Supplied Accessories

Make sure the following accessories are provided with the product.

- Remote control unit (x 1)
- "AA" size battery (x 2)
- AC cord (x 1)
- Cable clamp (x 1)
- Stand unit (x 1)
- Operation manual (x 2 languages)

NOTE

- Always use the AC cord supplied with the TV.
- The illustrations above are for explanation purposes and may vary slightly from the actual accessories.
IMPORTANT:
To aid reporting in case of loss or theft, please record the TV's model and serial numbers in the space provided. The numbers are located at the rear of the TV.

Serial No.:

IMPORTANT INFORMATION

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

The lightning flash with arrow-head symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within a triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

WARNING: FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment.

CAUTION: This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

DECLARATION OF CONFORMITY:
SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-C46700UN/LC-C52700UN
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RESPONSIBLE PARTY:
SHARP ELECTRONICS CORPORATION
Sharp Plaza, Mahwah, New Jersey 07495-1163
TEL: 1-800-BE-SHARP
For Business Customers: URL http://www.sharpusa.com

### IMPORTANT INFORMATION

**INFORMATION:**
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

"Note to CATV system installer: This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical."

### Trademarks

- Manufactured under license from Dolby Laboratories. "Dolby" and the double-D symbol are trademarks of Dolby Laboratories.

- *HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC.*

- Products that have earned the ENERGY STAR® are designed to protect the environment through superior energy efficiency.

- LCフォント, LCFONT, エルシーフォント and LC logo mark are registered trademarks of SHARP Corporation. This product is embedded with LC Font technology, which was developed by SHARP Corporation for clearly displaying easy-to-read characters on LCD screens. However, other fonts are used for some screen pages, too.
DEAR SHARP CUSTOMER

Thank you for your purchase of the Sharp Liquid Crystal Television. To ensure safety and many years of trouble-free operation of your product, please read the Important Safety Instructions carefully before using this product.

IMPORTANT SAFETY INSTRUCTIONS

Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your Liquid Crystal Television, please read the following precautions carefully before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Use only attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Additional Safety Information

15) Power Sources—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
16) Overloading—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
17) Object and Liquid Entry—Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
18) Damage Requiring Service—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
   a) When the AC cord or plug is damaged,
   b) If liquid has been spilled, or objects have fallen into the product,
   c) If the product has been exposed to rain or water,
   d) If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation,
   e) If the product has been dropped or damaged in any way, and
19) Replacement Parts—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
20) Safety Check—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
21) Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.
IMPORTANT SAFETY INSTRUCTIONS

- Outdoor Antenna Grounding — If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

- Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer’s instructions are followed.

- Water and Moisture — Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.

- Stand — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer’s instructions. Use only the mounting hardware recommended by the manufacturer.

- Selecting the location — Select a place with no direct sunlight and good ventilation.

- Precautions when transporting the TV
  - Do not insert foreign objects into the product. Inserting objects in the air vents or other openings may result in fire or electric shock. Exercise special caution when using the product around children.
  - Do not display a still picture for a long time, as this could cause an afterimage to remain.
  - To prevent fire or shock hazard, do not expose this product to dripping or splashing.
  - To prevent fire, never place any type of candle or flammable material on the top or near the TV set.
  - Power Lines — An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.
  - To prevent fire, never place any type of candle or flame on the top or near the TV set.
  - To prevent fire or shock hazard, do not place the AC cord under the TV set or other heavy items.
  - To prevent fire or shock hazard, do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer’s instructions are followed.
  - The Liquid Crystal panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the panel breaks.
  - Heat — The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
  - Lighting — For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna.
  - Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer’s instructions are followed.
  - Stand — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer’s instructions. Use only the mounting hardware recommended by the manufacturer.
  - Water and Moisture — Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.
  - Stand — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer’s instructions. Use only the mounting hardware recommended by the manufacturer.

- Caring for the Cabinet
  - Use a soft cloth (cotton, flannel, etc.) and gently wipe the surface of the display panel.
  - Using a chemical cloth (wet/dry sheet type cloth, etc.) may deform the components of the main unit cabinet or cause cracking.
  - Wiping with a hard cloth or using strong force may scratch the panel surface.
  - If the cabinet is very dirty, wipe with a soft cloth (cotton, flannel, etc.) soaked in neutral detergent diluted with water and thoroughly wring out, and then wipe with a soft dry cloth.
  - The cabinet is primarily made of plastic. Avoid using benzene, thinner, and other solvents, as these may deform the cabinet and cause the paint to peel off.
  - Do not apply insecticides or other volatile liquids.
  - Also, do not allow the cabinet to remain in contact with rubber or vinyl products for a long period of time. Plasticizers inside the plastic may cause the cabinet to deform and cause the paint to peel off.

- EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE, ANSI/NFPA 70

- Clamps — Use ground clamps to connect the ground wire to the equipment grounding terminal or, where provided, to the grounding terminal.

- Grounding electrode system — Use a grounding electrode system that is connected to the grounding electrode identified as equipment-grounding terminal or, where provided, equipment-grounding conductor.

- Ground clamps — Use ground clamps to connect the ground wire to the equipment grounding terminal or, where provided, to the grounding terminal.

- ELECTRIC CLAMP

- GROUND CLAMPS

- GROUNDING CONDUCTORS

- GROUNDING CONDUCTORS

- ANTI-ENERGERIE EQUIPMENT

- EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE, ANSI/NFPA 70
IMPORTANT SAFETY INSTRUCTIONS

Caring for the Liquid Crystal panel

- Turn off the main power and unplug the AC cord from the wall outlet before handling.
- Gently wipe the surface of the display panel with a soft cloth (cotton, flannel, etc.).
- To protect the display panel, do not use a dirty cloth, liquid cleaners, or a chemical cloth (wet/dry sheet type cloth, etc.). This may damage the panel surface.
- Wiping with a hard cloth or using strong force may scratch the panel surface.
- Use a soft damp cloth to gently wipe the panel when it is really dirty. (It may scratch the panel surface when wiped strongly.)
- If the panel is dusty, use an anti-static brush, which is commercially available, to clean it.
- To avoid scratching the frame or screen, please use a soft, lint free cloth for cleaning. Approved cleaning cloths are available directly from Sharp in single (00Z-LCD-CLOTH) or triple (00Z-LCD-CLOTH-3) packs. Call 1-800-BE-SHARP for ordering, or VISIT www.sharpusa.com/SharpDirect.

CHILD SAFETY:
It Makes A Difference How and Where You Use Your Flat Panel Display

Congratulations on your purchase! As you enjoy your new product, please keep these safety tips in mind:

THE ISSUE
• The home theater entertainment experience is a growing trend and larger flat panel displays are popular purchases. However, flat panel displays are not always supported on the proper stands or installed according to the manufacturer’s recommendations.
• Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or carts may fall over and cause injury.

THIS MANUFACTURER CARES!
The consumer electronics industry is committed to making home entertainment enjoyable and safe.

TUNE INTO SAFETY
• One size does NOT fit all. Follow the manufacturer’s recommendations for the safe installation and use of your flat panel display.
• Carefully read and understand all enclosed instructions for proper use of this product.
• Don’t allow children to climb on or play with furniture and television sets.
• Don’t place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.
• Remember that children can become excited while watching a program, especially on a “larger than life” flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or knocked down.
• Care should be taken to route all cords and cables connected to the flat panel display so that they cannot be pulled or grabbed by curious children.

WALL MOUNTING: IF YOU DECIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:
• Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL, CSA, ETL).
• Follow all instructions supplied by the display and wall mount manufacturers.
• If you have any doubts about your ability to safely install your flat panel display, contact your retailer about professional installation.
• Make sure that the wall where you are mounting the display is appropriate. Some wall mounts are not designed to be mounted to walls with steel studs or old cinder block construction. If you are unsure, contact a professional installer.
• A minimum of two people are required for installation. Flat panel displays can be heavy.

