDIO: Selects the MTS/SAP or the audio mode during multi-channel audio broadcasts. (See page 20.)
16 FUNCTION: Switches the remote control for TV, CBL/SAT, VCR, DVD and AUDIO operation. Indicator lights up for the current mode. (See pages 50 to 53 for details.)
   * To enter the code registration mode, you need to press FUNCTION and DISPLAY at the same time.
17 LIGHT: When pressed all buttons on the remote control unit will light. The lighting will turn off if no operations are performed within about 5 seconds. This button is used for performing operations in low-light situations.
18 VIEW MODE: Select the screen size. (See pages 35 and 36.)
19 ENT: Jumps to a channel after selecting with the 0-9 buttons.
20 FLASHBACK: Return to the previous channel or external input mode. (See page 18.)
21 CH A/ CH B/ CH C/ CH D: Select the channel. (See page 18.)
22 MUTE: Mute the sound. (See page 19.)
23 MENU: Display the menu screen.
24 A, B, C, D: Select a desired item on the screen.
25 RETURN: Return to the previous menu screen.
26 FAVORITE CH
   A, B, C, D: Select 4 preset favorite channels in 4 different categories. (See page 25 for details.)
   While watching, you can toggle the selected channels by pressing A, B, C and D.
27 FAVORITE: Set the favorite channels. (See page 25.)
28 CC: Display captions from a closed-caption source. (See page 39.)
29 AV MODE: Select an audio or video setting.
   (When the input source is TV, INPUT 1, 2 or 3: STANDARD, MOVIE, GAME, USER, DYNAMIC (Fixed), DYNAMIC. When the input source is INPUT 4, 5, 6 or 7: STANDARD, MOVIE, GAME, PC, USER, DYNAMIC (Fixed), DYNAMIC) (See page 38.)

NOTE
- When using the remote control unit, point it at the TV.
Preparation

**Using the remote control unit**

Use the remote control unit by pointing it towards the remote control sensor on the TV. Objects between the remote control unit and the remote control sensor may prevent proper operation.

**Cautions regarding the remote control unit**

- Do not expose the remote control unit to shock. In addition, do not expose the remote control unit to liquids, and do not place in an area with high humidity.
- Do not install or place the remote control unit under direct sunlight. The heat may cause deformation of the remote control unit.
- The remote control unit may not work properly if the remote control sensor on the TV is under direct sunlight or strong lighting. In such cases, change the angle of the lighting or the TV, or operate the remote control unit closer to the remote control sensor.

**Antennas**

To enjoy a clearer picture, use an outdoor antenna. The following is a brief explanation of the types of connections that are used for a coaxial cable. If your outdoor antenna uses a 75-ohm coaxial cable with an F-type connector, plug it into the antenna terminal at the rear of the TV set.

1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools (Commercially available).

   ![F-type connector](image)

   75-ohm coaxial cable (round)

2. A 300-ohm system is a flat “twin-lead” cable that can be attached to a 75-ohm terminal through a 300/75-ohm adapter (Commercially available).

   ![300-ohm twin-lead cable](image)

   300-ohm twin-lead cable (flat)

**NOTICE**

F-type connector should be finger-tightened only.

When connecting the RF cable to the TV set, do not tighten F-type connector with tools. If tools are used, it may cause damage to your TV set. (The breaking of internal circuit, etc.)

![F-type connector](image)

**Cable without a CATV converter**

1. Connect the antenna cable to the TV using one of the methods in the illustration as shown (1), (2), (3) or (4).

![Connecting Antenna Cable](image)

To TV antenna terminal
Preparation

You can connect many types of external equipment to your TV like a Blu-ray disc player, HD-DVD player, DVD player, VCR, Digital TV tuner, HDMI equipment, game console or camcorder. To view external source images, select the input source from INPUT on the remote control unit or on the TV. (See pages 30 and 31.)

**CAUTION**
- To protect equipment, always turn off the TV before connecting any external equipment.
- Please read the relevant operation manual (Blu-ray disc player, etc.) carefully before making connections.

Connecting a Blu-ray disc player, HD-DVD player, DVD player or a Digital TV STB (Air or Cable)

You can use the INPUT 1, INPUT 2 or INPUT 3 terminals when connecting to a Blu-ray disc player, HD-DVD player, DVD player, a Digital TV STB (Air or Cable) and other audiovisual equipment.

When using composite cable. (INPUT 1 or 2)

When using component cable. (INPUT 1 or 3)

**NOTE**
- To enjoy the AQUOS 1080p display capability, connect your external equipment using a component cable and set the equipment to 1080p output.
- See page 15 for connecting a Blu-ray disc player, HD-DVD player, DVD player or a Digital TV STB to the HDMI terminal.
Connecting a VCR, game console or camcorder

A VCR, game console, camcorder and other audiovisual equipment can be conveniently connected using the INPUT 1, 2 and 3 terminals.

When using S-VIDEO cable.

![Diagram of S-VIDEO cable connection](image)

NOTE
- The S-VIDEO terminal takes priority over the video terminals. (INPUT 2 only)

When using composite cable.

![Diagram of composite cable connection](image)

Using Digital Audio Output

It is possible to output audio through the DIGITAL AUDIO OUTPUT terminal. (See page 47 for details.) PCM audio outputs from the terminal.

To optical digital input of external audio devices

![Diagram of optical fiber cable connection](image)
Connecting HDMI equipment

You can use the INPUT 4, INPUT 5 or INPUT 6 terminal when connecting HDMI equipment.

NOTE
- When using an HDMI-DVI conversion cable, input the audio signal to AUDIO terminal of INPUT 6.
- To enjoy the AQUOS 1080p display capability, connect your Blu-ray disc player, HD-DVD player or other external equipment using an HDMI cable and set the equipment to 1080p output.

Connecting a PC

When connecting to a PC with an analog RGB terminal. (INPUT 7)

NOTE
- The HDMI terminals only support digital signal.

PC compatibility chart

It is necessary to set the PC correctly to display XGA and WXGA signal. Refer to page 38 to set PC input signals.

Watching TV

Simple operations for watching a TV program

Turning on the power

Press **POWER** on the TV, or **TV POWER** on the remote control unit.
- **POWER** indicator (Green): The TV is on. (After a few seconds, a window appears with sound.)

**NOTE**
- The initial setup starts when the TV powers on for the first time. If the TV has been turned on before, the EZ Setup will not be invoked. See page 23 for performing EZ Setup from the Setup menu.

Turning off the power

Press **POWER** on the TV, or **TV POWER** on the remote control unit.
- The TV enters standby and the image on the screen disappears.
- The **POWER** indicator on the TV turns off.

**NOTE**
- If you are not going to use this TV for a long period of time, be sure to remove the AC cord from the AC outlet.
- Weak electric power is still consumed even when the TV is turned off.

TV status indicator (POWER)

See page 34 for details.
Watching TV

Initial setup
When you turn on the TV for the first time, it will automatically memorize the broadcasting channels where you live. Perform the following steps before you press TV POWER on the remote control unit.

1. Insert the batteries into the remote control unit. (See page 8.)
2. Connect the antenna cable to the TV. (See page 12.)
3. Plug in the AC cord to the AC outlet. (See page 7.)

Language setting
Select from among 3 languages: English, French and Spanish.

Press ▲/▼ to select the desired language listed on the screen, and then press ENTER.

Antenna setting
Make sure what kind of connection is made with your TV when selecting “Air” or “Cable”.

Press ◄/► to select “Air” or “Cable”. Press ENTER to enter the setting.

Channel search
Channel auto search makes the TV look for all channels viewable in the set area.

When “Air” is selected in Antenna setting:
Press ◄/► to select “Start”, and then press ENTER.

When “Cable” is selected in Antenna setting:
Press ◄/► to select “Analog & Digital Search Start” to search both analog and digital broadcasts or “Analog Search Start” to search only analog broadcasts, and then press ENTER.

• The Channel search will start automatically.
• To exit the Channel search screen, select “Cancel”, and then press ENTER.

Example

CH Search

NOTE
• If no channel is found, confirm the type of connection made with your TV and try EZ Setup again. (See page 23.)
Watching TV

Simple button operations for changing channels

You can change channels in several ways.

Method 1
Using CH \(\uparrow\downarrow\) on the remote control unit or on the TV.

Method 2
1 Press FLASHBACK to switch to the previously tuned channel.
2 Press FLASHBACK again to switch back to the currently tuned channel.

NOTE
- FLASHBACK will not work if no channel has been changed after the TV is turned on.

Method 3
Using remote control buttons 0-9, • (DOT) to select channels for VHF/UHF/CATV/DIGITAL.

To select a 1 or 2-digit channel number (e.g., Channel 5):

Press 5 \(\rightarrow\) ENT

NOTE
- When selecting a 1-digit channel number, it is not necessary to press 0 before the number.
- When you enter 0-9 only, channel selection will be made if there is no operation within a few seconds.

To select a 3-digit channel number (e.g., Channel 115):

Press 1 \(\rightarrow\) 1 \(\rightarrow\) 5 \(\rightarrow\) ENT

To select a 4-digit channel number (e.g., Channel 22.1):

Press 2 \(\rightarrow\) 2 \(\rightarrow\) • (DOT) \(\rightarrow\) 1 \(\rightarrow\) ENT

NOTE
- When you enter 0-9 only, channel selection will be made if there is no operation within a few seconds.
- If you push “0” by itself, nothing will happen.
- Complete the above steps within a few seconds.
- When you enter 0-9 and • (DOT), channel selection will be made if there is no operation within a few seconds.
Watching TV

Simple button operations for changing volume/sound

Changing the volume
You can change the volume on the TV or on the remote control unit.

Using VOL+/−
- To increase the volume, press VOL+.
- To decrease the volume, press VOL−.

Volume adjustment

NOTE
- VOL+/− on the TV operates the same as VOL+/− on the remote control unit.

Audio status

<table>
<thead>
<tr>
<th>Output device</th>
<th>Output Select</th>
<th>Fixed</th>
<th>Variable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speaker</td>
<td>Variable sound</td>
<td></td>
<td>Mute</td>
</tr>
</tbody>
</table>

* When “Output Select” is set to “Variable”, the indicator on the screen changes as shown below.

