LIQUID CRYSTAL TELEVISION

ENGLISH
IMPORTANT INFORMATION

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

CAUTION:
DO NOT PLACE THIS PRODUCT ON AN UNSTABLE CART, STAND, TRIPOD, BRACKET, OR TABLE. THE PRODUCT MAY FALL, CAUSING SERIOUS PERSONAL INJURY AND SERIOUS DAMAGE TO THE PRODUCT. USE ONLY WITH A CART, STAND, TRIPOD, BRACKET, OR TABLE RECOMMENDED BY THE MANUFACTURER OR SOLD WITH THE PRODUCT. FOLLOW THE MANUFACTURER’S INSTRUCTIONS WHEN INSTALLING THE PRODUCT AND USE MOUNTING ACCESSORIES RECOMMENDED BY THE MANUFACTURER. A PRODUCT AND CART COMBINATION SHOULD BE MOVED WITH CARE. QUICK Stops, EXCESSIVE FORCE, AND UNEVEN SURFACES MAY CAUSE THE PRODUCT AND CART COMBINATION TO OVERTURN.

WARNING: FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user’s authority to operate this equipment.

CAUTION:
This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

DECLARATION OF CONFORMITY:
SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-46D43U
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
RESPONSIBLE PARTY:
SHARP ELECTRONICS CORPORATION

INFORMATION:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

*Note to CATV system installer: This reminder is provided to call the CATV system installer’s attention to Article 820-40 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.*

This product utilizes tin-lead solder, and fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated due to environmental considerations. For disposal or recycling information, please contact your local authorities or the Electronic Industries Alliance: www.eia.org

Trademarks

• Products that have earned the ENERGY STAR® are designed to protect the environment through superior energy efficiency.
Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your Liquid Crystal Television, please read the following precautions carefully before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Additional Safety Information

15) Power Sources—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
16) Overloading—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
17) Object and Liquid Entry—Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
18) Damage Requiring Service—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
   a) When the AC cord or plug is damaged,
   b) If liquid has been spilled, or objects have fallen into the product,
   c) If the product has been exposed to rain or water,
   d) If the product does not operate normally by following the operating instructions.
      Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation,
   e) If the product has been dropped or damaged in any way, and
   f) When the product exhibits a distinct change in performance - this indicates a need for service.
19) Replacement Parts—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
20) Safety Check—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
21) Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.
IMPORTANT SAFETY INSTRUCTIONS

- Water and Moisture — Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.

- Stand — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer’s instructions. Use only the mounting hardware recommended by the manufacturer.

- Selecting the location — Select a place with no direct sunlight and good ventilation.

- Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer’s instructions are followed.

- Heat — The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

- The Liquid Crystal panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the panel breaks.

- Lightning — For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.

- Power Lines — An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

- Precautions when transporting the TV
  - Be sure to always carry the TV by two people holding it with two hands — one hand on each side of the TV.
**IMPORTANT SAFETY INSTRUCTIONS**

- **Outdoor Antenna Grounding** — If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

![EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE, ANSI/NFPA 70](image)

- **To prevent fire, never place any type of candle or flames on the top or near the TV set.**

- **To prevent fire or shock hazard, do not expose this product to dripping or splashing. No objects filled with liquids, such as vases, should be placed on the product.**

- **To prevent fire or shock hazard, do not place the AC cord under the TV set or other heavy items.**

- **Turn off the main power and unplug the AC cord from the wall outlet before handling.**
- **Use a soft cloth and gently wipe the surface of the display panel. Using a hard cloth may scratch the panel surface.**
- **Use a soft damp cloth to gently wipe the panel when it is really dirty. (It may scratch the panel surface when wiped strongly.)**
- **If the panel is dusty, use an anti-static brush, which is commercially available, to clean it.**
- **To protect the panel, do not use a dirty cloth, liquid cleaners or chemical cloth to clean it, such materials may damage the panel surface.**
- **To clean the outer cabinet, use the same method. Do not use liquid or aerosol cleaners.**

- **Do not display a still picture for a long time, as this could cause an afterimage to remain.**
Supplied accessories

Make sure the following accessories are provided with the product.