Note: CEA is the preeminent trade association promoting growth in the $161 billion U.S. consumer electronics industry. More than 2,200 companies enjoy the benefits of CEA membership, including legislative advocacy, market research, technical training and education, industry promotion and the fostering of business and strategic relationships.
Attaching/Detaching the Stand

- Before attaching (or detaching) the stand, unplug the AC cord from the AC INPUT terminal.
- Before performing work spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

**CAUTION**
- Attach the stand in the correct direction.
- Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.
- Be sure to follow the instructions. Incorrect installation of the stand may result in the TV falling over.

1. Confirm that there are 12 screws (all the same size) supplied with the stand unit.
2. Set the post for the stand unit onto the box.
   - Attach the base to the post.
   - Hold the stand unit securely with one hand, and then tighten the screws.
3. Insert the stand into the openings on the bottom of the TV.
   - Insert and tighten the 4 screws into the 4 holes on the rear of the TV.

**NOTE**
- To detach the stand, perform the steps in reverse order.

Setting the TV on the Wall

**CAUTION**
- This TV should be mounted on the wall only with the AN-S2AG4 (SHARP) wall mount bracket. The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.
- Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.

Using an optional bracket to mount the TV

- You can ask a qualified service professional about using an optional AN-S2AG4 bracket to mount the TV to the wall.
- Carefully read the instructions that come with the bracket before beginning work.

- **Hanging on the wall**
  - AN-S2AG4 wall mount bracket.
  - (See the bracket instructions for details.)

**About setting the TV angle**

- **LC-C46700UN**
  - The center of the display: 0/5/10/15/20° under the “b” position
- **LC-C52700UN**
  - The center of the display: 0° under the “b” position
  - Refer to the operation manual of AN-S2AG4 for details.

**NOTE**
- Detach the cable clamp on the rear of the TV when using the optional mount bracket.
QUICK REFERENCE

QUICK INSTALLATION TIPS

1 Attach your antenna to the back of the television. (See page 9.)
2 Connect the AC plug for the television into the AC outlet.

- Place the TV close to the AC outlet, and keep the power plug within reach.

NOTE
- TO PREVENT RISK OF ELECTRIC SHOCK, DO NOT TOUCH UN-INSULATED PARTS OF ANY CABLES WITH THE AC CORD CONNECTED.
3 Bundle the cords properly with the cable clamp.

4 How to turn on the television for the first time.
   A) Press POWER on the television.
   B) The POWER indicator on the front of the television lights GREEN.

NOTE
- Speakers cannot be detached from the TV.
- TV angle cannot be adjusted.

Using the Remote Control Unit

Use the remote control unit by pointing it towards the remote control sensor on the TV. Objects between the remote control unit and the remote control sensor may prevent proper operation.

- Do not expose the remote control unit to shock. In addition, do not expose the remote control unit to liquids, and do not place in an area with high humidity.
- Do not install or place the remote control unit under direct sunlight. The heat may cause deformation of the remote control unit.
- The remote control unit may not work properly if the remote control sensor on the TV is under direct sunlight or strong lighting. In such cases, change the angle of the lighting or the TV, or operate the remote control unit closer to the remote control sensor.

IMPORTANT:
The POWER indicator on the television should light GREEN indicating you have power to the television. If the POWER indicator on the television still does not light up, press POWER on the remote control to turn the power on.

IMPORTANT:
- If the unit does not power on, unplug the television from the outlet and repeat the installation steps.
- If you still encounter no power, please contact us at 1-800-BE-SHARP.
Preparation

Antennas

To enjoy a clearer picture, use an outdoor antenna. The following is a brief explanation of the types of connections that are used for a coaxial cable. If your outdoor antenna uses a 75-ohm coaxial cable with an F-type connector, plug it into the antenna terminal at the rear of the TV set.

1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools. (Commercially available)
2. A 300-ohm system is a flat “twin-lead” cable that can be attached to a 75-ohm terminal through a 300/75-ohm adapter. (Commercially available)

NOTICE
F-type connector should be finger-tightened only.
When connecting the RF cable to the TV set, do not tighten F-type connector with tools. If tools are used, it may cause damage to your TV set. (The breaking of internal circuit, etc.)

Connecting Antenna Cable

- Connect the antenna cable to the TV using one of the methods in the illustration as shown (1), (2), (3) or (4).

Installing Batteries in the Remote Control Unit

If the remote control fails to operate TV functions, replace the batteries in the remote control unit.

1. Open the battery cover.
2. Insert two “AA” size batteries (supplied with the product).
3. Close the battery cover.

CAUTION
Improper use of batteries can result in chemical leakage or explosion. Be sure to follow the instructions below.
- Do not mix batteries of different types. Different types of batteries have different characteristics.
- Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries or cause chemical leakage in old batteries.
- Remove batteries as soon as they are worn out. Chemicals that leak from batteries that come in contact with skin can cause a rash. If you find any chemical leakage, wipe thoroughly with a cloth.
- The batteries supplied with this product may have a shorter life expectancy due to storage conditions.
- If you will not be using the remote control unit for an extended period of time, remove batteries from it.
Part Names

**TV (Front)**

- OPC sensor (See page 18.)
- Remote control sensor
- OPC indicator (See page 18.)
- POWER indicator (See page 12.)

Blue Illumination LED (See page 21.)

**TV (Rear/Side)**

1. POWER button
2. MENU button
3. INPUT button
4. Channel buttons (CH/\V)
5. Volume buttons (VOL +/-)
6. Input 1 terminals (Antenna/Cable in)
7. Input 2 terminals
8. Input 3 terminals
9. Input 4 terminal (PC IN)
10. Input 5 terminal (HDMI)
11. Input 6 terminal (HDMI)
12. Input 7 terminal (HDMI)
13. Input 8 terminal (HDMI)
14. Audio output terminals
15. Input 9 terminal
16. Input 10 terminal
17. Input 11 terminal
18. Input 12 terminal
19. Input 13 terminal
20. Input 14 terminal
21. Audio output terminal (shared for INPUT 4 and INPUT 6)
22. Audio output terminal (shared for INPUT 5 and INPUT 6)

* OPC: Optical Picture Control

**NOTE**

- The illustrations in this operation manual are for explanation purposes and may vary slightly from the actual operations.
- The examples used throughout this manual are based on the LC-C46700UN model.
Connecting to External Equipment

You can connect many types of external equipment to your TV. To view external source images, select the input source from INPUT on the remote control unit or on the TV. (See page 15.) For connecting the TV to external equipment, use commercially available cables.

**CAUTION**
- To protect equipment, always turn off the TV before connecting any external equipment.
- Please read the relevant operation manual (Blu-ray disc player, etc.) carefully before making connections.

Connecting a Blu-ray Disc Player, DVD Player, Cable/Satellite Set-top Box, VCR, Game Console or Camcorder

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

1. When using an HDMI-DVI conversion cable, you should make an analog audio connection. In this case, in addition to connecting an HDMI-DVI conversion cable to the INPUT 6 (HDMI) terminal, connect an audio cable to the AUDIO terminal and set “PC Audio Select” to “Input 6 (HDMI).” (See page 24.)
2. To enjoy 1080p display capability, connect your external equipment using an HDMI-certified cable or a component cable and set the equipment to 1080p output.
3. The COMPONENT terminals take priority over the VIDEO (INPUT 1) and S-VIDEO (INPUT 2) terminals.

Connecting an Audio Amplifier

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

- When connecting a PC to the INPUT 4, set “PC Audio Select” to “Input 4 (PC).” (See page 24.)
- Depending on the board, only video signals may be output. In this case, in addition to connecting an HDMI-certified cable to the INPUT 6 (HDMI) terminal, connect an audio cable to the AUDIO terminal and set “PC Audio Select” to “Input 6 (HDMI).” (See page 24.)
- The HDMI terminals only support digital signal.
- Refer to page 31 for a list of PC signals compatible with the TV.
Turning On/Off the Power

Press POWER on the TV or on the remote control unit to turn the power on.
- POWER indicator (Green): The TV is on. (After a few seconds, a window appears with sound.)