NOTE
- See page 37 for details on the Output Select function.

Using MUTE on the remote control unit
Mutes the current sound output.

Press MUTE.
- @ will be displayed on the screen for 30 minutes, and the sound is silenced.

NOTE
- Within 30 minutes of pressing MUTE, mute can be canceled by using one of the methods below.
  - Mute will be canceled if you press VOL+/− or MUTE.
  - Mute will be canceled after 30 minutes have passed. However, the TV will not suddenly output a loud sound as the volume level is set to 0 automatically.

Using SURROUND on the remote control unit
SURROUND produces Surround effect from the speakers. Each time you press SURROUND, the mode changes between On and Off.

Surround sound options
On: Makes it possible to enjoy natural, realistic surround sound.
Off: Outputs the normal sound.

NOTE
- You can have the same settings by choosing “Surround” on the menu items. (See page 29.)
Watching TV

Setting MTS/SAP stereo mode

The TV has a feature that allows reception of sound other than the main audio for the program. This feature is called Multi-channel Television Sound (MTS). The TV with MTS can receive mono sound, stereo sound and Secondary Audio Programs (SAP). The SAP feature allows a TV station to broadcast other information, which could be audio in another language or something completely different like weather information.

You can enjoy Hi-Fi stereo sound or SAP broadcasts where available.

- **Stereo broadcasts**
  View programs like live sporting events, shows and concerts in dynamic stereo sound.

- **SAP broadcasts**
  Receive TV broadcasts in either MAIN or SAP sound.
  MAIN sound: The normal program soundtrack (either in mono or stereo).
  SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound.)

If stereo sound is difficult to hear.

- Obtain a clearer sound by manually switching to fixed mono-sound mode.

**NOTE**

- MTS only operates while in TV mode.

You can change MTS as shown below to match the television broadcast signal. Press AUDIO to toggle between audio modes.

Examples: when receiving MTS and SAP

<table>
<thead>
<tr>
<th>STEREO mode</th>
<th>MAIN + SAP mode</th>
<th>MONO mode</th>
</tr>
</thead>
<tbody>
<tr>
<td>Air ANALOG 2</td>
<td>Air ANALOG 2</td>
<td>Air ANALOG 2</td>

</tr>
<tr>
<td>Air ANALOG 2</td>
<td>Air ANALOG 2</td>
<td>Air ANALOG 2</td>
</tr>
<tr>
<td>Audio: SAP</td>
<td></td>
<td>Audio: MONO</td>
</tr>
</tbody>
</table>

Setting Digital broadcasting audio mode

The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.

Press AUDIO to toggle between audio modes.

Example: when receiving Digital broadcasting

- 2.2 Digital
- 2.2 Digital
- 2.2 Digital

NOTE

- MTS only operates while in TV mode.
Basic adjustment settings

Menu operation buttons

Using the remote control
Use the following buttons on the remote control to operate the menu.

- **MENU**: Press to open or close the menu screen.
- **△/▽/◁/▷**: Press to select a desired item on the screen or adjust a selected item.
- **ENTER**: Press to go to the next step or complete the setting.
- **RETURN**: Press to return to the previous step.

The bar above is an operational guide for the remote control. The bar will change in accordance with each menu setting screen.

Using the control panel of the main unit
You can also operate the menu with the control panel of the main unit. Button operations on the control panel correspond to the ones on the remote control as shown below.

- **MENU**: **MENU** on the remote control.
- **INPUT**: **ENTER** on the remote control.
- **CH △/▽**: Cursor △/▽ on the remote control.
- **VOL +/-**: Cursor ▶/◀ on the remote control.

On-Screen Display

Example

1. Item displayed in yellow
   - This indicates the item currently selected.
   - Press **ENTER** to go to the adjustment screen for this item.

2. Item in brackets
   - This indicates the current setting for the item.

3. Item displayed in white
   - This indicates an item can be selected.

4. Item displayed in gray
   - This indicates that the item cannot be selected.
   - There are various reasons why items cannot be selected, but the main reasons are as follows:
     - Nothing is connected to the selected input terminal.
     - The function is not compatible with the current input signal.

- **NOTE**
  - Menu options differ in the selected input modes, but the operating procedures are the same.
  - The screens in the operation manual are for explanation purposes (some are enlarged, others cropped) and may vary slightly from the actual screens.

</tbody>
</table>

**Channel Setup**

If initial setup does not memorize all the channels in your region, follow the instructions below to manually memorize the channels.

**Antenna setting**

1. Press MENU to display the MENU screen, and then press ▼/▲ to select “Setup”.
2. Press ▼/▲ to select “CH Setup”, and then press ENTER.
3. Press ▼/▲ to select “Air/Cable”, and then press ENTER.
4. Press ▼/▲ to select “Air” or “Cable”. Press ENTER to enter the setting.
5. Press MENU to exit.

**Channel search**

Channel auto search makes the TV look for all channels viewable in the set area.

1. Repeat steps 1 and 2 in Antenna setting in Channel Setup.
2. Press ▼/▲ to select “CH Search”, and then press ENTER.
3. When “Air” is selected in Antenna setting:
   - Press ▼/▲ to select “Start”, and then press ENTER.
   - The Channel search will start automatically.
   - To exit the Channel search screen, select “Cancel”, and then press ENTER.
4. When “Cable” is selected in Antenna setting:
   - Press ▼/▲ to select “Analog & Digital Search Start” to search both analog and digital broadcasts or “Analog Search Start” to search only analog broadcasts, and then press ENTER.
   • The Channel search will start automatically.
   • To exit the Channel search screen, select “Cancel”, and then press ENTER.
5. Press MENU to exit.

**NOTE**

- If no channel is found, confirm the type of connection made with your TV and try channel search again.
- If you select “Analog Search Start” and initiate the channel search, the CH Memory for Cable Digital will be deleted.

---

**Language setting**

Select from among 3 languages: English, French and Spanish.

- Press ▼/▲ to select the desired language listed on the screen, and then press ENTER.

---

**Antenna setting**

- Make sure what kind of connection is made with your TV when selecting “Air” or “Cable”.

---

**Channel search**

Channel auto search makes the TV look for all channels viewable in the set area.

- Press ▼/▲ to select “Start”, and then press ENTER.
- The Channel search will start automatically.
- To exit the Channel search screen, select “Cancel”, and then press ENTER.

---

**NOTE**

- If no channel is found, confirm the type of connection made with your TV and try channel search again.
- If you select “Analog Search Start” and initiate the channel search, the CH Memory for Cable Digital will be deleted.

---

**Channel search**

Channel auto search makes the TV look for all channels viewable in the set area.

- Repeat steps 1 and 2 in Antenna setting in Channel Setup.
- Press ▼/▲ to select “CH Search”, and then press ENTER.
- When “Air” is selected in Antenna setting:
  - Press ▼/▲ to select “Start”, and then press ENTER.
  - The Channel search will start automatically.
  - To exit the Channel search screen, select “Cancel”, and then press ENTER.
- When “Cable” is selected in Antenna setting:
  - Press ▼/▲ to select “Analog & Digital Search Start” to search both analog and digital broadcasts or “Analog Search Start” to search only analog broadcasts, and then press ENTER.
  • The Channel search will start automatically.
  • To exit the Channel search screen, select “Cancel”, and then press ENTER.
- Press MENU to exit.
Basic adjustment settings

Channel memory setting

1 Press MENU to display the MENU screen, and then press ◀/▶ to select “Setup”.
2 Press ▲/▼ to select “CH Setup”, and then press ENTER.
   • If you already set the Secret No., input the 4-digit secret number here. See page 41 for setting a secret number.
3 Press ▲/▼ to select “CH Memory”, and then press ENTER.
4 Press ▲/▼ to select ANALOG (Air), ANALOG (Cable), DIGITAL (Air) or DIGITAL (Cable), and then press ENTER.

When viewing ANALOG broadcasts:
1 Press ◀/▶ to select the channel to skip, and then press ▼ to move down.
2 Press ◀/▶ to select “On”, and then press ENTER.

When viewing DIGITAL broadcasts:
1 Press ▲/▼ to select the channel to skip, and then press ◀/▶ to select “On”.
   • On: Skips channels. (Channel selection disabled using CH ▲/▼.)
   • Off: Does not skip channels. (Channel selection enabled using CH ▲/▼.)
5 Press MENU to exit.

NOTE
   • Make sure what kind of connection is made with your TV.

Antenna Setup - DIGITAL

In order to receive digital air broadcasts, you need a digital broadcast antenna. You can confirm the antenna configuration through the “Antenna Setup - DIGITAL” screen.

If necessary, adjust the direction of the antenna to obtain the maximum signal strength.

Signal Strength

1 Press MENU to display the MENU screen, and then press ◀/▶ to select “Setup”.
2 Press ▲/▼ to select “Antenna Setup - DIGITAL”, and then press ENTER.
3 Press ▲/▼ to select “Signal Strength”.
   • The signal strength of DIGITAL channel is displayed. The signal information is based on the current channel.

Channel Strength

The channel signal strength can also be checked separately.

1 Repeat steps 1 and 2 in Signal Strength in Antenna Setup - DIGITAL.
2 Press ▲/▼ to select “Channel Strength”, and then press ENTER.
3 Input the 2-digit channel number to check the signal strength of the selected channel.
   • Make sure the signal is strong enough for each channel.

NOTE
   • This function is available for DIGITAL (Air) only.

Press MENU to exit.
Basic adjustment settings

**Favorite channel setting**

This function allows you to program 4 favorite channels, in 4 different categories. By setting the favorite channels in advance, you can select your favorite channels easily.

**Using FAVORITE CH on the remote control unit**

1. Select the channel you want to register as a favorite channel.
2. Press FAVORITE.
3. Press ▲/▼ to select “Register”, and then press ENTER.
4. Press ▲/▼/◄/► to select the position in the category, and then press ENTER to register.

