SUPPLIED ACCESSORIES
Make sure the following accessories are provided with the product.

Remote control unit (x 1)  Page 8
“AA” size battery (x 2)  Page 9
AC cord (x 1)  Page 8
Cable clamp (x 1)  Page 8
Stand unit (x 1)  Page 7
Operation manual (x 2 languages)  Page 7

NOTE

* Always use the AC cord supplied with the TV.

To avoid scratching the frame or screen, please use a soft, lint free cloth for cleaning. Approved cleaning cloths are available directly from Sharp in single (00Z-LCD-CLOTH) or triple (00Z-LCD-CLOTH-3) packs. Call 1-800-BE-SHARP for ordering, or VISIT www.sharpusa.com/SharpDirect.
IMPORTANT:
To aid reporting in case of loss or theft, please record the TV's model and serial numbers in the space provided. The numbers are located at the rear of the TV.

Model No.: 
Serial No.: 

IMPORTANT INFORMATION

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

WARNING: FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment.

CAUTION: This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

DECLARATION OF CONFORMITY:
SHARP LIQUID CRYSTAL TELEVISION, MODEL LC-C4677UN/LC-C5277UN
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RESPONSIBLE PARTY:
SHARP ELECTRONICS CORPORATION
Sharp Plaza, Mahwah, New Jersey 07495-1163
TEL: 1-800-BE-SHARP

IMPORTANT INFORMATION

INFORMATION:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

"Note to CATV system installer: This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical."

This product utilizes tin-lead solder, and fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated due to environmental considerations. For disposal or recycling information, please contact your local authorities, the Electronic Industries Alliance: www.eiae.org, the lamp recycling organization: www.lamprecycle.org or Sharp at 1-800-BE-SHARP (For U.S.A. only)

Trademarks

- Manufactured under license from Dolby Laboratories. "Dolby" and the double-D symbol are trademarks of Dolby Laboratories.

- "HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC."

- Products that have earned the ENERGY STAR* are designed to protect the environment through superior energy efficiency.

- LCフォント、LDFONT、エルシーフォント and LC logo mark are registered trademarks of SHARP Corporation. This product is embedded with LC Font technology, which was developed by SHARP Corporation for clearly displaying easy-to-read characters on LCD screens. However, other fonts are used for some screen pages, too.
Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your Liquid Crystal Television, please read the following precautions carefully before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Additional Safety Information

15) Power Sources—This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.
16) Overloading—Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
17) Object and Liquid Entry—Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
18) Damage Requiring Service—Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
   a) When the AC cord or plug is damaged,
   b) If liquid has been spilled, or objects have fallen into the product,
   c) If the product has been exposed to rain or water,
   d) If the product does not operate normally by following the operating instructions.
   Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.
   e) If the product has been dropped or damaged in any way, and
   f) When the product exhibits a distinct change in performance - this indicates a need for service.
19) Replacement Parts—When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
20) Safety Check—Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.
21) Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.
IMPORTANT SAFETY INSTRUCTIONS

- Outdoor Antenna Grounding — If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE

- Water and Moisture — Do not use this product near water - for example, near a bath tub, wash bowl, kitchen sink, or laundry tub; in a wet basement; or near a swimming pool; and the like.

- Stand — Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer's instructions. Use only the mounting hardware recommended by the manufacturer.

- Selecting the location — Select a place with no direct sunlight and good ventilation.

- Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer's instructions are followed.

- The Liquid Crystal panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the panel breaks.

- Heat — The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

- The Liquid Crystal panel is a very high technology product with 2,073,600 pixels, giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green or red. Please note that this does not affect the performance of your product.

- Lightning — For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.

- Power Lines — An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

- To prevent fire or shock hazard, do not place the AC cord under the TV set or other heavy items.

- To prevent fire or shock hazard, do not expose this product to dripping or splashing. No objects filled with liquids, such as vases, should be placed on the product.

Precautions when transporting the TV
- When transporting the TV, never carry it by holding or otherwise putting pressure onto the display. Be sure to always carry the TV by two people holding it with two hands — one hand on each side of the TV.
CHILD SAFETY:
It Makes A Difference How and Where You Use Your Flat Panel Display

Congratulations on your purchase! As you enjoy your new product, please keep these safety tips in mind:

THE ISSUE
- The home theater entertainment experience is a growing trend and larger flat panel displays are popular purchases. However, flat panel displays are not always supported on the proper stands or installed according to the manufacturer’s recommendations.
- Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or carts may fall over and cause injury.

THIS MANUFACTURER CARES!
- The consumer electronics industry is committed to making home entertainment enjoyable and safe.

TUNE INTO SAFETY
- One size does NOT fit all. Follow the manufacturer’s recommendations for the safe installation and use of your flat panel display.
- Carefully read and understand all enclosed instructions for proper use of this product.
- Don’t allow children to climb on or play with furniture and television sets.
- Don’t place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.
- Remember that children can become excited while watching a program, especially on a “larger than life” flat panel display. Care should be taken to place or install the display where it cannot be pushed, pulled over, or knocked down.
- Care should be taken to route all cords and cables connected to the flat panel display so that they cannot be pulled or grabbed by curious children.

WALL MOUNTING: IF YOU DECIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:
- Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL, CSA, ETL).
- Follow all instructions supplied by the display and wall mount manufacturers.
- If you have any doubts about your ability to safely install your flat panel display, contact your retailer about professional installation.
- Make sure that the wall where you are mounting the display is appropriate. Some wall mounts are not designed to be mounted to walls with steel studs or old cinder block construction. If you are unsure, contact a professional installer.
- A minimum of two people are required for installation. Flat panel displays can be heavy.

Note: CEA is the preeminent trade association promoting growth in the $161 billion U.S. consumer electronics industry. More than 2,000 companies enjoy the benefits of CEA membership, including legislative advocacy, market research, technical training and education, industry promotion and the fostering of business and strategic relationships.
**QUICK REFERENCE**

**Attaching/Detaching the Stand**
- Before attaching (or detaching) the stand, unplug the AC cord from the AC INPUT terminal.
- Before performing work, spread cushioning over the base area to lay the TV on. This will prevent it from being damaged.

**CAUTION**
- Attach the stand in the correct direction.
- Do not remove the stand from the TV unless using an optional wall mount bracket to mount it.
- Be sure to follow the instructions. Incorrect installation of the stand may result in the TV falling over.

1. Confirm that there are 8 screws (4 short screws and 4 long screws) and a hex key supplied with the stand unit.

2. Attach the supporting post for the stand unit onto the base using the box for the stand unit as shown below. The supporting post attaches to the base at an off-centered location on the base. Be sure to attach the supporting post in the direction indicated below and attach the stand to the TV with the wider side of the base facing forward.

3. ① Insert the stand into the openings on the bottom of the TV.
   ② Insert and tighten the 4 short screws into the 4 holes on the rear of the TV.

**Setting the TV on the Wall**

- **CAUTION**
  - This TV should be mounted on the wall only with the AN-52AG4 (SHARP) wall mount bracket. The use of other wall mount brackets may result in an unstable installation and may cause serious injuries.
  - Installing the TV requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.

**Using an optional bracket to mount the TV**
- You can ask a qualified service professional about using an optional AN-52AG4 bracket to mount the TV to the wall.
- Carefully read the instructions that come with the bracket before beginning work.

**Hanging on the wall**

AN-52AG4 wall mount bracket.
(See the bracket instructions for details.)

**About setting the TV angle**

**LC-C4677UN**
- The "b" position is at the center of the display.

**LC-C5277UN**
- The center of the display:
  - 7/8" (7.3 mm) under the "f" position.

Refer to the operation manual of AN-52AG4 for details.

**NOTE**
- Detach the cable clamp on the rear of the TV when using the optional mount bracket.
- To use this TV mounted on a wall, remove the covers at the 4 locations on the rear of the TV, and then use the screws supplied with the wall mount bracket to secure the bracket to the rear of the TV.

To detach the stand, perform the steps in reverse order.
QUICK INSTALLATION TIPS

1. Attach your antenna to the back of the television. (See page 9.)
2. Connect the AC plug for the television into the AC outlet.