Note:
- The initial setup starts when the TV powers on for the first time. If the TV has been turned on before, the initial setup will not be invoked. For changing the settings of the initial setup, perform “EZ setup” on the Setup menu on page 20.

Press POWER on the TV or on the remote control unit again to turn the power off.
- The TV enters standby and the image on the screen disappears.
- The POWER indicator on the TV turns off.

Note:
- If you are not going to use this TV for a long period of time, be sure to remove the AC cord from the AC outlet.
- Weak electric power is still consumed even when the TV is turned off.

Initial Setup

When you turn on the TV for the first time, it will automatically memorize the broadcasting channels available in the region where you live. Perform the following steps before you press POWER on the remote control unit.

1. Insert the batteries into the remote control unit. (See page 9.)
2. Connect the antenna cable to the TV. (See page 9.)
3. Plug in the AC cord to the AC outlet. (See page 8.)

Note:
- ENERGY STAR qualification is based on AV MODE “STANDARD.”

Air/Cable (Antenna setting)

Make sure what kind of connection is made with your TV when selecting “Air” or “Cable.”

Press A/D to select “Air” or “Cable.”
Press ENTER to enter the setting.

CH Search (Channel search)

Channel auto search makes the TV look for all channels viewable in the set area.

When “Air” is selected in Antenna setting:
Press A/D to select “Start”, and then press ENTER.

When “Cable” is selected in Antenna setting:
Press A/D to select “Analog & Digital Search Start” to search both analog and digital broadcasts, or to select “Analog Search Start” to search only analog broadcasts, and then press ENTER.

Note:
- The Channel search will start automatically.
- To exit the Channel search screen, select “Cancel”, and then press ENTER.

Language (Language setting)

Select from among 3 languages: English, French and Spanish.

1 Press A/D to select the desired language listed on the screen, and then press ENTER.

Notes:
- For changing the settings of the initial setup, perform “EZ setup” on the Setup menu on page 20.

TV Location

Select “Home” or “Store” for the location where you plan to install the TV. This product qualifies for ENERGY STAR V3.0 in Home mode default setting.

2 Press A/D to select “Home” or “Store.”
Press ENTER to enter the setting.

Home: “Power Saving” is set to “Advanced”, and AV MODE is set to “STANDARD.”
Store: “Power Saving” is set to “Off” and AV MODE is set to “DYNAMIC Fixed.”

Picture Reset:
- Picture Reset and Feature Demo can be set.
- Picture Reset: AV MODE will be reset to “DYNAMIC Fixed” regardless of whether Picture Reset is “On” or “Off.” If you select “On,” AV MODE will be reset to “DYNAMIC Fixed” if there is no operation for 30 minutes. When “Off” is selected, AV MODE will be set to “DYNAMIC Fixed.”
- Feature Demo: When “On” is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.

Direct Button Operation

1. **POWER**
   - You can turn on the TV or put it on standby by pressing POWER on the TV or on the remote control unit. (See page 12.)

2. **Changing Channels**
   - You can change channels by pressing CH\<\>/\> or 0–9, • (DOT).
   - **Examples:**
     - To select a 1 or 2-digit channel number (e.g., Channel 6): Press 6 → ENT.
     - To select a 3-digit channel number (e.g., Channel 115): Press 1 → 1 → 5 → ENT.
     - To select a 4-digit channel number (e.g., Channel 22.1): Press 2 → 2 → • (DOT) → 1 → ENT.
   - **NOTE:**
     - When selecting a 1-digit channel number, it is not necessary to press 0 before the number.
     - When you enter 0–9 only, channel selection will be made if there is no operation within a few seconds.
     - If you push “0” by itself, nothing will happen.
     - Complete the above steps within a few seconds.
     - When you enter 0–9 and • (DOT), channel selection will be made if there is no operation within a few seconds.

3. **FAVORITE CH**
   - You can select 4 preset favorite channels in 4 different categories.
   - Press A, B, C or D.
   - **While watching the TV, you can toggle the selected channels by pressing A, B, C and D.**
   - **NOTE:**
     - See page 25 for details of favorite channel settings.

4. **Changing Volume**
   - You can change the volume by pressing VOL+/– on the TV or on the remote control unit.
   - To increase the volume, press VOL+.
   - To decrease the volume, press VOL–.

5. **Audio status**
   - **Output device**
     - Fixed
     - Variable
   - **Output Select**
     - Fixed
     - Variable
   - **Speaker**
     - Variable sound
     - Mute
   - When “Output Select” is set to “Variable”, the indicator on the screen changes as shown below.

<table>
<thead>
<tr>
<th>Output device</th>
<th>Output Select</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speaker</td>
<td>Variable sound</td>
</tr>
<tr>
<td></td>
<td>Mute</td>
</tr>
</tbody>
</table>

   - **NOTE:**
     - See page 24 for details on the Output Select function.

6. **MUTE**
   - Mutes the current sound output.
   - **Press MUTE.**
   - “10” will be displayed on the screen for 30 minutes, and the sound is silenced.
   - **NOTE:**
     - When 30 minutes of pressing MUTE, mute can be canceled by pressing VOL+/– or MUTE.
     - Mute will be canceled after 30 minutes have passed. However, the TV will not suddenly output a loud sound as the volume level is set to 0 automatically.

7. **Sleep Timer**
   - Allows you to set a time when the TV automatically switches to standby.
   - **Press SLEEP.**
   - The remaining time displays when the sleep timer has been set.
   - Each time you press SLEEP, the remaining time switches as shown below.

   | Off | 30 | 60 | 90 | 120 |

   - When set, the time automatically starts counting down.
   - If you want to adjust the sleep timer, you can press SLEEP twice then change the time setting.
   - When it is 5 minutes before the time expires, the remaining time will start to keep appearing every minute.
   - **NOTE:**
     - Select “Off” by pressing SLEEP to cancel the sleep timer.
     - The TV will enter standby when the remaining time reaches 0.
     - When the sleep timer is set, its indicator on the TV lights red.

8. **FLASHBACK**
   - **Press FLASHBACK to switch to the previously tuned channel.**
   - **Press FLASHBACK again to switch back to the currently tuned channel.**
   - **NOTE:**
     - FLASHBACK will not work if no channel has been changed after the TV is turned on.
14

Direct Button Operation

AV MODE
AV MODE gives you several viewing options to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of program watched or the type of image input from external equipment.

Press AV MODE. Current AV MODE displays.
• Press AV MODE again before the mode displayed on the screen disappears. The mode changes as shown below:

Example:
When the input source is TV, INPUT 1, 2 or 3 terminals
STANDARD MOVIE GAME USER [TV]
DYNAMIC DYNAMIC (Fixed) AUTO

Example:
When the input source is INPUT 4, 5, 6, 7 or 8 terminals
STANDARD MOVIE GAME PC USER [ ]
DYNAMIC DYNAMIC (Fixed) AUTO

STANDARD: For a highly defined image in a normal lighting.
MOVIE: For a movie.
GAME: Lower image brightness for easier viewing.
PC: For PC.
USER: Allows the user to customize settings as desired.
You can set the mode for each input source.
AUTO: Optimizes the image quality automatically based on the room brightness and image signal.
DYNAMIC (Fixed): Changes the image and sound settings to the factory preset values. No adjustments are allowed.
DYNAMIC: For a clear-cut image emphasizing high contrast, useful for sports viewing.

Examples: when receiving MTS and SAP
STEREO mode:
STEREO MONO
STEREO + SAP mode:
STEREO (Audio1) STEREO (Audio2) SURROUND (Audio3)
MAIN + SAP mode:
STEREO + SAP mode: ST(SAP) SAP(ST) MONO
MONO mode: ST(SAP) SAP(ST) MONO

STEREO mode:
STEREO + SAP mode:
STEREO (Audio1) STEREO (Audio2) SURROUND (Audio3)
MAIN + SAP mode: ST(SAP) SAP(ST) MONO
MONO mode: ST(SAP) SAP(ST) MONO

Stereo broadcasts: View programs like live sporting events, shows and concerts in dynamic stereo sound.
SAP broadcasts: Receive TV broadcasts in either MAIN or SAP sound. MAIN sound: The normal program soundtrack (either in mono or stereo). SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound.)
If stereo sound is difficult to hear.
• Obtain a clearer sound by manually switching to fixed mono-sound mode.