- Remote control unit (×1)
- "AAA" size battery (×2)
- AC cord (×1)
- Cable clamp (×2)
- Stand unit (×1)
- Operation manual (×1)

**NOTE**
- Always use the AC cord supplied with the TV.
- AC cord enclosed in this product is for 110-125V. In using it on the 125-240V AC, please consult to the following.

SHARP ELECTRONICS CORPORATION
6100 Blue Lagoon Drive, Suite 230, Miami, Florida 33126, U.S.A.

QUICK REFERENCE

**Attaching the stand**

- Before attaching (or detaching) the stand, unplug the AC cord from the AC INPUT terminal.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

**CAUTION**
- Attach the stand in the correct direction.
- Be sure to follow the instructions. Incorrect installation of the stand may result in the TV falling over.

1. Confirm that there are 10 screws (6 short screws and 4 long screws) supplied with the TV.

2. Attach the two supporting posts for the stand unit onto the base using the box for the stand unit as shown below.
   (Close-up of the upper side of the stand unit)

3. Insert the stand into the openings on the bottom of the TV.
   Insert and tighten the 4 long screws into the 4 holes on the rear of the TV.

**NOTE**
- To detach the stand, perform the steps in reverse order.

1. Insert each of the protrusions on the two supporting posts into the openings on the upper side of the base.
2. Insert and tighten the 6 short screws with the hex key (supplied with the product) in the order of ①, ② and ③.
Ventilation & Cleaning Tips
Keep your AQUOS television in a well ventilated area and make sure not to place it by a heat source or use near water. The AQUOS television is designed for AC use only and should be used with supplied AC cord.

Clean the screen by spraying a soft lint free cloth with water to lightly moisten. Gently wipe and avoid pressing on the screen. To clean the outer cabinet, use the same method. Do not use liquid or aerosol cleaners.

The screen is glass and can be scratched or broken when dropped or impacted.

QUICK INSTALLATION TIPS

1. Attach your antenna to the back of the AQUOS television. (See page 12.)

2. Connect the AC plug for the AQUOS television into the AC outlet.

3. Place the Ferrite core in the space indicated in the below figure and bundle the cords properly with cable clamps and a cable tie.

4. How to turn on the AQUOS television for the first time.
   A) Press POWER on the AQUOS television.
   B) The POWER indicator on the front of the AQUOS television lights GREEN.

   NOTE
   • Speakers cannot be detached from the TV.
   • TV angle cannot be adjusted.
QUICK REFERENCE

If the remote control fails to operate TV functions, replace the batteries in the remote control unit.

1 Open the battery cover.  
2 Insert two "AAA" size batteries (supplied with the product).  
3 Close the battery cover.

• Place the batteries with their terminals corresponding to the (+) and (−) indications in the battery compartment.

CAUTION
Improper use of batteries can result in chemical leakage or explosion. Be sure to follow the instructions below.
• Do not mix batteries of different types. Different types of batteries have different characteristics.
• Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries or cause chemical leakage in old batteries.
• Remove batteries as soon as they are worn out. Chemicals that leak from batteries that come in contact with skin can cause a rash. If you find any chemical leakage, wipe thoroughly with a cloth.
• The batteries supplied with this product may have a shorter life expectancy due to storage conditions.
• If you will not be using the remote control unit for an extended period of time, remove batteries from it.

IMPORTANT:
The POWER indicator on the AQUOS television should light GREEN indicating you have power to the AQUOS television.

If the POWER indicator on the AQUOS television still does not light up, press TV POWER on the remote control to turn the power on.

IMPORTANT:
IF THE UNIT DOES NOT POWER ON - UNPLUG THE AQUOS TELEVISION FROM THE OUTLET AND REPEAT THE INSTALLATION STEPS.

IF YOU STILL ENCOUNTER NO POWER, PLEASE CONTACT US AT 1-800-BE-SHARP.

Please refer to the BASIC ADJUSTMENT SETTINGS SECTION for EZ Setup and basic channel setup functions and USING EXTERNAL EQUIPMENT SECTION for other device connections (DVD, VCR, AUDIO, etc.) in your AQUOS operation manual.