**Deleting a favorite channel**

1. Press FAVORITE and the favorite channel screen displays.
2. Press ▲/▼ to select “1 Data Clear”, and then press ENTER.
   - To delete all the favorite channels, select “All Data Clear”, and then skip to step 4.
3. Press ▲/▼/◄/► to select the channel you want to delete, and then press ENTER.
4. Press ▲/▼ to select “Yes”, and then press ENTER.

**Using Favorite CH on the menu screen**

You can also set your favorite channels in “Option” on the MENU screen.

1. Select the channel you want to register as a favorite channel.
2. Press MENU to display the MENU screen, and then press ◄/► to select “Option”.
3. Press ▲/▼ to select “Favorite CH”, and then press ENTER.
4. Press ▲/▼ to select “Register”, and then press ENTER.
5. Press ▲/▼/◄/► to select the position in the category, and then press ENTER to register.
6. Press MENU to exit.

**Deleting a favorite channel**

Repeat steps 2 and 3 in Using Favorite CH on the menu screen.

1. Press ▲/▼ to select “1 Data Clear”, and then press ENTER.
2. To delete all the favorite channels, select “All Data Clear”, and then skip to step 4.
3. Press ▲/▼/◄/► to select the channel you want to delete, and then press ENTER.
4. Press ▲/▼ to select “Yes”, and then press ENTER.
5. Press MENU to exit.
Basic adjustment settings

Picture adjustments

Adjusts the picture to your preference with the following picture settings.

1 Press MENU to display the MENU screen, and then press ▼► to select “Picture”.

2 Press ▲▼ to select a specific adjustment item.

3 Press ▼► to adjust the item to the desired level.

4 Press MENU to exit.

NOTE
• For resetting all Picture adjustment items to the factory preset values, press ▲▼ to select “Reset”, press ENTER, press ▼► to select “Yes”, and then press ENTER.

Selected item ▼ button ► button

Sharpness For less sharpness For more sharpness

NOTE
• Select “Advanced” and then press ENTER to set “C.M.S.-Hue”, “C.M.S.-Saturation”, “Color Temp.”, “Active Contrast”, “Fine Motion”, “I/P Setting”, “Film Mode”, “3D-Y/C”, “Monochrome” or “Range of OPC”. See pages 27 and 28.

OPC setting

Automatically adjusts the brightness of the screen.

1 Press MENU to display the MENU screen, and then press ▼► to select “Picture”.

2 Press ▲▼ to select “OPC”.

3 Press ▼► to select “On” or “On: Display”.

Selected item Description
Off The brightness is fixed at the value set in “Backlight”.
On Automatically adjusts
On: Display Displays the OPC effect on the screen while adjusting the brightness of the screen.

NOTE
• When set to “On”, the OPC senses the surrounding light and automatically adjusts the backlight brightness. Make sure nothing obstructs the OPC sensor, which could affect its ability to sense surrounding light.
• When set to “On: Display”, OPC effect displays on the screen while the OPC adjusts the screen brightness.

Press MENU to exit.
Basic adjustment settings

Advanced picture adjustments
This TV provides various advanced functions for optimizing the picture quality.

1. Press MENU to display the MENU screen, and then press \( \leftarrow \rightarrow \) to select “Picture”.

2. Press \( \uparrow \downarrow \) to select “Advanced”, and then press ENTER.

3. Press \( \uparrow \downarrow \) to select a specific adjustment item, and then press ENTER.
   - You can select “C.M.S.-Hue”, “C.M.S.-Saturation”, “Color Temp.”, “Active Contrast”, “Fine Motion”, “I/P Setting”, “Film Mode”, “3D-Y/C”, “Monochrome”, or “Range of OPC”.

4. Press \( \uparrow \downarrow \) (or \( \leftarrow \rightarrow \)) to select the desired parameter.
   - See the table for the selectable parameters.

5. Press MENU to exit.

Color Temperature
For a better white balance, use color temperature correction.

</tbody>
</table>

**NOTE**
- The range of OPC settings are active only when the OPC is set to On.
- The maximum setting cannot be set to a smaller number than the minimum setting.
- The minimum setting cannot be set to a bigger number than the maximum setting.
- Depending on the brightness of the surrounding light, the OPC sensor might not operate if the adjustment range is small.

Sound adjustment
You can adjust the sound quality to your preference with the following settings.

1. Press MENU to display the MENU screen, and then press ▲▼ to select “Audio”.

2. Press ▲▼ to select a specific adjustment item.

3. Press ◀▶ to adjust the item to the desired level.

4. Press MENU to exit.

**NOTE**
- Audio menu is grayed out when Output Select is set to “Variable”.
- For resetting all Audio adjustment items to the factory preset values, press ▲▼ to select “Reset”, press ENTER, press ◀▶ to select “Yes”, and then press ENTER.
Basic adjustment settings

**Surround**

Surround function allows you to enjoy realistic “live” sound.

1. Press MENU to display the MENU screen, and then press  ▲/▼ to select “Audio”.
2. Press ▲/▼ to select “Surround”, and then press ENTER.
3. Press  ▲/▼ to select “On”, and then press ENTER.
4. Press MENU to exit.

NOTE

- You can choose Surround by pressing SURROUND on the remote control unit. (See page 19.)
- Audio menu is grayed out when Output Select is set to “Variable”.
- For some discs, setup may be required on your DVD player. In this case, please refer to the operation manual of your DVD player.

**Bass Enhancer**

This function allows you to enjoy bass-enhanced sound.

1. Press MENU to display the MENU screen, and then press  ▲/▼ to select “Audio”.
2. Press ▲/▼ to select “Bass Enhancer”, and then press ENTER.
3. Press  ▲/▼ to select “On”, and then press ENTER.
4. Press MENU to exit.

NOTE

- Audio menu is grayed out when Output Select is set to “Variable”.

**Power Control**

Power control setting allows you to save energy.

**No signal off**

When set to “Enable”, the power will automatically shut down if there is no signal for 15 minutes.

1. Press MENU to display the MENU screen, and then press  ▲/▼ to select “Power Control”.
2. Press ▲/▼ to select “No Signal Off”, and then press ENTER.
3. Press  ▲/▼ to select “Enable”, and then press ENTER.

- Five minutes before the power shuts down, the remaining time displays every minute.

4. Press MENU to exit.

NOTE

- “Disable” is the factory preset value.
- When a TV program finishes, this function may not operate.

**No operation off**

When set to “Enable”, the power will automatically shut down if there is no operation for 3 hours.

1. Press MENU to display the MENU screen, and then press  ▲/▼ to select “Power Control”.
2. Press ▲/▼ to select “No Operation Off”, and then press ENTER.
3. Press  ▲/▼ to select “Enable”, and then press ENTER.

- Five minutes before the power shuts down, the remaining time displays every minute.

4. Press MENU to exit.

NOTE

- “Disable” is the factory preset value.
Using external equipment

Displaying an external equipment image

To view external source images, select the input source from INPUT on the remote control unit or on the TV.

1 Press INPUT.
   • A list of selectable sources appears.

   **INPUT SOURCE**
   - TV
   - INPUT1
   - INPUT2
   - INPUT3
   - INPUT4
   - INPUT5
   - INPUT6
   - INPUT7

2 Press INPUT again to select the input source.
   • An image from the selected source automatically displays.
   • Each time INPUT is pressed, the input source toggles.
   • You can also select the input source by pressing ▲/▼.
   • If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.

   **NOTE**
   • See pages 13 to 15 for external equipment connection.

Input Select

If the image does not come in clearly from the external equipment connected to INPUT 1 or 3, you may need to change the input signal type setting on the “Input Select” menu.

1 Press MENU to display the MENU screen, and then press ▲/▼ to select “Option”.

2 Press ▲/▼ to select “Input Select”, and then press ENTER.

   - AQUOS LINK Setup
   - Audio Only
   - Digital Noise Reduction [Off]
   - Input Select [Auto]
   - Output Select [Fixed]

3 Press ▲/▼ to select the signal type you want to set, and then press ENTER.
   • If the selected signal type is incorrect, images are not displayed or displayed without any color.

4 Press MENU to exit.
   • The setting is stored and can be selected on the “INPUT SOURCE” menu.

**NOTE**
• Refer to your external equipment operation manual for the signal type.
• If you set INPUT 1 or 3 to Auto, the TV will automatically select the input signal.
• Setting INPUT 1 or 3 signal selection to “Auto” when other equipment is connected will result in the following connection priority.

**INPUT 1 or 3:**
1 COMPONENT VIDEO
2 VIDEO

Using external equipment

Displaying an external equipment image

To view external source images, select the input source from INPUT on the remote control unit or on the TV.

1 Press INPUT.
   • A list of selectable sources appears.

   **INPUT SOURCE**
   - TV
   - INPUT1
   - INPUT2
   - INPUT3
   - INPUT4
   - INPUT5
   - INPUT6
   - INPUT7

2 Press INPUT again to select the input source.
   • An image from the selected source automatically displays.
   • Each time INPUT is pressed, the input source toggles.
   • You can also select the input source by pressing ▲/▼.
   • If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.

   **NOTE**
   • See pages 13 to 15 for external equipment connection.
Using external equipment

Displaying an image from HDMI equipment

To watch an HDMI or PC-IN equipment image, select “INPUT4”, “INPUT5” or “INPUT 6” from “INPUT SOURCE” menu using INPUT on the remote control unit or on the TV.

1 Press MENU to display the MENU screen, and then press ◄/► to select “Option”.

2 Press ◄/► to select “HDMI Setup”, and then press ENTER.

3 Press ◄/► to select “Input Skip”, and then press ENTER.

4 Press ◄/► to select “Yes”, and then press ENTER.

5 Press MENU to exit.

Press MENU to exit.

- Refer to your external equipment operation manual for the signal type.
- “Audio Select” is only available for INPUT 6.
- When connecting an HDMI-DVI conversion adapter/cable to the HDMI terminal, the image may not come in clearly.

<table>
<thead>
<tr>

Useful adjustment settings

Auto Sync. adjustment (for Analog PC input mode only)
For automatically adjusting the PC image.