You can change MTS as shown below to match the television broadcast signal.
Press AUDIO to toggle between audio modes.
Examples: when receiving MTS and SAP
STEREO mode:
STEREO MONO
STEREO + SAP mode:
STEREO (Audio1) STEREO (Audio2) SURROUND (Audio3)
MAIN + SAP mode: ST(SAP) SAP(ST) MONO
MONO mode: ST(SAP) SAP(ST) MONO

FREEZE
Allows you to capture and freeze a moving image that you are watching.
Press FREEZE.
• A moving image is captured.
• Press FREEZE again to cancel the function.

NOTE
• This only operates while in TV mode.

FREEZE
Press FREEZE to capture and freeze a moving image that you are watching.

NOTE
• When this function is not available, ”No displaying still image available.” will display.
• The still image automatically goes out after 30 minutes.
• If you are using the freeze function and a broadcast activates the V CHIP BLOCK, the freeze function will be canceled and a V-CHIP BLOCK message will appear.
Direct Button Operation

**1) INPUT**
To view external source images, select the input source using **INPUT** on the remote control unit or on the TV.

1. Press **INPUT**.
   - A list of selectable sources appears.
2. Press **INPUT** again or press ▲▼ to select the input source.
   - An image from the selected source automatically displays.
   - Each time **INPUT** is pressed, the input source toggles.
   - If the corresponding input is not plugged in, you cannot change the input. Be sure to connect the equipment beforehand.
   
   **NOTE**
   - See page 11 for external equipment connection.
   - Press **PC** to switch to an image from the PC.

**2) DISPLAY**
Displays channel information being viewed. Press **DISPLAY**.

**3) Closed Captions and Digital Closed Captions**
Your TV is equipped with an internal Closed Caption decoder. It allows you to view conversations, narration and sound effects as subtitles on your TV. Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider.

Digital Closed Caption service is a new caption service available only on digital TV programs (also at the discretion of the program provider). It allows you to view conversations, narration and sound effects as subtitles on your TV.

Closed Captions are available on some TV programs and on some VHS home video tapes at the discretion of the program provider. Each time the Closed Caption service is used, it is indicated by the appearance of a 3-letter abbreviation that also indicates the language of the captions. Please look for the "CC" button on your remote control unit.

Examples:
- ENG (English), SPA (Spanish), FRA (French) or other language codes.
- Digital Closed Caption service: ENG (English), SPA (Spanish), FRA (French) or other language codes.

All programs and VHS videotapes offer closed captions at the discretion of the program provider. Not all programs and VHS videotapes offer closed captions.

Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.

Press **CC**.
- This will present the Closed Caption information display.
2. Press **CC** while the Closed Caption information is still on the screen.
- Press repeatedly until you select the desired closed caption service.

Examples:
- In a case where there are two closed caption services provided (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses.
- A closed caption service appears in parentheses because the service you selected is not available and a different service is displayed on your screen. A closed caption service appears in parentheses at the discretion of the program provider.
- Depending on the number of caption services in the signal being received, you will see information such as 1/2 or 1/4 displayed. 1/2 means "the first of two services".
- Digital Closed Caption service is in use, it will be indicated by the appearance of a 3-letter abbreviation that also indicates the language of the captions. Please look for the "CC" button on your remote control unit.

Examples:
- In a case where there are two closed caption services provided (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses.
- A closed caption service appears in parentheses at the discretion of the program provider.

NOTE
- When "Power Saving" is set to "Standard" or "Advanced", the Power Saving leaf icon appears on the channel information window. See page 19 for details of Power Saving settings.
- See page 24 for detailed closed caption settings.
- When the program contains no closed caption, "--" displays in the closed caption information.
- If the language code, e.g. "ENG", is not found on Digital TV programs, "--" will be shown.
- Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.
Direct Button Operation

**VIEW MODE**

You can select the screen size.

1. Press VIEW MODE.
   - The View Mode menu displays.
   - The menu lists the View Mode options selectable for the type of video signal currently being received.
   - You can sequentially select a View Mode that has its own aspect ratio.

2. Press VIEW MODE or ▲▼ while the View Mode menu is displayed to select a desired item on the menu.

### For 4:3 programs

Example: Screen size images

<table>
<thead>
<tr>
<th>Side Bar</th>
<th>S.Stretch (Smart stretch)</th>
<th>Zoom</th>
<th>Stretch</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Suitable for viewing conventional 4:3 programs in their normal format.</td>
<td>Suitable for stretching 4:3 programs to fill the screen.</td>
<td>Suitable for viewing wide-screen 2.35:1 anamorphic DVDs in full screen.</td>
</tr>
</tbody>
</table>

- **Side Bar:** Suitable for viewing conventional 4:3 programs in their normal format.
- **S.Stretch (Smart stretch):** Suitable for stretching 4:3 programs to fill the screen.
- **Zoom:** Suitable for viewing wide-screen 2.35:1 anamorphic DVDs in full screen.
- **Stretch:** This mode is useful for 1.78:1 DVDs. When viewing 1.85:1 DVDs, stretch mode will show very thin black bands at the top and bottom of the screen.

### For HD programs

<table>
<thead>
<tr>
<th>Stretch</th>
<th>Dot by Dot (1080i/p only):</th>
<th>Full Screen (720p only):</th>
<th>S.Stretch (Smart stretch):</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stretch:</td>
<td>Suitable for viewing wide-screen 1.78:1 aspect ratio program, stretch mode will still show very thin black bands at the top and bottom of the screen.</td>
<td>Detects the resolution of the signal and displays an image with the same number of pixels on the screen.</td>
<td>Suitable for stretching 4:3 programs to fill the screen.</td>
</tr>
<tr>
<td>Dot by Dot:</td>
<td>When receiving a 720p signal.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Full Screen:</td>
<td>You can select &quot;Full Screen&quot; only when receiving a 720p signal.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Zoom:</td>
<td>Suitable for viewing wide-screen 2.35:1 aspect-ratio programs in full screen.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### For PC input mode

- Connect the PC before making adjustments. (See page 11.)
- Selectable screen size may vary with input signal type.

Example: Screen size images

<table>
<thead>
<tr>
<th>Input signal</th>
<th>Normal</th>
<th>Zoom</th>
<th>Stretch</th>
<th>Dot by Dot</th>
</tr>
</thead>
<tbody>
<tr>
<td>4:3</td>
<td>Keeps the original aspect ratio in a full screen display.</td>
<td>For viewing widescreen programs. The top and bottom of the image is cropped.</td>
<td>An image fully fills the screen.</td>
<td>Indicates the resolution of the signal and displays an image with the same number of pixels on the screen.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Input signal</th>
<th>Stretch</th>
<th>Dot by Dot</th>
</tr>
</thead>
<tbody>
<tr>
<td>16:9</td>
<td>An image fully fills the screen.</td>
<td>Indicates the resolution of the signal and displays an image with the same number of pixels on the screen.</td>
</tr>
</tbody>
</table>

- **Input signal 4:3:** Keeps the original aspect ratio in a full screen display.
- **Normal:** For viewing widescreen programs. The top and bottom of the image is cropped.
- **Zoom:** An image fully fills the screen.
- **Stretch:** Indicates the resolution of the signal and displays an image with the same number of pixels on the screen.
- **Dot by Dot:** Indicates the resolution of the signal and displays an image with the same number of pixels on the screen.
On-Screen Display Menu

On-Screen Display Menu Operation

Example

LCFONT embedded

1. Press MENU to display the MENU screen.
2. Press ▼ to select the desired menu, and then press ENTER.
3. Press ▼ for ▼ to select or adjust the desired setting, and then press ENTER.
4. Press MENU to exit.

Notes:
- Menu options differ in the selected input modes, but the operating procedures are the same.
- The screens in the operation manual are for explanation purposes (some are enlarged, others cropped) and may vary slightly from the actual screens.