*When using the remote control unit, point it at the TV.*
Preparation

Using the remote control unit

Use the remote control unit by pointing it towards the remote control sensor on the TV. Objects between the remote control unit and the remote control sensor may prevent proper operation.

Cautions regarding the remote control unit

- Do not expose the remote control unit to shock. In addition, do not expose the remote control unit to liquids, and do not place in an area with high humidity.
- Do not install or place the remote control unit under direct sunlight. The heat may cause deformation of the remote control unit.
- The remote control unit may not work properly if the remote control sensor on the TV is under direct sunlight or strong lighting. In such cases, change the angle of the lighting or the TV, or operate the remote control unit closer to the remote control sensor.

Antennas

To enjoy a clearer picture, use an outdoor antenna. The following is a brief explanation of the types of connections that are used for a coaxial cable. If your outdoor antenna uses a 75-ohm coaxial cable with an F-type connector, plug it into the antenna terminal at the rear of the TV set.

1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools (Commercially available).
   - F-type connector
   - 75-ohm coaxial cable (round)

2. A 300-ohm system is a flat “twin-lead” cable that can be attached to a 75-ohm terminal through a 300/75-ohm adapter (Commercially available).
   - 300-ohm twin-lead cable (flat)

NOTICE

F-type connector should be finger-tightened only.

When connecting the RF cable to the TV set, do not tighten F-type connector with tools. If tools are used, it may cause damage to your TV set. (The breaking of internal circuit, etc.)

Connecting Antenna Cable

1. Cable without a CATV converter

2. VHF/UHF antenna

3. Combination VHF/UHF antenna

4. Separate VHF/UHF antenna

- Connect the antenna cable to the TV using one of the methods in the illustration as shown (1, 2, 3, or 4).
Preparation

You can connect many types of external equipment to your TV like a Blu-ray disc player, HD-DVD player, DVD player, VCR, Digital TV tuner, HDMI equipment, game console or camcorder. To view external source images, select the input source from INPUT on the remote control unit or on the TV. (See pages 29 and 30.)

CAUTION
- To protect equipment, always turn off the TV before connecting any external equipment.
- Please read the relevant operation manual (Blu-ray disc player, etc.) carefully before making connections.
- If your Blu-ray disc player offers a choice of output formats, please select 720p for use with this TV.

Connecting a Blu-ray disc player, HD-DVD player, DVD player or a Digital TV STB (Air or Cable)

You can use the INPUT 1, INPUT 2 or INPUT 3 terminals when connecting to a Blu-ray disc player, HD-DVD player, DVD player, a Digital TV STB (Air or Cable) and other audiovisual equipment.

When using composite cable (commercially available).

Connecting a VCR, game console or camcorder

A VCR, game console, camcorder and other audiovisual equipment can be conveniently connected using the INPUT 1 to 3 terminals.

When using S-VIDEO cable (commercially available).

When using composite cable (commercially available).

NOTE
- The S-VIDEO terminal takes priority over the video terminals. (INPUT 3 only)

Using Digital Audio Output

It is possible to output audio through the DIGITAL AUDIO OUTPUT terminal. (See page 28 for details.) PCM audio outputs from the terminal.

Blu-ray disc player/HD-DVD player/DVD player/Digital TV STB

Audio cable (commercially available)
Component video cable (commercially available)

Blu-ray disc player/HD-DVD player/DVD player/Digital TV STB

OPTICAL FIBER CABLE (commercially available)
**Preparation**

**Connecting HDMI equipment**

You can use the INPUT 4 or INPUT 5 terminal when connecting HDMI equipment.

![HDMI cable](commercially available)

**NOTE**
- When using an HDMI-DVI conversion cable, input the audio signal to AUDIO terminal of INPUT 5.
- When receiving an incompatible signal, such as 1080p, the message below appears without the image on the screen.
  For an incompatible video signal: “An incompatible video signal has been received. Check the output device settings.”
  For an incompatible audio signal: “An incompatible audio signal has been received. Check the output device settings.”