1 Press MENU to display the MENU screen, and then press ◄► to select “Setup”.
2 Press ▲▼ to select “Auto Sync.”, and then press ENTER.
3 Press ◄► to select “Yes”, and then press ENTER.
   • Auto Sync. starts and “Now adjusting the image.” displays.
4 Press MENU to exit.

NOTE
• When Auto Sync. is successful, “Completed” displays. If not, Auto Sync. failed.
• Auto Sync. may fail even if “Completed” displays.
• Auto Sync. may fail if the computer image has low resolution, has unclear (black) edges, or is moved while executing Auto Sync.
• Be sure to connect the PC to the TV and switch it on before starting Auto Sync.

Fine Sync. adjustment
Ordinarily you can easily adjust the picture as necessary to change image position using Auto Sync. In some cases, however, manual adjustment is needed to optimize the image.

1 Press MENU to display the MENU screen, and then press ◄► to select “Setup”.
2 Press ▲▼ to select “Fine Sync.”, and then press ENTER.
3 Press ▲▼ to select the specific adjustment item.

Selected item Description
H-Pos. Centers the image by moving it to the left or right.
V-Pos. Centers the image by moving it up or down.
Clock Adjust when the image flickers with vertical stripes.
Phase Adjust when characters have low contrast or when the image flickers.

4 Press ◄► to adjust the item to your desired position.
5 Press MENU to exit.

NOTE
• For resetting all Fine Sync. adjustment items to the factory preset values, press ▲▼ to select “Reset”, and then press ENTER.
• It is not necessary to adjust the “Clock” or “Phase” when a digital signal is being input, so it cannot be selected.
• The default cursor position may not be in the center, because the screen position variable ranges may be asymmetrical.
• The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.
Useful adjustment settings

Image position
For adjusting a picture’s horizontal and vertical position.

1 Press MENU to display the MENU screen, and then press ◄► to select “Setup”.
2 Press ▲▼ to select “Position”, and then press ENTER.
3 Press ▲▼ to select “H-Pos.” or “V-Pos.”.

Example

<table>
<thead>
<tr>
<th>Selected item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>H-Pos.</td>
<td>Centers the image by moving it to the left or right.</td>
</tr>
<tr>
<td>V-Pos.</td>
<td>Centers the image by moving it up or down.</td>
</tr>
</tbody>
</table>

4 Press ◄► to adjust the item to the desired position.
5 Press MENU to exit.

NOTE
- For resetting adjustments to the factory preset values, press ▲▼ to select “Reset”, and then press ENTER.
- When connecting a PC to the HDMI terminal, the image position will be automatically adjusted. It cannot be manually adjusted.
- The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.
- Adjustments are stored separately according to input source.

Language setting
You can also select a language from the Setup menu. Select from among 3 languages: English, French and Spanish.

1 Press MENU to display the MENU screen, and then press ◄► to select “Setup”.
2 Press ▲▼ to select “Language”, and then press ENTER.
3 Press ▲▼ to select the desired language listed on the screen, and then press ENTER.
4 Press MENU to exit.

Reset
If complex adjustments are made and the settings cannot be restored to normal, you can reset the settings to the factory preset values.

1 Press MENU to display the MENU screen, and then press ◄► to select “Setup”.
2 Press ▲▼ to select “Reset”, and then press ENTER.
- If you already set the Secret No., input the 4-digit secret number here. See page 41 for setting a secret number.
- “Return to the factory preset values” displays on the screen.
3 Press ◄► to select “Yes”, and then press ENTER.
- “Now, TV will restart automatically. OK?” displays on the screen.
4 Press ◄► to select “Yes”, and then press ENTER.
- “Now initializing...” displays on the screen and blinks.
- After the reset has completed, the power shuts off and then comes back on. The screen will have returned to its original settings.

NOTE
- The Channel Setup settings will not be changed.
- The Language settings will not be changed.
- The Secret number settings will not be changed.

Example
Selected item
H-Pos.
V-Pos.
Description
Centers the image by moving it to the left or right.
Centers the image by moving it up or down.

Language setting
You can also select a language from the Setup menu. Select from among 3 languages: English, French and Spanish.

1 Press MENU to display the MENU screen, and then press ◄► to select “Setup”.
2 Press ▲▼ to select “Language”, and then press ENTER.
3 Press ▲▼ to select the desired language listed on the screen, and then press ENTER.
4 Press MENU to exit.
Useful adjustment settings

**Input Label**

Lets you set the input terminal displayed when using the INPUT SOURCE menu or channel display.

Press INPUT to select the desired input source.

Press MENU to display the MENU screen, and then press ▼ to select “Setup”.

Press ▲ to select “Input Label”, and then press ENTER.

Press ▲/▼/◄/► to select the new name for the input mode, and then press ENTER.

Press MENU to exit.

**NOTE**

- You cannot change labels if the INPUT SOURCE is TV.

**Sleep Timer**

Allows you to set a time when the TV automatically switches to standby.

Press SLEEP.

- The remaining time displays when the sleep timer has been set.

Example

<table>
<thead>
<tr>
<th>SLEEP</th>
<th>30</th>
</tr>
</thead>
<tbody>
<tr>
<td>60</td>
<td></td>
</tr>
<tr>
<td>120</td>
<td></td>
</tr>
<tr>
<td>90</td>
<td></td>
</tr>
<tr>
<td>Off</td>
<td></td>
</tr>
</tbody>
</table>

Each time you press SLEEP, the remaining time switches as shown below.

- When set, the time automatically starts counting down.
- If you want to adjust the sleep timer, you can press SLEEP twice then change the time setting.
- Five minutes before the time expires, the remaining time displays every minute.

**NOTE**

- Select “Off” by pressing SLEEP to cancel the sleep timer.
- The TV will enter standby when the remaining time reaches zero.
- When the sleep timer is set, its indicator on the TV lights red.
Useful adjustment settings

View Mode for 4:3 Programs

Press VIEW MODE.
- The View Mode menu displays.
- The menu lists the View Mode options selectable for the type of video signal currently being received.

Example

View Mode
- Side Bar
- S. Stretch
- Zoom
- Stretch

Press VIEW MODE or ▲/▼ while the View Mode menu is displayed to select a desired item on the menu.
- You can sequentially select a View Mode that has its own aspect ratio.

View Mode for HD Programs

The following modes are available for HD programs.

Stretch:
Suitable for viewing wide-screen 1.78:1 aspect ratio program, stretch mode will still show very thin black bands at the top and bottom of the screen.

Dot by Dot (1080i/p only):
Detects the resolution of the signal and displays an image with the same number of pixels on the screen.

Full Screen (720p only):
You can select “Full Screen” only when receiving a 720p signal.

S.Stretch (Smart stretch):
Suitable for stretching 4:3 programs to fill the screen.

Zoom:
Suitable for viewing wide-screen 2.35:1 aspect-ratio programs in full screen.

NOTE
- When using Dot by Dot, it is possible to see noise or bars around different outer portions of the screen. Please change view mode to correct this.
## Useful adjustment settings

### View Mode for PC input mode

You can select the screen size.

**NOTE**
- Connect the PC before making adjustments. (See page 15.)
- Selectable screen size may vary with input signal type.

1. Press **VIEW MODE**.
   - The View Mode menu displays.
   - **Example**
     
     | View Mode | Normal | Zoom | Stretch | Dot by Dot |
     |------------|--------|------|---------|------------|
     |            |        |      |         |            |

2. Press **VIEW MODE** or ▲/▼ while the View Mode menu is displayed to select a desired item on the menu.

#### Example: Screen size images

Useful adjustment settings

**AV MODE**

AV MODE gives you 7 viewing options to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of program watched or the type of image input from external equipment.

1. Press **AV MODE**.
   - Current AV MODE displays.

2. Press **AV MODE** again before the mode displayed on the screen disappears.
   - The mode changes as shown below.

   **When the input source is TV, INPUT 1, 2 or 3 terminals (Example)**

   - **AV MODE: STANDARD**
   - **AV MODE: MOVIE**
   - **AV MODE: GAME**
   - **AV MODE: PC**
   - **AV MODE: USER**
   - **AV MODE: DYNAMIC**
   - **AV MODE: DYNAMIC (Fixed)**

   **When the input source is INPUT 4, 5, 6 or 7 terminals (Example)**

   - **AV MODE: STANDARD**
   - **AV MODE: MOVIE**
   - **AV MODE: GAME**
   - **AV MODE: PC**
   - **AV MODE: USER**
   - **AV MODE: DYNAMIC**
   - **AV MODE: DYNAMIC (Fixed)**
   - **AV MODE: xvYCC**

**Selected item** | **Description**
--- | ---
**STANDARD** | For a highly defined image in a normal lighting ([Enhanced Picture Contrast: on])
**MOVIE** | For a movie ([Enhanced Picture Contrast: off])
**GAME** | Lowers image brightness for easier viewing ([Enhanced Picture Contrast: off])
**PC** | For PC ([Enhanced Picture Contrast: off])
**xvYCC** | Supports the xvYCC international standard for wide color space. ([Enhanced Picture Contrast: off])
**USER** | Allows the user to customize settings as desired. You can set the mode for each input source. ([Enhanced Picture Contrast: off])
**DYNAMIC** | Changes the image and sound settings to the factory preset values. No adjustments are allowed. ([Enhanced Picture Contrast: on])
**DYNAMIC (Fixed)** | For a clear-cut image emphasizing high contrast, useful for sports viewing ([Enhanced Picture Contrast: on])

* The xvYCC signal allows you to experience colors that conventional color signals cannot reproduce.

**Input Signal (for Analog PC input mode only)**

Some input signals may have to be registered manually to display properly. The pair of input signals (resolutions) in the list below are not distinguishable when received. In such case, you have to set the correct signal manually. After setting once, it will display when the same signal (resolution) is input again.

| 1024 x 768 | 1360 x 768 |

**NOTE**

- You can only select the “Input Signal” on the Setup menu when receiving one of the 2 input signals listed above.