LCFONT:
- This product is embedded with LC Font technology, which was developed by SHARP Corporation for clearly displaying easy-to-read characters on LCD screens.

Menu Operation Buttons

Using the remote control
Use the following buttons on the remote control to operate the menu.

MENU: Press to open or close the menu screen.
▲▼◄►: Press to select a desired item on the screen or adjust a selected item.
ENTER: Press to go to the next step or complete the setting.
RETURN: Press to return to the previous step.

Using the control panel of the main unit
You can also operate the menu with the control panel of the main unit. Button operations on the control panel correspond to the ones on the remote control as shown below.

MENU: MENU on the remote control.
INPUT: ENTER on the remote control.
CH▲▼: Cursor ▲▼ on the remote control.
VOL ±: Cursor ± on the remote control.
On-Screen Display Menu

Picture Menu
Adjusts the picture to your preference with the following picture settings.

<table>
<thead>
<tr>
<th>Selected Item</th>
<th>button</th>
<th>button</th>
</tr>
</thead>
<tbody>
<tr>
<td>Backlight</td>
<td>◀▶</td>
<td>◀▶</td>
</tr>
<tr>
<td>Brightness</td>
<td>◀▶</td>
<td>◀▶</td>
</tr>
<tr>
<td>Contrast</td>
<td>◀▶</td>
<td>◀▶</td>
</tr>
<tr>
<td>Color</td>
<td>◀▶</td>
<td>◀▶</td>

<tr>
<td>Tint</td>
<td>◀▶</td>
<td>◀▶</td>
</tr>
<tr>
<td>Sharpness</td>
<td>◀▶</td>
<td>◀▶</td>
</tr>
</tbody>
</table>

* For resetting all Picture adjustment items to the factory preset values, press ▶◀ to select “Reset”, press ENTER, press ▶▶ to select “Yes”, and then press ENTER.

OPC Setting
Automatically adjusts the brightness of the screen.

Off: Displays the OPC effect on the screen while adjusting the brightness of the screen.

On: Automatically adjusts.

* When set to “On”, the Optical Picture Control (OPC) senses the surrounding light and automatically adjusts the backlight brightness. Make sure nothing obstructs the OPC sensor, which could affect its ability to sense surrounding light.

* When set to “On: Display”, the OPC indicator on the TV lights green.

C.M.S. (Color Management System)
Color tone is managed using the six-color adjustment settings.

C.M.S.-Hue: This is a standard to adjust the color either more reddish or more bluish in tone.

C.M.S.-Saturation: Increases or decreases the saturation of a selected color.

C.M.S.-Value: A higher value makes the image brighter. A lower value makes the image darker.

* For resetting all adjustment items to the factory preset values, press ▶◀ to select “Reset”, and then press ENTER.

Color Temp. (Color Temperature)
For a better white balance, use color temperature correction.

<table>
<thead>
<tr>
<th>High</th>
<th>White with bluish tone</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mid-High</td>
<td></td>
</tr>
<tr>
<td>Middle</td>
<td></td>
</tr>
<tr>
<td>Mid-Low</td>
<td></td>
</tr>
<tr>
<td>Low</td>
<td>White with reddish tone</td>
</tr>
</tbody>
</table>

White balance can be adjusted between a maximum of +30 and a minimum of –30 for each color temperature.

R Gain (LO/HI): –30 through +30
G Gain (LO/HI): –30 through +30
B Gain (LO/HI): –30 through +30

* For resetting all adjustment items to the factory preset values, press ▶◀ to select “Reset”, and then press ENTER.

Fine Motion Enhanced
Use Fine Motion Enhanced to view fast-action video more clearly.

On: For obtaining a clearer image.

Off: Normal image.

Active Contrast
Automatically adjusts the image contrast according to the scene.

On: Automatically adjusts the image contrast.

Off: No adjustment.

Gamma Adjustment
Adjusts the differences of picture tones between bright parts and dark parts. The adjustment range of the gamma can be set to a maximum of +2 and a minimum of –2 by pressing ▶▶.

Black Level
Adjusts on-screen black level to your preferred level.

High: The black level gets brighter.

Low: The black level gets darker.

* Black Level is available for input signal from Composite Video, S-Video, Component 480i and analog broadcasts (air and cable).

Film Mode (3:2 pull-down)
Automatically detects a film-based source (originally encoded at 24 frames/second), analyzes it then recreates each still film frame for high-definition picture quality.

Advanced(High)/Advanced(Low): Select a desired level to remove jankiness from film contents.

Standard: Detects, analyzes, converts film source.

Off: Normal viewing mode.

* “Film Mode” does not function when you set AV MODE to “GAME”.

* “Standard” does not function when channel display shows an input signal resolution of 480p, 720p or 1080p.

* “Film MODE” is not available during PC format input.
On-Screen Display Menu

Digital Noise Reduction
Produces a clearer video image.

Auto: Automatically adjusts the level of noise reduction.
High/Middle/Low: Select a desired level for viewing a clearer video image.
Off: No adjustment.

NOTE • Digital Noise Reduction is not available during PC format input.

3D-Y/C
Provides high quality images with minimal dot crawl and cross color noise.

Slow: For still images.
Standard: Normal adjustment.
Fast: For moving images.

NOTE • "3D-Y/C" is available for input signal from Composite Video and analog broadcasts (air and cable).

Monochrome
For viewing a video in monochrome.

On: For viewing in monochrome.
Off: Normal color.

Range of OPC
The brightness level range of the OPC sensor’s automatic adjustments can be set according to your preferences.
The adjustment range of the OPC sensor can be set to a maximum of +16 and a minimum of –16.

Max.: +16 through +15
Min.: –16 through +15

NOTE • The "Range of OPC" settings are active only when "OPC" is set to "On".
• The maximum setting cannot be set to a smaller number than the minimum setting.
• The minimum setting cannot be set to a bigger number than the maximum setting.
• Depending on the brightness of the surrounding light, the OPC sensor might not operate if the adjustment range is small.

Audio Menu
You can adjust the sound quality to your preference with the following settings.

<table>
<thead>
<tr>
<th>Selected item</th>
<th>&lt;button&gt;</th>
<th>►button</th>
</tr>
</thead>
<tbody>
<tr>
<td>Treble</td>
<td>For weaker treble</td>
<td>For stronger treble</td>
</tr>
<tr>
<td>Bass</td>
<td>For weaker bass</td>
<td>For stronger bass</td>
</tr>
<tr>
<td>Balance</td>
<td>Decrease audio from the right speaker</td>
<td>Decrease audio from the left speaker</td>
</tr>
</tbody>
</table>

NOTE • Audio menu is grayed out when "Output Select" is set to "Variable". (See page 24.)
• For resetting all Audio adjustment items to the factory preset values, press◄► to select "Reset", press ENTER, press◄► to select "Yes", and then press ENTER.

NOTE • Surround function produces Surround effect from the speakers.
• On: Makes it possible to enjoy natural, realistic surround sound.
• Off: Outputs the normal sound.

NOTE • Audio menu is grayed out when "Output Select" is set to "Variable". (See page 24.)
• For some discs, setup may be required on your DVD player.
• In this case, please refer to the operation manual of your DVD player.

Bass Enhancer
This function allows you to enjoy bass-enhanced sound.

On: Bass Enhancer function is on.
Off: Normal sound.

NOTE • Audio menu is grayed out when "Output Select" is set to "Variable". (See page 24.)

Power Control Menu
Power control setting allows you to save energy.

Power Saving
This function allows you to set the Power Saving level in order to decrease the power consumption and increase the backlight lifespan.

Standard: Optimizes power reduction based upon video content. When set to "Standard", "·" appears on the screen.
Advanced: Optimizes power reduction based upon video content and engages OPC. When set to "Advanced", "··" appears on the screen.
Off: This function does not work.