- Place the TV close to the AC outlet, and keep the power plug within reach.

NOTE
- TO PREVENT RISK OF ELECTRIC SHOCK, DO NOT TOUCH UN-INSULATED PARTS OF ANY CABLES WITH THE AC CORD CONNECTED.

3. Place the Ferrite core in the space indicated in the below figure and bundle the cords properly with the cable clamp.

4. How to turn on the television for the first time.
   A) Press POWER on the television.
   B) The POWER indicator on the front of the television lights GREEN.

IMPORTANT:
The POWER indicator on the television should light GREEN indicating you have power to the television.
If the POWER indicator on the television still does not light up, press POWER on the remote control to turn the power on.

IMPORTANT:
IF THE UNIT DOES NOT POWER ON - UNPLUG THE TELEVISION FROM THE OUTLET AND REPEAT THE INSTALLATION STEPS.

IF YOU STILL ENCOUNTER NO POWER, PLEASE CONTACT US AT 1-800-BE-SHARP.

QUICK REFERENCE

Attach your antenna to the back of the television. (See page 9.)

Place the Ferrite core in the space indicated in the below figure and bundle the cords properly with the cable clamp.

How to turn on the television for the first time.
A) Press POWER on the television.
B) The POWER indicator on the front of the television lights GREEN.

IMPORTANT:
The POWER indicator on the television should light GREEN indicating you have power to the television.
If the POWER indicator on the television still does not light up, press POWER on the remote control to turn the power on.

IMPORTANT:
IF THE UNIT DOES NOT POWER ON - UNPLUG THE TELEVISION FROM THE OUTLET AND REPEAT THE INSTALLATION STEPS.

IF YOU STILL ENCOUNTER NO POWER, PLEASE CONTACT US AT 1-800-BE-SHARP.

NOTE
- Speakers cannot be detached from the TV.
- The TV can be rotated up to 10 degrees to right and left.
Preparation

Antennas

To enjoy a clearer picture, use an outdoor antenna. The following is a brief explanation of the types of connections that are used for a coaxial cable. If your outdoor antenna uses a 75-ohm coaxial cable with an F-type connector, plug it into the antenna terminal at the rear of the TV set.

1. A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools (Commercially available).
2. A 300-ohm system is a flat “twin-lead” cable that can be attached to a 75-ohm terminal through a 300/75-ohm adapter (Commercially available).

**NOTICE**
F-type connector should be finger-tightened only.
When connecting the RF cable to the TV set, do not tighten F-type connector with tools. If tools are used, it may cause damage to your TV set. (The breaking of internal circuit, etc.)

Connecting Antenna Cable

- Connect the antenna cable to the TV using one of the methods in the illustration as shown (1), (2), (3) or (4).

Installing Batteries in the Remote Control Unit

If the remote control fails to operate TV functions, replace the batteries in the remote control unit.

1. Open the battery cover.
2. Insert two “AA” size batteries (supplied with the product).
3. Close the battery cover.

**CAUTION**
Improper use of batteries can result in chemical leakage or explosion. Be sure to follow the instructions below.
- Do not mix batteries of different types. Different types of batteries have different characteristics.
- Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries or cause chemical leakage in old batteries.
- Remove batteries as soon as they are worn out. Chemicals that leak from batteries that come in contact with skin can cause a rash. If you find any chemical leakage, wipe thoroughly with a cloth.
- The batteries supplied with this product may have a shorter life expectancy due to storage conditions.
- If you will not be using the remote control unit for an extended period of time, remove batteries from it.
### Part Names

#### TV (Front)

- Remote control sensor
- OPC sensor* (See page 18.)
- OPC indicator (See page 18.)
- POWER indicator (See page 12.)

#### TV (Rear/Side)

- AC INPUT terminal
- POWER button
- MENU button
- INPUT button
- Channel buttons (CH / )
- Volume buttons (VOL / )
- INPUT 7 terminal (HDMI)
- INPUT 9 terminal (HDMI)
- INPUT 8 terminal (HDMI)
- INPUT 6 terminal (HDMI)
- INPUT 4 terminal (PC-IN)
- AUDIO terminal (shared for INPUT 4 and INPUT 6) *4
- INPUT 5 terminal (HDMI)
- INPUT 3 terminals
- SERVICE terminal
- INPUT 1 terminals
- INPUT 2 terminals
- RS-232C terminal
- Antenna/Cable in
- AUDIO OUTPUT terminals
- DIGITAL AUDIO OUTPUT terminal

* OPC: Optical Picture Control

---

**NOTE**

- The illustrations in this operation manual are for explanation purposes and may vary slightly from the actual operations.
- The examples used throughout this manual are based on the LC-C5277UN model.

---

*1 See page 11 for external equipment connection.
*2 See page 17 for button operations.
*3 See page 8 for connecting the AC cord.
*4 See page 24 for details on the PC Audio Select function.
Connecting to External Equipment

You can connect many types of external equipment to your TV like a Blu-ray disc player, DVD player, VCR, Digital TV tuner, HDMI equipment, game console or camcorder. To view external source images, select the input source from INPUT on the remote control unit or on the TV. (See page 15.)

**CAUTION**
- To protect equipment, always turn off the TV before connecting any external equipment.
- Please read the relevant operation manual (Blu-ray disc player, etc.) carefully before making connections.

Connecting a Blu-ray disc player, DVD player, Digital TV STB (Air or Cable), VCR, game console or camcorder

- When connecting a PC to the INPUT 6, set “PC Audio Select” to “Input 6 (HDMI)”. (See page 24.)
- The HDMI terminals only support digital signal.
- Refer to page 30 for a list of PC signals compatible with the TV.
Watching TV

Turning On/Off the Power

Press POWER on the TV or on the remote control unit to turn the power on.
- POWER indicator (Green): The TV is on. (After a few seconds, a window appears with sound.)

- Initial setup starts when the TV powers on for the first time. If the TV has been turned on before, the initial setup will not be invoked. For changing the settings of the initial setup, perform EZ setup on the Setup menu on page 20.

Press POWER on the TV or on the remote control unit again to turn the power off.
- The TV enters standby and the image on the screen disappears.
- The POWER indicator on the TV turns off.

- If you are not going to use this TV for a long period of time, be sure to remove the AC cord from the AC outlet.
- Weak electric power is still consumed even when the TV is turned off.

Initial Setup

When you turn on the TV for the first time, it will automatically memorize the broadcasting channels available in the region where you live. Perform the following steps before you press POWER on the remote control unit.

1. Insert the batteries into the remote control unit. (See page 9.)
2. Connect the antenna cable to the TV. (See page 9.)
3. Plug in the AC cord to the AC outlet. (See page 8.)

- ENERGY STAR qualification is based on AV MODE “STANDARD”.

Air/Cable (Antenna setting)
Make sure what kind of connection is made with your TV when selecting “Air” or “Cable”.

1. Press \( \text{c/nd} \) to select “Air” or “Cable”, and then press \( \text{ENTER} \) to enter the setting.

2. When “Air” is selected in Antenna setting:
   - Press \( \text{c/nd} \) to select “Start”, and then press \( \text{ENTER} \).

3. When “Cable” is selected in Antenna setting:
   - Press \( \text{a/b} \) to select “Analog & Digital Search Start” to search both analog and digital broadcasts, or to select “Analog Search Start” to search only analog broadcasts, and then press \( \text{ENTER} \).

- The Channel search will start automatically.
- To exit the Channel search screen, select “Cancel”, and then press \( \text{ENTER} \).

- If no channel is found, confirm the type of connection made with your TV and try EZ Setup again. (See page 20.)

- For changing the settings of the initial setup, perform EZ setup on the Setup menu on page 20.
Direct Button Operation

1. POWER
You can turn on the TV or put it on standby by pressing POWER on the TV or on the remote control unit. (See page 12.)