1. Press **MENU** to display the MENU screen, and then press << to select “Setup”.

2. Press ▲▼ to select “Input Signal”, and then press **ENTER**.

3. Press ▲▼ to select the desired input signal on the display.

4. Press **MENU** to exit.

1024 x 768 1360 x 768

**NOTE**

- You can select a different AV MODE item for each input mode. (For example, select STANDARD for TV input and DYNAMIC for INPUT 1.)
- “Enhanced Picture Contrast” technology detects the source video characteristics and smoothly adjusts the screen brightness accordingly to realize deeper black levels.
- “xvYCC” can only be selected when an xvYCC signal is input using INPUT 4 to 6.
Useful adjustment settings

Closed Captions and Digital Closed Captions

Your TV is equipped with an internal Closed Caption decoder. It allows you to view conversations, narration and sound effects as subtitles on your TV. Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider.

Digital Closed Caption service is a new caption service available only on digital TV programs (also at the discretion of the service provider). It is a more flexible system than the original Closed Caption system, because it allows for a variety of caption sizes and font styles. When the Digital Closed Caption service is in use, it will be indicated by the appearance of a 3-letter abbreviation that also indicates the language of the Digital Closed Captions: ENG (English), SPA (Spanish), FRA (French) or other language codes.

Not all programs and VHS videotapes offer closed captions. Please look for the “N” symbol to ensure that captions will be shown.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The “CC1” and “CC2” services display subtitles of TV programs superimposed over the program’s picture.

In the Closed Caption system, the “Text1” or “Text2” services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

Depending on the number of caption services in the signal being received, you will see information such as 1/2 or 1/4 displayed. 1/2 means “the first of two services”.

Example:
If a program has three services (Digital CC(ENG), CC1 and Text1), the closed caption display will toggle in this sequence:

1 cc

Press CC.

This will present the Closed Caption information display.

Press CC while the Closed Caption information is still on the screen.

Press repeatedly until you select the desired closed caption service.

Examples:
In a case where there are two closed caption services provided, (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, or on another channel, the closed caption service that is available is automatically selected, and this service appears in parentheses, e.g. “1/3(CC1)”. Closed Caption services that appear in parentheses will not be stored in the CC button’s memory as your last selected service. Only services that you have selected with the CC button are stored.

Notes:
- See page 40 for detailed closed caption settings.
- When the program contains no closed caption, “---” displays in the closed caption information.
- If the language code, e.g. “ENG”, is not found on Digital TV programs, “---” will be shown.
- Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.
Useful adjustment settings

Caption Setup

This function allows you to adjust the closed caption screen appearance to suit your preference.

1 Press MENU to display the MENU screen, and then press ▲▼ to select “Option”.

2 Press ▲▼ to select “Caption Setup”, and then press ENTER.

3 Press ▲▼ to select a specific adjustment item.
   - You can adjust 7 items here; they are,
     1 “Caption Size”,
     2 “Font Style”,
     3 “Foreground Color”,
     4 “Foreground Opacity”,
     5 “Background Color”,
     6 “Background Opacity” and
     7 “Character Edge”.

4 Press ◄► to select the desired parameter.

5 Press MENU to exit.

NOTE
- For resetting adjustments to the factory preset values, press ▲▼ to select “Reset”, and then press ENTER.
- The default value depends on the broadcasting station.

Selectable items available for “Font Style”.

Digital Caption Information

This function allows viewing of digital closed caption information for the digital broadcast program being viewed.

1 Press MENU to display the MENU screen, and then press ▲▼ to select “Option”.

2 Press ▲▼ to select “Digital Caption Info.”, and then press ENTER.

3 The digital closed caption information for the program being viewed is displayed in a list, and then press ENTER.

   - (“easy reader”) displays easy-to-read captions for children.

4 Press MENU to exit.

NOTE
- This list is not displayed for analog broadcasts or external input audio/video.
- This information is not included in CC1, CC2, Text1, or Text2, and is not displayed in a list.
Useful adjustment settings

**Secret number setting for parental control**

Allows you to use a secret number to protect certain settings from being accidentally changed.

**IMPORTANT:**
Three conditions must be met to enable the V-Chip (see pages 41 to 47):

1. Secret No. is registered.
2. V-Chip/V-Chip (DTV Only) settings have been made.
3. “Status” is set to “On”.

**Setting a secret number**

1. Press MENU to display the MENU screen, and then press ▶ to select “Setup”.
2. Press ▲/▼ to select “Parental CTRL”, and then press ENTER.
3. Press ▲/▼ to select “Secret No.”, and then press ENTER.
4. Select “New Secret No.”, and then press ENTER.
   - Input the new 4-digit secret number by using 0–9.
5. Input the same 4-digit number on the “Reconfirm” screen as in step 4 to confirm.

**Setting parental control status**

Used to enable or disable the parental control function.

1. Repeat steps 1 and 2 in Setting a secret number.
   - The secret number setting menu displays.
2. Input the 4-digit secret number by using 0–9.
3. Press ▲/▼ to select “Status”, and then press ENTER.
4. Press ◄ to select “On” or “Off”, and then press ENTER.
   - Select “On” to enable and “Off” to disable Parental CTRL.
5. Press MENU to exit.

**NOTE**
- You can skip steps 1 and 2 above while in the Parental CTRL screen.
- The “V-Chip (DTV Only)” will only be selectable when a new rating system can be downloaded via digital broadcasting in the U.S.
Useful adjustment settings

### Changing the secret number
Allows you to change your current secret number.

1. **Repeat steps 1 and 2 in Setting a secret number.**
   - The secret number setting menu displays.
2. **Input the 4-digit secret number by using 0–9.**
3. **Press **A**/**B** to select “Secret No.”, and then press **ENTER**.**
4. **Press **A**/**B** to select “New Secret No.”, and then press **ENTER**.**
5. **Input the old 4-digit secret number by using 0–9.**
6. **Input the new 4-digit secret number by using 0–9.**
7. **Input the same 4-digit number on the “Reconfirm” screen as in step 6 to confirm.**
8. **Press **MENU** to exit.**

### Clearing the secret number
Allows you to clear your secret number.

1. **Repeat steps 1 and 2 in Setting a secret number.**
   - The secret number setting menu displays.
2. **Input the 4-digit secret number by using 0–9.**
3. **Press **A**/**B** to select “Secret No.”, and then press **ENTER**.**
4. **Press **A**/**B** to select “Secret No. Clear”, and then press **ENTER**.**
5. **Press **A**/**B** to select “Yes”, and then press **ENTER**.**
6. **Your secret number is cleared.**

**NOTE**
- See page 41 for re-registering a new secret number after being cleared.
- **As a precautionary measure, make a note of your secret number and keep it in a familiar place.**
- If the secret number is cleared, the Status setting automatically sets to “Off”, “V-Chip” and “Status” will not be selectable from the menu.
Useful adjustment settings

Parental control (setting V-CHIP level)

V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. “V-Chip” and “Status” will not be selectable from the menu if you do not first configure your secret number. (See page 41 for Secret number setting for parental control.)

- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.

Voluntary movie rating system (MPAA)

<table>
<thead>
<tr>
<th>Rating</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>G</td>
<td>General audiences. All ages admitted.</td>
</tr>
<tr>
<td>PG</td>
<td>Parental guidance suggested. Some material may not be suitable for children.</td>
</tr>
<tr>
<td>PG-13</td>
<td>Parents strongly cautioned. Some material may be inappropriate for children under 13.</td>
</tr>
<tr>
<td>R</td>
<td>Restricted. Under 17 requires accompanying parent or adult guardian (age varies in some jurisdictions).</td>
</tr>
<tr>
<td>NC-17</td>
<td>No one 17 and under admitted.</td>
</tr>
<tr>
<td>X</td>
<td>X is an older rating that is unified with NC-17 but may be encoded in the data of older movies.</td>
</tr>
</tbody>
</table>

TV Parental Guidelines

<table>
<thead>
<tr>
<th>Rating</th>
<th>Content</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>FV (Fantasy violence)</td>
</tr>
<tr>
<td>TV-Y (All children)</td>
<td>✓</td>
</tr>
<tr>
<td>TV-Y7 (Directed to older children)</td>
<td>✗</td>
</tr>
<tr>
<td>TV-G (General audience)</td>
<td>✗</td>
</tr>
<tr>
<td>TV-PG (Parental Guidance suggested)</td>
<td>✗</td>
</tr>
<tr>
<td>TV-14 (Parents strongly cautioned)</td>
<td>✗</td>
</tr>
<tr>
<td>TV-MA (Mature audience only)</td>
<td>✗</td>
</tr>
</tbody>
</table>

- The content rating can be set, but this rating is not normally broadcast by TV stations.
- ✗: Content rating can be set.

EXAMPLE:
- If you select “PG-13”, this will automatically block the higher ratings “R”, “NC-17” and “X”.

NOTE:
- Voluntary movie rating system only uses an age-based rating.
Useful adjustment settings

Voluntary movie rating system (MPAA)

Press MENU to display the MENU screen, and then press ←/→ to select “Setup”.

Press ▲/▼ to select “Parental CTRL”, and then press ENTER.
- The secret number setting menu displays only when “Secret No.” is set. (See page 41.)
- “V-Chip” and “Status” will not be selectable from the menu if you do not first configure your secret number. (See page 41.)

Input the 4-digit secret number by using 0–9.

Press ▲/▼ to select “V-Chip”, and then press ENTER.

Press ▲/▼ to select “MPAA”, and then press ENTER.

Press ▲/▼ to adjust the item to your desired position. “●” indicates the item is blocked.
Press RETURN.
- The setting automatically enters “Block” for any ratings below your selection.
- If Status is not set to “On”, the configuration settings will not work. (See page 41.)

Press MENU to exit.

TV Parental Guidelines (TV Guidelines)

Repeat steps 1 to 4 in Voluntary movie rating system (MPAA).

Press ▲/▼ to select “TV Guidelines”, and then press ENTER.

Press ▲/▼ to adjust the item to your desired position. “●” indicates the item is blocked.
- The setting automatically enters “Block” for any ratings below your selection.