NOTE • "Power Saving" does not function when you set AV MODE to "AUTO" or "DYNAMIC (Fixed)".
• You cannot select a different Power Saving item for each AV MODE.
• When "Power Saving" is set, the "OPC" settings for all AV Modes will automatically change.
--If you set "OPC" is "On" when "Power Saving" is set to "Standard", then the "Power Saving" setting will change to "Advanced".
--When you change the "Power Saving" setting from "Advanced" to "Off" or to "Standard", "OPC" will be set to "Off".
--"AUTO" and "DYNAMIC (Fixed)" will remain set to "Off".
• When "Power Saving" is set to "Standard" or "Advanced", the Power Saving half icon appears to the left of "OPC" in the Picture menu screen.

No Signal Off
When set to "Enable", the power will automatically shut down if there is no signal for 15 minutes.

NOTE • When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.
• "Disable" is the factory preset value.
• When a TV program finishes, this function may not operate.
On-Screen Display Menu

No Operation Off
When set to "Enable", the power will automatically shut down if there is no operation for 3 hours.

When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.
• "Disable" is the factory preset value.

Setup Menu

EZ Setup
You can run EZ Setup again, even after setting up the preset channels.
Language: Select from among 3 languages (English, French, and Spanish).
TV Location: Select "Home" or "Store" for the location where you plan to install the TV. This product qualifies for ENERGY STAR V3.0 in Home mode default setting.
Home: "Power Saving" is set to "Advanced", and AV MODE is set to "STANDARD".
Store: "Power Saving" is set to "Off" and AV MODE is set to "DYNAMIC (Fixed)".
Picture Reset: AV MODE will be set to "Dynamic (Fixed)" regardless of whether Picture Reset is "On" or "Off". If you select "On", AV MODE will be reset to "Dynamic (Fixed)" if there is no operation for 30 minutes. When "Off" is selected, AV MODE will be set to "Dynamic (Fixed)".
Feature Demo: When "On" is selected, after all the settings are completed, the Feature Demo screen is displayed if there is no operation for several minutes.
• ENERGY STAR qualification is based on AV MODE "STANDARD".

Antenna Setup-DIGITAL
In order to receive digital air broadcasts, you need a digital broadcast antenna. You can confirm the antenna configuration through the "Antenna Setup-DIGITAL" screen. If necessary, adjust the direction of the antenna to obtain the maximum signal strength.
Signal Strength: The signal strength of DIGITAL channel is displayed. The signal information is based on the current channel.
Channel Strength: Input the 2-digit channel number to check the signal strength of the selected channel. Make sure the signal is strong enough for each channel.
• This function is available for DIGITAL (Air) only.

Input Skip
This setting allows you to skip the HDMI or PC-IN Input ("Input 4 (HDMI)", "Input 5 (HDMI)", "Input 6 (HDMI)" and "Input 8 (HDMI)") on the Input Selection operation.
Yes: Skips this input.
No: Does not skip input.

Input Label
Lets you set the input terminal displayed when using the INPUT SOURCE menu or channel display. Press ▲ / ▼ / ◄ / ► to select the new name for the input mode.
• You cannot change labels if the INPUT SOURCE is TV.
On-Screen Display Menu

Auto Sync. (for Analog PC Input Mode Only)
For automatically adjusting the PC image.
Yes: Auto Sync. starts and "Now adjusting the image." displays.
No: This function does not work.

**NOTE**
- When "Auto Sync." is successful, "Completed" displays. If not, "Auto Sync." failed.
- "Auto Sync." may fail even if "Completed" displays.
- "Auto Sync." may fail if the computer image has low resolution, has unclear (black) edges, or is moved while executing "Auto Sync.".
- Be sure to connect the PC to the TV and switch it on before starting "Auto Sync.".

Fine Sync.
Ordinarily you can easily adjust the picture as necessary to change image position using "Auto Sync.".
In some cases, however, manual adjustment is needed to optimize the image.
- **H-Pos.**:
  Centers the image by moving it to the left or right.
- **V-Pos.**:
  Centers the image by moving it up or down.
- **Clock**:
  Adjust when the image flickers with vertical stripes.
- **Phase**:
  Adjust when characters have low contrast or when the image flickers.

For resetting all "Fine Sync." adjustment items to the factory preset values, press \( a / b \) to select "Reset", and then press ENTER.

It is not necessary to adjust the "Clock" or "Phase" when a digital signal is being input, so it cannot be selected.
The default cursor position may not be in the center, because the screen position variable ranges may be asymmetrical.
The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.

Position
For adjusting a picture’s horizontal and vertical position.
- **H-Pos.**:
  Centers the image by moving it to the left or right.
- **V-Pos.**:
  Centers the image by moving it up or down.

For resetting adjustments to the factory preset values, press \( a / b \) to select "Reset", and then press ENTER.
When connecting a PC to the HDMI terminal, the image position will be automatically adjusted. It cannot be manually adjusted.
The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.
Adjustments are stored separately according to input source.

Blue Illumination
When this function is set to "On", the LED on the front of the TV turns on.

**NOTE**
- "On" is the factory preset value. If you want to turn off the LED, set the function to "Off".

Reset
If complex adjustments are made and the settings cannot be restored to normal, you can reset the settings to the factory preset values.
1. "Return to the factory preset values" displays on the screen.
   - If you have already set the Secret No., input the 4-digit secret number here.
2. Select "Yes".
   - Now, TV will restart automatically. "OK?" displays on the screen.
3. Select "Yes".
   - "Now initializing..." displays on the screen and blinks.
   - After the reset has been completed, the power shuts off and then comes back on. The screen will have returned to its original settings.

**NOTE**
- The Channel Setup settings will not be changed.
- The Language settings will not be changed.
- The Secret number settings will not be changed.
- The TV Location settings will not be changed.

Parental CTRL (Parental Control Setting)

Secret No.
Allows you to use a secret number to protect certain settings from being accidentally changed.

**IMPORTANT:**
Three conditions must be met to enable the V-Chip (see pages 22 to 23):
1. Secret No. is registered.
2. V-Chip/V-Chip (DTV Only) settings have been made.
   - The "V-Chip (DTV Only)" will only be selectable when a new rating system can be downloaded via digital broadcasting in the U.S.
3. "Status" is set to "On".

- **New Secret No.**
  You can set and change the secret number by using 0-9.
  When you change the secret number, enter the old 4-digit secret number here. The cursor moves to "New Secret No."
  When connecting a PC to the HDMI terminal, the image position will be automatically adjusted. It cannot be manually adjusted.
The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.
Adjustments are stored separately according to input source.

- **Secret No. Clear**
  You can clear your secret number.
  Yes: Your secret number is cleared.
  No: Your secret number is not cleared.

**NOTE**
- As a precautionary measure, make a note of your secret number and keep it in a familiar place.
- If the secret number is cleared, the Status setting automatically sets to "Off". "V-Chip" and "Status" will not be selectable from the menu.
On-Screen Display Menu

Status
Used to enable or disable the parental control function. This function will not be selectable from the menu if you do not first configure your secret number.
- **On**: Enables Parental CTRL.
- **Off**: Disables Parental CTRL.

V-Chip
V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. “V-Chip” and “Status” will not be selectable from the menu if you do not first configure your secret number.
- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.
- The setting automatically enters “Block” for any ratings below your selection.
- If Status is not set to “On”, the configuration settings will not work.

■ MPAA (Voluntary movie rating system)

<table>
<thead>

When setting an individual content-based rating item:
1. Press ▲ or ENTER to access blocked content items from the currently selected age-based rating item.
2. Press ▲,▼ to select an individual item, and then press ENTER to unblock it (● is removed). Repeat the same steps for the other items.
3. Press ▲ or RETURN to register after all individual content rating items are set.

Rating | Content
--- | ---
FV | G X X X X
V | G X X X X
S | G X X X X
L | X X X X
D | X X X X

♦ : The content rating can be set, but this rating is not normally broadcast by TV stations.
♦ : Content rating can be set.
On-Screen Display Menu

Canadian Rating Systems (Canadian English ratings and Canadian French ratings)

- The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
- While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
- When setting the V-CHIP on the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.

### Canadian English Ratings

Press ▲▼ to adjust the item to your desired position. ■ indicates the item is blocked. Press MENU to exit.