**Connecting a PC**

When connecting to a PC with an analog RGB terminal. (INPUT 6)

![Ø 3.5 mm stereo minijack cable](commercially available)

**NOTE**
- The HDMI terminals only support digital signal.

**PC compatibility chart**

It is necessary to set the PC correctly to display XGA and WXGA signal. Refer to page 37 to set PC input signals.

Simple operations for watching a TV program

**Turning on the power**

Press **POWER** on the TV, or **TV POWER** on the remote control unit.
- **POWER** indicator (Green): The TV is on. (After a few seconds, a window appears with sound.)

**NOTE**
- The initial setup starts when the TV powers on for the first time. If the TV has been turned on before, the EZ Setup will not be invoked. See page 22 for performing EZ Setup from the Setup menu.

**Turning off the power**

Press **POWER** on the TV, or **TV POWER** on the remote control unit.
- The TV enters standby and the image on the screen disappears.
- The **POWER** indicator on the TV turns off.

**NOTE**
- If you are not going to use this TV for a long period of time, be sure to remove the AC cord from the AC outlet.
- Weak electric power is still consumed even when **POWER** is turned off.

Watching TV

Initial setup

When you turn on the TV for the first time, it will automatically memorize the broadcasting channels where you live. Perform the following steps before you press TV POWER on the remote control unit.

1. Insert the batteries into the remote control unit. (See page 8.)
2. Connect the antenna cable to the TV. (See page 12.)
3. Plug in the AC cord to the AC outlet. (See page 7.)

Language setting

Select from among 3 languages: English, French and Spanish.

Press ▲/▼ to select the desired language listed on the screen, and then press ENTER.

Antenna setting

Make sure what kind of connection is made with your TV when selecting “Air” or “Cable”.

Press ◀/> to select “Air” or “Cable”. Press ENTER to enter the setting.

Channel search

Channel auto search makes the TV look for all channels viewable in the set area.

When “Air” is selected in Antenna setting:

Press ◀/> to select “Start”, and then press ENTER.

When “Cable” is selected in Antenna setting:

Press ▲/▼ to select “Analog & Digital Search Start” to search both analog and digital broadcasts or “Analog Search Start” to search only analog broadcasts, and then press ENTER.

• The Channel search will start automatically.
• To exit the Channel search screen, select “Cancel”, and then press ENTER.

Example

CH Search

Audio : MONO

NOTE

• If no channel is found, confirm the type of connection made with your TV and try EZ Setup again. (See page 22.)
Simple button operations for changing channels

You can change channels in several ways.

Method 1
Using CH ↑/↓ on the remote control unit or on the TV.

Method 2
1. Press FLASHBACK to switch to the previously tuned channel.
2. Press FLASHBACK again to switch back to the currently tuned channel.

NOTE
• FLASHBACK will not work if no channel has been changed after the TV is turned on.

Method 3
Using remote control buttons 0-9, • (DOT) to select channels for VHF/UHF/CATV/DIGITAL.

To select a 1 or 2-digit channel number (e. g., Channel 5):
Press 5 → ENT

NOTE
• When selecting a 1-digit channel number, it is not necessary to press 0 before the number.
• When you enter 0-9 only, channel selection will be made if there is no operation within a few seconds.

To select a 3-digit channel number (e. g., Channel 115):
Press 1 → 1 → 5

To select a 4-digit channel number (e. g., Channel 22.1):
Press 2 → 2 → • (DOT) → 1 → ENT

NOTE
• When you enter 0-9 only, channel selection will be made if there is no operation within a few seconds.
• If you push “0” by itself, nothing will happen.
• Complete the above steps within a few seconds.
• When you enter 0-9 and • (DOT), channel selection will be made if there is no operation within a few seconds.

Simple button operations for changing volume/sound

- Changing the volume
  You can change the volume on the TV or on the remote control unit.

- Using VOL+/-
  - To increase the volume, press VOL + .
  - To decrease the volume, press VOL - .

  Volume adjustment

- Using MUTE on the remote control unit
  Mutes the current sound output.

  Press MUTE.
  - will be displayed on the screen for 30 minutes, and the sound is silenced.

  NOTE
  - Within 30 minutes of pressing MUTE, mute can be canceled by using one of the methods below.
    - Mute will be canceled if you press VOL + / - or MUTE.
    - Mute will be canceled after 30 minutes have passed. However, the TV will not suddenly output a loud sound as the volume level is set to 0 automatically.