When setting an individual content-based rating item, do as follows:

1 Press ▲ or ENTER to access blocked content items from the currently selected age-based rating item.
2 Press ▲/▼ to select an individual item, and then press ENTER to unblock it (“●” is removed). Repeat the same steps for the other items.
3 Press ◄ or RETURN to register after all individual content rating items are set.

Press MENU to exit.
Useful adjustment settings

Canadian Rating Systems

- The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
- While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
- When setting the V-CHIP on the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.

### Canadian English ratings

<table>
<thead>
<tr>
<th>Rating</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>E</td>
<td>Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.</td>
</tr>
<tr>
<td>C</td>
<td>Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.</td>
</tr>
<tr>
<td>C8+</td>
<td>Children over 8 years old: Contains no portrayal of violence as the preferred, acceptable, or only way to resolve conflict; nor encourage children to imitate dangerous acts which they may see on the screen.</td>
</tr>
<tr>
<td>G</td>
<td>General: Considered acceptable for all age groups. Appropriate viewing for the entire family, contains very little violence, physical, verbal or emotional.</td>
</tr>
<tr>
<td>PG</td>
<td>Parental Guidance: Intended for a general audience, but may not be suitable for younger children (under the age of 8) because it could contain controversial themes or issues.</td>
</tr>
<tr>
<td>14+</td>
<td>Over 14 Years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.</td>
</tr>
<tr>
<td>18+</td>
<td>Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.</td>
</tr>
</tbody>
</table>

### Canadian French ratings

<table>
<thead>
<tr>
<th>Rating</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>E</td>
<td>Exempt programming.</td>
</tr>
<tr>
<td>G</td>
<td>General: All ages and children, contains minimal direct violence, but may be integrated into the plot in a humorous or unrealistic manner.</td>
</tr>
<tr>
<td>8ans+</td>
<td>General but inadvisable for young children: May be viewed by a wide public audience, but could contain scenes disturbing to children under 8 who cannot distinguish between imaginary and real situations. Recommended for viewing with parent.</td>
</tr>
<tr>
<td>13ans+</td>
<td>Over 13 years: Could contain scenes of frequent violent scenes and therefore recommended for viewing with parent.</td>
</tr>
<tr>
<td>16ans+</td>
<td>Over 16 years: Could contain frequent violent scenes and intense violence.</td>
</tr>
<tr>
<td>18ans+</td>
<td>Over 18 years: Only for adult viewing. Could contain frequent violent scenes and extreme violence.</td>
</tr>
</tbody>
</table>
**Useful adjustment settings**

### Canadian English ratings

1. Press **MENU** to display the MENU screen, and then press ▲▼ to select “Setup”.
2. Press ▲▼ to select “Parental CTRL”, and then press **ENTER**.
   - Secret number setting menu displays only when “Secret No.” is set. (See page 41.)
   - “V-Chip” and “Status” will not be selectable from the menu if you do not first configure your secret number. (See page 41.)
3. Input the 4-digit secret number by using 0–9.
4. Press ▲▼ to select “V-Chip”, and then press **ENTER**.
5. Press ▲▼ to select “Can. English Ratings”, and then press **ENTER**.
6. Press ▲▼ to adjust the item to your desired position. “a” indicates the item is blocked.
   - The setting automatically enters “Block” for any ratings below your selection.
   - If Status is not set to “On”, the configuration settings will not work. (See page 41.)

4. Press **MENU** to exit.
Useful adjustment settings

How to temporarily release the V-CHIP BLOCK

When the V-CHIP BLOCK is working and censors a broadcast, “V-CHIP HAS BEEN ACTIVATED.” displays. Reactivating the temporarily released V-CHIP BLOCK

You can reactivate the temporarily released V-CHIP BLOCK as shown below.

Method 1:
Select “Status” setting from the Parental CTRL menu to reactivate BLOCK. (See page 41.)

Method 2:
Select “V-Chip” setting (“MPAA”, “TV Guidelines”, “Can. English Ratings” or “Can. French Ratings”) from the Parental CTRL to reactivate BLOCK. (See pages 44 and 47.)

Method 3:
Switch off the TV power.

NOTE
• Performing any of the three above will activate the V-CHIP BLOCK.

Digital Setup

This setting allows you to optimize the settings of Digital broadcasting.

Audio Setup

You can output digital audio to an AV amplifier or similar device whose DIGITAL AUDIO INPUT terminal is connected to the DIGITAL AUDIO OUTPUT terminal on the TV. Please select an audio output format compatible with the audio format of the program you are watching and the equipment connected.

1 Press MENU to display the MENU screen, and then press ◄► to select “Digital Setup”.

2 Press ▲▼ to select “Audio Setup”, and then press ENTER.

3 Press ▲▼ to select “PCM” or “Dolby Digital”, and then press ENTER.

Selected item Description

PCM The optical output terminal outputs audio signal in PCM form. If your digital audio system does not support Dolby Digital, select “PCM”.

Dolby Digital The optical output terminal outputs audio signal in Dolby Digital form. It reproduces sound from surround program of digital.

4 Press MENU to exit.

Identification

1 Press MENU to display the MENU screen, and then press ◄► to select “Digital Setup”.

2 Press ▲▼ to select “Identification”, and then press ENTER. The current version of the TV software is displayed.
Useful adjustment settings

**Software Update**

This function allows software updates by inserting a USB memory device with the update file into the USB terminal on the TV. Regarding how to obtain the software update file, please call 1-800-BE-SHARP.

**CAUTION**

- Do not remove the USB memory device or unplug the AC cord while the software is being updated.

1. Insert the USB memory device with the update file into the USB terminal on the TV.

2. Press MENU to display the MENU screen, and then press ▲▼ to select “Digital Setup”.

3. Press ▲▼ to select “Software Update”, and then press ENTER.
   - If you already set the Secret No., go to step 4.

4. Input the 4-digit secret number by using 0–9.

5. Press ENTER to start checking the data in the USB memory device.

6. During the data checking, “Checking” blinks.

   ![Checking](image)

- The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select “Yes”, and then press ENTER.

   **Example**

   ![Example](image)

   - If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed. Check the file on the USB memory device, and then reinsert the USB memory device correctly.

   ![Error](image)

   - There is more than one software file in the USB memory device. Confirm that only the software update file is in the USB memory device.

   ![Error](image)
Press ENTER to start updating.

- The screen becomes dark for a while until the update screen can be displayed. Please wait for the update screen to appear. Do not unplug the AC cord.

![Example](image1)

Press ENTER to start updating.

- The picture will temporarily go dark until the Software Update display appears. Wait several minutes and do not unplug the AC cord.

Example

Now updating

Do not unplug AC cord.

Update Version UXXXXXX2

| % | 30% |

- If you accidentally unplugged the AC cord or removed the USB memory device, reinsert the USB memory device and plug in the AC cord. The update process is restarted.

When the software is successfully updated, a screen is displayed indicating that the update process is completed. After this screen is displayed, the TV automatically turns off and then turns on again.

Example

Software update is complete.

Update Version UXXXXXX2

- If the update has failed, check the file in the USB memory device and try Software Update again.

After the screen shown below is displayed, press ENTER.

System software was successfully updated. Remove the USB memory device.

OK

Remove the USB memory device.
Other viewing options

Freezing images

Allows you to capture and freeze a moving image that you are watching.

1. Press **FREEZE**.
   - A moving image is captured.

2. Press **FREEZE** again to cancel the function.

**NOTE**
- When this function is not available, “No displaying still image available.” will display.
- The still image automatically goes out after 30 minutes.
- If you are using the freeze function and a broadcast activates the V-CHIP BLOCK, the freeze function will be cancelled and a V-CHIP BLOCK message will appear.

Presetting remote control function

You can operate the connected AV products (AV Receiver, Cable Box, SAT tuner, DTV, VCR, DVD, LD) using the presetting manufacturer function of your remote control unit.

**Presetting manufacturer codes**

1. Press **FUNCTION** until the LED for your device lights up.

2. After the LED for your device lights up, press **FUNCTION** and **DISPLAY** at the same time to enter the code registration mode. The LED will blink.

3. Press **0–9** to enter the manufacturer code. (See page 51.)
   - Preset mode is finished once the LED no longer lights up.

4. After registering the code, the LED will stop blinking then turn off after one second. (If you perform an incorrect operation, the LED will blink quickly then turn off.)

## VCR control buttons

The remote control unit button will function as follows when the **FUNCTION** of the remote control unit is set to VCR.

- **Press INPUT** until the input connected to the VCR is selected. The following **1** to **8** can be used to control the VCR.

  1. **CH △/▽**
     - Press to select the channel of the TV tuner on the VCR.
  2. **SOURCE POWER**
     - Turns the power of the VCR on and off.
  3. **I**
     - Sets pauses and still pictures.
  4. **G**
     - Rewinds the tape and allows picture search.
  5. **H**
     - Stops the tape transport.
  6. **REC**
     - Starts recording.
  7. **J**
     - Rapidly advances the tape and allows picture search.
  8. **K**
     - Starts playback.

## DVD control buttons

The remote control unit button will function as follows when the **FUNCTION** of the remote control unit is set to DVD.

- **Press INPUT** until the input connected to the DVD player is selected. The following **1** to **10** can be used to control the DVD player.

  1. **L**
     - Pressing quickly once takes you to the start of the next chapter. Each time you press it, you move ahead to the start of the next chapter.
  2. **K**
     - Pressing quickly once takes you to the start of the chapter currently playing. Each time you press it, you move back to the start of the previous chapter.
  3. **SOURCE POWER**
     - Turns the power of the DVD player on and off.
  4. **I**
     - Sets pauses and still pictures.
  5. **H**
     - Hold down to go in reverse.
  6. **G**
     - Playback stops when pressed.
     - With some DVD players, pressing the button twice may open the disc tray.
  7. **MENU**
     - When this button is pressed, the DVD menu will display.
  8. **ENTER, ▲/▼/◄/►**
     - **ENTER**: Press to activate the selected function.
     - **▲/▼/◄/►**: Press the button to select items on the DVD **MENU** screen.
  9. **J**
     - Hold down to fast forward.
  10. **K**
     - Starts playback.