- **E:** Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.
- **C:** Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.
- **C8+:** Children over 8 years old: Contains no portrayal of violence as the preferred, acceptable, or only way to resolve conflict; nor encourage children to imitate dangerous acts which they may see on the screen.
- **G:** General: Considered acceptable for all age groups. Appropriate viewing for the entire family, contains very little violence, physical, verbal or emotional.
- **PG:** Parental Guidance: Intended for a general audience, but may not be suitable for younger children (under the age of 8) because it could contain controversial themes or issues.
- **14+:** Over 14 years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.
- **18+:** Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.

### Canadian French Ratings

Press ▲▼ to adjust the item to your desired position. ■ indicates the item is blocked. Press MENU to exit.

- **E:** Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.
- **G:** General: All ages and children, contains minimal direct violence, but may be integrated into the plot in a humorous or unrealistic manner.
- **8ans+:** General but inadvisable for young children: May be viewed by a wide public audience, but could contain scenes disturbing to children under 8 who cannot distinguish between imaginary and real situations. Recommended for viewing with parent.
- **13ans+:** Over 13 years: Could contain scenes of frequent violent scenes and therefore recommended for viewing with parent.
- **16ans+:** Over 16 years: Could contain frequent violent scenes and intense violence.
- **18ans+:** Over 18 years: Only for adult viewing. Could contain frequent violent scenes and extreme violence.

#### How to temporarily release the V-CHIP BLOCK

When the V-CHIP BLOCK is working and censors a broadcast, "V-CHIP HAS BEEN ACTIVATED." displays. You can temporarily release the BLOCK as shown below.

1. Press ENTER while the V-CHIP is working, and then the secret number setting menu displays.
2. Input the 4-digit secret number by using 0–9. At this time V-CHIP BLOCK temporarily releases.

#### Reactivating the temporarily released V-CHIP BLOCK

You can reactivate the temporarily released V-CHIP BLOCK as shown below.

- Select "Status" setting from the Parental CTRL menu to reactivate BLOCK. (See page 22.)
- Select "V-Chip" setting ("MPAA", "TV Guidelines", "Can. English Ratings" or "Can. French Ratings") from the Parental CTRL to reactivate BLOCK. (See pages 22 to 23.)
- Switch off the TV power.

**NOTE**
- Performing any of the three above will activate the V-CHIP BLOCK.
On-Screen Display Menu

Option Menu

Audio Only
When listening to music from a music program, you can turn the screen off and enjoy audio only.
- **On**: Audio is output without screen image.
- **Off**: Both screen images and audio are output.

**Input Select**
If the image does not come in clearly from the external equipment connected to INPUT 1 or INPUT 2, you may need to change the input signal type setting from the list below.

- **INPUT 1**: Auto/COMPONENT/VIDEO
- **INPUT 2**: Auto/COMPONENT/S-TERMINAL

HDMI Setup
To watch an HDMI or PC-IN equipment image, select "INPUT 5", "INPUT 6", "INPUT 7" or "INPUT 8" from INPUT SOURCE menu using INPUT on the remote control unit or on the TV.

Auto View:
- **Enable**: To use View Mode based on signal recognition, including an HDMI signal.
- **Disable**: No function.

Output Select
Allows you to select what controls the audio output.
- **Fixed**: Sound via speaker is adjusted with VOL \( \uparrow / \downarrow \) on the remote control unit or VOL \( \uparrow / \downarrow \) on the TV. Sound via the AUDIO OUTPUT terminal is not adjustable and outputs at a consistent level.
- **Variable**: Sound via the AUDIO OUTPUT terminal is adjusted with VOL \( \uparrow / \downarrow \) on the remote control unit or VOL \( \uparrow / \downarrow \) on the TV. Sound via speaker is muted.

Color System
Select the video signal system compatible with your equipment from the list below:
- Auto/NTSC/PAL-M/PAL-N

Caption Setup
This function allows you to adjust the closed caption screen appearance to suit your preference. You can adjust 7 items: "Caption Size", "Font Style", "Foreground Color", "Foreground Opacity", "Background Color", "Background Opacity" and "Character Edge".

Example:
- **Selectable items available for "Font Style"**:
  - **Default**: The font specified by broadcasting station or default font.
  - **Type 0**: Proportional font used in the MENU screen.
  - **Type 1**: Monospaced with serifs.
  - **Type 2**: Proportionally spaced with serifs.
  - **Type 3**: Monospaced without serifs.
  - **Type 4**: Proportionally spaced without serifs.
  - **Type 5**: Casual font type.
  - **Type 6**: Curieve font type.
  - **Type 7**: Small capitals.

- **Caption Setup**
This function allows you to adjust the closed caption screen appearance to suit your preference. You can adjust 7 items: "Caption Size", "Font Style", "Foreground Color", "Foreground Opacity", "Background Color", "Background Opacity" and "Character Edge".

  - **Type 5**: Casual font type.
  - **Type 6**: Curieve font type.
  - **Type 7**: Small capitals.
On-Screen Display Menu

Digital Caption Info.
(Digital Caption information)
This function allows viewing of digital closed caption information for the digital broadcast program being viewed.

- This list is not displayed for analog broadcasts or external input audio/video.
- This information is not included in CC1, CC2, Text1, or Text2, and is not displayed in a list.

Program Title Display
Select the CH display when changing channels for digital broadcasting.
Yes: “Program Info.” displays.
No: “Program Info.” does not display.

Favorite CH
(Favorite Channel Setting)
This function allows you to program your favorite channels, in 4 different categories. By setting the favorite channels in advance, you can select your favorite channels easily.

To register your favorite channel:
Select “Register” and then press ENTER. Press ▲ / ▼ / ◀ / ▶ to select the position in the category, and then press ENTER to register.

To delete your favorite channel:
Select “1 Data Clear” and then press ENTER. Then select “Yes” and then press ENTER. The selected channel is deleted.

Note:
Before setting the channel, select the channel you want to register as a favorite channel.

Game Play Time
This function displays the elapsed game time so you do not lose track of the time. To display the elapsed time, select “GAME” for the AV MODE before starting the game.

On: The elapsed time is displayed every 30 minutes when you switch to GAME mode in external input mode.
Off: No adjustment.

Operation Lock Out
This function locks the operation buttons on the TV and the remote control.

ON: No adjustment.
RC Control Lock: All buttons on the remote control are locked.
Power Control Lock: All buttons on the TV, except POWER, are locked.

Note:
To unlock the buttons on the remote control by using the control panel of the main unit (see page 17):
(1) Press MENU to display the MENU screen, and then press VOL. +/- to select “Option”.
(2) Press CH+/ - to select “Operation Lock Out”, and then press INPUT.
(3) Press CH+/ - to select “Off”, and then press INPUT.
(4) Press MENU to exit.

To unlock the buttons on the TV, press MENU on the remote control, and then select “Off” in “Operation Lock Out”.

Channel Selecting Effect
You can select whether to use transition effects when changing channels.
Yes: A transition effect is used when the channel is changed.
No: No function.

Demo Mode
You can select the image from several types of demo mode.
120Hz Demo/LED Demo/Feature Demo/Auto Play
If you select “Auto Play”, you need to set playback type.
Continuous: Play Demos continuously.
10 min.: Play Demos every 10 minutes.
20 min.: Play Demos every 20 minutes.

Note:
This function will be canceled when you press EXIT on the remote control unit.
- When “Demo Mode” is set to “Feature Demo”, pressing FREEZE pauses/resumes demo.
- “Demo Mode” may not be selected depending on input signal type.
- “Demo Mode” may be automatically canceled depending on input signal type.

Digital Setup
Audio Setup
You can output digital audio to an AV amplifier or similar device whose DIGITAL AUDIO INPUT terminal is connected to the DIGITAL AUDIO OUTPUT terminal on the TV. Please select an audio output format compatible with the audio format of the program you are watching and the equipment connected.
PDM: The optical output terminal outputs audio signal in PDM form. If your digital audio system does not support Dolby Digital, select “PDM”.
Dolby Digital: The optical output terminal outputs audio signal in Dolby Digital form. It reproduces sound from surround program of digital.