2. Changing Channels
You can change channels by pressing CH\ or 0–9, \(\text{DOT}\).

Examples:
To select a 1 or 2-digit channel number (e.g., Channel 9):
Press 9 \(\rightarrow\) ENT.
To select a 3-digit channel number (e.g., Channel 115):
Press 1 \(\rightarrow\) 1 \(\rightarrow\) 5 \(\rightarrow\) ENT.
To select a 4-digit channel number (e.g., Channel 22.1):
Press 2 \(\rightarrow\) 2 \(\rightarrow\) \(\text{DOT}\) \(\rightarrow\) 1 \(\rightarrow\) ENT.

\textbf{NOTE:}
- When selecting a 1-digit channel number, it is not necessary to press 0 before the number.
- When you enter 0–9 only, channel selection will be made if there is no operation within a few seconds.
- If you push "0" by itself, nothing will happen.
- Complete the above steps within a few seconds.
- When you enter 0–9 and \(\text{DOT}\), channel selection will be made if there is no operation within a few seconds.

3. FAVORITE CH
You can select 4 preset favorite channels in 4 different categories:
- Press A, B, C or D.
  - While watching the TV, you can toggle the selected channels by pressing A, B, C and D.

\textbf{NOTE:}
- See page 25 for details of favorite channel settings.

4. Changing Volume
You can change the volume by pressing VOL +/- on the TV or on the remote control unit.
- To increase the volume, press VOL +.
- To decrease the volume, press VOL -.

Audio status

<table>
<thead>
<tr>
<th>Output device</th>
<th>Output Select</th>
<th>Fixed</th>
<th>Variable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Speaker</td>
<td>Variable sound (\rightarrow) Mute</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- When "Output Select" is set to "Variable", the indicator on the screen changes as shown below.

\textbf{NOTE:}
- See page 24 for details on the Output Select function.

5. MUTE
Mutes the current sound output.
Press MUTE.
- "M" will be displayed on the screen for 30 minutes, and the sound is silenced.

Within 30 minutes of pressing MUTE, mute can be canceled by pressing VOL +/– or MUTE.
- Mute will be canceled after 30 minutes have passed. However, the TV will not suddenly output a loud sound as the volume level is set to 0 automatically.

6. Sleep Timer
Allows you to set a time when the TV automatically switches to standby.
Press SLEEP.
- The remaining time displays when the sleep timer has been set.
- Each time you press SLEEP, the remaining time switches as shown below.

| Off \(\rightarrow\) 30 \(\rightarrow\) 60 \(\rightarrow\) 90 \(\rightarrow\) 120 |

- When set, the time automatically starts counting down.
- If you want to adjust the sleep timer, you can press SLEEP twice then change the time setting.
- When it is 5 minutes before the time expires, the remaining time will start to keep appearing every minute.

\textbf{NOTE:}
- Select "0" by pressing SLEEP to cancel the sleep timer.
- The TV will enter standby when the remaining time reaches 0.
- When the sleep timer is set, its indicator on the TV lights red.

7. FLASHBACK
Press FLASHBACK to switch to the previously tuned channel.
- Press FLASHBACK again to switch back to the currently tuned channel.

\textbf{NOTE:}
- FLASHBACK will not work if no channel has been changed after the TV is turned on.
AV MODE

AV MODE gives you several viewing options to choose from to best match the surrounding environment of the TV, which can vary due to factors like room brightness, type of program watched or the type of image input from external equipment.

Press AV MODE. Current AV MODE displays.
• Press AV MODE again before the mode displayed on the screen disappears. The mode changes as shown below:

Example:
When the input source is TV, INPUT 1, 2 or 3 terminals
STANDARD MOVIE GAME USER [TV]
DYNAMIC DYNAMIC (Fixed)
Example:
When the input source is INPUT 4, 5, 6, 7, 8 or 9 terminals
STANDARD MOVIE GAME PC
DYNAMIC DYNAMIC (Fixed) USER

STANDARD: For a highly defined image in a normal lighting.
MOVIE: For a movie.
GAME: Lowers image brightness for easier viewing.
PC: For PC.
USER: Allows the user to customize settings as desired.
You can set the mode for each input source.
DYNAMIC (Fixed): Changes the image and sound settings to the factory preset values. No adjustments are allowed.
DYNAMIC: For a clear-cut image emphasizing high contrast, useful for sports viewing.

NOTE
• You can select a different AV MODE item for each input mode. (For example, select STANDARD for TV input and DYNAMIC for INPUT 1.)
• When you play games, "GAME" is recommended for AV MODE.

PC

Allows you to gain quick access to PC mode. Press PC.

Audio

MTS/SAP stereo mode

The TV has a feature that allows reception of sound other than the main audio for the program. This feature is called Multi-channel Television Sound (MTS). The TV with MTS can receive mono sound, stereo sound and Secondary Audio Programs (SAP). The SAP feature allows a TV station to broadcast other information, which could be audio in another language or something completely different like weather information.

You can enjoy Hi-Fi stereo sound or SAP broadcasts where available.
• Stereo broadcasts: View programs like live sporting events, shows and concerts in dynamic stereo sound.
• SAP broadcasts: Receive TV broadcasts in either MAIN or SAP sound. MAIN sound: The normal program soundtrack ( either in mono or stereo). SAP sound: Listen to a second language, supplementary commentary or other information. (SAP is mono sound)
If stereo sound is difficult to hear.
• Obtain a clearer sound by manually switching to fixed mono-sound mode.

You can change MTS as shown below to match the television broadcast signal.

Press AUDIO to toggle between audio modes.

Examples: when receiving MTS and SAP
STEREO mode:
STEREO MONO
STEREO + SAP mode:
ST(SAP) SAP(ST) MONO
MAIN + SAP mode: MAIN SAP MONO mode: MONO

Digital broadcasting audio mode

The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.

Press AUDIO to toggle between audio modes.

Example: when receiving Digital broadcasting
STEREO (Audio1) STEREO (Audio2)
SURROUND (Audio3)

MTS only operates while in TV mode.

Freeze

Allows you to capture and freeze a moving image that you are watching.
Press FREEZE.
• A moving image is captured.
Press FREEZE again to cancel the function.

NOTE
• When this function is not available, “No displaying still image available.” will display.
• The still image automatically goes out after 30 minutes.
• If you are using the freeze function and a broadcast activates the V-CHIP BLOCK, the freeze function will be canceled and a V-CHIP BLOCK message will appear.

Direct Button Operation

AV MODE

Press AV MODE to toggle between audio modes.

Examples: when receiving MTS and SAP
STEREO mode:
STEREO MONO
STEREO + SAP mode:
ST(SAP) SAP(ST) MONO
MAIN + SAP mode: MAIN SAP MONO mode: MONO

Digital broadcasting audio mode

The types of audio transmitted in a digital broadcast include SURROUND as well as MONO and STEREO. In addition, it is possible for multiple audio tracks to accompany a single video track.

Press AUDIO to toggle between audio modes.

Example: when receiving Digital broadcasting
STEREO (Audio1) STEREO (Audio2)
SURROUND (Audio3)
Closed Caption services that appear in parentheses will not be stored in the CC button’s memory as your last selected service. Only services that you have selected with the CC button are stored.

Examples:
In a case where there are two closed caption services provided (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses. A closed caption service appears in parentheses because the service you selected is not available and a different service is displayed on your screen. *1/1(CC1)* is displayed instead of *1/0(ENG).*

NOTE
When “Power Saving” is set to “Standard” or “Advanced”, the Power Saving button still remains on the channel information window. See page 19 for details of Power Saving settings.

See page 25 for detailed closed caption settings.
When the program contains no closed caption, “-” displays in this closed caption information.
If the language code, e.g. “ENG”, is not found on Digital TV programs, “-” will be shown.
Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.

Digital Closed Caption service is a new caption service provided. Each is identified by its own number. The “CC1” and “CC2” services display subtitles of TV programs superimposed over the program’s picture.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The “CC1” and “CC2” services display subtitles of TV programs superimposed over the program’s picture.

In the Closed Caption system, the “Text1” or “Text2” services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The “CC1” and “CC2” services display subtitles of TV programs superimposed over the program’s picture.