Controlling HDMI Equipment Using AQUOS LINK

What’s AQUOS LINK?
- Using the HDMI CEC (Consumer Electronics Control) protocol, with AQUOS LINK you can interactively operate compatible system equipment (Blue-ray Disc equipment, AV amplifier, DVD).
- By connecting AQUOS LINK-compatible devices with HDMI-certified cables to the TV, you can control a recorder or AV amplifier using the remote control of the TV.
- AQUOS LINK allows you to operate the HDMI-connected equipment with one remote control.

You can operate AQUOS LINK-compatible devices with the remote control unit when the FUNCTION of the remote control unit is set to TV.

REC STOP and OPTION buttons will function only when AQUOS LINK is used.

- One Touch Play
  While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

- One Touch Recording
  Press REC while you are viewing a broadcast received with the AQUOS LINK-compatible recorder. The AQUOS LINK automatically recognizes the connected HDMI device and starts recording.

- Single remote control
  The AQUOS LINK automatically recognizes the connected HDMI device and you can control the TV and the devices as if using a universal remote control.

- Control the AQUOS LINK-compatible Audio system
  Set the volume of AQUOS LINK-compatible Audio system.

You can operate AQUOS LINK-compatible devices with the remote control unit when the FUNCTION of the remote control unit is set to TV.

NOTE
- Point the remote control toward the TV, not to connected HDMI equipment.
- Video noise may occur depending on the type of HDMI cable used. Make sure to use a certified HDMI cable.
- Up to 3 HDMI recording equipment and one AV amplifier can be connected using this system.
- These operations affect the HDMI equipment selected as the current input source. If the equipment does not operate, turn on the equipment and select the appropriate input source using INPUT.

NOTE
- The above description is an example of the AQUOS LINK function.
- The steps in “AQUOS LINK Setup” on page 55 need to be completed beforehand.
- Refer to this operation manual and the operation manual of the AQUOS LINK device to be used with this TV.
Other viewing options

**Auto Power On**

If this is activated, the One Touch Play function is enabled. While the TV is in standby mode, it automatically turns on and plays back the image from the HDMI source.

1. Press **MENU** to display the MENU screen, and then press **▲▼** to select “Option”.
2. Press **▲▼** to select “AQUOS LINK Setup”, and then press **ENTER**.
3. Press **▲▼** to select “Auto Power On”, and then press **ENTER**.
4. Press **▲▼** to select “Yes”, and then press **ENTER**.
5. Press **MENU** to exit.

**Selecting Recorder**

When multiple AQUOS LINK-compatible devices are connected, this function allows you to set the recorder for recording when you press **REC** on the TV’s remote control.

1. Press **MENU** to display the MENU screen, and then press **▲▼** to select “Option”.
2. Press **▲▼** to select “AQUOS LINK Setup”, and then press **ENTER**.
3. Press **▲▼** to select “Selecting Recorder”, and then press **ENTER**.
4. Press **▲▼** to select “Yes”, and then press **ENTER**.

**NOTE**

Example: when connecting AQUOS LINK-compatible recorder via AQUOS LINK-compatible Audio system

When an AQUOS LINK-compatible Audio system or other equipment is connected between the TV and recorder, “Sub” is displayed.

Media change
By AQUOS AUDIO SP
By AQUOS SP
Sound mode change
Model select

3. Select the desired media such as DVD or HDD.
   • The Media type toggles every time you press ENTER in “Media change”.
   • Select the media to be operated by the player.

One Touch Recording

This function allows easy one-touch recording of the program being viewed on the TV to AQUOS LINK-compatible equipment with a recording function by simply pressing REC on the remote control.

Prepare the connected AQUOS LINK-compatible recorder for recording. Check the following items.
• Make sure that the antenna cable is connected.
• Check that there is sufficient available space on the recording media (HDD, DVD, etc.).
• On the TV, use “AQUOS LINK Setup” and “Model select” to select the equipment for recording.
• By default, the recorder connected to INPUT 5 is selected for recording.

1. Press REC to start recording.
   • When you are viewing a broadcast received with the AQUOS LINK-compatible recorder selected in “Model select”, recording to the AQUOS recorder of the broadcast being viewed starts.
   • When you are viewing a broadcast received with equipment other than the AQUOS LINK-compatible recorder selected in “Model select” or other external input equipment, pressing REC on the remote control does not start recording.

2. Press REC STOP to stop recording.

Timer Recording

You can call up the CEC-compatible recorder’s EPG and preset timer recordings using the TV’s remote control.

1. Press OPTION to display the AQUOS LINK MENU screen.
2. Press ▲/▼ to select “Recorder EPG”, and then press ENTER.

   AQUOS LINK

   Recorder EPG
   Top menu/title list
   Media change

Playback of Titles Using AQUOS LINK
This section explains how to play back a title in the AQUOS BD Player.

1 Power on the AQUOS BD Player, select appropriate external input.

2 Press OPTION to display the AQUOS LINK MENU screen.

3 Press ▲/▼ to select “Top menu/title list”, and then press ENTER.

- The title list data from the connected AQUOS BD Player displays.

4 Select the title with ▲/▼/◀/▶, and then press ► to start playback.

Listening with the AQUOS AUDIO Speaker System
You can select to listen to the TV sound only from the AQUOS LINK-compatible Audio system and manually change its sound mode.

1 Press OPTION to display the AQUOS LINK MENU screen.

2 Press ▲/▼ to select “By AQUOS AUDIO SP”, and then press ENTER.

- The sound from the TV speaker is muted and only the sound from the AQUOS LINK-compatible Audio system is audible.

- You can use VOL+/- and MUTE.

Select “By AQUOS SP”, and then press ENTER to listen to the TV sound.

Manually changing AQUOS AUDIO speaker system’s sound mode

1 Press OPTION to display the AQUOS LINK MENU screen.

2 Press ▲/▼ to select “Sound mode change”, and then press ENTER.

- The sound mode changes every time you press ENTER.

- Refer to the operation manual of the AQUOS LINK-compatible Audio system for details.
Appendix

Removing the stand

Before detaching (or attaching) the stand, unplug the AC cord from the AC INPUT terminal.

**CAUTION**
- Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.

Before attaching/detaching the stand
- Before performing work make sure to turn off the TV.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

1. Unfasten the four screws used to secure the stand in place.
2. Detach the stand from the TV. (Hold the stand so it will not drop from the edge of the base area.)

**NOTE**
- To attach the stand, perform the above steps in reverse order.

Setting the TV on the wall

**CAUTION**
- This TV should be mounted on the wall only with the AN-52AG4 (SHARP) wall mount bracket. The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.
- Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.

Using an optional bracket to mount the TV
- You can ask a qualified service professional about using an optional AN-52AG4 bracket to mount the TV to the wall.
- Carefully read the instructions that come with the bracket before beginning work.

Hanging on the wall
AN-52AG4 wall mount bracket.
(See the bracket instructions for details.)

About setting the TV angle

**NOTE**
- Detach the cable clamp on the rear of the TV when using the optional mount bracket.
- To use this TV mounted on a wall, first remove the adhesive tape at the 4 locations on the rear of the TV, and then use the screws supplied with the wall mount bracket to secure the bracket to the rear of the TV.
Appendix

Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power</td>
<td>Check if you pressed TV POWER on the remote control unit. (See page 16.) If the indicator on the TV does not light up, press POWER on the TV. Is the AC cord disconnected? (See page 7.) Has the power been turned on? (See page 16.)</td>
</tr>
<tr>
<td>Unit cannot be operated.</td>
<td>External influences such as lightning, static electricity, may cause improper operation. In this case, operate the unit after first turning on the power of the TV or unplugging the AC cord and plugging it in after 1 or 2 minutes.</td>
</tr>
<tr>
<td>Remote control unit does not operate.</td>
<td>Is the FUNCTION set correctly? Set it to the TV setting position. Are batteries inserted with polarity (+, −) aligned? (See page 8.) Are batteries worn out? (Replace with new batteries.) Are you using it under strong or fluorescent lighting? Is a fluorescent light illuminated near the remote control sensor?</td>
</tr>
<tr>
<td>Picture is cut off/with sidebar screen.</td>
<td>Is the image position correct? (See page 33.) Adjust the picture tone. (See pages 26 to 28.) Is the room too bright? The picture may look dark in a room that is too bright. Check the input signal setting. (See page 38.)</td>
</tr>
<tr>
<td>Strange color, light color, or color</td>
<td>Is the sleep timer set? (See page 34.) Check the power control settings. (See page 29.) The unit’s internal temperature has increased. Remove any objects blocking vent or clean.</td>
</tr>
<tr>
<td>misalignment</td>
<td>Check the input signal setting. (See page 38.) Is “On” selected in “Audio Only”? (See page 37.) Is “On” selected in “Audio Only”? (See page 37.) Is a non-compatible signal being input? (See page 15.)</td>
</tr>
<tr>
<td>Power is suddenly turned off.</td>
<td>Check the antenna cable. Check that the antenna is correctly setup.</td>
</tr>
<tr>
<td>No picture</td>
<td>Is connection to other components correct? (See pages 13 to 15.) Is correct input signal source selected after connection? (See page 30.) Is the correct input selected? (See page 30.) Is picture adjustment correct? (See pages 26 to 28.) Is “On” selected in “Audio Only”? (See page 37.) Is a non-compatible signal being input? (See page 15.)</td>
</tr>
<tr>
<td>No sound</td>
<td>Is the volume too low? (See page 19.) Is “Variable” selected in “Output Select”? (See page 37.) Have you pressed MUTE on the remote control unit? (See page 19.)</td>
</tr>
<tr>
<td>The TV sometimes makes a cracking sound.</td>
<td>This is not a malfunction. This happens when the cabinet slightly expands and contracts according to change in temperature. This does not affect the TV’s performance.</td>
</tr>
</tbody>
</table>

Troubleshooting-Digital broadcasting

The error message about reception of broadcast

<table>
<thead>
<tr>
<th>The example of an error message displayed on a screen</th>
<th>Error code</th>
<th>Possible Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Failed to receive broadcast.</td>
<td>E202</td>
<td>Check the antenna cable. Check that the antenna is correctly setup.</td>
</tr>
<tr>
<td>No broadcast now.</td>
<td>E203</td>
<td>Check the broadcast time in the program guide.</td>
</tr>
</tbody>
</table>

Cautions regarding use in high and low temperature environments

- When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
- Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the Liquid Crystal panel to malfunction.
- Storage temperature: −4°F to +140°F (−20°C to +60°C)
Appendix

RS-232C port specifications

PC control of the TV

- When a program is set, the TV can be controlled from the PC using the RS-232C terminal. The input signal (PC/AV) can be selected, the volume can be adjusted and various other adjustments and settings can be made, enabling automatic programmed playing.
- Attach an RS-232C cable cross-type (commercially available) to the supplied Din/D-Sub RS-232C for the connections.