- Using SURROUND on the remote control unit
  SURROUND produces Surround effect from the speakers. Each time you press SURROUND, the mode changes between On and Off.

  Surround sound options
  On: Makes it possible to enjoy natural, realistic surround sound.
  Off: Outputs the normal sound.

  NOTE
  - You can have the same settings by choosing “Surround” on the menu items. (See page 27.)

* When “Output Select” is set to “Variable”, the indicator on the screen changes as shown below.

NOTE
- See page 36 for details on the Output Select function.
Setting MTS/SAP stereo mode

The TV has a feature that allows reception of sound other than the main audio for the program. This feature is called Multi-channel Television Sound (MTS). The TV with MTS can receive mono sound, stereo sound and Secondary Audio Programs (SAP). The SAP feature allows a TV station to broadcast other information, which could be audio in another language or something completely different like weather information.

You can enjoy Hi-Fi stereo sound or SAP broadcasts where available.

- **Stereo broadcasts**
  View programs like live sporting events, shows and concerts in dynamic stereo sound.

- **SAP broadcasts**
  Receive TV broadcasts in either MAIN or SAP sound. MAIN sound: The normal program soundtrack (either in mono or stereo). SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound.)

If stereo sound is difficult to hear.
- Obtain a clearer sound by manually switching to fixed mono-sound mode.

**NOTE**
- MTS only operates while in TV mode.

You can change MTS as shown below to match the television broadcast signal. Press AUDIO to toggle between audio modes.

Examples: when receiving MTS and SAP

Setting Digital broadcasting audio mode

The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.

Press AUDIO to toggle between audio modes.
Basic adjustment settings

Menu operation buttons

Use the following buttons on the remote control to operate the menu.

MENU: Press to open or close the menu screen.

▲/▼/◄/►: Press to select a desired item on the screen or adjust a selected item.

ENTER: Press to go to the next step or complete the setting.

RETURN: Press to return to the previous step.

On-Screen Display

Example

1 Item displayed in yellow
   • This indicates the item currently selected.
   • Press ENTER to go to the adjustment screen for this item.

2 Item in brackets
   • This indicates the current setting for the item.

3 Item displayed in white
   • This indicates an item can be selected.

4 Item displayed in gray
   • This indicates that the item cannot be selected.
   There are various reasons why items cannot be selected, but the main reasons are as follows:
   — Nothing is connected to the selected input terminal.
   — The function is not compatible with the current input signal.

NOTE

• Menu options differ in the selected input modes, but the operating procedures are the same.
• The screens in the operation manual are for explanation purposes (some are enlarged, others cropped) and may vary slightly from the actual screens.

The bar above is an operational guide for the remote control. The bar will change in accordance with each menu setting screen.

Using external equipment

Displaying an external equipment image

To view external source images, select the input source from INPUT on the remote control unit or on the TV.

1 Press INPUT.
   - A list of selectable sources appears.

2 Press INPUT again to select the input source.
   - An image from the selected source automatically displays.
   - Each time INPUT is pressed, the input source toggles.
   - You can also select the input source by pressing ▲/▼.
   - If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.

Input Select

If the image does not come in clearly from the external equipment connected to INPUT 1 or 2, you may need to change the input signal type setting on the “Input Select” menu.

1 Press MENU to display the MENU screen, and then press ▼ to select “Option”.

2 Press ▲/▼ to select “Input Select”, and then press ENTER.

3 Press ▲/▼ to select the signal type you want to set, and then press ENTER.
   - If the selected signal type is incorrect, images are not displayed or displayed without any color.

4 Press MENU to exit.
   - The setting is stored and can be selected on the “INPUT SOURCE” menu.

NOTE

- Refer to your external equipment operation manual for the signal type.
- If you set INPUT 1 or 2 to Auto, the TV will automatically select the input signal.
- Setting INPUT 1 or 2 signal selection to “Auto” when other equipment is connected will result in the following connection priority.