Not all programs and VHS videotapes offer closed captions. Please look for the "CC" symbol to ensure that captions will be shown.

In the Closed Caption system, there can be more than one caption service provided. Each is identified by its own number. The “CC1” and “CC2” services display subtitles of TV programs superimposed over the program’s picture.

In the Closed Caption system, the “Text1” or “Text2” services display text that is unrelated to the program being viewed (e.g., weather or news). These services are also superimposed over the program currently being viewed.

This will present the Closed Caption information display.
1 Press CC.
2 Press CC while the Closed Caption Information is still on the screen.
3 Press repeatedly until you select the desired closed caption service.

Depending on the number of caption services in the signal being received, you will see information such as 1/2 or 1/4 displayed. 1/2 means “the first of two services”.

Example:
If a program has three services (Digital CC(ENG), CC1 and Text1), the closed caption display will toggle in this sequence:
1/9 ENG 2/3 CC1 3/3 Text1 Off
The CC button keeps a record of the last service selected in its memory.
If the last closed caption mode (e.g. 1/9(ENG)) you selected is not available for the next program, or on another channel, the closed caption service that is available is automatically selected, and this service appears in parentheses, e.g. *1/3(CC1)*.
Closed caption services that appear in parentheses will not be stored in the CC button’s memory as your last selected service. Only services that you have selected with the CC button are stored.

Examples:
In a case where there are two closed caption services provided (for instance, Digital CC(ENG) and CC1), and Digital CC(ENG) is displayed as your current selection, if Digital CC(ENG) is not broadcast for the next program, the other closed caption service, CC1, will be displayed in parentheses. A closed caption service appears in parentheses because the service you selected is not available and a different service is displayed on your screen. *1/1(CC1)* is displayed instead of *1/0(ENG).*

NOTE
When “Power Saving” is set to “Standard” or “Advanced”, the Power Saving button still remains on the channel information window. See page 19 for details of Power Saving settings.

See page 25 for detailed closed caption settings.
When the program contains no closed caption, “-” displays in this closed caption information.
If the language code, e.g. “ENG”, is not found on Digital TV programs, “-” will be shown.
Four kinds of closed caption service (CC1, CC2, Text1, Text2) are potentially available, but a broadcast may contain none or only some of these services at the discretion of the program provider.
Direct Button Operation

16

VIEW MODE
You can select the screen size.

1. Press VIEW MODE.
   • The View Mode menu displays.
   • The menu lists the View Mode options selectable for the type of video signal currently being received.
2. Press VIEW MODE or ▲▼ while the View Mode menu is displayed to select a desired item on the menu.
   • You can sequentially select a View Mode that has its own aspect ratio.

For 4:3 programs
Example: Screen size images

<table>
<thead>
<tr>
<th>Side Bar</th>
<th>S.Stretch (Smart stretch)</th>
<th>Zoom</th>
<th>Stretch</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Suitable for viewing conventional 4:3 programs in their normal format.</td>
<td>Suitable for stretching 4:3 programs to fill the screen.</td>
<td>Suitable for viewing widescreen 2.35:1 anamorphic DVDs in full screen.</td>
</tr>
</tbody>
</table>

■ For HD programs
Example: Screen size images

- For Dot by Dot (1080i/p only): Detects the resolution of the signal and displays an image with the same number of pixels on the screen.
- For Full Screen (720p only): You can select “Full Screen” only when receiving a 720p signal.
- Dot by Dot: Detects the resolution of the signal and displays an image with the same number of pixels on the screen.

■ For PC input mode

Example: Screen size images

- Normal: Keeps the original aspect ratio in a full screen display.
- Zoom: For viewing widescreen programs. The top and bottom of the image is cropped.
- Stretch: An image fully fills the screen.
- Dot by Dot: Detects the resolution of the signal and displays an image with the same number of pixels on the screen.

- For resetting all Picture adjustment items to the factory preset values, press a b to select “Reset”, press ENTER, press a b to select “Yes”, and then press ENTER.

OPC Setting
Automatically adjusts the brightness of the screen.
Off: The brightness is fixed at the value set in “Backlight”.
On: Automatically adjusts.
On: Display: Displays the OPC effect on the screen while adjusting the brightness of the screen.

Note
- When set to “Off”, the Optic Picture Control (OPC) senses the surrounding light and automatically adjusts the backlight brightness. Make sure nothing obstructs the OPC sensor, which could affect its ability to sense surrounding light.
- When set to “On”, OPC displays on the screen while the OPC adjusts the screen brightness.
- When set to “On” or “On: Display”, the OPC indicator on the TV lights green.

Advanced Picture Setting
This TV provides various advanced functions for optimizing the picture quality.

C.M.S. (Color Management System)
Color tone is managed using the six-color adjustment setting.
C.M.S.-Hue: This is a standard to adjust the color either more reddish or more bluish in tone.
C.M.S.-Saturation: Increases or decreases the saturation of a selected color.
C.M.S.-Value: A higher value makes the image brighter. A lower value makes the image darker.

Note
- For resetting all adjustment items to the factory preset values, press a b to select “Reset”, then press ENTER.

Color Temp. (Color Temperature)
For a better white balance, use color temperature correction.
High: White with bluish tone
Mid-High: White with reddish tone
Mid-Low: White
Low: White

White balance can be adjusted between a maximum of +30 and a minimum of –30 for each color temperature.
R Gain: –30 through +30
G Gain: –30 through +30
B Gain: –30 through +30

Note
- For resetting all adjustment items to the factory preset values, press a b to select “Reset”, and then press ENTER.

Fine Motion Enhanced
Use Fine Motion Enhanced to view fast-action video more clearly.
On: For obtaining a clearer image.
Off: Normal image.

Film Mode (3:2 pull-down)
Automatically detects a film-based source (originally encoded at 24 frames/second), analyzes it then recreates each still film frame for high-definition picture quality.
Standard: Detects, analyzes, converts film source.
On: Normal viewing mode.

Note
- “Standard” does not function when channel display shows an input signal resolution of 480p, 720p or 1080p.
- “Film Mode” does not function when you set the “AV Mode” to “Game”.
- “Film Mode” is not available during PC format input.
**Digital Noise Reduction**

Produces a clearer video image.

- **Off:** No adjustment
- **High/Middle/Low:** Select a desired level for viewing a clearer video image.

**Note:** "Digital Noise Reduction" is not available during PC format input.

**3D-Y/C**

Provides high quality images with minimal dot crawl and cross color noise.

- **Slow:** For still images.
- **Standard:** Normal adjustment.
- **Fast:** For moving images.

**Note:** "3D-Y/C" is available for input signal from Composite Video and analog broadcasts (air and cable).

**Monochrome**

For viewing a video in monochrome.

- **On:** For viewing in monochrome.
- **Off:** Normal color.

**Range of OPC**

The brightness level range of the OPC sensor’s automatic adjustments can be set according to your preferences.

The adjustment range of the OPC sensor can be set to a maximum of +16 and a minimum of –16.

**Max.:** –15 through +16

**Min.:** –16 through +15

**Note:**
- The range of OPC settings is active only when the OPC is set to “On”.
- The maximum setting cannot be set to a smaller number than the minimum setting.
- Depending on the brightness of the surrounding light, the OPC sensor might not operate if the adjustment range is small.

**Audio Menu**

You can adjust the sound quality to your preference with the following settings.

<table>
<thead>
<tr>
<th>Selected Item</th>
<th>❯ button</th>
<th>❮ button</th>
</tr>
</thead>
<tbody>
<tr>
<td>Treble</td>
<td>For weaker treble</td>
<td>For stronger treble</td>
</tr>
<tr>
<td>Bass</td>
<td>For weaker bass</td>
<td>For stronger bass</td>
</tr>
<tr>
<td>Balance</td>
<td>Decrease audio from the right speaker</td>
<td>Decrease audio from the left speaker</td>
</tr>
</tbody>
</table>

**Note:**
- Audio menu is grayed out when Output Select is set to “Variable”. (See page 24.)
- For resetting all Audio adjustment items to the factory preset values, press ❯ to select “Reset”, press ENTER, press ❮ to select “Yes”, and then press ENTER.