Identification
The current version of the TV software is displayed.

Software Update
This function allows software updates by inserting a USB memory device into the SERVICE terminal on the TV.
To check for the availability of a software update, visit www.sharpusa.com. If you have any questions, please call 1-800-BE-SHARP (800-237-4277).

Note:
- Do not remove the USB memory device or unplug the AC cord while the software is being updated.
- Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.
On-Screen Display Menu

1. Insert the USB memory device with the update file into the SERVICE terminal on the TV.

2. Press MENU to display the MENU screen, and then press ▲▼ to select “Digital Setup.”

3. Press ▶ to select “Software Update,” and then press ENTER.

   - If you have already set the Secret No., go to step 4.

4. Input the 4-digit secret number by using 0-9.

5. Press ENTER to start checking the data in the USB memory device.

   ![Insert USB memory device containing the software update file.]

6. During the data checking, “Checking” blinks.

   - The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select “Yes,” and then press ENTER.

   ![Example: Software update file is detected in the USB memory device. Start update?
   Current Version: UXXXXXX1
   Update Version: UXXXXXX2]

   - If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed.

   - Check the file on the USB memory device, and then insert the USB memory device correctly.

   ![Example: Software update file is not detected in the USB memory device. Confirm that you have transferred the file to the USB memory device and retry software update.]

7. Press ENTER to start updating.

   - The screen becomes dark for a while until the update screen can be displayed. Do not unplug the AC cord.

   ![Example: Now updating
   Do not unplug AC cord.
   Update Version UXXXXXX2]

   - If there is more than one software file in the US memory device, Confirm that only the software update file is in the USB memory device.

   ![Example: There is more than one software file in the USB memory device. Confirm that only the software update file is in the USB memory device.]

   - Do not remove the USB memory device or unplug the AC cord while the software is being updated.

8. When the software is successfully updated, a screen is displayed indicating that the update process is completed.

   After this screen is displayed, the TV automatically turns off and then turns on again.

   ![Example: Software update is complete.
   Update Version UXXXXXX2]

   - If the update has failed, check the file in the USB memory device and try Software Update again.

   ![Example: Failed to complete update. Retry Software Update.]

9. After the screen shown below is displayed, press ENTER.

   ![Example: System software was successfully updated. Remove the USB memory device.]

Appendix

Cautions regarding use in high and low temperature environments

- When the unit is used in a low temperature space (e.g., room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
- Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the Liquid Crystal panel to malfunction.

Storage temperature: \(-4°F \) to \(140°F \) (\(-20°C \) to \(60°C \))

Appendix

RS-232C Port Specifications

PC control of the TV
- Attach an RS-232C cable cross-type (commercially available) to the supplied Din/D-Sub RS-232C for the connections.

NOTE
- This operation system should be used by a person who is accustomed to using computers.

Communication conditions
Set the RS-232C communication settings on the PC to match the TV’s communication conditions. The TV’s communication settings are as follows:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Baud rate:</td>
<td>9600 bps</td>
</tr>
<tr>
<td>Data length:</td>
<td>8 bits</td>
</tr>
<tr>
<td>Parity bit:</td>
<td>None</td>
</tr>
<tr>
<td>Flow control:</td>
<td>None</td>
</tr>
</tbody>
</table>

Communication procedure
Send the control commands from the PC via the RS-232C connector.

The TV operates according to the received command and sends a response message to the PC.

Do not send multiple commands at the same time. Wait until the PC receives the OK response before sending the next command.

Command table
- Commands not indicated here are not guaranteed to operate.

Communication procedure
Send the control commands from the PC via the RS-232C connector.

The TV operates according to the received command and sends a response message to the PC.

Do not send multiple commands at the same time. Wait until the PC receives the OK response before sending the next command.

Information on the Software License for This Product

- **Software composition**
  The software included in this product is comprised of various software components whose individual copyrights are held by SHARP or by third parties.

- **Software developed by SHARP and open source software**
  The copyrights for the software components and various relevant documents included with this product that were developed or written by SHARP are owned by SHARP and are protected by the Copyright Act, international treaties, and other relevant laws. This product also makes use of freely distributed software and software components whose copyrights are held by third parties. These include software components covered by a GNU General Public License (hereafter GPL), a GNU Lesser General Public License (hereafter LGPL) or other license agreement.

- **Obtaining source code**
  Some of the open source software licensors require the distributor to provide the source code with the executable software components. GPL and LGPL include similar requirements. For information on obtaining the source code for the open source software and for obtaining the GPL, LGPL, and other license agreement information, visit the following website:
  http://www.sharpusa.com/gpl

  We are unable to answer any questions about the source code for the open source software. The source code for the software components whose copyrights are held by SHARP is not distributed.

- **Acknowledgements**
  The following open source software components are included in this product:
  - linux kernel/busybox/uClibc/zlib/libpng/libjpeg

CLEARING THE SECRET NUMBER

1. Select an item from the list below to display the secret number input screen. (For operating the on-screen display menu, see page 17.)

   - "EZ Setup", "CH Setup", "Parental CTRL" or "Reset" on the Setup menu.
   - "Color System" on the Option menu.
   - "Software Update" on the Digital Setup menu.

2. Press and hold both CH- and VOL+ on the TV simultaneously until the message appears on the screen.

The secret number is __________.

NOTE

- As a precautionary measure, make a note of your secret number above, cut it from this manual, and keep it in a safe place.
Calling for Service

For location of the nearest Sharp Authorized Service, or to obtain product literature, accessories, supplies, or customer assistance, please call 1-800-BE-SHARP.

LIMITED WARRANTY

CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand Liquid Crystal Display product (the "Product"), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or re-manufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product or if the serial number or model number affixed to the Product has been removed, defaced, changed, altered or tampered with. This warranty shall not apply to any defect, damage or malfunction resulting from any causes whatsoever beyond the control of SHARP ELECTRONICS CORPORATION, including without limitation, any act or omission of the purchaser or user whether willful or negligent, or other third parties, changes to the Product not authorized by purchasing or improper installation, repair or modification of the Product, or from any accidents, misuse, neglect, abnormal working conditions or conditions of storage. This warranty does not cover installation or signal reception problems.

This limited warranty will not apply if the Product has been or is being used in a commercial setting or application; this warranty is intended solely for the non-commercial, household use of the Product by consumers in their home or residence. If you intend to or already use this Product for commercial purposes or in a commercial setting, there are warranties available to cover your use of this Product, the terms of which may vary. Please contact 1-888-GO-SHARP for further information.

In order to enforce your rights under this limited warranty, you should follow the steps set forth below. You must be able to provide proof of purchase to the service provider. This proof must include the date of purchase.

To the extent permitted by applicable state law, the warranties set forth are in lieu of, and exclusive of, all other warranties, express or implied. Specifically ALL OTHER WARRANTIES OTHER THAN THOSE SET FORTH ABOVE ARE EXCLUDED, ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR USE, AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED TO THE PERIOD(S) FROM THE DATE OF PURCHASE SET FORTH BELOW. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

This warranty gives the exclusive remedy for this Product.

THIS LIMITED WARRANTY IS VOID ONLY IN THE FIFTY (50) UNITED STATES, THE DISTRICT OF COLUMBIA AND PUERTO RICO.

Model Specific Section

Your Product Model Number & Description: LC-C4670UN/LC-C5270UN LCD Color Television

Warranty Period for this Product: One (1) year parts and labor from the date of purchase.

Additional Exclusions from Warranty Coverage:

This warranty does not apply to any appearance items of the Product.

Where to Obtain Service:

From a Sharp Authorized Servicer located in the United States. To find the location of the nearest Sharp Authorized Servicer, please call Sharp toll free at 1-800-BE-SHARP.

What to do to Obtain Service:

Contact your Sharp Authorized Servicer to obtain in home service for this product. The Servicer will come to your location and if necessary remove the unit for repair at the Servicer's facility and return the set to you once completed. Be sure to have Proof of Purchase available.