INPUT 1 or 2:
1 COMPONENT VIDEO
2 VIDEO

NOTE

- See pages 13 and 14 for external equipment connection.
Using external equipment

Displaying an image from HDMI equipment

To watch an HDMI/PC-IN equipment image, select “INPUT4” or “INPUT5” from “INPUT SOURCE” menu using INPUT on the remote control unit or on the TV.

1 Press MENU to display the MENU screen, and then press ←→ to select “Option”.

2 Press ▲▼ to select “HDMI Setup”, and then press ENTER.

3 Press ▲▼ to select “Input Skip”, and then press ENTER.

Closed Captions and Digital Closed Captions

Your TV is equipped with an internal Closed Caption decoder. It allows you to view conversations, narration and sound effects as subtitles on your TV. Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider.

Digital Closed Caption service is a new caption service available only on digital TV programs (also at the discretion of the service provider). It is a more flexible system than the original Closed Caption system, because it allows for a variety of caption sizes and font styles. When the Digital Closed Caption service is in use, it will be indicated by the appearance of a 3-letter abbreviation that also indicates the language of the Digital Closed Captions: ENG (English), SPA (Spanish), FRA (French) or other language codes.

Not all programs and VHS videotapes offer closed captions. Please look for the "1" symbol to ensure that captions will be shown.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The "CC1" and "CC2" services display subtitles of TV programs superimposed over the program's picture.

In the Closed Caption system, the "Text1" or "Text2" services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

1 Press CC.
   • This will present the Closed Caption information display.

2 Press CC while the Closed Caption information is still on the screen.
   • Press repeatedly until you select the desired closed caption service.

Example:
If a program has three services (Digital CC(ENG), CC1 and Text1), the closed caption display will toggle in this sequence:
1/2 ENG 3/3 Text1 2/3 CC1

- The CC button keeps a record of the last service selected in its memory.
- If the last closed caption mode (e.g., 1/3ENG) you selected is not available for the next program, or on another channel, the closed caption service that is available will automatically be selected, and this service appears in parentheses, e.g., "1/3(CC1)". Closed Caption services that appear in parentheses will not be stored in the CC button's memory as your last selected service. Only services that you have selected with the CC button are stored.

Examples:
In a case where there are two closed caption services provided, (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses. A closed caption service appears in parentheses because the service you selected is not available and a different service is displayed on your screen. "1/1(CC1)" is displayed instead of "1/2/ENG".

• See page 39 for detailed closed caption settings.
• When the program contains no closed caption, "--" displays in the closed caption information.
• If the language code, e.g. "ENG", is not found on Digital TV programs, "--" will be shown.
• Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.

Secret number setting for parental control

Allows you to use a secret number to protect certain settings from being accidentally changed.

**IMPORTANT:**

Three conditions must be met to enable the V-Chip (see pages 40 to 45):

1. Secret No. is registered.
2. V-Chip/V-Chip (DTV Only) settings have been made.
3. “Status” is set to “On”.

Setting a secret number

1. Press MENU to display the MENU screen, and then press ▲▼ to select “Setup”.
2. Press ▲▼ to select “Parental CTRL”, and then press ENTER.
3. Press ▲▼ to select “Secret No.”, and then press ENTER.
4. Select “New Secret No.”, and then press ENTER.
   Input the new 4-digit secret number by using 0–9.
5. Input the same 4-digit number on the “Reconf” screen as in step 4 to confirm.

6. Press RETURN to start configuring the V-Chip settings. (See pages 43 and 45 for details.)

7. Press MENU to exit.

Setting parental control status

Used to enable or disable the parental control function.

1. Repeat steps 1 and 2 in Setting a secret number.
   • The secret number setting menu displays.
2. Input the 4-digit secret number by using 0–9.
3. Press ▲▼ to select “Status”, and then press ENTER.
4. Press ▲▼ to select “On” or “Off”, and then press ENTER.
   • Select “On” to enable and “Off” to disable Parental CTRL.
5. Press MENU to exit.