**Power Control Menu**

Power control setting allows you to save energy.

**Power Saving**

This function allows you to set the Power Saving level in order to decrease the power consumption and increase the backlight lifespan.

- **Standard:** Optimizes power reduction based upon video content. When set to "Standard", "appears on the screen.
- **Advanced:** Optimizes power reduction based upon video content and engages OPC. When set to "Advanced", "appears on the screen.

**Note:**
- "Power Saving" does not function when you set "AV MODE" to "DYNAMIC (Fixed)."
- You cannot select a different Power Saving item for each AV MODE.
- When "Power Saving" is set, the "OPC" settings for all AV Modes will automatically change.
  - If you set "OPC" to "On" when "Power Saving" is set to "Standard", then the "Power Saving" setting will change to "Advanced".
  - When you change the "Power Saving" setting from "Advanced" to "Off" or to "Standard", "OPC" will be set to "Off".
  - "DYNAMIC (Fixed)" will remain set to "Off."
- When "Power Saving" is set to "Standard" or "Advanced", the Power Saving leaf icon appears to the left of "OPC" in the Picture menu screen.

**No Signal Off**

When set to "Enable", the power will automatically shut down if there is no signal for 15 minutes.

**Note:**
- When it is 5 minutes before the power shuts down, the remaining time will start to keep appearing every minute.
- "Disable" is the factory preset value.
- When a TV program finishes, this function may not operate.
**CH Setup**

If initial setup does not memorize all the channels in your region, follow the instructions below to manually memorize the channels.

- **Air/Cable**: Make sure what kind of connection is made with your TV when selecting "Air" or "Cable".
- **CH Search**: Channel auto search makes the TV look for all channels viewable in the set area.
- **CH Memory**: You can select the channels to skip in each ANALOG (Air), ANALOG (Cable), DIGITAL (Air) and DIGITAL (Cable).
  - **On**: Skips channels. (Channel selection disabled using CH /.
  - **Off**: Does not skip channels. (Channel selection enabled using CH /.

**Remove Scrambled CH**: This function makes the TV look for and then delete digital cable channels that are scrambled and so unavailable in the set area.

- **Yes**: Starts to remove scrambled channels.
- **No**: This function does not work.

See "Initial Setup" on page 12 for setting each item. If no channel is found, confirm the type of connection made with your TV and try channel search again. If you select "Analog Search Start" and initiate the channel search, the CH Memory for Cable Digital will be deleted.

**Antenna Setup - DIGITAL**

In order to receive digital air broadcasts, you need a digital broadcast antenna. You can confirm the antenna configuration through the "Antenna Setup - DIGITAL" screen. If necessary, adjust the direction of the antenna to obtain the maximum signal strength.

- **Signal Strength**: The signal strength of DIGITAL channel is displayed. The signal information is based on the current channel.
- **Channel Strength**: Input the 2-digit channel number to check the signal strength of the selected channel. Make sure the signal is strong enough for each channel. This function is available for DIGITAL (Air) only.

**Input Skip**

This setting allows you to skip the HDMI or PC-IN input. (Input 4 (HDMI), Input 6 (HDMI), Input 7 (HDMI) and "Input 9 (HDMI)"") on the Input Selection operation.

- **Yes**: Skips the input.
- **No**: Does not skip input.

**Input Label**

Lets you set the input terminal displayed when using the INPUT SOURCE menu or channel display. Press ▲▼ to select the new name for the input mode.

- **Note**: You cannot change labels if the INPUT SOURCE is TV.
On-Screen Display Menu

Auto Sync.
(for Analog PC Input Mode Only)

For automatically adjusting the PC image.

Yes: Auto Sync. starts and "Now adjusting the image." displays.
No: This function does not work.

Note
• When Auto Sync. is successful, "Completed" displays. If not, Auto Sync. fails.
• Auto Sync. may fail even if "Completed" displays.
• Auto Sync. may fail if the computer image has low resolution, has unclear (black) edges, or is moved while executing Auto Sync.
• Be sure to connect the PC to the TV and switch it on before starting Auto Sync.

Fine Sync.

Ordinarily you can easily adjust the picture as necessary to change image position using Auto Sync. In some cases, however, manual adjustment is needed to optimize the image.

H-Pos.: Centers the image by moving it to the left or right.
V-Pos.: Centers the image by moving it up or down.
Clock: Adjust when the image flickers with vertical stripes.
Phase: Adjust when characters have low contrast or when the image flickers.

Note
• For resetting all Fine Sync. adjustment items to the factory preset values, press ENTER to select "Reset", and then press ENTER.
• It is not necessary to adjust the "Clock" or "Phase" when a digital signal is being input, so it cannot be selected.
• The default cursor position may not be in the center, because the screen position variable ranges may be asymmetrical.
• The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.

Position

For adjusting a picture’s horizontal and vertical position.

H-Pos.: Centers the image by moving it to the left or right.
V-Pos.: Centers the image by moving it up or down.

Note
• For resetting adjustments to the factory preset values, press ▲▼ to select "Reset", and then press ENTER.
• When connecting a PC to the HDMI terminal, the image position will be automatically adjusted. It cannot be manually adjusted.
• The screen position variable ranges depend on the View Mode or the signal type. The ranges can be seen on the position-setting screen.
• Adjustments are stored separately according to input source.

Reset

If complex adjustments are made and the settings cannot be restored to normal, you can reset the settings to the factory preset values.

1. "Return to the factory preset values" displays on the screen.
   • If you have already set the Secret No., input the 4-digit secret number here.
2. Select "Yes".
   • "Now, TV will restart automatically. OK?" displays on the screen.
3. Select "Yes".
   • "Now initializing..." displays on the screen and blinks.
   After the reset has been completed, the power shuts off and then comes back on. The screen will have returned to its original settings.

Note
• The Channel Setup settings will not be changed.
• The Language settings will not be changed.
• The Secret number settings will not be changed.
• The TV Location Settings will not be changed.

Parental CTRL
(Parental Control Setting)

Secret No.

Allows you to use a secret number to protect certain settings from being accidentally changed.

Important:
Three conditions must be met to enable the V-Chip (see pages 21 to 23):
1. Secret No. is registered.
   • The "V-Chip (DTV Only)" will only be selectable when a new rating system can be downloaded via digital broadcasting in the U.S.
2. V-Chip/V-Chip (DTV Only) settings have been made.
3. "Status" is set to "On".

New Secret No.

You can set and change the secret number by using 0-9.

Input Secret No.: When you change the secret number, enter the old 4-digit secret number here. The cursor moves to "New Secret No."
New Secret No.: When you set the new secret number, enter the new 4-digit secret number here. The cursor moves to "Reconfirm".
Reconfirm: Enter the same 4-digit number you set in "New Secret No."

Secret No. Clear

You can clear your secret number.

Yes: Your secret number is cleared.
No: Your secret number is not cleared.

Note
• As a precautionary measure, make a note of your secret number and keep it in a familiar place.
• If the secret number is cleared, the Status setting automatically sets to "Off". "V-Chip" and "Status" will not be selectable from the menu.
On-Screen Display Menu

**Status**
Used to enable or disable the parental control function. This function will not be selectable from the menu if you do not first configure your secret number.

- **On**: Enables Parental CTRL
- **Off**: Disables Parental CTRL

**V-Chip**
V-CHIP is an electronic filtering device built into your TV. This tool gives parents a great degree of control over broadcasts accessed by their children. It allows parents to select programs judged suitable for child viewing while blocking ones judged not suitable. It does so automatically once you activate the V-CHIP feature in your TV. “V-Chip” and “Status” will not be selectable from the menu if you do not first configure your secret number.

- The U.S. has two rating systems for viewing content: TV Parental Guidelines and movie ratings.
- The TV Parental Guidelines work in conjunction with the V-CHIP to help parents screen out inappropriate television shows from their children.
- Movie ratings are used for original movies rated by the Motion Picture Association of America (MPAA) as watched on cable TV and not edited for television. The V-CHIP can also be set to block MPAA-rated movies.