**NOTE**

- This operation system should be used by a person who is accustomed to using computers.

Communication conditions

Set the RS-232C communication settings on the PC to match the TV's communication conditions. The TV's communication settings are as follows:

<table>
<thead>
<tr>
<th>Baud rate:</th>
<th>9,600 bps</th>
</tr>
</thead>
<tbody>
<tr>
<td>Data length:</td>
<td>8 bits</td>
</tr>
<tr>
<td>Parity bit:</td>
<td>None</td>
</tr>
<tr>
<td>Stop bit:</td>
<td>1 bit</td>
</tr>
<tr>
<td>Flow control:</td>
<td>None</td>
</tr>
</tbody>
</table>

Communication procedure

Send the control commands from the PC via the RS-232C connector. The TV operates according to the received command and sends a response message to the PC. Do not send multiple commands at the same time. Wait until the PC receives the OK response before sending the next command.

Command format

Eight ASCII codes + CR

Command 4-digits: Command. The text of four characters.
Parameter 4-digits: Parameter 0 - 9, x, blank, ?

Parameter

Input the parameter values, aligning left, and fill with blank(s) for the remainder. (Be sure that 4 values are input for the parameter.)
When the input parameter is not within an adjustable range, “ERR” returns. (Refer to “Response code format”.)
Any numerical value can replace the “x” on the table.

<table>
<thead>
<tr>
<th>0</th>
<th>0</th>
<th>0</th>
<th>9</th>
</tr>
</thead>
<tbody>
<tr>
<td>-</td>
<td>3</td>
<td>0</td>
<td></td>
</tr>
<tr>
<td>1</td>
<td>0</td>
<td>0</td>
<td></td>
</tr>
<tr>
<td>0</td>
<td>0</td>
<td>5</td>
<td>5</td>
</tr>
</tbody>
</table>

When “?” is input for some commands, the present setting value responds.

*2 The dimensional drawings are shown on the inside back cover.

As part of policy of continuous improvement, SHARP reserves the right to make design and specification changes for product improvement without prior notice. The performance specification figures indicated are nominal values of production units. There may be some deviations from these values in individual units.

Optional accessory

The listed optional accessory is available for the Liquid Crystal Television. Please purchase it at your nearest shop.

- Additional optional accessories may be available in the near future. When purchasing, please read the newest catalogue for compatibility and check the availability.
CLEARING THE SECRET NUMBER
If you forget the secret number, clear the secret number using the following procedure.

1. Press MENU to display the MENU screen, and then press ◄► to select “Setup”.

2. Press ▲▼ to select “EZ Setup”, “CH Setup”, “Parental CTRL” or “Reset”, and the Secret number input screen displays.

3. Press and hold both CH down and VOL+ on the TV simultaneously until the message appears on the screen.

The secret number is □□□.

NOTE
• As a precautionary measure, make a note of your secret number above, cut it from this manual, and keep it in a safe place.
Appendix

Information on the software license for this product

Software composition
The software included in this product is comprised of various software components whose individual copyrights are held by SHARP or by third parties.

Software developed by SHARP and open source software
The copyrights for the software components and various relevant documents included with this product that were developed or written by SHARP are owned by SHARP and are protected by the Copyright Act, international treaties, and other relevant laws. This product also makes use of freely distributed software and software components whose copyrights are held by third parties. These include software components covered by a GNU General Public License (hereafter GPL), a GNU Lesser General Public License (hereafter LGPL) or other license agreement.

Obtaining source code
Some of the open source software licensors require the distributor to provide the source code with the executable software components. GPL and LGPL include similar requirements. For information on obtaining the source code for the open source software and for obtaining the GPL, LGPL, and other license agreement information, visit the following website:

http://www.sharpusa.com/gpl

We are unable to answer any questions about the source code for the open source software. The source code for the software components whose copyrights are held by SHARP is not distributed.

Acknowledgements
The following open source software components are included in this product:
• linux kernel
• busybox
• uClibc
• zlib
• libpng
• libjpeg

LIMITED WARRANTY

**CONSUMER LIMITED WARRANTY**

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand Liquid Crystal Display product (the “Product”), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product or if the serial number or model number affixed to the Product has been removed, defaced, changed, altered or tampered with. This warranty does not cover installation or signal reception problems. This limited warranty will not apply if the Product has been or is being used in a commercial setting or application; this warranty is meant solely for the non-commercial, household use of the Product by consumers in their home or residence. If you intend to or already use this Product for commercial purposes or in a commercial setting, there are warranties available to cover your use of this Product, the terms of which may vary. Please contact 1-888-GO-SHARP for further information.

In order to enforce your rights under this limited warranty, you should follow the steps set forth below. You must be able to provide proof of purchase to the servicer, which proof must include the date of purchase. To the extent permitted by applicable state law, the warranties set forth are in lieu of, and exclusive of, all other warranties, express or implied. Specifically ALL OTHER WARRANTIES OTHER THAN THOSE SET FORTH ABOVE ARE EXCLUDED, ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR USE, AND FITNESS FOR A PARTICULAR PURPOSE ARE SPECIFICALLY EXCLUDED. If, under applicable state law, implied warranties may not validly be disclaimed or excluded, the duration of such implied warranties is limited to the period(s) from the date of purchase set forth below. This warranty gives you specific legal rights. You may also have other rights which vary from state to state.

The warranties given herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy for breach of warranty. Specifically ALL OTHER WARRANTIES OTHER THAN THOSE SET FORTH ABOVE ARE EXCLUDED, ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR USE, AND FITNESS FOR A PARTICULAR PURPOSE ARE SPECIFICALLY EXCLUDED. If, under applicable state law, implied warranties may not validly be disclaimed or excluded, the duration of such implied warranties is limited to the period(s) from the date of purchase set forth below. This warranty gives you specific legal rights. You may also have other rights which vary from state to state.

The warranties given herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser and only for the time periods set forth herein. No other representations or promises made by anyone are permitted. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. Sharp does not warrant nor shall Sharp be liable, or in any way responsible, for Products which have been subject to abuse (including, but not limited to, improper voltage), accident, misuse, negligence, lack of reasonable care, alteration, modification, tampering, misuse, improper operation or maintenance or any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than a Sharp authorized servicer. Nor shall Sharp be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow limits on warranties or on remedies for breach in certain transactions; in such states, the limits herein may not apply.

**THIS LIMITED WARRANTY IS VALID ONLY IN THE FIFTY (50) UNITED STATES, THE DISTRICT OF COLUMBIA AND PUERTO RICO.**

VALID IN CANADA ONLY

LIMITED WARRANTY
Consumer Electronics Products

Congratulations on your purchase!

Sharp Electronics of Canada Ltd, (hereinafter called "Sharp") gives the following express warranty to the first consumer purchaser for this Sharp brand product, when shipped in its original container and sold or distributed in Canada by Sharp or by an Authorized Sharp Dealer:

Sharp warrants that this product is free, under normal use and maintenance, from any defects in material and workmanship. If any such defects should be found in this product within the applicable warranty period, Sharp shall, at its option, repair or replace the product as specified herein.

This warranty shall not apply to:
(a) Any defects caused or repairs required as a result of abusive operation, negligence, accident, improper installation or inappropriate use as outlined in the owner's manual.
(b) Any Sharp product tampered with, modified, adjusted or repaired by any party other than Sharp, Sharp's Authorized Service Centres or Sharp's Authorized Servicing Dealers.
(c) Damage caused or repairs required as a result of the use with items not specified or approved by Sharp, including but not limited to head cleaning tapes and chemical cleaning agents.
(d) Any replacement of accessories, glassware, consumable or peripheral items required through normal use of the product including but not limited to earphones, remote controls, AC adapters, batteries, temperature probe, stylus, trays, filters, belts, ribbons, cables and paper.
(e) Any cosmetic damage to the surface or exterior that has been defaced or caused by normal wear and tear.
(f) Any damage caused by external or environmental conditions, including but not limited to transmission line/power line voltage or liquid spillage.
(g) Any product received without appropriate model, serial number and CSA/UL markings.
(h) Any products used for rental or commercial purposes.
(i) Any installation, setup and/or programming charges.

Should this Sharp product fail to operate during the warranty period, warranty service may be obtained upon delivery of the Sharp product together with proof of purchase and a copy of this LIMITED WARRANTY statement to an Authorized Sharp Service Centre or an Authorized Sharp Servicing Dealer. In-home warranty service may be provided at Sharp's discretion on any Sharp television with the screen size of 27" or larger and on any Sharp Over-the-Range Microwave Oven.

This warranty constitutes the entire express warranty granted by Sharp and no other dealer, service centre or their agent or employee is authorized to extend, enlarge or transfer this warranty on behalf of Sharp. To the extent the law permits, Sharp disclaims any and all liability for direct or indirect damages or losses or for any incidental, special or consequential damages or loss of profits resulting from a defect in material or workmanship relating to the product, including damages for the loss of time or use of this Sharp product or the loss of information. The purchaser will be responsible for any removal, reinstallation, transportation and insurance costs incurred. Correction of defects, in the manner and period of time described herein, constitute complete fulfillment of all obligations and responsibilities of Sharp to the purchaser with respect to the product and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise.