**NOTE**

- You can skip steps 1 and 2 above while in the Parental CTRL screen.
- The “V-Chip (DTV Only)” will only be selectable when a new rating system can be downloaded via digital broadcasting in the U.S.
## Useful adjustment settings

- If the secret number is cleared, the Status setting automatically sets to “Off”, “V-Chip” and “Status” will not be selectable from the menu.
Useful adjustment settings

### Parental control (setting V-CHIP level)

V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. “V-Chip” and “Status” will not be selectable from the menu if you do not first configure your secret number. (See page 40 for Secret number setting for parental control.)

- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.

Canadian Rating Systems

- The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
- While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
- When setting the V-CHIP on the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.

### Canadian English ratings

<tbody>
<tr>
<td>E</td>
<td>Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.</td>
</tr>
<tr>
<td>C</td>
<td>Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.</td>
</tr>
<tr>
<td>C8+</td>
<td>Children over 8 years old: Contains no portrayal of violence as the preferred, acceptable, or only way to resolve conflict; nor encourage children to imitate dangerous acts which they may see on the screen.</td>
</tr>
<tr>
<td>G</td>
<td>General: Considered acceptable for all age groups. Appropriate viewing for the entire family, contains very little violence, physical, verbal or emotional.</td>
</tr>
<tr>
<td>PG</td>
<td>Parental Guidance: Intended for a general audience, but may not be suitable for younger children (under the age of 8) because it could contain controversial themes or issues.</td>
</tr>
<tr>
<td>14+</td>
<td>Over 14 Years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.</td>
</tr>
<tr>
<td>18+</td>
<td>Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.</td>

Removing the stand

Before detaching (or attaching) stand, unplug the AC cord from the AC INPUT terminal.

**CAUTION**
- Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.

**Before attaching/detaching stand**
- Before performing work make sure to turn off the TV.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

1. Unfasten the four screws used to secure the stand in place.
2. Detach the stand from the TV. (Hold the stand so it will not drop from the edge of the base area.)

**NOTE**
- To attach the stand, perform the above steps in reverse order.

Setting the TV on the wall

**CAUTION**
- This TV should be mounted on the wall only with the AN-52AG1 (SHARP) wall mount bracket. The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.
- Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.

**Using an optional bracket to mount the TV**
- You can ask a qualified service professional about using an optional AN-52AG1 bracket to mount the TV to the wall.
- Carefully read the instructions that come with the bracket before beginning work.

**Hanging on the wall**
AN-52AG1 wall mount bracket.
(See the bracket instructions for details.)

</table>
| • No power | • Check if you pressed TV POWER on the remote control unit. (See page 15.) If the indicator on the TV does not light up, press POWER on the TV.  
• Is the AC cord disconnected? (See page 7.)  
• Has the power been turned on? (See page 15.) |
| • Unit cannot be operated. | • External influences such as lightning, static electricity, may cause improper operation. In this case, operate the unit after first turning on the power of the TV or unplugging the AC cord and replugging it in after 1 or 2 minutes. |
| • Remote control unit does not operate. | • Is the FUNCTION set correctly? Set it to the TV setting position.  
• Are batteries inserted with polarity (+, −) aligned? (See page 8.)  
• Are batteries worn out? (Replace with new batteries.)  
• Are you using it under strong or fluorescent lighting?  
• Is a fluorescent light illuminated near the remote control sensor? |
| • Picture is cut off/with sidebar screen. | • Is the image position correct? (See page 32.)  
• Are screen mode adjustments such as picture size made correctly? (See pages 34 and 35.) |
| • Strange color, light color, or color misalignment | • Adjust the picture tone. (See pages 25 to 26.)  
• Is the room too bright? The picture may look dark in a room that is too bright.  
• Check the input signal setting. (See page 37.) |
| • Power is suddenly turned off. | • Is the sleep timer set? (See page 33.)  
• Check the power control settings. (See page 28.)  
• The unit’s internal temperature has increased. Remove any objects blocking vent or clean. |
| • No picture | • Is connection to other components correct? (See pages 13 and 14.)  
• Is correct input signal source selected after connection? (See page 29.)  
• Is the correct input selected? (See page 29.)  
• Is picture adjustment correct? (See pages 25 to 26.)  
• Is “On” selected in “Audio Only”? (See page 36.)  
• Is a non-compatible signal being input? (See page 14.) |
| • No sound | • Is the volume too low? (See page 18.)  
• Is “Variable” selected in “Output Select”? (See page 36.)  
• Have you pressed MUTE on the remote control unit? (See page 18.) |
| • The TV sometimes makes a cracking sound. | • This is not a malfunction. This happens when the cabinet slightly expands and contracts according to change in temperature. This does not affect the TV’s performance. |