**NOTE**
- The setting automatically enters “block” for any ratings below your selection.
- If Status is not set to “On”, the configuration settings will not work.

### MPAA (Voluntary movie rating system)

<table>
<thead>
<tr>
<th>Rating</th>
<th>Content</th>
</tr>
</thead>
<tbody>
<tr>
<td>G</td>
<td>General audiences. All ages admitted.</td>
</tr>
<tr>
<td>PG</td>
<td>Parental guidance suggested. Some material may not be suitable for children.</td>
</tr>
<tr>
<td>PG-13</td>
<td>Parents strongly cautioned. Some material may be inappropriate for children under 13.</td>
</tr>
<tr>
<td>R</td>
<td>Restricted. Under 17 requires accompanying parent or adult guardian. (age varies in some jurisdictions).</td>
</tr>
<tr>
<td>NC-17</td>
<td>No one 17 and under admitted.</td>
</tr>
<tr>
<td>X</td>
<td>An older rating that is unified with NC-17 but may be encoded in the data of older movies.</td>
</tr>
</tbody>
</table>

**NOTE**
- Voluntary movie rating system only uses an age-based rating.

### TV Parental Guidelines

Press \[ \text{a}, \text{b} \] to adjust the item to your desired position. "g" indicates the item is blocked. Press \[ \text{MENU} \] to exit.

**Suggested age**
- **TV-Y**: All children.
- **TV-Y7**: Directed to older children.
- **TV-G**: General audience.
- **TV-PG**: Parental Guidance suggested.
- **TV-14**: Parents strongly cautioned.
- **TV-MA**: Mature audience only.

When setting an individual content-based rating item:

1. Press \[ \text{a}, \text{b} \] or \[ \text{ENTER} \] to access blocked content items from the currently selected age-based rating item.
2. Press \[ \text{a}, \text{b} \] to select an individual item, and then press \[ \text{ENTER} \] to unblock it ("g" is removed). Repeat the same steps for the other items.
3. Press \[ \text{c} \] or \[ \text{RETURN} \] to register after all individual content rating items are set.

**Content**
- FV: Fantasy violence.
- V: Violence.
- S: Sexual situation.
- L: Adult language.
- D: Sexually suggestive dialog.

<table>
<thead>
<tr>
<th>Rating</th>
<th>Content</th>
</tr>
</thead>
<tbody>
<tr>
<td>TV-Y</td>
<td>X</td>
</tr>
<tr>
<td>TV-Y7</td>
<td>X, G</td>
</tr>
<tr>
<td>TV-G</td>
<td>X, G</td>
</tr>
<tr>
<td>TV-PG</td>
<td>X, G</td>
</tr>
<tr>
<td>TV-14</td>
<td>X, G</td>
</tr>
<tr>
<td>TV-MA</td>
<td>X, G</td>
</tr>
</tbody>
</table>

**Suggested age**
- C: The content rating can be set, but this rating is not normally broadcast by TV stations.
- X: Content rating can be set.
Canadian Rating Systems (Canadian English ratings and Canadian French ratings)

- The TV rating systems in Canada are based on the Canadian Radio-Television and Telecommunications Commission (CRTC) policy on violence in television programming.
- While violence is the most important content element to be rated, the structure developed takes into consideration other program content like language, nudity, sexuality and mature themes.
- When setting the V-CHIP or the Canadian system you can choose either the Canadian English ratings or the Canadian French ratings.

### Canadian English Ratings

<table>
<thead>
<tr>
<th>Example</th>
<th>MPAA</th>
<th>TV Guidelines</th>
<th>Canadian English Ratings</th>
<th>Canadian French Ratings</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>E</td>
<td>Exempt: Includes news, sports, documentaries and other information programming; talk shows, music videos, and variety programming.</td>
<td>C8+</td>
<td>NONE</td>
</tr>
<tr>
<td></td>
<td>C</td>
<td>Children: Intended for younger children under the age of 8 years. Pays careful attention to themes that could threaten their sense of security and well-being.</td>
<td>C8+</td>
<td>NONE</td>
</tr>
<tr>
<td></td>
<td>G</td>
<td>General: Considered acceptable for all age groups. Contains very little violence, physical, verbal or emotional.</td>
<td>C8+</td>
<td>NONE</td>
</tr>
<tr>
<td></td>
<td>PG</td>
<td>Parental Guidance: Intended for a general audience, but may not be suitable for younger children under 8 years because it could contain controversial themes or issues.</td>
<td>C8+</td>
<td>NONE</td>
</tr>
<tr>
<td></td>
<td>14+</td>
<td>Over 14 years: Could contain themes where violence is one of the dominant elements of the storyline, but it must be integral to the development of plot or character. Language usage could be profane and nudity present within the context of the theme.</td>
<td>C8+</td>
<td>NONE</td>
</tr>
<tr>
<td></td>
<td>18+</td>
<td>Adults: Intended for viewers 18 years and older and might contain depictions of violence, which while related to the development of plot, character or themes, are intended for adult viewing. Could contain graphic language and portrayals of sex and nudity.</td>
<td>18ans+</td>
<td>13ans+</td>
</tr>
</tbody>
</table>

### How to temporarily release the V-CHIP BLOCK

1. Press ENTER while the V-CHIP is working, and then the secret number setting menu displays.
2. Input the 4-digit secret number by using 0–9. At this time V-CHIP BLOCK temporarily releases.

### Reactivating the temporarily released V-CHIP BLOCK

You can reactivate the temporarily released V-CHIP BLOCK as shown below.

- Select “Status” setting from the Parental CTRL menu to reactivate BLOCK. (See page 22.)
- Select “V-Chip” setting (“MPAA”, “TV Guidelines”, “Can. English Ratings” or “Can. French Ratings”) from the Parental CTRL to reactivate BLOCK. (See pages 22 and 23.)
- Switch off the TV power.

**NOTE**
- Performing any of the three above will activate the V-CHIP BLOCK.
On-Screen Display Menu

Option Menu

Audio Only
When listening to music from a music program, you can turn the screen off and enjoy audio only.

On: Audio is output without screen image.
Off: Both screen images and audio are output.

Note: The screen image will return to normal when a button (except those for audio adjustment, such as VOL, MUTE, AUDIO) is pressed.

Program Title Display
Select the CH display when changing channels for digital broadcasting.

Yes: "Program Info." displays.
No: "Program Info." does not display.

Input Select
If the image does not come in clearly from the external equipment connected to INPUT 1 or INPUT 2, you may need to change the input signal type setting on the "Input Select" menu.

INPUT 1
Select the input signal type from the list below:
Auto/COMPONENT/VIDEO

INPUT 2
Select the input signal type from the list below:
Auto/COMPONENT/S-TERMINAL

Note: If the selected signal type is incorrect, images are not displayed at all or are displayed without any color.
- Refer to your external equipment operation manual for the signal type.
- If you set INPUT 1 or 2 to Auto, the TV will automatically select the input signal.
- Setting INPUT 1 or 2 signal selection to "Auto" when other equipment is connected will result in the following connection priority.
  INPUT 1:
  1 COMPONENT VIDEO
  2 VIDEO

Note: When connecting an HDMI-DVI conversion adapter/cable to the HDMI terminal, the image may not come in clearly.

PC Audio Select
Determines whether the AUDIO terminal is used for INPUT 4 (PC-IN) or INPUT 6 (HDMI).

Input 4 (PC): Select this item when the audio signal is input via the INPUT 4 PC-IN terminal using an analog RGB cable.
Input 6 (HDMI): Select this item when the audio signal is input via the INPUT 6 HDMI terminal using an HDMI-DVI conversion cable.

Note: When "PC Audio Select" is set to "Input 6 HDMI", sound will not be produced if you use only an HDMI-certified cable to connect HDMI-compatible equipment. To produce sound, you should make an analog audio connection.
- If you want to connect HDMI-compatible equipment using only an HDMI-certified cable, set "PC Audio Select" to "Input 4 (PC)".

Output Select
Allows you to select what controls the audio output.

Fixed: Sound via speaker is adjusted with VOL+/- on the remote control unit or VOL+/- on the TV.
Sound via the AUDIO OUTPUT terminal is not adjustable and outputs at a consistent level.

Variable: Sound via the AUDIO OUTPUT terminals is adjusted with VOL+/- on the remote control unit or VOL+/- on the TV.
Sound via speaker is muted.

Color System
Select the video signal system compatible with your equipment from the list below:
Auto/NTSC/PAL-M/PAL-N

Note: "Color System" can only be set for the INPUT 1 VIDEO, INPUT 2 S-VIDEO and INPUT 3 VIDEO.
- If you have already set the Secret No., input the 4-digit secret number here. See page 21 for setting a secret number.

Game Play Time
This function displays the elapsed game time so you do not lose track of the time. To display the elapsed time, select "GAME" for the AV MODE before starting the game.

On: The elapsed time is displayed every 30 minutes when you switch to GAME mode in external input mode.
Off: No adjustment.

Operation Lock Out
This function locks the operation buttons on the TV and the remote control.

Off: No adjustment.
RC Control Lock: All buttons on the remote control are locked.
Button Control Lock: All buttons on the TV, except POWER, are locked.

Note: To unlock the buttons on the remote control, press MENU on the TV, and then select "Off" on the MENU screen.
- To unlock the buttons on the TV, press MENU on the remote control, and then select "Off" on the MENU screen.
Caption Setup
This function allows you to adjust the closed caption screen appearance to suit your preference. You can adjust 7 items: "Caption Size", "Font Style", "Foreground Color", "Foreground Opacity", "Background Color", "Background Opacity" and "Character Edge".
Example:
Selectable items available for "Font Style".
Default: The font specified by broadcasting station or default font.
Type 0: Proportional font used in the MENU screen.
Type 1: Monospaced with serifs.
Type 2: Proportionally spaced with serifs.
Type 3: Monospaced without serifs.
Type 4: Casual font type.
Type 5: Casual font type.
Type 6: Cursive font type.
Type 7: Small capitals.

Digital Caption Info.
This function allows viewing of digital closed caption information for the digital broadcast program being viewed.

Favorite CH
This function allows you to program 4 favorite channels, in 4 different categories. By setting the favorite channels in advance, you can select your favorite channels easily.

To register your favorite channel:
Select "Register" and then press ENTER. Press ▲▼ ◄► to select the position in the category, and then press ENTER to register.

To delete your favorite channel:
Select "1 Data Clear" and then press ENTER. Press ▲▼ ◄► to select the channel you want to delete, and then press ENTER. Select "Yes" and then press ENTER. To delete all the favorite channels, select "All Data Clear".

NOTE:
- Before setting the channel, select the channel you want to register as a favorite channel.

Demo Mode
You can select the image from several types of demo mode.
120Hz Demo 1/120Hz Demo 2/10 bit Demo/Feature Demo/Auto Play
If you select "Auto Play", you need to set playback type. Continuous: Play Demos continuously.
10 min: Play Demos every 10 minutes.
20 min: Play Demos every 20 minutes.

NOTE:
- This function will be canceled when you press EXIT on the remote control unit.
- When "Demo Mode" is set to "Feature Demo", pressing FREEZE pauses/restarts demo.
- "Demo Mode" may not be selected depending on input signal type.
- "Demo Mode" may be automatically canceled depending on input signal type.

Digital Setup
This setting allows you to optimize the settings of Digital broadcasting.

Audio Setup
You can output digital audio to an AV amplifier or similar device whose DIGITAL AUDIO INPUT terminal is connected to the DIGITAL AUDIO OUTPUT terminal on the TV. Please select an audio output format compatible with the audio format of the program you are watching and the equipment connected.

PCM: The optical output terminal outputs audio signal in PCM form. If your digital audio system does not support Dolby Digital, select "PCM".
Dolby Digital: The optical output terminal outputs audio signal in Dolby Digital form. It reproduces sound from surround program of digital.

Identification
The current version of the TV software is displayed.

Software Update
This function allows software updates by inserting a USB memory device with the update file into the SERVICE terminal on the TV.

CAUTION
- Do not remove the USB memory device or unplug the AC cord while the software is being updated.
- Be sure to properly follow the whole procedure described below, step by step. Otherwise, for example, the TV cannot read the data in the USB memory device and software updating will fail.

1 Insert the USB memory device with the update file into the SERVICE terminal on the TV.
2 Press MENU to display the MENU screen, and then press ◄► to select "Digital Setup".
On-Screen Display Menu

3 Press ▼ to select “Software Update”, and then press ENTER.
4 Input the 4-digit secret number by using 0–9.
5 Press ENTER to start checking the data in the USB memory device.

Insert the USB memory device containing the software update file.

Now checking the data in the USB memory device.

The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select “Yes”, and then press ENTER.

Example

Current Version: UXXXXXX1
Update Version: UXXXXXX2
Yes
No

If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed.

Check the file on the USB memory device, and then reinsert the USB memory device correctly.

Software update file is detected in the USB memory device.
Start update?

Yes
No

If the update has failed, check the file in the USB memory device and retry Software Update again.

9 After the screen shown below is displayed, press ENTER.

System software was successfully updated.
Remove the USB memory device.

Press ENTER to start updating.

The screen becomes dark for a while until the update screen can be displayed. Please wait for the update screen to appear. Do not unplug the AC cord.

Warning

Do not remove the USB memory device or unplug the AC cord while the software is being updated.

8 When the software is successfully updated, a screen is displayed indicating that the update process is completed.
After this screen is displayed, the TV automatically turns off and then turns on again.

Example

Software update is complete.
Update Version: UXXXXXX2

If the update has failed, check the file in the USB memory device and try Software Update again.

Failed to complete update.
Retry Software Update.
If system Update fails again, contact the customer service center.

10 Remove the USB memory device.

Press a/b to select “Software Update”, and then press ENTER.

If you have already set the Secret No., go to step 4.

Press a/b to select “Software Update”, and then press ENTER.

Insert the USB memory device containing the software update file.

Now checking the data in the USB memory device.

Checking

The screen becomes dark for a while until the update screen can be displayed. Please wait for the update screen to appear. Do not unplug the AC cord.

Warning

Do not remove the USB memory device or unplug the AC cord while the software is being updated.

8 When the software is successfully updated, a screen is displayed indicating that the update process is completed.
After this screen is displayed, the TV automatically turns off and then turns on again.

Example

Software update is complete.
Update Version: UXXXXXX2

If the update has failed, check the file in the USB memory device and try Software Update again.

Failed to complete update.
Retry Software Update.
If system Update fails again, contact the customer service center.

9 After the screen shown below is displayed, press ENTER.

System software was successfully updated.
Remove the USB memory device.

Press a/b to select “Software Update”, and then press ENTER.

Insert the USB memory device containing the software update file.

Now checking the data in the USB memory device.

Checking

The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select “Yes”, and then press ENTER.

Example

Current Version: UXXXXXX1
Update Version: UXXXXXX2
Yes
No

If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed.

Check the file on the USB memory device, and then reinsert the USB memory device correctly.

Software update file is detected in the USB memory device.
Start update?

Yes
No

If the update has failed, check the file in the USB memory device and retry Software Update again.

Failed to complete update.
Retry Software Update.
If system Update fails again, contact the customer service center.

9 After the screen shown below is displayed, press ENTER.

System software was successfully updated.
Remove the USB memory device.

Press a/b to select “Software Update”, and then press ENTER.

Insert the USB memory device containing the software update file.

Now checking the data in the USB memory device.

Checking

The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select “Yes”, and then press ENTER.

Example

Current Version: UXXXXXX1
Update Version: UXXXXXX2
Yes
No

If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed.

Check the file on the USB memory device, and then reinsert the USB memory device correctly.

Software update file is detected in the USB memory device.
Start update?