</table>

Cautions regarding use in high and low temperature environments

• When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.  
• Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the Liquid Crystal panel to malfunction.  
Storage temperature: −4°F to +140°F (−20°C to +60°C)

LIMITED WARRANTY

CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand product (the "Product"), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product nor to the additional excluded item(s) set forth below nor to any Product the exterior of which has been damaged or defaced, which has been subjected to improper voltage or other misuse, abnormal service or handling, or which has been altered or modified in design or construction.

In order to enforce the rights under this limited warranty, the purchaser should follow the steps set forth below and provide proof of purchase to the servicer.

The limited warranty described herein is in addition to whatever implied warranties may be granted to purchasers by law. ALL IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR USE ARE LIMITED TO THE PERIOD(S) FROM THE DATE OF PURCHASE SET FORTH BELOW. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

Neither the sales personnel of the seller nor any other person is authorized to make any warranties other than those described herein, or to extend the duration of any warranties beyond the time period described herein on behalf of Sharp.

The warranties described herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. In no event shall Sharp be liable, or in any way responsible, for any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than an authorized servicer. Nor shall Sharp be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

*Consumer Electronics Products*

Congratulations on your purchase!

Sharp Electronics of Canada Ltd. (hereinafter called “Sharp”) gives the following express warranty to the first consumer purchaser for this Sharp brand product, when shipped in its original container and sold or distributed in Canada by Sharp or by an Authorized Sharp Dealer:

Sharp warrants that this product is free, under normal use and maintenance, from any defects in material and workmanship. If any such defects should be found in this product within the applicable warranty period, Sharp shall, at its option, repair or replace the product as specified herein.

This warranty shall not apply to:

(a) Any defects caused or repairs required as a result of abusive operation, negligence, accident, improper installation or inappropriate use as outlined in the owner’s manual.

(b) Any Sharp product tampered with, modified, adjusted or repaired by any party other than Sharp, Sharp’s Authorized Service Centres or Sharp’s Authorized Servicing Dealers.

(c) Damage caused or repairs required as a result of the use with items not specified or approved by Sharp, including but not limited to head cleaning tapes and chemical cleaning agents.

(d) Any replacement of accessories, glassware, consumable or peripheral items required through normal use of the product including but not limited to earphones, remote controls, AC adapters, batteries, temperature probe, stylus, trays, filters, belts, ribbons, cables and paper.

(e) Any cosmetic damage to the surface or exterior that has been defaced or caused by normal wear and tear.

(f) Any damage caused by external or environmental conditions, including but not limited to transmission line/power line voltage or liquid spillage.

(g) Any product received without appropriate model, serial number and CSA/cUL markings.

(h) Any products used for rental or commercial purposes.

(i) Any installation, setup and/or programming charges.

Should this Sharp product fail to operate during the warranty period, warranty service may be obtained upon delivery of the Sharp product together with proof of purchase and a copy of this LIMITED WARRANTY statement to an Authorized Sharp Service Centre or an Authorized Sharp Servicing Dealer. In home warranty service may be provided at Sharp’s discretion on any Sharp television with the screen size of 27” or larger and on any Sharp Over-the-Range Microwave Oven.

This warranty constitutes the entire express warranty granted by Sharp and no other dealer, service centre or their agent or employee is authorized to extend, enlarge or transfer this warranty on behalf of Sharp. To the extent the law permits, Sharp disclaims any and all liability for direct or indirect damages or losses or for any incidental, special or consequential damages or loss of profits resulting from a defect in material or workmanship relating to the product, including damages for the loss of time or use of this Sharp product or the loss of information. The purchaser will be responsible for any removal, reinstallation, transportation and insurance costs incurred. Correction of defects in the manner and period of time described herein, constitute complete fulfillment of all obligations and responsibilities of Sharp to the purchaser with respect to the product and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise.