Yes
No

If the update has failed, check the file in the USB memory device and retry Software Update again.

Failed to complete update.
Retry Software Update.
If system Update fails again, contact the customer service center.

9 After the screen shown below is displayed, press ENTER.

System software was successfully updated.
Remove the USB memory device.

Press a/b to select “Software Update”, and then press ENTER.

Insert the USB memory device containing the software update file.

Now checking the data in the USB memory device.

Checking

The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select “Yes”, and then press ENTER.

Example

Current Version: UXXXXXX1
Update Version: UXXXXXX2
Yes
No

If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed.

Check the file on the USB memory device, and then reinsert the USB memory device correctly.

Software update file is detected in the USB memory device.
Start update?

Yes
No

If the update has failed, check the file in the USB memory device and retry Software Update again.

Failed to complete update.
Retry Software Update.
If system Update fails again, contact the customer service center.

9 After the screen shown below is displayed, press ENTER.

System software was successfully updated.
Remove the USB memory device.

Press a/b to select “Software Update”, and then press ENTER.

Insert the USB memory device containing the software update file.

Now checking the data in the USB memory device.

Checking

The current version of the TV software and the version of the update file on the USB memory device are displayed. To update the TV software with the update file, select “Yes”, and then press ENTER.

Example

Current Version: UXXXXXX1
Update Version: UXXXXXX2
Yes
No

If the USB memory device is not properly installed or the correct update file cannot be found on the USB memory device, an error message is displayed.

Check the file on the USB memory device, and then reinsert the USB memory device correctly.

Software update file is detected in the USB memory device.
Start update?

Yes
No

If the update has failed, check the file in the USB memory device and retry Software Update again.

Failed to complete update.
Retry Software Update.
If system Update fails again, contact the customer service center.

9 After the screen shown below is displayed, press ENTER.

System software was successfully updated.
Remove the USB memory device.
## Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Solution</th>
</tr>
</thead>
</table>
| No power | • Check if you pressed POWER on the remote control unit. (See page 12.) If the indicator on the TV does not light up, press POWER on the TV.  
• Is the AC cord disconnected? (See page 8.)  
• Has the power been turned on? (See page 12.) |
| Unit cannot be operated. | • External influences such as lightning, static electricity, may cause improper operation. In this case, operate the unit after first turning off the power of the TV or unplugging the AC cord and replugging it in after 1 or 2 minutes.  
• Remote control unit does not operate.  
• Are batteries inserted with polarity (+, −) aligned? (See page 9.)  
• Are batteries worn out? (Replace with new batteries.)  
• Are you using it under strong or fluorescent lighting?  
• Is a fluorescent light illuminated near the remote control sensor? |
| Picture is cut off/with sidebar screen. | • Is the image position correct? (See page 21.)  
• Are screen mode adjustments such as picture size made correctly? (See page 16.) |
| Strange color, light color, or color misalignment | • Adjust the picture tone. (See pages 18 and 19.)  
• Is the room too bright? The picture may look dark in a room that is too bright. |
| Power is suddenly turned off. | • Is the sleep timer set? (See page 13.)  
• Check the power control settings. (See page 19.)  
• The unit’s internal temperature has increased. Remove any objects blocking vent or clean. |
| No picture | • Is connection to other components correct? (See page 11.)  
• Is correct input signal source selected after connection? (See page 24.)  
• Is the correct input selected? (See page 24.)  
• Is picture adjustment correct? (See pages 16 and 19.)  
• Is “On” selected in “Audio Only”? (See page 24.)  
• Is a non-compatible signal being input? (See page 30.) |
| No sound | • Is the volume too low? (See page 13.)  
• Is “Variable” selected in “Output Select”? (See page 24.)  
• Have you pressed MUTE on the remote control unit? (See page 13.) |
| The TV sometimes makes a cracking sound. | • This is not a malfunction. This happens when the cabinet slightly expands and contracts according to change in temperature. This does not affect the TV’s performance. |

## Troubleshooting-Digital Broadcasting

The error message about reception of broadcast

<table>
<thead>
<tr>
<th>The example of an error message displayed on a screen</th>
<th>Error code</th>
<th>Possible Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Failed to receive broadcast.</td>
<td>E202</td>
<td>• Check the antenna cable. Check that the antenna is correctly setup.</td>
</tr>
<tr>
<td>No broadcast now.</td>
<td>E203</td>
<td>• Check the broadcast time in the program guide.</td>
</tr>
</tbody>
</table>

## Cautions regarding use in high and low temperature environments

- When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns to normal.
- Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the Liquid Crystal panel to malfunction.

Storage temperature: -4°F to +140°F (-20°C to +60°C)
Appendix

RS-232C Port Specifications

- **PC control of the TV**
  - Attach an RS-232C cable cross-type (commercially available) to the supplied Din/D-Sub RS-232C for the connections.
  - The operation system should be used by a person who is accustomed to using computers.

- **Communication conditions**
  - Set the RS-232C communication settings on the PC to match the TV’s communication conditions.
  - The TV’s communication settings are as follows:
    - Baud rate: 9,600 bps
    - Data length: 8 bits
    - Parity bit: None
    - Stop bit: 1 bit
    - Flow control: None

- **Communication procedure**
  - Send the control commands from the PC via the RS-232C connector.
  - The TV operates according to the received command and sends a response message to the PC.
  - Do not send multiple commands at the same time.
  - Wait until the PC receives the OK response before sending the next command.

- **Command table**
  - Commands not indicated here are not guaranteed to operate.

<table>
<thead>
<tr>

As a precautionary measure, make a note of your secret number above, cut it from this manual, and keep it in a safe place.

The secret number is

CLEARING THE SECRET NUMBER

If you forget the secret number, clear the secret number using the following procedure.

1. Select an item from the list below to display the secret number input screen. (For operating the on-screen display menu, see page 17.)
   - "EZ Setup", "CH Setup", "Parental CTRL" or "Reset" on the Setup menu.
   - "Color System" on the Option menu.
   - "Software Update" on the Digital Setup menu.
2. Press and hold both CH and VOL on the TV simultaneously until the message appears on the screen.

The secret number is

NOTE
- As a precautionary measure, make a note of your secret number above, cut it from this manual, and keep it in a safe place.

For location of the nearest Sharp Authorized Service, or to obtain product literature, accessories, supplies, or customer assistance, please call 1-800-BE-SHARP.

LIMITED WARRANTY

CONSUMER LIMITED WARRANTY

SHARP ELECTRONICS CORPORATION warrants to the first consumer purchaser that this Sharp brand Liquid Crystal Display product (the "Product"), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the periods set forth below.

This warranty does not apply to any appearance items of the Product or if the serial number or model number affixed to the Product has been removed, defaced, changed, altered or tampered with. This warranty does not cover installation or signal reception problems. This limited warranty will not apply if the Product has been or is being used in a commercial setting or application; this warranty is meant solely for the non-commercial, household use of the Product by consumers in their home or residence. If you intend to or already use this Product for commercial purposes or in a commercial setting, there are warranties available to cover your use of this Product, the terms of which may vary. Please contact 1-888-GO-SHARP for further information.

In order to enforce your rights under this limited warranty, you should follow the steps set forth below. You must be able to provide proof of purchase to the servicer, which proof must include the date of purchase.

To the extent permitted by applicable state law, the warranties set forth above are exclusive and in lieu of all other warranties, express, implied or statutory, including, but not limited to the implied warranties of merchantability and fitness for a particular purpose. To the extent applicable law does not permit the exclusion of implied warranties, such warranties are limited in duration to the period(s) set forth above. No warranties, whether express or implied, including, but not limited to the implied warranties of merchantability and fitness for a particular purpose, apply after the applicable period(s) set forth above.

Neither the retailer nor any other person is authorized to change or add to any of the terms of this limited warranty.

Some states do not allow limitations on how long an implied warranty lasts, and some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

THIS LIMITED WARRANTY IS VALID ONLY IN THE FIFTY (50) UNITED STATES, THE DISTRICT OF COLUMBIA AND PUERTO RICO.
